Subdivision 1. [EMPLOYMENT SUPPORT SERVICES AND PROGRAMS.] The commissioner of economic security, in cooperation with the commissioner of human services, shall ~~develop a detailed plan for establishing~~ operate a statewide system to reimburse providers for employment support services for persons with mental illness. ~~The plan must include the following: (1) protocols for certifying eligible providers; (2) standards for determining client eligibility for the service; (3) a list of reimbursable services with the proposed reimbursement level for each service; and (4) a description of the systems, including necessary computer systems, that will be used by the state agency for payment of reimbursement to eligible providers. (1) services provided are readily accessible to all persons with mental illness so they can make progress toward economic self-sufficiency;

(2) services provided are made an integral part of all treatment and rehabilitation programs for persons with mental illness to ensure that they have the ability and opportunity to consider a variety of work options;

(3) programs help persons with mental illness form long range plans for employment that fit their skills and abilities by ensuring that ongoing support, crisis management, placement, and career planning services are available;

(4) services provided give persons with mental illness the information needed to make informed choices about employment expectations and options, including information on the types of employment available in the local community, the types of employment services available, the impact of employment on eligibility for governmental benefits, and career options;

(5) programs assess whether persons with mental illness being serviced are satisfied with the services and outcomes. Satisfaction assessments shall address at least whether persons like their jobs, whether quality of life is improved, whether potential for advancement exists, and whether there are adequate support services in place;

(6) programs encourage persons with mental illness being served to be involved in employment support services issues by allowing them to participate in the development of individual rehabilitation plans and to serve on boards, committees, task forces, and review bodies that shape employment services policies and that award grants, and by encouraging and helping them to establish and participate in self-help and consumer advocacy groups;

(10) programs participate in ongoing training across agencies and service delivery systems so that providers in human services systems understand their respective roles, rules, and responsibilities and understand the options that exist for providing employment and community support services to persons with mental illness; and

(11) programs work with local communities to expand system capacity to provide access to employment services to all persons with mental illness who want them.
