A quorum was present.

Dawkins, Mahoney and Seagren were excused.

The Chief Clerk proceeded to read the Journal of the preceding day. Sertich moved that further reading of the Journal be suspended and that the Journal be approved as corrected by the Chief Clerk. The motion prevailed.

REPORTS OF STANDING COMMITTEES

Davids from the Committee on Commerce, Jobs and Economic Development to which was referred:

H. F. No. 1580, A bill for an act relating to health; providing for greater flexibility, and simplifying regulation, of health care coverage products; amending Minnesota Statutes 2000, sections 62A.146; 62A.148; 62A.17, subdivisions 2, 5; 62A.20, subdivision 2; 62A.21, subdivision 2a; 62A.65, subdivision 5; 62C.11, subdivisions 2, 3; 62C.142, subdivision 2a; 62D.02, subdivision 8; 62D.08, subdivision 5; 62D.101, subdivision 2a; 62D.12, subdivision 2; 62D.14, subdivisions 1, 4a; 62E.16; 62M.02, subdivision 21; 62N.25, subdivision 7; 62Q.07; 62Q.075; 62Q.185; proposing coding for new law in Minnesota Statutes, chapters 62D; 62Q.

Reported the same back with the following amendments:

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 2000, section 62D.02, subdivision 8, is amended to read:

Subd. 8. [HEALTH MAINTENANCE CONTRACT.] "Health maintenance contract" means any contract whereby a health maintenance organization agrees to provide comprehensive health maintenance services to enrollees, provided that the contract may contain reasonable enrollee ~~copayment~~ cost-sharing provisions. An individual or group health maintenance contract may contain the copayment and deductible provisions specified in this subdivision. Copayment and deductible provisions in group contracts shall not discriminate on the basis of age, sex, race, length of enrollment in the plan, or economic status; and during every open enrollment period in which all offered health benefit plans, including those subject to the jurisdiction of the commissioners of commerce or health, fully participate without any underwriting restrictions, copayment and deductible provisions shall not discriminate on the basis of preexisting health status. ~~In no event shall the sum of the annual copayments and deductible exceed the maximum out-of-pocket expenses allowable for a number three qualified plan under section 62E.06, nor shall that sum exceed \$5,000 per family.~~ The annual deductible must not exceed ~~\$1,000~~ \$5,000 per person or \$10,000 per family. The annual deductible must not apply to preventive health services as described in Minnesota Rules, part 4685.0801, subpart 8. Where sections 62D.01 to 62D.30 permit a health maintenance organization to contain reasonable copayment provisions for preexisting health status, these provisions may vary with respect to length of enrollment in the plan. A health maintenance organization may impose coinsurance, expressed as percentages or flat fee copayments, up to a maximum of 50 percent of the provider amount paid at the time the claim is processed. A health maintenance organization shall provide for an out-of-pocket maximum on enrollee cost-sharing up to \$8,000 per person per year on group health plans and up to \$15,000 per person per year on individual health plans. Any contract may provide for health care services in addition to those set forth in subdivision 7."

Delete the title and insert:

"A bill for an act relating to health; health maintenance organizations; authorizing various cost-sharing provisions in contracts; amending Minnesota Statutes 2000, section 62D.02, subdivision 8."

With the recommendation that when so amended the bill pass.

The report was adopted.

Wolf from the Committee on Regulated Industries to which was referred:

H. F. No. 2574, A bill for an act relating to energy; providing incentives for use of renewable biodiesel fuel; making clarifying changes; amending Minnesota Statutes 2001 Supplement, sections 216B.169, subdivision 1; 216B.1691, subdivision 1; 216C.41, subdivisions 1, 2, 3, 4.

