OFFICE OF THE GOVERNOR  
SAINT PAUL 55155

May 4, 2007

The Honorable Representative Margaret Kelliher  
Speaker of the House of Representatives  
The State of Minnesota

Dear Representative Kelliher:

It is my honor to inform you that I have received, approved, signed, and deposited in the Office of the Secretary of State, Chapter No. 45, H. F. No. 2227, with the exception of line-item vetoes listed below.

I have exercised a line item veto of the following appropriations:

1. Page 6, lines 6.9 - 6.14: A \$1,000,000 appropriation in Chapter No. 45, Article 1, Section 3 for a loan program for equipment used in production of perennial crops. While this new loan program for equipment may have merit in the future, we are only in the early stages of planning for our next generation of bio-fuels. It is difficult to predict future equipment and capital needs of producers of such crops at this point. Many questions remain that should be answered before the state commits to this type of loan program, such as what type of biomass crops or plants will be used and how equipment needs will differ from what is used on already established crops.

Moreover, this is an issue the NextGen Board, established in this bill, should address. The board should make recommendations to the 2008 legislature on the validity of this type of program or other type of bioenergy equipment loan programs.

2. Page 9, lines 9.8 - 9.26: A \$350,000 appropriation in Chapter No. 45, Article 1, Section 3 to the Minnesota Institute for Sustainable Agriculture (MISA) for research on prairie plants and perennials. This appropriation is duplicative of funding included in the Higher Education Omnibus discussions, and similar to funding available in the Environment and Energy Omnibus finance bill. The appropriation also repeats activities supervised by the proposed NextGen Board. Finally, similar activities are already taking place within IREE at the University of Minnesota and many of the other appropriations included in this bill will accomplish the exact research this appropriation is written for.

I would encourage MISA to coordinate their research and funding needs with the overall budget requests of the University and to also consult with the University's Institute of Renewable Energy and the Environment to coordinate research efforts.

Sincerely,

TIM PAWLENTY  
Governor

Sec. 67. Minnesota Statutes 2006, section 282.04, subdivision 1, is amended to read:

Subdivision 1. **Timber sales; land leases and uses.** (a) The county auditor may sell timber upon any tract that may be approved by the natural resources commissioner. The sale of timber shall be made for cash at not less than the appraised value determined by the county board to the highest bidder after not less than one week's published notice in an official paper within the county. Any timber offered at the public sale and not sold may thereafter be sold at private sale by the county auditor at not less than the appraised value thereof, until the time as the county board may withdraw the timber from sale. The appraised value of the timber and the forestry practices to be followed in the cutting of said timber shall be approved by the commissioner of natural resources.

(b) Payment of the full sale price of all timber sold on tax-forfeited lands shall be made in cash at the time of the timber sale, except in the case of oral or sealed bid auction sales, the down payment shall be no less than 15 percent of the appraised value, and the balance shall be paid prior to entry. In the case of auction sales that are partitioned and sold as a single sale with predetermined cutting blocks, the down payment shall be no less than 15 percent of the appraised price of the entire timber sale which may be held until the satisfactory completion of the sale or applied in whole or in part to the final cutting block. The value of each separate block must be paid in full before any cutting may begin in that block. With the permission of the county contract administrator the purchaser may enter unpaid blocks and cut necessary timber incidental to developing logging roads as may be needed to log other blocks provided that no timber may be removed from an unpaid block until separately scaled and paid for. If payment is provided as specified in this paragraph as security under paragraph (a) and no cutting has taken place on the contract, the county auditor may credit the security provided, less any down payment required for an auction sale under this paragraph, to any other contract issued to the contract holder by the county under this chapter to which the contract holder requests in writing that it be credited, provided the request and transfer is made within the same calendar year as the security was received.

(c) The county board may ~~require final settlement on the basis of a scale of cut products~~ sell any timber, including biomass, as appraised or scaled. Any parcels of land from which timber is to be sold by scale of cut products shall be so designated in the published notice of sale under paragraph (a), in which case the notice shall contain a description of the parcels, a statement of the estimated quantity of each species of timber, and the appraised price of each species of timber for 1,000 feet, per cord or per piece, as the case may be. In those cases any bids offered over and above the appraised prices shall be by percentage, the percent bid to be added to the appraised price of each of the different species of timber advertised on the land. The purchaser of timber from the parcels shall pay in cash at the time of sale at the rate bid for all of the timber shown in the notice of sale as estimated to be standing on the land, and in addition shall pay at the same rate for any additional amounts which the final scale shows to have been cut or was available for cutting on the land at the time of sale under the terms of the sale. Where the final scale of cut products shows that less timber was cut or was available for cutting under terms of the sale than was originally paid for, the excess payment shall be refunded from the forfeited tax sale fund upon the claim of the

purchaser, to be audited and allowed by the county board as in case of other claims against the county. No timber, except hardwood pulpwood, may be removed from the parcels of land or other designated landings until scaled by a person or persons designated by the county board and approved by the commissioner of natural resources. Landings other than the parcel of land from which timber is cut may be designated for scaling by the county board by written agreement with the purchaser of the timber. The county board may, by written agreement with the purchaser and with a consumer designated by the purchaser when the timber is sold by the county auditor, and with the approval of the commissioner of natural resources, accept the consumer's scale of cut products delivered at the consumer's landing. No timber shall be removed until fully paid for in cash. Small amounts of timber not exceeding \$3,000 in appraised valuation may be sold for not less than the full appraised value at private sale to individual persons without first publishing notice of sale or calling for bids, provided that in case of a sale involving a total appraised value of more than \$200 the sale shall be made subject to final settlement on the basis of a scale of cut products in the manner above provided and not more than two of the sales, directly or indirectly to any individual shall be in effect at one time.

(d) As directed by the county board, the county auditor may lease tax-forfeited land to individuals, corporations or organized subdivisions of the state at public or private sale, and at the prices and under the terms as the county board may prescribe, for use as cottage and camp sites and for agricultural purposes and for the purpose of taking and removing of hay, stumpage, sand, gravel, clay, rock, marl, and black dirt from the land, and for garden sites and other temporary uses provided that no leases shall be for a period to exceed ten years; provided, further that any leases involving a consideration of more than \$12,000 per year, except to an organized subdivision of the state shall first be offered at public sale in the manner provided herein for sale of timber. Upon the sale of any leased land, it shall remain subject to the lease for not to exceed one year from the beginning of the term of the lease. Any rent paid by the lessee for the portion of the term cut off by the cancellation shall be refunded from the forfeited tax sale fund upon the claim of the lessee, to be audited and allowed by the county board as in case of other claims against the county.

(e) As directed by the county board, the county auditor may lease tax-forfeited land to individuals, corporations, or organized subdivisions of the state at public or private sale, at the prices and under the terms as the county board may prescribe, for the purpose of taking and removing for use for road construction and other purposes tax-forfeited stockpiled iron-bearing material. The county auditor must determine that the material is needed and suitable for use in the construction or maintenance of a road, tailings basin, settling basin, dike, dam, bank fill, or other works on public or private property, and that the use would be in the best interests of the public. No lease shall exceed ten years. The use of a stockpile for these purposes must first be approved by the commissioner of natural resources. The request shall be deemed approved unless the requesting county is notified to the contrary by the commissioner of natural resources within six months after receipt of a request for approval for use of a stockpile. Once use of a stockpile has been approved, the county may continue to lease it for these purposes until approval is withdrawn by the commissioner of natural resources.

(f) The county auditor, with the approval of the county board is authorized to grant permits, licenses, and leases to tax-forfeited lands for the depositing of stripping, lean ores, tailings, or waste products from mines or ore milling plants, upon the conditions and for the consideration and for the period of time, not exceeding 15 years, as the county board may determine. The permits, licenses, or leases are subject to approval by the commissioner of natural resources.

(g) Any person who removes any timber from tax-forfeited land before said timber has been scaled and fully paid for as provided in this subdivision is guilty of a misdemeanor.

(h) The county auditor may, with the approval of the county board, and without first offering at public sale, grant leases, for a term not exceeding 25 years, for the removal of peat and for the production or removal of farm-grown closed-loop biomass as defined in section 216B.2424, subdivision 1, or short-rotation woody crops from tax-forfeited lands upon the terms and conditions as the county board may prescribe. Any lease for the removal of peat,

farm-grown closed-loop biomass, or short-rotation woody crops from tax-forfeited lands must first be reviewed and approved by the commissioner of natural resources if the lease covers 320 or more acres. No lease for the removal of peat, farm-grown closed-loop biomass, or short-rotation woody crops shall be made by the county auditor pursuant to this section without first holding a public hearing on the auditor's intention to lease. One printed notice in a legal newspaper in the county at least ten days before the hearing, and posted notice in the courthouse at least 20 days before the hearing shall be given of the hearing.

(i) Notwithstanding any provision of paragraph (c) to the contrary, the St. Louis County auditor may, at the discretion of the county board, sell timber to the party who bids the highest price for all the several kinds of timber, as provided for sales by the commissioner of natural resources under section 90.14. Bids offered over and above the appraised price need not be applied proportionately to the appraised price of each of the different species of timber.

(j) In lieu of any payment or deposit required in paragraph (b), as directed by the county board and under terms set by the county board, the county auditor may accept an irrevocable bank letter of credit in the amount equal to the amount otherwise determined in paragraph (b). If an irrevocable bank letter of credit is provided under this paragraph, at the written request of the purchaser, the county may periodically allow the bank letter of credit to be reduced by an amount proportionate to the value of timber that has been harvested and for which the county has received payment. The remaining amount of the bank letter of credit after a reduction under this paragraph must not be less than 20 percent of the value of the timber purchased. If an irrevocable bank letter of credit or cash deposit is provided for the down payment required in paragraph (b), and no cutting of timber has taken place on the contract for which a letter of credit has been provided, the county may allow the transfer of the letter of credit to any other contract issued to the contract holder by the county under this chapter to which the contract holder requests in writing that it be credited.

(2) any nonconforming use is destroyed by fire or other peril to the extent of greater than 50 percent of its market value, and no building permit has been applied for within 180 days of when the property is damaged. In this case, a municipality may impose reasonable conditions upon a building permit in order to mitigate any newly created impact on adjacent property.

(b) Any subsequent use or occupancy of the land or premises shall be a conforming use or occupancy. A municipality may, by ordinance, permit an expansion or impose upon nonconformities reasonable regulations to prevent and abate nuisances and to protect the public health, welfare, or safety. This subdivision does not prohibit a municipality from enforcing an ordinance that applies to adults-only bookstores, adults-only theaters, or similar adults-only businesses, as defined by ordinance.

(c) Notwithstanding paragraph (a), a municipality shall regulate the repair, replacement, maintenance, improvement, or expansion of nonconforming uses and structures in floodplain areas to the extent necessary to maintain eligibility in the National Flood Insurance Program and not increase flood damage potential or increase the degree of obstruction to flood flows in the floodway.

(d) A municipality must not make a permit or other approval for use, development, or sale or disposition of a nonconforming lot or parcel of land dependent on the ownership, or the relationship of the buyer to the seller, of the lot or parcel.

(4) designated trails for hiking, horseback riding, biking, and cross-country skiing and necessary trailhead support with minimal impact on the permitted uses in clause (3);

(5) shooting sports facilities for sporting clays, skeet, trapshooting, and rifle and pistol shooting, including sanctioned events and training for responsible handling and use of firearms;

(6) grant-in-aid snowmobile trails; and

(7) leases for small-scale farms to market vegetable farming.

(c) With the concurrence of representatives of the University of Minnesota and Dakota County, the commissioner of natural resources may, by posting or rule, restrict the permitted uses as follows:

(1) temporarily close areas or trails, by posting at the access points, to facilitate hunting. When temporarily closing trails under this clause, the commissioner shall avoid closing all trail loops simultaneously whenever practical; or

(2) limit other permitted uses to accommodate hunting and trapping after providing advance public notice. Research conducted by the university may not be limited unless mutually agreed by the commissioner and the University of Minnesota.

(d) Road maintenance within the wildlife management area shall be minimized, with the intent to abandon interior roads when no longer needed for traditional agriculture purposes.

(e) Money collected on leases from lands within the wildlife management area must be kept in a separate account and spent within the wildlife management area under direction of the representatives listed in paragraph (c). \$200,000 of this money may be transferred to the commissioner of natural resources for a master planning process and resource inventory of the land identified in Minnesota Statutes, section 137.50, subdivision 6, in order to provide needed prairie and wetland restoration. The commissioner must work with affected officials from the University of Minnesota and Dakota County to complete these requirements and inform landowners and lessees about the planning process.

(f) Notwithstanding Minnesota Statutes, sections 97A.061 and 477A.11, the state of Minnesota shall not provide payments in lieu of taxes for the lands described in paragraph (a).

**Sec. 108. CLAIR A. NELSON MEMORIAL FOREST, LAKE COUNTY; TEMPORARY SUSPENSION OF APPORTIONMENT OF PROCEEDS FROM TAX-FORFEITED LANDS.**

(a) Upon approval of an affected political subdivision within Lake County, the Lake County Board may suspend the apportionment of the balance of net proceeds from tax-forfeited lands within the affected political subdivision under Minnesota Statutes, section 282.08, clause (4), item (iii), and retain the net proceeds. The authority under this paragraph is available until Lake County suspends the apportionment of net proceeds subject to item (iii) in the amount of \$2,200,000 plus any interest costs incurred by the county to purchase land described in this section. The money received by Lake County is to reimburse the county for the purchase in 2006 of 6,085 acres of forest land named the Clair A. Nelson Memorial Forest.

(b) Any revenue derived from acquired land that was reimbursed under paragraph (a) is subject to apportionment as provided in Minnesota Statutes, section 282.08.

