Date June 9, 2025

Summary

MinnesotaCare provides subsidized health care coverage to low-income individuals, including undocumented noncitizens as of January 1, 2025. This bill modifies undocumented noncitizens' eligibility for MinnesotaCare by:

- 1) limiting eligibility to undocumented noncitizens who are 18 years old or older to the number enrolled as of the effective date of H.F. 1; and
- 2) providing that undocumented noncitizens who are 18 years old or older are not eligible for MinnesotaCare beginning January 1, 2026.

MinnesotaCare eligibility for undocumented noncitizens under the age of 18 years is maintained under the bill.