Reported the same back with the following amendments:

Page 1, after line 7, insert:

"Section 1. Minnesota Statutes 2000, section 41A.09, subdivision 3a, is amended to read:

Subd. 3a. [PAYMENTS.] (a) The commissioner of agriculture shall make cash payments to producers of ethanol, anhydrous alcohol, and wet alcohol located in the state. These payments shall apply only to ethanol, anhydrous alcohol, and wet alcohol fermented in the state and produced at plants that have begun production by June 30, 2000. For the purpose of this subdivision, an entity that holds a controlling interest in more than one ethanol plant is considered a single producer. The amount of the payment for each producer's annual production is:

(1) except as provided in paragraph (b), for each gallon of ethanol or anhydrous alcohol produced on or before June 30, 2000, or ten years after the start of production, whichever is later, 20 cents per gallon; and

(2) for each gallon produced of wet alcohol on or before June 30, 2000, or ten years after the start of production, whichever is later, a payment in cents per gallon calculated by the formula "alcohol purity in percent divided by five," and rounded to the nearest cent per gallon, but not less than 11 cents per gallon.

The producer payments for anhydrous alcohol and wet alcohol under this section may be paid to either the original producer of anhydrous alcohol or wet alcohol or the secondary processor, at the option of the original producer, but not to both.

No payments shall be made for production that occurs after June 30, 2010.

(b) If the level of production at an ethanol plant increases due to an increase in the production capacity of the plant, the payment under paragraph (a), clause (1), applies to the additional increment of production until ten years after the increased production began. Once a plant's production capacity reaches 15,000,000 gallons per year, no additional increment will qualify for the payment.

(c) The commissioner shall make payments to producers of ethanol or wet alcohol in the amount of 1.5 cents for each kilowatt hour of electricity generated using closed-loop biomass in a cogeneration facility at an ethanol plant located in the state. Payments under this paragraph shall be made only for electricity generated at cogeneration facilities that begin operation by June 30, ~~2000~~ 2004. The payments apply to electricity generated on or before the date ten years after the producer first qualifies for payment under this paragraph. Total payments under this paragraph in any fiscal year may not exceed \$750,000. For the purposes of this paragraph:

(1) "closed-loop biomass" means any organic material from a plant that is planted for the purpose of being used to generate electricity or for multiple purposes that include being used to generate electricity; and

(2) "cogeneration" means the combined generation of:

(i) electrical or mechanical power; and

(ii) steam or forms of useful energy, such as heat, that are used for industrial, commercial, heating, or cooling purposes.

(d) Payments under paragraphs (a) and (b) to all producers may not exceed \$37,000,000 in a fiscal year. Total payments under paragraphs (a) and (b) to a producer in a fiscal year may not exceed \$3,000,000.

(e) By the last day of October, January, April, and July, each producer shall file a claim for payment for ethanol, anhydrous alcohol, and wet alcohol production during the preceding three calendar months. A producer with more than one plant shall file a separate claim for each plant. A producer that files a claim under this subdivision shall include a statement of the producer's total ethanol, anhydrous alcohol, and wet alcohol production in Minnesota during the quarter covered by the claim, including anhydrous alcohol and wet alcohol produced or received from an outside source. A producer shall file a separate claim for any amount claimed under paragraph (c). For each claim and statement of total ethanol, anhydrous alcohol, and wet alcohol production filed under this subdivision, the volume of ethanol, anhydrous alcohol, and wet alcohol production or amounts of electricity generated using closed-loop biomass must be examined by an independent certified public accountant in accordance with standards established by the American Institute of Certified Public Accountants.

(f) Payments shall be made November 15, February 15, May 15, and August 15. A separate payment shall be made for each claim filed. Except as provided in paragraph (j), the total quarterly payment to a producer under this paragraph, excluding amounts paid under paragraph (c), may not exceed \$750,000.

(g) If the total amount for which all producers are eligible in a quarter under paragraph (c) exceeds the amount available for payments, the commissioner shall make payments in the order in which the plants covered by the claims began generating electricity using closed-loop biomass.

(h) After July 1, 1997, new production capacity is only eligible for payment under this subdivision if the commissioner receives:

- (1) an application for approval of the new production capacity;
- (2) an appropriate letter of long-term financial commitment for construction of the new production capacity; and
- (3) copies of all necessary permits for construction of the new production capacity.

The commissioner may approve new production capacity based on the order in which the applications are received.