**EFFECTIVE DATE.** This section is effective retroactively from January 1, 2006.

**Sec. 109. RULE AMENDMENTS.**

The commissioner of natural resources may use the good cause exemption under Minnesota Statutes, section 14.388, subdivision 1, clause (3), to amend rules to conform to sections 60 to 64. Minnesota Statutes, section 14.386, does not apply to the rulemaking under this section except to the extent provided under Minnesota Statutes, section 14.388.

**Sec. 110. LAKE TROUT REPORT.**

By February 1, 2008, the commissioner of natural resources must review and report to the legislative policy committees with jurisdiction over natural resources on the pros and cons of changing the winter lake trout season so that it would be open from the Saturday nearest January 1 to March 31.

**Sec. 111. ACCESS TO MINNESOTA OUTDOORS PLAN.**

Subdivision 1. Walk-in access plan. (a) The commissioner of natural resources shall prepare a plan for a walk-in public access program under which the commissioner may encourage owners and operators of privately held land to voluntarily make that land available for walk-in access by the public for hunting and fishing under programs administered by the commissioner.

(b) As part of the plan, the commissioner shall explore entering into contracts with the owners or lessees of land to establish voluntary walk-in public access for hunting, fishing, or other wildlife-dependent recreational activities.

(c) In the plan, the commissioner must describe:

(1) the costs and benefits that private land access will provide the public, such as hunting, fishing, bird watching, and related outdoor activities; and

(2) the types of game, fish, and wildlife habitat improvements made to the land that will enhance public uses.

(d) The commissioner shall explore the effectiveness and public and private cost of walk-in public access programs in other states and recommend walk-in program options for public access to private lands for hunting, fishing, and related recreational activities.

Subd. 2. **Other law.** Nothing in the plan may preempt trespass and liability laws. Recommendations submitted by the commissioner of natural resources under subdivision 3 shall include any changes to Minnesota Statutes, sections 604A.20 to 604A.27, necessary to ensure that landowners are not exposed to additional liability as a result of the walk-in access program.

Subd. 3. **Report.** The commissioner must present the walk-in public access plan to the house and senate committees with jurisdiction over natural resources policy and finance, with recommendations on program implementation, by January 15, 2008.

**Sec. 112. COCK PHEASANT BAG LIMIT; RULEMAKING.**

The commissioner of natural resources shall amend Minnesota Rules, part 6234.0400, subpart 2, to allow a person to take up to three cock pheasants per day and have 12 in possession after the 16th day of the pheasant season. The commissioner may use the good cause exemption under Minnesota Statutes, section 14.388, subdivision 1, clause (3), to adopt the rule and Minnesota Statutes, section 14.386, does not apply, except as provided under Minnesota Statutes, section 14.388.

**Sec. 113. CROSSBOW DEER SEASON.**

Notwithstanding Minnesota Statutes, section 97B.035, or other law to the contrary, the commissioner of natural resources shall establish an open season for taking deer by crossbow during the regular firearm season each year. Crossbows must meet the requirements of Minnesota Statutes, section 97B.106, subdivision 2. A person taking deer by crossbow must have a crossbow deer hunting license. The fee for a resident crossbow deer hunting license is \$26 and the fee for a nonresident crossbow deer hunting license is \$135. The commissioner may adopt exempt rules regulating the crossbow deer season according to Minnesota Statutes, section 14.386. Notwithstanding Minnesota Statutes, section 14.386, a rule adopted under this section is effective until January 1, 2009.

**EFFECTIVE DATE.** This section is effective the day following final enactment and expires January 1, 2009.

**Sec. 114. CROSSBOW SEASON REPORT.**

By February 1, 2009, the commissioner of natural resources shall submit a report to the chairs of the house and senate committees having jurisdiction over natural resources that includes the number of crossbow deer season licenses issued under section 50 and addresses whether there was an increase in hunting problems during the time a crossbow deer season was permitted.

**Sec. 115. RULE AMENDMENTS.**

The commissioner of natural resources shall amend Minnesota Rules, parts 6262.0100, subpart 5, item D, and 6266.0700, subpart 3, to allow an angler in an icehouse to possess fillets of a fish with size restrictions if the angler is preparing and using the fish for a meal. The commissioner may use the good cause exemption under Minnesota Statutes, section 14.388, subdivision 1, clause (3), to adopt rules according to this section and Minnesota Statutes, section 14.386, does not apply except as provided under Minnesota Statutes, section 14.388.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 116. **REPEALER.**

Minnesota Statutes 2006, sections 85.015, subdivision 11; 97A.475, subdivision 38; and 97C.365; and Laws 2006, chapter 236, article 1, section 2, are repealed.

Sec. 117. **EFFECTIVE DATE.**

Sections 2, 3, 17, 18, 68, 69, and 72 to 106 are effective the day following final enactment.

ARTICLE 2

ENVIRONMENT POLICY

Section 1. Minnesota Statutes 2006, section 103F.205, subdivision 1, is amended to read:

Subdivision 1. **Applicability.** The definitions in this section apply to sections 103F.201 to ~~103F.224~~ 103F.227.

Sec. 2. **[103F.227] SHORELAND DEVELOPMENT; EXISTING RESORTS.**

Subdivision 1. **Applicability.** This section applies statewide and preempts local ordinances that are inconsistent with its terms.

Subd. 2. **Resort defined.** For purposes of this section, "resort" means a shoreland commercial establishment, existing on or before August 1, 2007, that includes buildings, lodges, structures, dwelling units, camping or recreational vehicle sites, or enclosures, or any part thereof kept, used, maintained, or advertised as or held out to the public to be a place where sleeping accommodations are furnished to the public, primarily to those seeking recreation, for periods of one day or longer, and having for rent three or more cabins, rooms, campsites, or enclosures. These establishments must be primarily service oriented for transient lodging of guests. All cabins, rooms, dwelling units, camping or recreational vehicle sites, or enclosures must be included in the resort rental business. Resorts allow no residential use of a dwelling unit or site, except dwellings used as residences for the service providers or dwelling units or sites for renters. To qualify as a resort under this section, a resort must be fully licensed and permitted under appropriate state and local regulations. The entire parcel of land must be controlled and managed by the licensee.

Subd. 3. **Maintenance and replacement.** (a) So long as the establishment continues to operate as a resort, a county or municipality must allow a resort owner to:

(1) maintain structures, which includes replacing aging or outdated components or systems of the structure that do not increase the structure footprint; and

(2) replace structures damaged or lost to fire or natural disaster.

(b) Paragraph (a), clause (2), applies only when an application for a building permit is made within 180 days of the damage or loss.

Subd. 4. **Expansion.** A county or municipality must allow a resort owner to increase a structure footprint to minimally meet federal, state, or local dwelling standards or codes. To "minimally meet" such standards or codes means that the replacement structure does not add new architectural elements, such as more bedrooms, that the original structure did not have. Structural expansion under this subdivision must not result in the structure being any larger than required to meet standards or codes or the structure or any portion thereof being any closer to the shoreline than prior to the expansion.

Subd. 5. **Change in ownership.** A change in ownership of a resort shall not be construed as a conversion to a different use so long as the new owner continues to use the property as a resort.

Sec. 3. **[114E.01] SHORT TITLE.**

This chapter may be cited as the Uniform Environmental Covenants Act.

Sec. 4. **[114E.05] DEFINITIONS.**

Subdivision 1. **Scope.** For the purposes of this chapter, the definitions in this subdivision have the meanings given.

Subd. 2. **Activity and use limitations.** "Activity and use limitations" means restrictions or obligations with respect to real property that are associated with an environmental response project.

Subd. 3. **Common interest community.** "Common interest community" means a common interest community as defined in chapter 515B.

Subd. 4. **Environmental agency.** "Environmental agency" means the Pollution Control Agency, Agriculture Department, or another state or federal agency that determines or approves the environmental response project pursuant to which the environmental covenant is created.

Subd. 5. **Environmental covenant.** "Environmental covenant" means a servitude created under this chapter that imposes activity and use limitations.

Subd. 6. **Environmental response project.** "Environmental response project" means a plan or work performed to clean up, eliminate, investigate, minimize, mitigate, or prevent the release or threatened release of contaminants affecting real property in order to protect public health or welfare or the environment, including:

(1) response or corrective actions under federal or state law, including chapters 115B, 115C, 115E, and 116, and the Comprehensive Environmental Response, Compensation and Liability Act, United States Code, title 44, section 9601, et seq.;

(2) corrective actions or response to agricultural chemical incidents under chapters 18B, 18C, 18D, and 18E; and

(3) closure, contingency, or corrective actions required under rules or regulations applicable to waste treatment, storage, or disposal facilities or to above or below ground tanks.

Subd. 7. **Holder.** "Holder" means any person identified as a holder of an environmental covenant as specified in section 114E.10, paragraph (a).

Subd. 8. **Person.** "Person" means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, public corporation, political subdivision or special purpose unit of government, agency, or instrumentality of the state or federal government, or any other legal or commercial entity.

Subd. 9. **Record.** "Record," used as a noun, means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

Subd. 10. **Recorded.** "Recorded" means recorded with the county recorder or registrar of title, as applicable, in each county where the real property is located.

Subd. 11. **State.** "State" means a state of the United States, the District of Columbia, Puerto Rico, the United States Virgin Islands, or any territory or insular possession subject to the jurisdiction of the United States.

**Sec. 5. [114E.10] NATURE OF RIGHTS; ROLE OF ENVIRONMENTAL AGENCY; SUBORDINATION OF INTERESTS.**

(a) Any person, including a person that owns an interest in the real property subject to the environmental covenant, the environmental agency, or any other political subdivision or unit of local government, may be a holder. An environmental covenant may identify more than one holder. The interest of a holder is an interest in real property. The holder is the grantee of the real property interest conveyed under an environmental covenant.

(b) Unless an environmental agency is a holder, any right that the agency may have with respect to an environmental covenant does not constitute an interest in real property. Approval of an environmental covenant does not make the environmental agency a holder unless it has authority under law other than this chapter to acquire an interest in real property for purposes related to an environmental response project and it is expressly identified as a holder in the environmental covenant.

(c) An environmental agency is bound by any obligation it assumes in an environmental covenant, but an environmental agency does not assume obligations merely by signing an environmental covenant. As provided in section 114E.15, an environmental covenant is not valid unless signed by the environmental agency and the environmental agency may set reasonable conditions for its approval of an environmental covenant. When the environmental agency is a federal agency, the covenant must also be approved and signed by the state environmental agency that has authority under state law to address the release or threatened release involved in the environmental response project. Any other person that signs an environmental covenant is bound by the obligations the person expressly assumes in the covenant, but signing the covenant does not change obligations, rights, or protections granted or imposed under law other than this chapter except as provided in the covenant.

(d) The following rules apply to interests in real property in existence at the time an environmental covenant is created or amended:

(1) an interest that has priority under other law is not affected by an environmental covenant unless the person that owns the interest subordinates that interest to the covenant;

(2) this chapter does not require a person that owns a prior interest to subordinate that interest to an environmental covenant or to agree to be bound by the covenant;

(3) a subordination agreement may be contained in an environmental covenant or in a separate record that is recorded. If the environmental covenant covers commonly owned property in a common interest community, the environmental covenant or the subordination agreement may be signed by any person authorized by the governing board of the owners' association; and

(4) an agreement by a person to subordinate a prior interest to an environmental covenant affects the priority of that person's interest but does not by itself impose any affirmative obligation on the person with respect to the environmental covenant.

**Sec. 6. [114E.15] CONTENTS OF ENVIRONMENTAL COVENANT.**

(a) An environmental covenant must:

(1) state on its first page that the instrument is an environmental covenant executed pursuant to this chapter;

(2) contain a legally sufficient description of the real property subject to the covenant;

(3) describe the activity and use limitations on the real property;

(4) identify every holder;

(5) be signed and acknowledged by the environmental agency, every holder, and every owner of the fee simple title to the real property subject to the covenant; and

(6) identify the name and location of any administrative record for the environmental response project reflected in the environmental covenant.

(b) In addition to the information required by paragraph (a), an environmental covenant may contain other information, restrictions, and requirements agreed to by the persons who signed it, including any:

(1) requirements for notice of any transfer of a specified interest in, or concerning proposed changes in use of, applications for building permits for, or proposals for any site work affecting the contamination or the environmental response project on, the real property subject to the covenant;

(2) requirements for periodic reporting describing compliance with the covenant;

(3) rights of access to the real property granted in connection with implementation or enforcement of the covenant;

(4) a brief narrative description of the contamination and environmental response project, including the contaminants of concern, the pathways of exposure, limits on exposure, and the location and extent of the contamination;

(5) limitation on amendment or termination of the covenant in addition to those contained in sections 114E.40 and 114E.45;

(6) rights of the holder in addition to its right to enforce the covenant pursuant to section 114E.50; and

(7) waiver of a party's right to consent to the amendment or termination of a covenant under section 114E.45, paragraph (a), clause (3).

(c) The environmental agency may set reasonable conditions for its approval of an environmental covenant, including:

(1) requiring that persons specified by the agency that have interests in the real property also sign the covenant;

(2) requiring that a person who holds a prior interest in the real property subject to the covenant agree to subordinate that interest where applicable; and

(3) requiring the inclusion within the text of the covenant information, restrictions, or requirements as described in paragraph (b).

**Sec. 7. [114E.20] VALIDITY; EFFECT ON OTHER INSTRUMENTS.**

(a) An environmental covenant created under this chapter runs with the land.

(b) An environmental covenant that is otherwise effective is valid and enforceable even if:

(1) it is not appurtenant to an interest in real property;

(2) it can be or has been assigned to a person other than the original holder;

(3) it is not of a character that has been recognized traditionally at common law;

(4) it imposes a negative burden;

(5) it imposes an affirmative obligation on a person having an interest in the real property or on the holder;

(6) the benefit or burden does not touch or concern real property;

(7) there is no privity of estate or contract;

(8) the holder dies, ceases to exist, resigns, or is replaced; or

(9) the owner of an interest in the real property subject to the environmental covenant and the holder are the same person.

(c) Any instrument that imposes activity and use limitations, including any conservation easement, declaration, restrictive covenant, or similar instrument created before the effective date of this chapter remains valid and enforceable as provided in the law under which it was created. This chapter does not apply in any other respect to such an instrument.

(d) This chapter does not invalidate or render unenforceable any interest, whether designated as an environmental covenant or other interest, that is otherwise enforceable under the law of this state.

**Sec. 8. [114E.25] RELATIONSHIP TO OTHER LAND USE LAW.**

(a) This chapter does not authorize a use of real property that is otherwise prohibited by zoning, by law other than this chapter regulating use of real property, or by a recorded instrument that has priority over the environmental covenant.

(b) An environmental covenant may prohibit or restrict uses of real property which are authorized by zoning or by law other than this chapter.

(c) An environmental agency that exercises authority under law other than this chapter to require as part of an environmental response project the performance of a response or corrective action that would not otherwise be an authorized use of real property under zoning or other real property law or prior recorded instruments may include such requirement as an affirmative obligation in an environmental covenant.

**Sec. 9. [114E.30] NOTICE.**

(a) A copy of an environmental covenant, and any amendments or notices of termination thereof, must be provided by the persons and in the manner required by the environmental agency to:

(1) each person that signed the covenant or their successor or assign;

(2) each person holding a recorded interest in the real property subject to the covenant;

- (3) each person in possession of the real property subject to the covenant;
- (4) each political subdivision in which real property subject to the covenant is located; and
- (5) any other person the environmental agency requires.

(b) The validity of a covenant is not affected by failure to provide a copy of the covenant as required under this section.

Sec. 10. **[114E.35] RECORDING.**

(a) An environmental covenant and any amendment or termination of the covenant must be recorded with the county recorder or registrar of titles, as applicable, in every county in which any portion of the real property subject to the covenant is located. For purposes of indexing, a holder shall be treated as a grantee.

(b) Except as otherwise provided in section 114E.40, paragraph (f), an environmental covenant is subject to the laws of this state governing recording and priority of interests in real property.

Sec. 11. **[114E.40] DURATION; MODIFICATION OR TERMINATION BY ADMINISTRATIVE OR COURT ACTION.**

(a) An environmental covenant is perpetual unless it is:

(1) by its terms limited to a specific duration or terminated by the occurrence of a specific event;

(2) terminated by consent pursuant to section 114E.45;

(3) terminated pursuant to paragraph (b) or (e);

(4) terminated by foreclosure of an interest that has priority over the environmental covenant; or

(5) terminated or modified in an eminent domain proceeding, but only if:

(i) the environmental agency that signed the covenant is a party to the proceeding;

(ii) all persons identified in paragraph (c) are given notice of the pendency of the proceeding; and

(iii) the court determines, after hearing, that the activity and use limitations subject to termination or modification are no longer required to protect public health or welfare or the environment.

(b) The environmental agency that approved an environmental covenant may determine whether to terminate or reduce the burden on the real property of the covenant if the agency determines that some or all of the activity and use limitations under the covenant are no longer required to protect public health or welfare or the environment or modify the covenant if the agency determines that modification is required to adequately protect public health or welfare or the environment.

(c) The environmental agency shall provide notice of any proposed action under paragraph (b) to each person with a current recorded interest in the real property subject to the environmental covenant, each holder, all other persons who originally signed the environmental covenant, or their successors or assigns, and any other person with rights or obligations under the covenant. The environmental agency shall provide 30 days for comment on the proposed action by parties entitled to notice. Any person entitled to notice under this paragraph may request a

contested case under chapter 14 by making the request in writing within the 30-day comment period. A determination by an environmental agency under this paragraph is a final agency decision subject to judicial review in the same manner as provided in sections 14.63 to 14.68 or under applicable federal law.

(d) Any person entitled to notice under paragraph (c) may apply in writing to the environmental agency for a determination under paragraph (b) that an existing covenant be terminated, that the burden of a covenant be reduced, or that covenant be modified. The application must specify the determination sought by the applicant, the reasons why the environmental agency should make the determination, and the information which would support it. If the environmental agency fails to commence a proceeding under paragraph (b) within 60 days of receipt of the application, the applicant may bring a de novo action in the district court for termination, reduction of burden, or modification of the environmental covenant pursuant to paragraph (e).

(e) The district court for the county in which the real property subject to an environmental covenant is located may, under the doctrine of changed circumstances, terminate the covenant, reduce its burden on the real property, or modify its terms in a de novo action if an environmental agency fails to commence a proceeding within 60 days as provided under paragraph (d). The applicant under paragraph (d), any party to the environmental covenant, or any other person identified in paragraph (c) may commence an action under this paragraph. The person commencing the action shall serve notice of the action on the environmental agency and any person entitled to notice under paragraph (c). The court shall terminate, reduce the burden of, or modify the environmental covenant if the court determines that the person bringing the action shows that some or all of the activity and use limitations under the covenant do not, or are no longer required to, protect public health or welfare or the environment.

(f) An environmental covenant may not be extinguished, limited, or impaired through issuance of a tax deed, foreclosure of a tax lien, or application of the doctrine of adverse possession, prescription, abandonment, waiver, lack of enforcement, or acquiescence, or a similar doctrine.

(g) An environmental covenant may not be extinguished, limited, or impaired by application of section 500.20 or 541.023.

Sec. 12. **[114E.45] AMENDMENT OR TERMINATION BY CONSENT.**

(a) An environmental covenant may be amended or terminated by consent only if the amendment or termination is signed by:

(1) the environmental agency;

(2) the current owner of the fee simple title to the real property subject to the covenant;

(3) every other original signatory to the covenant, or their successor or assign, unless:

(i) the person waived the right to consent to termination or modification in the environmental covenant or another signed and acknowledged record that is recorded;

(ii) the person fails to object to the amendment or termination within 60 days after a notice requesting the person's consent to amendment or termination was mailed by certified mail, return receipt requested, to the person's last known address, as obtained from the United States Postal Service; or

(iii) a court finds that the person no longer exists or cannot be located or identified with the exercise of reasonable diligence; and

(4) each holder, except as otherwise provided in paragraph (d).

Any person may establish that the notice described in clause (3), item (ii), was properly mailed by recording an affidavit to that effect from a person having knowledge of the facts, and a certified copy of the recorded affidavit shall be prima facie evidence of the facts stated therein.

(b) If an interest in real property is subject to an environmental covenant, the interest is not affected by an amendment of the covenant unless the current owner of the interest consents to the amendment or has waived in the environmental covenant or other signed record the right to consent to amendments.

(c) Except for an assignment undertaken pursuant to a governmental reorganization, or as otherwise provided in the environmental covenant, assignment of an environmental covenant to a new holder is an amendment.

(d) Except as otherwise provided in paragraph (c) or in an environmental covenant:

(1) a holder may not assign its interest without consent of the other parties specified in paragraph (a);

(2) a holder may be removed and replaced by agreement of the other parties specified in paragraph (a); and

(3) a court of competent jurisdiction may fill a vacancy in the position of holder.

Sec. 13. **[114E.50] ENFORCEMENT OF ENVIRONMENTAL COVENANT.**

(a) A civil action for injunctive or other equitable relief for violation of an environmental covenant may be maintained by:

(1) a party to the covenant, including all holders;

(2) the environmental agency that signed the covenant;

(3) any person to whom the covenant expressly grants power to enforce;

(4) a person whose interest in the real property or whose collateral or liability may be affected by the alleged violation of the covenant; or

(5) a political subdivision in which the real property subject to the covenant is located.

(b) The state environmental agency that signed the covenant may use any remedy or enforcement measure provided in section 115.071, subdivisions 3 to 5, or 116.072 to remedy violations of a covenant. This paragraph does not limit the state environmental agency from taking action to enforce the terms of a covenant against a person required to comply with the covenant in connection with that person's obligation to perform response actions or as a condition of receiving a liability assurance with respect to a release or threatened release of contaminants.

(c) This chapter does not limit the regulatory authority of the environmental agency under law other than this chapter with respect to an environmental response project.

(d) A person is not responsible for or subject to liability arising from a release or threatened release of contamination into the environment, or for remediation costs attendant thereto, solely because it has signed, holds rights to, or otherwise has the right to enforce an environmental covenant.

Sec. 14. **[114E.60] UNIFORMITY OF APPLICATION AND CONSTRUCTION.**

In applying and construing this chapter, consideration must be given to the need to promote uniformity of the law with respect to its subject matter among states that enact it.

Sec. 15. **[114E.65] RELATION TO ELECTRONIC SIGNATURES IN GLOBAL AND NATIONAL COMMERCE ACT.**

This chapter modifies, limits, or supersedes the federal Electronic Signatures in Global and National Commerce Act, United States Code, title 15, section 7001 et seq., but does not modify, limit, or supersede section 101 of that act, United States Code, title 15, section 7001(a), or authorize electronic delivery of any of the notices described in section 103 of that act, United States Code, title 15, section 7003(b).

Sec. 16. Minnesota Statutes 2006, section 115.072, is amended to read:

**115.072 RECOVERY OF LITIGATION COSTS AND EXPENSES.**

In any action brought by the attorney general, in the name of the state, pursuant to the provisions of this chapter and chapters 114C, 114E, and 116, for civil penalties, injunctive relief, or in an action to compel compliance, if the state shall finally prevail, and if the proven violation was willful, the state, in addition to other penalties provided in this chapter, may be allowed an amount determined by the court to be the reasonable value of all or a part of the litigation expenses incurred by the state. In determining the amount of such litigation expenses to be allowed, the court shall give consideration to the economic circumstances of the defendant.

Amounts recovered under the provisions of this section and section 115.071, subdivisions 3 to 5, shall be paid into the environmental fund in the state treasury to the extent provided in section 115.073.

Sec. 17. Minnesota Statutes 2006, section 115.55, subdivision 6, is amended to read:

Subd. 6. **Disclosure of individual sewage treatment system to buyer.** (a) Before signing an agreement to sell or transfer real property, the seller or transferor must disclose in writing to the buyer or transferee information on how sewage generated at the property is managed. The disclosure must be made by delivering a statement to the buyer or transferee that either:

(1) the sewage goes to a facility permitted by the agency; or

(2) the sewage does not go to a permitted facility, is therefore subject to applicable requirements, and ~~describes the system in use, including the legal description of the property, the county in which the property is located, and a map drawn from available information showing the location of the system on the property to the extent practicable~~ the system has a valid certificate of compliance or notice of noncompliance as provided under subdivision 5. If the seller or transferor has knowledge that an abandoned individual sewage treatment system exists on the property, the disclosure must include a map showing its location. ~~In the disclosure statement the seller or transferor must indicate whether the individual sewage treatment system is in use and, to the seller's or transferor's knowledge, in compliance with applicable sewage treatment laws and rules.~~ A copy of the certificate of compliance or notice of noncompliance shall be provided to the county recorder or registrar of titles in the county where the individual sewage treatment system is located. A copy of the filing shall go to the county office responsible for the individual sewage treatment system program.

~~(b) Unless the buyer or transferee and seller or transferor agree to the contrary in writing before the closing of the sale, A seller or transferor who fails to disclose the existence or known status of an individual sewage treatment system provide to the buyer or transferor a valid certificate of compliance or notice of noncompliance at the time of~~

~~sale, and who knew or had reason to know of the existence or known status of the system, and whose system was noncompliant at the time of the sale~~ is liable to the buyer or transferee for costs relating to bringing the system into compliance with the individual sewage treatment system rules and for reasonable attorney fees for collection of costs from the seller or transferor. An action under this subdivision must be commenced within two years after the date on which the buyer or transferee closed the purchase or transfer of the real property where the system is located.

Sec. 18. Minnesota Statutes 2006, section 115.56, subdivision 2, is amended to read:

Subd. 2. **License required.** (a) Except as provided in paragraph (b), after March 31, 1996, a person may not design, install, maintain, pump, or inspect an individual sewage treatment system without a license issued by the commissioner.

(b) A license is not required for a person who complies with the applicable requirements if the person is:

(1) a qualified employee of state or local government who has passed the examination described in paragraph (d) or a similar examination;

(2) an individual who constructs an individual sewage treatment system on land that is owned or leased by the individual and functions solely as the individual's dwelling or seasonal dwelling;

(3) a farmer who pumps and disposes of sewage waste from individual sewage treatment systems, holding tanks, and privies on land that is owned or leased by the farmer; or

(4) an individual who performs labor or services for a person licensed under this section in connection with the design, installation, maintenance, pumping, or inspection of an individual sewage treatment system at the direction and under the personal supervision of a person licensed under this section.

A person constructing an individual sewage treatment system under clause (2) must consult with a site evaluator or designer before beginning construction. In addition, the system must be inspected before being covered and a compliance report must be provided to the local unit of government after the inspection.

(c) The commissioner, in conjunction with the University of Minnesota Extension Service or another higher education institution, shall ensure adequate training exists for individual sewage treatment system professionals.

(d) The commissioner shall conduct examinations to test the knowledge of applicants for licensing and shall issue documentation of licensing.

(e) Licenses may be issued only upon successful completion of the required examination and submission of proof of sufficient experience, proof of general liability insurance, and a corporate surety bond in the amount of at least \$10,000.

(f) Notwithstanding paragraph (e), the examination and proof of experience are not required for an individual sewage treatment system professional who, on the effective date of the rules adopted under subdivision 1, holds a certification attained by examination and experience under a voluntary certification program administered by the agency.

(g) Local units of government may not require additional local licenses for individual sewage treatment system professionals.

(h) A pumper whose annual gross revenue from pumping systems is \$9,000 or less and whose gross revenue from pumping systems during the year ending May 11, 1994, was at least \$1,000 is not subject to training requirements in rules adopted under subdivision 1, except for any training required for initial licensure.