(i) The commissioner may not approve any new production capacity after July 1, 1998, except that a producer with an approved production capacity of at least 12,000,000 gallons per year but less than 15,000,000 gallons per year prior to July 1, 1998, is approved for 15,000,000 gallons of production capacity.

(j) Notwithstanding the quarterly payment limits of paragraph (f), the commissioner shall make an additional payment in the eighth quarter of each fiscal biennium to ethanol producers for the lesser of: (1) 20 cents per gallon of production in the eighth quarter of the biennium that is greater than 3,750,000 gallons; or (2) the total amount of payments lost during the first seven quarters of the biennium due to plant outages, repair, or major maintenance. Total payments to an ethanol producer in a fiscal biennium, including any payment under this paragraph, must not exceed the total amount the producer is eligible to receive based on the producer's approved production capacity. The provisions of this paragraph apply only to production losses that occur in quarters beginning after December 31, 1999.

(k) For the purposes of this subdivision "new production capacity" means annual ethanol production capacity that was not allowed under a permit issued by the pollution control agency prior to July 1, 1997, or for which construction did not begin prior to July 1, 1997.

Sec. 2. Minnesota Statutes 2000, section 41A.09, subdivision 5a, is amended to read:

Subd. 5a. [EXPIRATION.] This section expires June 30, 2010, and the unobligated balance of each appropriation under this section on that date reverts to the general fund, except that the provisions for biomass-generated electricity under subdivision 3a, paragraph (c), expire on June 30, 2014."

Page 2, after line 17, insert:

"Sec. 3. Minnesota Statutes 2001 Supplement, section 216B.2411, is amended to read:

216B.2411 [DISTRIBUTED ENERGY RESOURCES.]

Subdivision 1. [NEW RENEWABLE GENERATION.] (a) To the extent that cost-effective projects are available in the service territory of a utility or association providing conservation services under section 216B.241, the utility or association shall use five percent of the total amount to be spent on energy conservation improvements under section 216B.241, on:

(1) projects to construct an electric generating facility that utilizes renewable fuels as defined in section 216B.2422, subdivision 1, such as methane or other combustible gases derived from the processing of plant or animal wastes, biomass fuels such as short-rotation woody or fibrous agricultural crops, or other renewable fuel, as its primary fuel source; or

(2) projects to install a distributed generation facility of ten megawatts or less of interconnected capacity that is fueled by natural gas, renewable fuels, or another similarly clean fuel.

(b) For public utilities, as defined under section 216B.02, subdivision 4, projects under this section must be considered energy conservation improvements as defined in section 216B.241. For cooperative electric associations and municipal utilities, projects under this section must be considered load-management activities described in section 216B.241, subdivision 1, paragraph (i).

(c) The commission may provide an alternative recovery mechanism for the expense of continuing existing approved cost-effective projects by a rate-regulated distribution cooperative electric association.

(d) This ~~section~~ subdivision expires May 30, 2006.

Subd. 2. [CREDIT FOR USE OF BIODIESEL.] An electric utility subject to the provisions of section 216B.241 may credit against the amount the utility is required to spend under that section the difference between:

(1) the annual amount the utility spent per gallon of biodiesel-blended fuel for use in a qualified biodiesel generation facility as defined in section 216C.41, subdivision 1, paragraph (f); and

(2) the average cost of a gallon of diesel fuel in that year, as calculated by the department of commerce.

The utility may take this credit on an annual basis and only to the extent that biodiesel-blended fuel is more expensive than petroleum diesel."

Page 4, after line 3, insert:

"(h) "Qualified crop residue biomass generation facility" means an electric power generation or cogeneration facility located in the state that is designed to use crop residue biomass for not less than 75 percent of its thermal input.

(i) "Crop residue biomass" means vegetative matter that is the by-product of a crop farming operation in the state. Crop residue biomass includes but is not limited to corn stalks and cobs, straw from the harvest of small grains, sunflower stalks and shells, and similar by-products. Crop residue biomass does not include short rotation woody crops as defined in section 41B.048, subdivision 4."