(i) No other professional license is required to design, install, maintain, or inspect an individual sewage treatment system with a flow of 10,000 gallons of water per day or less if the system designer, installer, maintainer, or inspector is licensed under this subdivision and the local unit of government has not adopted additional requirements. No other professional license is required to operate an individual sewage treatment system with a flow of 10,000 gallons of water per day or less if the system operator is licensed as a system designer, installer, maintainer, or inspector under this subdivision and the local unit of government has not adopted additional requirements.

**EFFECTIVE DATE.** This section is effective the day following final enactment and expires December 31, 2010.

Sec. 19. Minnesota Statutes 2006, section 115B.17, subdivision 15, is amended to read:

Subd. 15. **Acquisition of property.** The agency may acquire, by purchase or donation, ~~an interest~~ interests in real property, including easements, ~~restrictive environmental covenants under chapter 114E,~~ and leases, that the agency determines ~~is~~ are necessary for response action. ~~The validity and duration of a restrictive covenant or nonpossessory easement acquired under this subdivision shall be determined in the same manner as the validity and duration of a conservation easement under chapter 84C, unless the duration is otherwise provided in the agreement.~~ The agency may acquire an easement by condemnation only if the agency is unable, after reasonable efforts, to acquire an interest in real property by purchase or donation. The provisions of chapter 117 govern condemnation proceedings by the agency under this subdivision. A donation of an interest in real property to the agency is not effective until the agency executes a certificate of acceptance. The state is not liable under this chapter solely as a result of acquiring an interest in real property under this subdivision. Agency approval of an environmental covenant under chapter 114E is sufficient evidence of acceptance of an interest in real property where the agency is expressly identified as a holder in the covenant.

Sec. 20. Minnesota Statutes 2006, section 116.07, subdivision 2a, is amended to read:

Subd. 2a. **Exemptions from standards.** No standards adopted by any state agency for limiting levels of noise in terms of sound pressure which may occur in the outdoor atmosphere shall apply to (1) segments of trunk highways constructed with federal interstate substitution money, provided that all reasonably available noise mitigation measures are employed to abate noise, (2) an existing or newly constructed segment of a highway, provided that all reasonably available noise mitigation measures, as approved by the commissioners of the Department of Transportation and Pollution Control Agency, are employed to abate noise, (3) except for the cities of Minneapolis and St. Paul, an existing or newly constructed segment of a road, street, or highway under the jurisdiction of a road authority of a town, statutory or home rule charter city, or county, except for roadways for which full control of access has been acquired, (4) skeet, trap or shooting sports clubs, or (5) motor vehicle race events conducted at a facility specifically designed for that purpose that was in operation on or before July 1, ~~1983~~ 1996. Nothing herein shall prohibit a local unit of government or a public corporation with the power to make rules for the government of its real property from regulating the location and operation of skeet, trap or shooting sports clubs, or motor vehicle race events conducted at a facility specifically designed for that purpose that was in operation on or before July 1, ~~1983~~ 1996.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

It was the judgment of the House that the Buesgens point of order was not well taken and that the Dill and Eken amendment was in order.

The question recurred on the Dill and Eken amendment to S. F. No. 1131. The motion prevailed and the amendment was adopted.

Dill moved to amend S. F. No. 1131, the first engrossment, as amended, as follows:

Page 29, after line 33, insert:

"Sec. 68. Minnesota Statutes 2006, section 373.01, subdivision 1, is amended to read:

Subdivision 1. **Public corporation; listed powers.** (a) Each county is a body politic and corporate and may:

- (1) Sue and be sued.
- (2) Acquire and hold real and personal property for the use of the county, and lands sold for taxes as provided by law.
- (3) Purchase and hold for the benefit of the county real estate sold by virtue of judicial proceedings, to which the county is a party.
- (4) Sell, lease, and convey real or personal estate owned by the county, and give contracts or options to sell, lease, or convey it, and make orders respecting it as deemed conducive to the interests of the county's inhabitants.
- (5) Make all contracts and do all other acts in relation to the property and concerns of the county necessary to the exercise of its corporate powers.

(b) No sale, lease, or conveyance of real estate owned by the county, except the lease of a residence acquired for the furtherance of an approved capital improvement project, nor any contract or option for it, shall be valid, without first advertising for bids or proposals in the official newspaper of the county for three consecutive weeks and once in a newspaper of general circulation in the area where the property is located. The notice shall state the time and place of considering the proposals, contain a legal description of any real estate, and a brief description of any personal property. Leases that do not exceed \$15,000 for any one year may be negotiated and are not subject to the competitive bid procedures of this section. All proposals estimated to exceed \$15,000 in any one year shall be considered at the time set for the bid opening, and the one most favorable to the county accepted, but the county board may, in the interest of the county, reject any or all proposals.

(c) Sales of personal property the value of which is estimated to be \$15,000 or more shall be made only after advertising for bids or proposals in the county's official newspaper, on the county's Web site, or in a recognized industry trade journal. At the same time it posts on its Web site or publishes in a trade journal, the county must publish in the official newspaper, either as part of the minutes of a regular meeting of the county board or in a separate notice, a summary of all requests for bids or proposals that the county advertises on its Web site or in a trade journal. After publication in the official newspaper, on the Web site, or in a trade journal, bids or proposals may be solicited and accepted by the electronic selling process authorized in section 471.345, subdivision 17. Sales

of personal property the value of which is estimated to be less than \$15,000 may be made either on competitive bids or in the open market, in the discretion of the county board. "Web site" means a specific, addressable location provided on a server connected to the Internet and hosting World Wide Web pages and other files that are generally accessible on the Internet all or most of a day.

(d) Notwithstanding anything to the contrary herein, the county may, when acquiring real property for county highway right-of-way, exchange parcels of real property of substantially similar or equal value without advertising for bids. The estimated values for these parcels shall be determined by the county assessor.

(e) If real estate or personal property remains unsold after advertising for and consideration of bids or proposals the county may employ a broker to sell the property. The broker may sell the property for not less than 90 percent of its appraised market value as determined by the county. The broker's fee shall be set by agreement with the county but may not exceed ten percent of the sale price and must be paid from the proceeds of the sale.

(f) A county or its agent may rent a county-owned residence acquired for the furtherance of an approved capital improvement project subject to the conditions set by the county board and not subject to the conditions for lease otherwise provided by paragraph (a), clause (4), and paragraphs (b), (c), (d), (e), and (g).

(g) In no case shall lands be disposed of without there being reserved to the county all iron ore and other valuable minerals in and upon the lands, with right to explore for, mine and remove the iron ore and other valuable minerals, nor shall the minerals and mineral rights be disposed of, either before or after disposition of the surface rights, otherwise than by mining lease, in similar general form to that provided by section 93.20 for mining leases affecting state lands. The lease shall be for a term not exceeding 50 years, and be issued on a royalty basis, the royalty to be not less than 25 cents per ton of 2,240 pounds, and fix a minimum amount of royalty payable during each year, whether mineral is removed or not. Prospecting options for mining leases may be granted for periods not exceeding one year. The options shall require, among other things, periodical showings to the county board of the results of exploration work done.

(h) Notwithstanding anything in this subdivision to the contrary, the county may, when selling real property owned in fee simple that cannot be improved because of noncompliance with local ordinances regarding minimum area, shape, frontage, or access, proceed to sell the nonconforming parcel without advertising for bid. At the county's discretion, the real property may be restricted to sale to adjoining landowners or may be sold to any other interested party. The property shall be sold to the highest bidder, but in no case shall the property be sold for less than 90 percent of its fair market value as determined by the county assessor. All owners of land adjoining the land to be sold shall be given a written notice at least 30 days before the sale. This paragraph shall be liberally construed to encourage the sale of nonconforming real property and promote its return to the tax roles."

#### "ARTICLE 1

#### CHILD WELFARE POLICY

Section 1. Minnesota Statutes 2006, section 256.01, subdivision 2, is amended to read:

Subd. 2. **Specific powers.** Subject to the provisions of section 241.021, subdivision 2, the commissioner of human services shall carry out the specific duties in paragraphs (a) through (cc):

(a) Administer and supervise all forms of public assistance provided for by state law and other welfare activities or services as are vested in the commissioner. Administration and supervision of human services activities or services includes, but is not limited to, assuring timely and accurate distribution of benefits, completeness of service, and quality program management. In addition to administering and supervising human services activities vested by law in the department, the commissioner shall have the authority to:

(1) require county agency participation in training and technical assistance programs to promote compliance with statutes, rules, federal laws, regulations, and policies governing human services;

(2) monitor, on an ongoing basis, the performance of county agencies in the operation and administration of human services, enforce compliance with statutes, rules, federal laws, regulations, and policies governing welfare services and promote excellence of administration and program operation;

(3) develop a quality control program or other monitoring program to review county performance and accuracy of benefit determinations;

(4) require county agencies to make an adjustment to the public assistance benefits issued to any individual consistent with federal law and regulation and state law and rule and to issue or recover benefits as appropriate;

(5) delay or deny payment of all or part of the state and federal share of benefits and administrative reimbursement according to the procedures set forth in section 256.017;

(6) make contracts with and grants to public and private agencies and organizations, both profit and nonprofit, and individuals, using appropriated funds; and

(7) enter into contractual agreements with federally recognized Indian tribes with a reservation in Minnesota to the extent necessary for the tribe to operate a federally approved family assistance program or any other program under the supervision of the commissioner. The commissioner shall consult with the affected county or counties in the contractual agreement negotiations, if the county or counties wish to be included, in order to avoid the duplication of county and tribal assistance program services. The commissioner may establish necessary accounts for the purposes of receiving and disbursing funds as necessary for the operation of the programs.

(b) Inform county agencies, on a timely basis, of changes in statute, rule, federal law, regulation, and policy necessary to county agency administration of the programs.

(c) Administer and supervise all child welfare activities; promote the enforcement of laws protecting disabled, dependent, neglected and delinquent children, and children born to mothers who were not married to the children's fathers at the times of the conception nor at the births of the children; license and supervise child-caring and child-placing agencies and institutions; supervise the care of children in boarding and foster homes or in private institutions; and generally perform all functions relating to the field of child welfare now vested in the State Board of Control.

(d) Administer and supervise all noninstitutional service to disabled persons, including those who are visually impaired, hearing impaired, or physically impaired or otherwise disabled. The commissioner may provide and contract for the care and treatment of qualified indigent children in facilities other than those located and available at state hospitals when it is not feasible to provide the service in state hospitals.

(e) Assist and actively cooperate with other departments, agencies and institutions, local, state, and federal, by performing services in conformity with the purposes of Laws 1939, chapter 431.

(f) Act as the agent of and cooperate with the federal government in matters of mutual concern relative to and in conformity with the provisions of Laws 1939, chapter 431, including the administration of any federal funds granted to the state to aid in the performance of any functions of the commissioner as specified in Laws 1939, chapter 431, and including the promulgation of rules making uniformly available medical care benefits to all recipients of public assistance, at such times as the federal government increases its participation in assistance expenditures for medical care to recipients of public assistance, the cost thereof to be borne in the same proportion as are grants of aid to said recipients.

(g) Establish and maintain any administrative units reasonably necessary for the performance of administrative functions common to all divisions of the department.

(h) Act as designated guardian of both the estate and the person of all the wards of the state of Minnesota, whether by operation of law or by an order of court, without any further act or proceeding whatever, except as to persons committed as developmentally disabled. For children under the guardianship of the commissioner or a tribe in Minnesota recognized by the Secretary of the Interior whose interests would be best served by adoptive placement, the commissioner may contract with a licensed child-placing agency or a Minnesota tribal social services agency to provide adoption services. A contract with a licensed child-placing agency must be designed to supplement existing county efforts and may not replace existing county programs or tribal social services, unless the replacement is agreed to by the county board and the appropriate exclusive bargaining representative, tribal governing body, or the commissioner has evidence that child placements of the county continue to be substantially below that of other counties. Funds encumbered and obligated under an agreement for a specific child shall remain available until the terms of the agreement are fulfilled or the agreement is terminated.

(i) Act as coordinating referral and informational center on requests for service for newly arrived immigrants coming to Minnesota.

(j) The specific enumeration of powers and duties as hereinabove set forth shall in no way be construed to be a limitation upon the general transfer of powers herein contained.

(k) Establish county, regional, or statewide schedules of maximum fees and charges which may be paid by county agencies for medical, dental, surgical, hospital, nursing and nursing home care and medicine and medical supplies under all programs of medical care provided by the state and for congregate living care under the income maintenance programs.

(l) Have the authority to conduct and administer experimental projects to test methods and procedures of administering assistance and services to recipients or potential recipients of public welfare. To carry out such experimental projects, it is further provided that the commissioner of human services is authorized to waive the enforcement of existing specific statutory program requirements, rules, and standards in one or more counties. The order establishing the waiver shall provide alternative methods and procedures of administration, shall not be in conflict with the basic purposes, coverage, or benefits provided by law, and in no event shall the duration of a project exceed four years. It is further provided that no order establishing an experimental project as authorized by the provisions of this section shall become effective until the following conditions have been met:

(1) the secretary of health and human services of the United States has agreed, for the same project, to waive state plan requirements relative to statewide uniformity; and

(2) a comprehensive plan, including estimated project costs, shall be approved by the Legislative Advisory Commission and filed with the commissioner of administration.

(m) According to federal requirements, establish procedures to be followed by local welfare boards in creating citizen advisory committees, including procedures for selection of committee members.

(n) Allocate federal fiscal disallowances or sanctions which are based on quality control error rates for the aid to families with dependent children program formerly codified in sections 256.72 to 256.87, medical assistance, or food stamp program in the following manner:

(1) one-half of the total amount of the disallowance shall be borne by the county boards responsible for administering the programs. For the medical assistance and the AFDC program formerly codified in sections 256.72 to 256.87, disallowances shall be shared by each county board in the same proportion as that county's expenditures

for the sanctioned program are to the total of all counties' expenditures for the AFDC program formerly codified in sections 256.72 to 256.87, and medical assistance programs. For the food stamp program, sanctions shall be shared by each county board, with 50 percent of the sanction being distributed to each county in the same proportion as that county's administrative costs for food stamps are to the total of all food stamp administrative costs for all counties, and 50 percent of the sanctions being distributed to each county in the same proportion as that county's value of food stamp benefits issued are to the total of all benefits issued for all counties. Each county shall pay its share of the disallowance to the state of Minnesota. When a county fails to pay the amount due hereunder, the commissioner may deduct the amount from reimbursement otherwise due the county, or the attorney general, upon the request of the commissioner, may institute civil action to recover the amount due; and

(2) notwithstanding the provisions of clause (1), if the disallowance results from knowing noncompliance by one or more counties with a specific program instruction, and that knowing noncompliance is a matter of official county board record, the commissioner may require payment or recover from the county or counties, in the manner prescribed in clause (1), an amount equal to the portion of the total disallowance which resulted from the noncompliance, and may distribute the balance of the disallowance according to clause (1).

(o) Develop and implement special projects that maximize reimbursements and result in the recovery of money to the state. For the purpose of recovering state money, the commissioner may enter into contracts with third parties. Any recoveries that result from projects or contracts entered into under this paragraph shall be deposited in the state treasury and credited to a special account until the balance in the account reaches \$1,000,000. When the balance in the account exceeds \$1,000,000, the excess shall be transferred and credited to the general fund. All money in the account is appropriated to the commissioner for the purposes of this paragraph.

(p) Have the authority to make direct payments to facilities providing shelter to women and their children according to section 256D.05, subdivision 3. Upon the written request of a shelter facility that has been denied payments under section 256D.05, subdivision 3, the commissioner shall review all relevant evidence and make a determination within 30 days of the request for review regarding issuance of direct payments to the shelter facility. Failure to act within 30 days shall be considered a determination not to issue direct payments.

(q) Have the authority to establish and enforce the following county reporting requirements:

(1) the commissioner shall establish fiscal and statistical reporting requirements necessary to account for the expenditure of funds allocated to counties for human services programs. When establishing financial and statistical reporting requirements, the commissioner shall evaluate all reports, in consultation with the counties, to determine if the reports can be simplified or the number of reports can be reduced;

(2) the county board shall submit monthly or quarterly reports to the department as required by the commissioner. Monthly reports are due no later than 15 working days after the end of the month. Quarterly reports are due no later than 30 calendar days after the end of the quarter, unless the commissioner determines that the deadline must be shortened to 20 calendar days to avoid jeopardizing compliance with federal deadlines or risking a loss of federal funding. Only reports that are complete, legible, and in the required format shall be accepted by the commissioner;

(3) if the required reports are not received by the deadlines established in clause (2), the commissioner may delay payments and withhold funds from the county board until the next reporting period. When the report is needed to account for the use of federal funds and the late report results in a reduction in federal funding, the commissioner shall withhold from the county boards with late reports an amount equal to the reduction in federal funding until full federal funding is received;

(4) a county board that submits reports that are late, illegible, incomplete, or not in the required format for two out of three consecutive reporting periods is considered noncompliant. When a county board is found to be noncompliant, the commissioner shall notify the county board of the reason the county board is considered noncompliant and request that the county board develop a corrective action plan stating how the county board plans to correct the problem. The corrective action plan must be submitted to the commissioner within 45 days after the date the county board received notice of noncompliance;

(5) the final deadline for fiscal reports or amendments to fiscal reports is one year after the date the report was originally due. If the commissioner does not receive a report by the final deadline, the county board forfeits the funding associated with the report for that reporting period and the county board must repay any funds associated with the report received for that reporting period;

(6) the commissioner may not delay payments, withhold funds, or require repayment under clause (3) or (5) if the county demonstrates that the commissioner failed to provide appropriate forms, guidelines, and technical assistance to enable the county to comply with the requirements. If the county board disagrees with an action taken by the commissioner under clause (3) or (5), the county board may appeal the action according to sections 14.57 to 14.69; and

(7) counties subject to withholding of funds under clause (3) or forfeiture or repayment of funds under clause (5) shall not reduce or withhold benefits or services to clients to cover costs incurred due to actions taken by the commissioner under clause (3) or (5).

(r) Allocate federal fiscal disallowances or sanctions for audit exceptions when federal fiscal disallowances or sanctions are based on a statewide random sample for the foster care program under title IV-E of the Social Security Act, United States Code, title 42, in direct proportion to each county's title IV-E foster care maintenance claim for that period.

(s) Be responsible for ensuring the detection, prevention, investigation, and resolution of fraudulent activities or behavior by applicants, recipients, and other participants in the human services programs administered by the department.

(t) Require county agencies to identify overpayments, establish claims, and utilize all available and cost-beneficial methodologies to collect and recover these overpayments in the human services programs administered by the department.

(u) Have the authority to administer a drug rebate program for drugs purchased pursuant to the prescription drug program established under section 256.955 after the beneficiary's satisfaction of any deductible established in the program. The commissioner shall require a rebate agreement from all manufacturers of covered drugs as defined in section 256B.0625, subdivision 13. Rebate agreements for prescription drugs delivered on or after July 1, 2002, must include rebates for individuals covered under the prescription drug program who are under 65 years of age. For each drug, the amount of the rebate shall be equal to the rebate as defined for purposes of the federal rebate program in United States Code, title 42, section 1396r-8. The manufacturers must provide full payment within 30 days of receipt of the state invoice for the rebate within the terms and conditions used for the federal rebate program established pursuant to section 1927 of title XIX of the Social Security Act. The manufacturers must provide the commissioner with any information necessary to verify the rebate determined per drug. The rebate program shall utilize the terms and conditions used for the federal rebate program established pursuant to section 1927 of title XIX of the Social Security Act.

(v) Have the authority to administer the federal drug rebate program for drugs purchased under the medical assistance program as allowed by section 1927 of title XIX of the Social Security Act and according to the terms and conditions of section 1927. Rebates shall be collected for all drugs that have been dispensed or administered in an outpatient setting and that are from manufacturers who have signed a rebate agreement with the United States Department of Health and Human Services.

(w) Have the authority to administer a supplemental drug rebate program for drugs purchased under the medical assistance program. The commissioner may enter into supplemental rebate contracts with pharmaceutical manufacturers and may require prior authorization for drugs that are from manufacturers that have not signed a supplemental rebate contract. Prior authorization of drugs shall be subject to the provisions of section 256B.0625, subdivision 13.

(x) Operate the department's communication systems account established in Laws 1993, First Special Session chapter 1, article 1, section 2, subdivision 2, to manage shared communication costs necessary for the operation of the programs the commissioner supervises. A communications account may also be established for each regional treatment center which operates communications systems. Each account must be used to manage shared communication costs necessary for the operations of the programs the commissioner supervises. The commissioner may distribute the costs of operating and maintaining communication systems to participants in a manner that reflects actual usage. Costs may include acquisition, licensing, insurance, maintenance, repair, staff time and other costs as determined by the commissioner. Nonprofit organizations and state, county, and local government agencies involved in the operation of programs the commissioner supervises may participate in the use of the department's communications technology and share in the cost of operation. The commissioner may accept on behalf of the state any gift, bequest, devise or personal property of any kind, or money tendered to the state for any lawful purpose pertaining to the communication activities of the department. Any money received for this purpose must be deposited in the department's communication systems accounts. Money collected by the commissioner for the use of communication systems must be deposited in the state communication systems account and is appropriated to the commissioner for purposes of this section.

(y) Receive any federal matching money that is made available through the medical assistance program for the consumer satisfaction survey. Any federal money received for the survey is appropriated to the commissioner for this purpose. The commissioner may expend the federal money received for the consumer satisfaction survey in either year of the biennium.

(z) Designate community information and referral call centers and incorporate cost reimbursement claims from the designated community information and referral call centers into the federal cost reimbursement claiming processes of the department according to federal law, rule, and regulations. Existing information and referral centers provided by Greater Twin Cities United Way or existing call centers for which Greater Twin Cities United Way has legal authority to represent, shall be included in these designations upon review by the commissioner and assurance that these services are accredited and in compliance with national standards. Any reimbursement is appropriated to the commissioner and all designated information and referral centers shall receive payments according to normal department schedules established by the commissioner upon final approval of allocation methodologies from the United States Department of Health and Human Services Division of Cost Allocation or other appropriate authorities.

(aa) Develop recommended standards for foster care homes that address the components of specialized therapeutic services to be provided by foster care homes with those services.

(bb) Authorize the method of payment to or from the department as part of the human services programs administered by the department. This authorization includes the receipt or disbursement of funds held by the department in a fiduciary capacity as part of the human services programs administered by the department.

(cc) Have the authority to administer a drug rebate program for drugs purchased for persons eligible for general assistance medical care under section 256D.03, subdivision 3. For manufacturers that agree to participate in the general assistance medical care rebate program, the commissioner shall enter into a rebate agreement for covered drugs as defined in section 256B.0625, subdivisions 13 and 13d. For each drug, the amount of the rebate shall be equal to the rebate as defined for purposes of the federal rebate program in United States Code, title 42, section 1396r-8. The manufacturers must provide payment within the terms and conditions used for the federal rebate

program established under section 1927 of title XIX of the Social Security Act. The rebate program shall utilize the terms and conditions used for the federal rebate program established under section 1927 of title XIX of the Social Security Act.

Effective January 1, 2006, drug coverage under general assistance medical care shall be limited to those prescription drugs that:

(1) are covered under the medical assistance program as described in section 256B.0625, subdivisions 13 and 13d; and

(2) are provided by manufacturers that have fully executed general assistance medical care rebate agreements with the commissioner and comply with such agreements. Prescription drug coverage under general assistance medical care shall conform to coverage under the medical assistance program according to section 256B.0625, subdivisions 13 to 13g.

The rebate revenues collected under the drug rebate program are deposited in the general fund.

(b) if the court is not satisfied that the proposed adoption is in the best interests of the child, the court shall deny the petition, and shall order the child returned to the custody of the person or agency legally vested with permanent custody or certify the case for appropriate action and disposition to the court having jurisdiction to determine the custody and guardianship of the child.

Sec. 5. Minnesota Statutes 2006, section 259.67, subdivision 7, is amended to read:

Subd. 7. **Reimbursement of costs.** (a) Subject to rules of the commissioner, and the provisions of this subdivision a child-placing agency licensed in Minnesota or any other state, or local or tribal social services agency shall receive a reimbursement from the commissioner equal to 100 percent of the reasonable and appropriate cost of providing adoption services ~~for a child certified as eligible for adoption assistance under subdivision 4. Such assistance.~~ Adoption services under this subdivision may include adoptive family recruitment, counseling, and special training when needed.

(b) An eligible child must have a goal of adoption, which may include an adoption in accordance with tribal law, and meet one of the following criteria:

(1) is a ward of the commissioner of human services or a ward of tribal court pursuant to section 260.755, subdivision 20, who meets one of the criteria in subdivision 4, paragraph (b), clause (1), (2), or (3); or

(2) is under the guardianship of a Minnesota-licensed child-placing agency who meets one of the criteria in subdivision 4, paragraph (b), clause (1) or (2).

(c) A child-placing agency licensed in Minnesota or any other state shall receive reimbursement for adoption services it purchases for or directly provides to an eligible child. Tribal social services shall receive reimbursement for adoption services it purchases for or directly provides to an eligible child. A local or tribal social services agency shall receive ~~such~~ reimbursement only for adoption services it purchases for an eligible child.

~~(b) A child-placing agency licensed in Minnesota or any other state or local or tribal social services agency seeking reimbursement under this subdivision shall enter into~~ Before providing adoption services for which reimbursement will be sought under this subdivision, a reimbursement agreement, on the designated format, must be entered into with the commissioner ~~before providing adoption services for which reimbursement is sought~~. No reimbursement under this subdivision shall be made to an agency for services provided prior to entering a reimbursement agreement. Separate reimbursement agreements shall be made for each child and separate records shall be kept on each child for whom a reimbursement agreement is made. The commissioner of human services shall agree that the reimbursement costs are reasonable and appropriate. The commissioner may spend up to \$16,000 for each purchase of service agreement. Only one agreement per child is allowed, unless an exception is granted by the commissioner. Funds encumbered and obligated under such an agreement for the child remain available until the terms of the agreement are fulfilled or the agreement is terminated.

~~(c) When a local or tribal social services agency uses a purchase of service agreement to provide services reimbursable under a reimbursement agreement,~~ The commissioner ~~may~~ shall make reimbursement payments directly to the agency providing the service if direct reimbursement is specified by the purchase of service agreement, and if the request for reimbursement is submitted by the local or tribal social services agency along with a verification that the service was provided.

Sec. 6. Minnesota Statutes 2006, section 259.75, subdivision 8, is amended to read:

Subd. 8. **Reasons for deferral.** Deferral of the listing of a child with the state adoption exchange shall be only for one or more of the following reasons:

- (a) the child is in an adoptive placement but is not legally adopted;
- (b) the child's foster parents or other individuals are now considering adoption;
- (c) diagnostic study or testing is required to clarify the child's problem and provide an adequate description; or
- (d) the child is currently in a hospital and continuing need for daily professional care will not permit placement in a family setting; ~~or,~~
- ~~(e) the child is 14 years of age or older and will not consent to an adoption plan.~~

Approval of a request to defer listing for any of the reasons specified in paragraph (b) or (c) shall be valid for a period not to exceed 90 days, with no subsequent deferrals for those reasons.

Sec. 7. Minnesota Statutes 2006, section 260.012, is amended to read:

**260.012 DUTY TO ENSURE PLACEMENT PREVENTION AND FAMILY REUNIFICATION; REASONABLE EFFORTS.**

(a) Once a child alleged to be in need of protection or services is under the court's jurisdiction, the court shall ensure that reasonable efforts, including culturally appropriate services, by the social services agency are made to prevent placement or to eliminate the need for removal and to reunite the child with the child's family at the earliest possible time, and ~~when a child cannot be reunified with the parent or guardian from whom the child was removed,~~

the court must ensure that the responsible social services agency makes reasonable efforts to finalize an alternative permanent plan for the child as provided in paragraph (e). In determining reasonable efforts to be made with respect to a child and in making those reasonable efforts, the child's best interests, health, and safety must be of paramount concern. Reasonable efforts to prevent placement and for rehabilitation and reunification are always required except upon a determination by the court that a petition has been filed stating a prima facie case that:

- (1) the parent has subjected a child to egregious harm as defined in section 260C.007, subdivision 14;
- (2) the parental rights of the parent to another child have been terminated involuntarily;
- (3) the child is an abandoned infant under section 260C.301, subdivision 2, paragraph (a), clause (2);
- (4) the parent's custodial rights to another child have been involuntarily transferred to a relative under section 260C.201, subdivision 11, paragraph (e), clause (1), or a similar law of another jurisdiction; or
- (5) the provision of services or further services for the purpose of reunification is futile and therefore unreasonable under the circumstances.

(b) When the court makes one of the prima facie determinations under paragraph (a), either permanency pleadings under section 260C.201, subdivision 11, or a termination of parental rights petition under sections 260C.141 and 260C.301 must be filed. A permanency hearing under section 260C.201, subdivision 11, must be held within 30 days of this determination.

(c) In the case of an Indian child, in proceedings under sections 260B.178 or 260C.178, 260C.201, and 260C.301 the juvenile court must make findings and conclusions consistent with the Indian Child Welfare Act of 1978, United States Code, title 25, section 1901 et seq., as to the provision of active efforts. In cases governed by the Indian Child Welfare Act of 1978, United States Code, title 25, section 1901, the responsible social services agency must provide active efforts as required under United States Code, title 25, section 1911(d).

(d) "Reasonable efforts to prevent placement" means:

- (1) the agency has made reasonable efforts to prevent the placement of the child in foster care; or
- (2) given the particular circumstances of the child and family at the time of the child's removal, there are no services or efforts available which could allow the child to safely remain in the home.

(e) "Reasonable efforts to finalize a permanent plan for the child" means due diligence by the responsible social services agency to:

- (1) reunify the child with the parent or guardian from whom the child was removed;
- (2) assess a noncustodial parent's ability to provide day-to-day care for the child and, where appropriate, provide services necessary to enable the noncustodial parent to safely provide the care, as required by section 260C.212, subdivision 4;
- (3) conduct a relative search as required under section 260C.212, subdivision 5; and
- (4) when the child cannot return to the parent or guardian from whom the child was removed, to plan for and finalize a safe and legally permanent alternative home for the child, and considers permanent alternative homes for the child inside or outside of the state, preferably through adoption or transfer of permanent legal and physical custody of the child.

(f) Reasonable efforts are made upon the exercise of due diligence by the responsible social services agency to use culturally appropriate and available services to meet the needs of the child and the child's family. Services may include those provided by the responsible social services agency and other culturally appropriate services available in the community. At each stage of the proceedings where the court is required to review the appropriateness of the responsible social services agency's reasonable efforts as described in paragraphs (a), (d), and (e), the social services agency has the burden of demonstrating that:

(1) it has made reasonable efforts to prevent placement of the child in foster care;

(2) it has made reasonable efforts to eliminate the need for removal of the child from the child's home and to reunify the child with the child's family at the earliest possible time;

(3) it has made reasonable efforts to finalize an alternative permanent home for the child, and considers permanent alternative homes for the child inside or outside of the state; or

(4) reasonable efforts to prevent placement and to reunify the child with the parent or guardian are not required. The agency may meet this burden by stating facts in a sworn petition filed under section 260C.141, by filing an affidavit summarizing the agency's reasonable efforts or facts the agency believes demonstrate there is no need for reasonable efforts to reunify the parent and child, or through testimony or a certified report required under juvenile court rules.

(g) Once the court determines that reasonable efforts for reunification are not required because the court has made one of the prima facie determinations under paragraph (a), the court may only require reasonable efforts for reunification after a hearing according to section 260C.163, where the court finds there is not clear and convincing evidence of the facts upon which the court based its prima facie determination. In this case when there is clear and convincing evidence that the child is in need of protection or services, the court may find the child in need of protection or services and order any of the dispositions available under section 260C.201, subdivision 1. Reunification of a surviving child with a parent is not required if the parent has been convicted of:

(1) a violation of, or an attempt or conspiracy to commit a violation of, sections 609.185 to 609.20; 609.222, subdivision 2; or 609.223 in regard to another child of the parent;

(2) a violation of section 609.222, subdivision 2; or 609.223, in regard to the surviving child; or

(3) a violation of, or an attempt or conspiracy to commit a violation of, United States Code, title 18, section 1111(a) or 1112(a), in regard to another child of the parent.

(h) The juvenile court, in proceedings under sections 260B.178 or 260C.178, 260C.201, and 260C.301 shall make findings and conclusions as to the provision of reasonable efforts. When determining whether reasonable efforts have been made, the court shall consider whether services to the child and family were:

(1) relevant to the safety and protection of the child;

(2) adequate to meet the needs of the child and family;

(3) culturally appropriate;

(4) available and accessible;

(5) consistent and timely; and

(6) realistic under the circumstances.

In the alternative, the court may determine that provision of services or further services for the purpose of rehabilitation is futile and therefore unreasonable under the circumstances or that reasonable efforts are not required as provided in paragraph (a).

(i) This section does not prevent out-of-home placement for treatment of a child with a mental disability when the child's diagnostic assessment or individual treatment plan indicates that appropriate and necessary treatment cannot be effectively provided outside of a residential or inpatient treatment program.

(j) If continuation of reasonable efforts to prevent placement or reunify the child with the parent or guardian from whom the child was removed is determined by the court to be inconsistent with the permanent plan for the child or upon the court making one of the prima facie determinations under paragraph (a), reasonable efforts must be made to place the child in a timely manner in a safe and permanent home and to complete whatever steps are necessary to legally finalize the permanent placement of the child.

(k) Reasonable efforts to place a child for adoption or in another permanent placement may be made concurrently with reasonable efforts to prevent placement or to reunify the child with the parent or guardian from whom the child was removed. When the responsible social services agency decides to concurrently make reasonable efforts for both reunification and permanent placement away from the parent under paragraph (a), the agency shall disclose its decision and both plans for concurrent reasonable efforts to all parties and the court. When the agency discloses its decision to proceed on both plans for reunification and permanent placement away from the parent, the court's review of the agency's reasonable efforts shall include the agency's efforts under both plans.

Sec. 8. Minnesota Statutes 2006, section 260.755, subdivision 12, is amended to read:

Subd. 12. **Indian tribe.** "Indian tribe" means an Indian tribe, band, nation, or other organized group or community of Indians recognized as eligible for the services provided to Indians by the secretary because of their status as Indians, including any ~~band~~ Native group under the Alaska Native Claims Settlement Act, United States Code, title 43, section 1602, ~~and exercising tribal governmental powers.~~

Sec. 9. Minnesota Statutes 2006, section 260.755, subdivision 20, is amended to read:

Subd. 20. **Tribal court.** "Tribal court" means a court with ~~federally recognized~~ jurisdiction over child custody proceedings and which is either a court of Indian offenses, or a court established and operated under the code or custom of an Indian tribe, or ~~the~~ any other administrative body of a tribe which is vested with authority over child custody proceedings. Except as provided in section 260.771, subdivision 5, nothing in this chapter shall be construed as conferring jurisdiction on an Indian tribe.

Sec. 10. Minnesota Statutes 2006, section 260.761, subdivision 7, is amended to read:

Subd. 7. **Identification of extended family members.** Any agency considering placement of an Indian child shall make ~~reasonable~~ active efforts to identify and locate extended family members.

Sec. 11. Minnesota Statutes 2006, section 260.765, subdivision 5, is amended to read:

Subd. 5. **Identification of extended family members.** Any agency considering placement of an Indian child shall make ~~reasonable~~ active efforts to identify and locate extended family members.

Sec. 12. Minnesota Statutes 2006, section 260.771, subdivision 1, is amended to read:

Subdivision 1. **Indian tribe jurisdiction.** An Indian tribe ~~with a tribal court~~ has exclusive jurisdiction over a child placement proceeding involving an Indian child who resides or is domiciled within the reservation of ~~such~~ the tribe ~~at the commencement of the proceedings, except where jurisdiction is otherwise vested in the state by existing federal law.~~ When an Indian child is ~~in the legal custody of a person or agency pursuant to an order of a ward of the tribal court,~~ the Indian tribe retains exclusive jurisdiction, notwithstanding the residence or domicile of the child.

Sec. 13. Minnesota Statutes 2006, section 260.771, subdivision 2, is amended to read:

Subd. 2. **Court determination of tribal affiliation of child.** In any child placement proceeding, the court shall establish whether an Indian child is involved and the identity of the Indian child's tribe. This chapter and the federal Indian Child Welfare Act are applicable without exception in any child custody proceeding, as defined in the federal act, involving an Indian child. This chapter applies to child custody proceedings involving an Indian child whether the child is in the physical or legal custody of an Indian parent, Indian custodian, Indian extended family member, or other person at the commencement of the proceedings. A court shall not determine the applicability of this chapter or the federal Indian Child Welfare Act to a child custody proceeding based upon whether an Indian child is part of an existing Indian family or based upon the level of contact a child has with the child's Indian tribe, reservation, society, or off-reservation community.

Sec. 14. **[260.852] PLACEMENT PROCEDURES.**

Subdivision 1. **Home study.** The state must have procedures for the orderly and timely interstate placement of children that are implemented in accordance with an interstate compact and that, within 60 days after the state receives from another state a request to conduct a study of a home environment for purposes of assessing the safety and suitability of placing a child in the home, the state shall, directly or by contract, conduct and complete a home study and return to the other state a report on the results of the study, which shall address the extent to which placement in the home would meet the needs of the child; except in the case of a home study begun before October 1, 2008, if the state fails to comply with conducting and completing the home study within the 60-day period and this is as a result of circumstances beyond the control of the state, the state has 75 days to comply if the state documents the circumstances involved and certifies that completing the home study is in the best interests of the child.

This subdivision does not require the completion within the applicable period of the parts of the home study involving the education and training of the prospective foster or adoptive parents.

Subd. 2. **Effect of received report.** The state shall treat any report described in subdivision 1 that is received from another state, an Indian tribe, or a private agency under contract with another state or Indian tribe as meeting any requirements imposed by the state for the completion of a home study before placing a child in the home, unless, within 14 days after receipt of the report, the state determines, based on grounds that are specific to the content of the report, that making a decision in reliance on the report would be contrary to the welfare of the child.

Subd. 3. **Resources.** The state shall make effective use of cross-jurisdictional resources, including through contract for the purchase of services, and shall eliminate legal barriers to facilitate timely adoptive or permanent placements for waiting children. The state shall not impose any restriction on the use of private agencies for the purpose of conducting a home study to meet the 60-day requirement.

Subd. 4. **Incentive eligibility.** Minnesota is an incentive-eligible state and must:

(1) have an approved plan as required by the United States Secretary of Health and Human Services;

(2) be in compliance with the data requirements of the United States Department of Health and Human Services; and

(3) have data that verify that a home study is completed within 30 days.

Subd. 5. **Data requirements.** The state shall provide to the United States Secretary of Health and Human Services a written report, covering the preceding fiscal year, that specifies:

(1) the total number of interstate home studies requested by the state with respect to children in foster care under the responsibility of the state, and with respect to each study, the identity of the other state involved;

(2) the total number of timely interstate home studies completed by the state with respect to children in foster care under the responsibility of other states and, with respect to each study, the identity of the other state involved; and

(3) other information the United States Secretary of Health and Human Services requires in order to determine whether Minnesota is a home study incentive-eligible state.

Subd. 6. **Definitions.** (a) The definitions in this subdivision apply to this section.

(b) "Home study" means an evaluation of a home environment conducted in accordance with applicable requirements of the state in which the home is located, to determine whether a proposed placement of a child would meet the individual needs of the child, including the child's safety; permanency; health; well-being; and mental, emotional, and physical development.

(c) "Interstate home study" means a home study conducted by a state at the request of another state to facilitate an adoptive or foster placement in the state of a child in foster care under the responsibility of the state.

(d) "Timely interstate home study" means an interstate home study completed by a state if the state provides to the state that requested the study, within 30 days after receipt of the request, a report on the results of the study, except that there is no requirement for completion within the 30-day period of the parts of the home study involving the education and training of the prospective foster or adoptive parents.

Subd. 7. **Background study requirements for adoption and foster care.** (a) Background study requirements for an adoption home study must be completed consistent with section 259.41, subdivisions 1, 2, and 3.

(b) Background study requirements for a foster care license must be completed consistent with section 245C.08.

Subd. 8. **Home visits.** If a child has been placed in foster care outside the state in which the home of the parents of the child is located, periodically, but at least every six months, a caseworker on the staff of the agency of the state in which the home of the parents of the child is located or the state in which the child has been placed, or a private agency under contract with either state, must visit the child in the home or institution and submit a report on each visit to the agency of the state in which the home of the parents of the child is located.

Sec. 15. Minnesota Statutes 2006, section 260B.157, subdivision 1, is amended to read:

Subdivision 1. **Investigation.** Upon request of the court the local social services agency or probation officer shall investigate the personal and family history and environment of any minor coming within the jurisdiction of the court under section 260B.101 and shall report its findings to the court. The court may order any minor coming within its jurisdiction to be examined by a duly qualified physician, psychiatrist, or psychologist appointed by the court.

The court shall ~~have order~~ a chemical use assessment conducted when a child is (1) found to be delinquent for violating a provision of chapter 152, or for committing a felony-level violation of a provision of chapter 609 if the probation officer determines that alcohol or drug use was a contributing factor in the commission of the offense, or (2) alleged to be delinquent for violating a provision of chapter 152, if the child is being held in custody under a detention order. The assessor's qualifications and the assessment criteria shall comply with Minnesota Rules, parts 9530.6600 to 9530.6655. If funds under chapter 254B are to be used to pay for the recommended treatment, the assessment and placement must comply with all provisions of Minnesota Rules, parts 9530.6600 to 9530.6655 and 9530.7000 to 9530.7030. The commissioner of human services shall reimburse the court for the cost of the chemical use assessment, up to a maximum of \$100.

The court shall ~~have order~~ a children's mental health screening conducted when a child is found to be delinquent. The screening shall be conducted with a screening instrument approved by the commissioner of human services and shall be conducted by a mental health practitioner as defined in section 245.4871, subdivision 26, or a probation officer who is trained in the use of the screening instrument. If the screening indicates a need for assessment, the local social services agency, in consultation with the child's family, shall have a diagnostic assessment conducted, including a functional assessment, as defined in section 245.4871.

With the consent of the commissioner of corrections and agreement of the county to pay the costs thereof, the court may, by order, place a minor coming within its jurisdiction in an institution maintained by the commissioner for the detention, diagnosis, custody and treatment of persons adjudicated to be delinquent, in order that the condition of the minor be given due consideration in the disposition of the case. Any funds received under the provisions of this subdivision shall not cancel until the end of the fiscal year immediately following the fiscal year in which the funds were received. The funds are available for use by the commissioner of corrections during that period and are hereby appropriated annually to the commissioner of corrections as reimbursement of the costs of providing these services to the juvenile courts.

Sec. 16. Minnesota Statutes 2006, section 260C.152, subdivision 5, is amended to read:

Subd. 5. **Notice to foster parents and preadoptive parents and relatives.** The foster parents, if any, of a child and any preadoptive parent or relative providing care for the child must be provided notice of and ~~an opportunity a right~~ to be heard in any review or hearing to be held with respect to the child. Any other relative may also request, and must be granted, a notice and the opportunity to be heard under this section. This subdivision does not require that a foster parent, preadoptive parent, or relative providing care for the child be made a party to a review or hearing solely on the basis of the notice and ~~opportunity right~~ to be heard.

Sec. 17. Minnesota Statutes 2006, section 260C.163, subdivision 1, is amended to read:

Subdivision 1. **General.** (a) Except for hearings arising under section 260C.425, hearings on any matter shall be without a jury and may be conducted in an informal manner. In all adjudicatory proceedings involving a child alleged to be in need of protection or services, the court shall admit only evidence that would be admissible in a civil trial. To be proved at trial, allegations of a petition alleging a child to be in need of protection or services must be proved by clear and convincing evidence.

(b) Except for proceedings involving a child alleged to be in need of protection or services and petitions for the termination of parental rights, hearings may be continued or adjourned from time to time. In proceedings involving a child alleged to be in need of protection or services and petitions for the termination of parental rights, hearings may not be continued or adjourned for more than one week unless the court makes specific findings that the continuance or adjournment is in the best interests of the child. If a hearing is held on a petition involving physical or sexual abuse of a child who is alleged to be in need of protection or services or neglected and in foster care, the court shall file the decision with the court administrator as soon as possible but no later than 15 days after the matter is submitted to the court. When a continuance or adjournment is ordered in any proceeding, the court may make any interim orders as it deems in the best interests of the minor in accordance with the provisions of sections 260C.001 to 260C.421.

(c) Except as otherwise provided in this paragraph, the court shall exclude the general public from hearings under this chapter and shall admit only those persons who, in the discretion of the court, have a direct interest in the case or in the work of the court.

(d) Adoption hearings shall be conducted in accordance with the provisions of laws relating to adoptions.

(e) In any permanency hearing, including the transition of a child from foster care to independent living, the court shall ensure that any consult with the child is in an age-appropriate manner.

Sec. 18. Minnesota Statutes 2006, section 260C.201, subdivision 11, is amended to read:

**Subd. 11. Review of court-ordered placements; permanent placement determination.** (a) This subdivision and subdivision 11a do not apply in cases where the child is in placement due solely to the child's developmental disability or emotional disturbance, where legal custody has not been transferred to the responsible social services agency, and where the court finds compelling reasons under section 260C.007, subdivision 8, to continue the child in foster care past the time periods specified in this subdivision. Foster care placements of children due solely to their disability are governed by section 260C.141, subdivision 2a. In all other cases where the child is in foster care or in the care of a noncustodial parent under subdivision 1, the court shall commence proceedings to determine the permanent status of a child not later than 12 months after the child is placed in foster care or in the care of a noncustodial parent. At the admit-deny hearing commencing such proceedings, the court shall determine whether there is a prima facie basis for finding that the agency made reasonable efforts, or in the case of an Indian child active efforts, required under section 260.012 and proceed according to the rules of juvenile court.

For purposes of this subdivision, the date of the child's placement in foster care is the earlier of the first court-ordered placement or 60 days after the date on which the child has been voluntarily placed in foster care by the child's parent or guardian. For purposes of this subdivision, time spent by a child under the protective supervision of the responsible social services agency in the home of a noncustodial parent pursuant to an order under subdivision 1 counts towards the requirement of a permanency hearing under this subdivision or subdivision 11a. Time spent on a trial home visit ~~does not count~~ counts towards the requirement of a permanency hearing under this subdivision ~~or~~ and a permanency review for a child under eight years of age under subdivision 11a.

For purposes of this subdivision, 12 months is calculated as follows:

(1) during the pendency of a petition alleging that a child is in need of protection or services, all time periods when a child is placed in foster care or in the home of a noncustodial parent are cumulated;

(2) if a child has been placed in foster care within the previous five years under one or more previous petitions, the lengths of all prior time periods when the child was placed in foster care within the previous five years are cumulated. If a child under this clause has been in foster care for 12 months or more, the court, if it is in the best interests of the child and for compelling reasons, may extend the total time the child may continue out of the home under the current petition up to an additional six months before making a permanency determination.

(b) Unless the responsible social services agency recommends return of the child to the custodial parent or parents, not later than 30 days prior to the admit-deny hearing required under paragraph (a) and the rules of juvenile court, the responsible social services agency shall file pleadings in juvenile court to establish the basis for the juvenile court to order permanent placement of the child, including a termination of parental rights petition, according to paragraph (d). Notice of the hearing and copies of the pleadings must be provided pursuant to section 260C.152.

(c) The permanency proceedings shall be conducted in a timely fashion including that any trial required under section 260C.163 shall be commenced within 60 days of the admit-deny hearing required under paragraph (a). At the conclusion of the permanency proceedings, the court shall:

(1) order the child returned to the care of the parent or guardian from whom the child was removed; or

(2) order a permanent placement or termination of parental rights if permanent placement or termination of parental rights is in the child's best interests. The "best interests of the child" means all relevant factors to be considered and evaluated. Transfer of permanent legal and physical custody, termination of parental rights, or guardianship and legal custody to the commissioner through a consent to adopt are preferred permanency options for a child who cannot return home.

(d) If the child is not returned to the home, the court must order one of the following dispositions:

(1) permanent legal and physical custody to a relative in the best interests of the child according to the following conditions:

(i) an order for transfer of permanent legal and physical custody to a relative shall only be made after the court has reviewed the suitability of the prospective legal and physical custodian;

(ii) in transferring permanent legal and physical custody to a relative, the juvenile court shall follow the standards applicable under this chapter and chapter 260, and the procedures set out in the juvenile court rules;

(iii) an order establishing permanent legal and physical custody under this subdivision must be filed with the family court;

(iv) a transfer of legal and physical custody includes responsibility for the protection, education, care, and control of the child and decision making on behalf of the child;

(v) the social services agency may bring a petition or motion naming a fit and willing relative as a proposed permanent legal and physical custodian. The commissioner of human services shall annually prepare for counties information that must be given to proposed custodians about their legal rights and obligations as custodians together with information on financial and medical benefits for which the child is eligible; and

(vi) the juvenile court may maintain jurisdiction over the responsible social services agency, the parents or guardian of the child, the child, and the permanent legal and physical custodian for purposes of ensuring appropriate services are delivered to the child and permanent legal custodian or for the purpose of ensuring conditions ordered by the court related to the care and custody of the child are met;

(2) termination of parental rights when the requirements of sections 260C.301 to 260C.328 are met or according to the following conditions:

(i) order the social services agency to file a petition for termination of parental rights in which case all the requirements of sections 260C.301 to 260C.328 remain applicable; and

(ii) an adoption completed subsequent to a determination under this subdivision may include an agreement for communication or contact under section 259.58;

(3) long-term foster care according to the following conditions:

(i) the court may order a child into long-term foster care only if it approves the responsible social service agency's compelling reasons that neither an award of permanent legal and physical custody to a relative, nor termination of parental rights is in the child's best interests;

(ii) further, the court may only order long-term foster care for the child under this section if it finds the following:

(A) the child has reached age 12 and the responsible social services agency has made reasonable efforts to locate and place the child with an adoptive family or with a fit and willing relative who will agree to a transfer of permanent legal and physical custody of the child, but such efforts have not proven successful; or

(B) the child is a sibling of a child described in subitem (A) and the siblings have a significant positive relationship and are ordered into the same long-term foster care home; and

(iii) at least annually, the responsible social services agency reconsiders its provision of services to the child and the child's placement in long-term foster care to ensure that:

(A) long-term foster care continues to be the most appropriate legal arrangement for meeting the child's need for permanency and stability, including whether there is another permanent placement option under this chapter that would better serve the child's needs and best interests;

(B) whenever possible, there is an identified long-term foster care family that is committed to being the foster family for the child as long as the child is a minor or under the jurisdiction of the court;

(C) the child is receiving appropriate services or assistance to maintain or build connections with the child's family and community;

(D) the child's physical and mental health needs are being appropriately provided for; and

(E) the child's educational needs are being met;

(4) foster care for a specified period of time according to the following conditions:

(i) foster care for a specified period of time may be ordered only if:

(A) the sole basis for an adjudication that the child is in need of protection or services is the child's behavior;

(B) the court finds that foster care for a specified period of time is in the best interests of the child; and

(C) the court approves the responsible social services agency's compelling reasons that neither an award of permanent legal and physical custody to a relative, nor termination of parental rights is in the child's best interests;

(ii) the order does not specify that the child continue in foster care for any period exceeding one year; or

(5) guardianship and legal custody to the commissioner of human services under the following procedures and conditions:

(i) there is an identified prospective adoptive home agreed to by the responsible social services agency having legal custody of the child pursuant to court order under this section that has agreed to adopt the child and the court accepts the parent's voluntary consent to adopt under section 259.24, except that such consent executed by a parent under this item, following proper notice that consent given under this provision is irrevocable upon acceptance by the court, shall be irrevocable unless fraud is established and an order issues permitting revocation as stated in item (vii);

(ii) if the court accepts a consent to adopt in lieu of ordering one of the other enumerated permanency dispositions, the court must review the matter at least every 90 days. The review will address the reasonable efforts of the agency to achieve a finalized adoption;

(iii) a consent to adopt under this clause vests all legal authority regarding the child, including guardianship and legal custody of the child, with the commissioner of human services as if the child were a state ward after termination of parental rights;

(iv) the court must forward a copy of the consent to adopt, together with a certified copy of the order transferring guardianship and legal custody to the commissioner, to the commissioner;

(v) if an adoption is not finalized by the identified prospective adoptive parent within 12 months of the execution of the consent to adopt under this clause, the commissioner of human services or the commissioner's delegate shall pursue adoptive placement in another home unless the commissioner certifies that the failure to finalize is not due to either an action or a failure to act by the prospective adoptive parent;

(vi) notwithstanding item (v), the commissioner of human services or the commissioner's designee must pursue adoptive placement in another home as soon as the commissioner or commissioner's designee determines that finalization of the adoption with the identified prospective adoptive parent is not possible, that the identified prospective adoptive parent is not willing to adopt the child, that the identified prospective adoptive parent is not cooperative in completing the steps necessary to finalize the adoption, or upon the commissioner's determination to withhold consent to the adoption.

(vii) unless otherwise required by the Indian Child Welfare Act, United States Code, title 25, section 1913, a consent to adopt executed under this section, following proper notice that consent given under this provision is irrevocable upon acceptance by the court, shall be irrevocable upon acceptance by the court except upon order permitting revocation issued by the same court after written findings that consent was obtained by fraud.

(e) In ordering a permanent placement of a child, the court must be governed by the best interests of the child, including a review of the relationship between the child and relatives and the child and other important persons with whom the child has resided or had significant contact. When the court has determined that permanent placement of the child away from the parent is necessary, the court shall consider permanent alternative homes that are available both inside and outside the state.

(f) Once a permanent placement determination has been made and permanent placement has been established, further court reviews are necessary if:

(1) the placement is long-term foster care or foster care for a specified period of time;

(2) the court orders further hearings because it has retained jurisdiction of a transfer of permanent legal and physical custody matter;

(3) an adoption has not yet been finalized; or

(4) there is a disruption of the permanent or long-term placement.

(g) Court reviews of an order for long-term foster care, whether under this section or section 260C.317, subdivision 3, paragraph (d), must be conducted at least yearly and must review the child's out-of-home placement plan and the reasonable efforts of the agency to finalize the permanent plan for the child including the agency's efforts to:

(1) ensure that long-term foster care continues to be the most appropriate legal arrangement for meeting the child's need for permanency and stability or, if not, to identify and attempt to finalize another permanent placement option under this chapter that would better serve the child's needs and best interests;

(2) identify a specific long-term foster home for the child, if one has not already been identified;

(3) support continued placement of the child in the identified home, if one has been identified;

(4) ensure appropriate services are provided to address the physical health, mental health, and educational needs of the child during the period of long-term foster care and also ensure appropriate services or assistance to maintain relationships with appropriate family members and the child's community; and

(5) plan for the child's independence upon the child's leaving long-term foster care living as required under section 260C.212, subdivision 1.

(h) In the event it is necessary for a child that has been ordered into foster care for a specified period of time to be in foster care longer than one year after the permanency hearing held under this section, not later than 12 months after the time the child was ordered into foster care for a specified period of time, the matter must be returned to court for a review of the appropriateness of continuing the child in foster care and of the responsible social services agency's reasonable efforts to finalize a permanent plan for the child; if it is in the child's best interests to continue the order for foster care for a specified period of time past a total of 12 months, the court shall set objectives for the child's continuation in foster care, specify any further amount of time the child may be in foster care, and review the plan for the safe return of the child to the parent.

(i) An order permanently placing a child out of the home of the parent or guardian must include the following detailed findings:

(1) how the child's best interests are served by the order;

(2) the nature and extent of the responsible social service agency's reasonable efforts, or, in the case of an Indian child, active efforts to reunify the child with the parent or guardian where reasonable efforts are required;

(3) the parent's or parents' efforts and ability to use services to correct the conditions which led to the out-of-home placement; and

(4) that the conditions which led to the out-of-home placement have not been corrected so that the child can safely return home.

(j) An order for permanent legal and physical custody of a child may be modified under sections 518.18 and 518.185. The social services agency is a party to the proceeding and must receive notice. A parent may only seek modification of an order for long-term foster care upon motion and a showing by the parent of a substantial change in the parent's circumstances such that the parent could provide appropriate care for the child and that removal of the child from the child's permanent placement and the return to the parent's care would be in the best interest of the child. The responsible social services agency may ask the court to vacate an order for long-term foster care upon a prima facie showing that there is a factual basis for the court to order another permanency option under this chapter and that such an option is in the child's best interests. Upon a hearing where the court determines that there is a factual basis for vacating the order for long-term foster care and that another permanent order regarding the placement of the child is in the child's best interests, the court may vacate the order for long-term foster care and enter a different order for permanent placement that is in the child's best interests. The court shall not require further reasonable efforts to reunify the child with the parent or guardian as a basis for vacating the order for long-term foster care and ordering a different permanent placement in the child's best interests. The county attorney must file pleadings and give notice as required under the rules of juvenile court in order to modify an order for long-term foster care under this paragraph.

(k) The court shall issue an order required under this section within 15 days of the close of the proceedings. The court may extend issuing the order an additional 15 days when necessary in the interests of justice and the best interests of the child.

(l) This paragraph applies to proceedings required under this subdivision when the child is on a trial home visit:

(1) if the child is on a trial home visit 12 months after the child was placed in foster care or in the care of a noncustodial parent as calculated in this subdivision, the responsible social services agency may file a report with the court regarding the child's and parent's progress on the trial home visit and its reasonable efforts to finalize the child's safe and permanent return to the care of the parent in lieu of filing the pleadings required under paragraph (b). The court shall make findings regarding reasonableness of the responsible social services efforts to finalize the child's return home as the permanent order in the best interests of the child. The court may continue the trial home visit to a total time not to exceed six months as provided in subdivision 1. If the court finds the responsible social services agency has not made reasonable efforts to finalize the child's return home as the permanent order in the best interests of the child, the court may order other or additional efforts to support the child remaining in the care of the parent; and

(2) if a trial home visit ordered or continued at proceedings under this subdivision terminates, the court shall recommence proceedings under this subdivision to determine the permanent status of the child not later than 30 days after the child is returned to foster care.

Sec. 19. Minnesota Statutes 2006, section 260C.212, subdivision 1, is amended to read:

Subdivision 1. **Out-of-home placement; plan.** (a) An out-of-home placement plan shall be prepared within 30 days after any child is placed in a residential facility by court order or by the voluntary release of the child by the parent or parents.

For purposes of this section, a residential facility means any group home, family foster home or other publicly supported out-of-home residential facility, including any out-of-home residential facility under contract with the state, county or other political subdivision, or any agency thereof, to provide those services or foster care as defined in section 260C.007, subdivision 18.

(b) An out-of-home placement plan means a written document which is prepared by the responsible social services agency jointly with the parent or parents or guardian of the child and in consultation with the child's guardian ad litem, the child's tribe, if the child is an Indian child, the child's foster parent or representative of the residential facility, and, where appropriate, the child. For a child in placement due solely or in part to the child's emotional disturbance, preparation of the out-of-home placement plan shall additionally include the child's mental health treatment provider. As appropriate, the plan shall be:

(1) submitted to the court for approval under section 260C.178, subdivision 7;

(2) ordered by the court, either as presented or modified after hearing, under section 260C.178, subdivision 7, or 260C.201, subdivision 6; and

(3) signed by the parent or parents or guardian of the child, the child's guardian ad litem, a representative of the child's tribe, the responsible social services agency, and, if possible, the child.

(c) The out-of-home placement plan shall be explained to all persons involved in its implementation, including the child who has signed the plan, and shall set forth:

(1) a description of the residential facility including how the out-of-home placement plan is designed to achieve a safe placement for the child in the least restrictive, most family-like, setting available which is in close proximity to the home of the parent or parents or guardian of the child when the case plan goal is reunification, and how the placement is consistent with the best interests and special needs of the child according to the factors under subdivision 2, paragraph (b);

(2) the specific reasons for the placement of the child in a residential facility, and when reunification is the plan, a description of the problems or conditions in the home of the parent or parents which necessitated removal of the child from home and the changes the parent or parents must make in order for the child to safely return home;

(3) a description of the services offered and provided to prevent removal of the child from the home and to reunify the family including:

(i) the specific actions to be taken by the parent or parents of the child to eliminate or correct the problems or conditions identified in clause (2), and the time period during which the actions are to be taken; and

(ii) the reasonable efforts, or in the case of an Indian child, active efforts to be made to achieve a safe and stable home for the child including social and other supportive services to be provided or offered to the parent or parents or guardian of the child, the child, and the residential facility during the period the child is in the residential facility;

(4) a description of any services or resources that were requested by the child or the child's parent, guardian, foster parent, or custodian since the date of the child's placement in the residential facility, and whether those services or resources were provided and if not, the basis for the denial of the services or resources;

(5) the visitation plan for the parent or parents or guardian, other relatives as defined in section 260C.007, subdivision 27, and siblings of the child if the siblings are not placed together in the residential facility, and whether visitation is consistent with the best interest of the child, during the period the child is in the residential facility;

(6) documentation of steps to finalize the adoption or legal guardianship of the child if the court has issued an order terminating the rights of both parents of the child or of the only known, living parent of the child, ~~and~~. At a minimum, the documentation must include child-specific recruitment efforts such as relative search and the use of state, regional, and national adoption exchanges to facilitate orderly and timely placements in and outside of the state. A copy of this documentation shall be provided to the court in the review required under section 260C.317, subdivision 3, paragraph (b);

(7) ~~to the extent available and accessible,~~ the health and educational records of the child including the most recent information available regarding:

(i) the names and addresses of the child's health and educational providers;

(ii) the child's grade level performance;

(iii) the child's school record;

(iv) assurances that the child's placement in foster care takes into account proximity to the school in which the child is enrolled at the time of placement;

(v) a record of the child's immunizations;

(vi) the child's known medical problems, including any known communicable diseases, as defined in section 144.4172, subdivision 2;

(vii) the child's medications; and

(viii) any other relevant health and education information;

(8) an independent living plan for a child age 16 or older who is in placement as a result of a permanency disposition. The plan should include, but not be limited to, the following objectives:

(i) educational, vocational, or employment planning;

(ii) health care planning and medical coverage;

(iii) transportation including, where appropriate, assisting the child in obtaining a driver's license;

(iv) money management;

(v) planning for housing;

(vi) social and recreational skills; and

(vii) establishing and maintaining connections with the child's family and community; and

(9) for a child in placement due solely or in part to the child's emotional disturbance, diagnostic and assessment information, specific services relating to meeting the mental health care needs of the child, and treatment outcomes.

(d) The parent or parents or guardian and the child each shall have the right to legal counsel in the preparation of the case plan and shall be informed of the right at the time of placement of the child. The child shall also have the right to a guardian ad litem. If unable to employ counsel from their own resources, the court shall appoint counsel upon the request of the parent or parents or the child or the child's legal guardian. The parent or parents may also receive assistance from any person or social services agency in preparation of the case plan.

After the plan has been agreed upon by the parties involved or approved or ordered by the court, the foster parents shall be fully informed of the provisions of the case plan and shall be provided a copy of the plan.

Upon discharge from foster care, the parent, adoptive parent, or permanent legal and physical custodian, as appropriate, and the child, if appropriate, must be provided with a current copy of the child's health and education record.

Sec. 20. Minnesota Statutes 2006, section 260C.212, subdivision 4, is amended to read:

Subd. 4. **Responsible social service agency's duties for children in placement.** (a) When a child is in placement, the responsible social services agency shall make diligent efforts to identify, locate, and, where appropriate, offer services to both parents of the child.

(1) The responsible social services agency shall assess whether a noncustodial or nonadjudicated parent is willing and capable of providing for the day-to-day care of the child temporarily or permanently. An assessment under this clause may include, but is not limited to, obtaining information under section 260C.209. If after assessment, the responsible social services agency determines that a noncustodial or nonadjudicated parent is willing and capable of providing day-to-day care of the child, the responsible social services agency may seek authority from the custodial parent or the court to have that parent assume day-to-day care of the child. If a parent is not an adjudicated parent, the responsible social services agency shall require the nonadjudicated parent to cooperate with paternity establishment procedures as part of the case plan.

(2) If, after assessment, the responsible social services agency determines that the child cannot be in the day-to-day care of either parent, the agency shall:

(i) prepare an out-of-home placement plan addressing the conditions that each parent must meet before the child can be in that parent's day-to-day care; and

(ii) provide a parent who is the subject of a background study under section 260C.209 15 days' notice that it intends to use the study to recommend against putting the child with that parent, as well as the notice provided in section 260C.209, subdivision 4, and the court shall afford the parent an opportunity to be heard concerning the study.

The results of a background study of a noncustodial parent shall not be used by the agency to determine that the parent is incapable of providing day-to-day care of the child unless the agency reasonably believes that placement of the child into the home of that parent would endanger the child's health, safety, or welfare.

(3) If, after the provision of services following an out-of-home placement plan under this section, the child cannot return to the care of the parent from whom the child was removed or who had legal custody at the time the child was placed in foster care, the agency may petition on behalf of a noncustodial parent to establish legal custody with that parent under section 260C.201, subdivision 11. If paternity has not already been established, it may be established in the same proceeding in the manner provided for under chapter 257.

(4) The responsible social services agency may be relieved of the requirement to locate and offer services to both parents by the juvenile court upon a finding of good cause after the filing of a petition under section 260C.141.

(b) The responsible social services agency shall give notice to the parent or parents or guardian of each child in a residential facility, other than a child in placement due solely to that child's developmental disability or emotional disturbance, of the following information:

(1) that residential care of the child may result in termination of parental rights or an order permanently placing the child out of the custody of the parent, but only after notice and a hearing as required under chapter 260C and the juvenile court rules;

(2) time limits on the length of placement and of reunification services, including the date on which the child is expected to be returned to and safely maintained in the home of the parent or parents or placed for adoption or otherwise permanently removed from the care of the parent by court order;

(3) the nature of the services available to the parent;

(4) the consequences to the parent and the child if the parent fails or is unable to use services to correct the circumstances that led to the child's placement;

(5) the first consideration for placement with relatives;

(6) the benefit to the child in getting the child out of residential care as soon as possible, preferably by returning the child home, but if that is not possible, through a permanent legal placement of the child away from the parent;

(7) when safe for the child, the benefits to the child and the parent of maintaining visitation with the child as soon as possible in the course of the case and, in any event, according to the visitation plan under this section; and

(8) the financial responsibilities and obligations, if any, of the parent or parents for the support of the child during the period the child is in the residential facility.

(c) The responsible social services agency shall inform a parent considering voluntary placement of a child who is not developmentally disabled or emotionally disturbed of the following information:

(1) the parent and the child each has a right to separate legal counsel before signing a voluntary placement agreement, but not to counsel appointed at public expense;

(2) the parent is not required to agree to the voluntary placement, and a parent who enters a voluntary placement agreement may at any time request that the agency return the child. If the parent so requests, the child must be returned within 24 hours of the receipt of the request;

(3) evidence gathered during the time the child is voluntarily placed may be used at a later time as the basis for a petition alleging that the child is in need of protection or services or as the basis for a petition seeking termination of parental rights or other permanent placement of the child away from the parent;

(4) if the responsible social services agency files a petition alleging that the child is in need of protection or services or a petition seeking the termination of parental rights or other permanent placement of the child away from the parent, the parent would have the right to appointment of separate legal counsel and the child would have a right to the appointment of counsel and a guardian ad litem as provided by law, and that counsel will be appointed at public expense if they are unable to afford counsel; and

(5) the timelines and procedures for review of voluntary placements under subdivision 3, and the effect the time spent in voluntary placement on the scheduling of a permanent placement determination hearing under section 260C.201, subdivision 11.

(d) When an agency accepts a child for placement, the agency shall determine whether the child has had a physical examination by or under the direction of a licensed physician within the 12 months immediately preceding the date when the child came into the agency's care. If there is documentation that the child has had an examination within the last 12 months, the agency is responsible for seeing that the child has another physical examination within one year of the documented examination and annually in subsequent years. If the agency determines that the child has not had a physical examination within the 12 months immediately preceding placement, the agency shall ensure that the child has an examination within 30 days of coming into the agency's care and once a year in subsequent years.

(e) If a child leaves foster care by reason of having attained the age of majority under state law, the child must be given at no cost a copy of the child's health and education report.

Sec. 21. Minnesota Statutes 2006, section 260C.212, subdivision 9, is amended to read:

Subd. 9. **Review of certain child placements.** (a) When a developmentally disabled child or emotionally disturbed child needs placement in a residential facility for the sole reason of accessing services or a level of skilled care that cannot be provided in the parent's home, the child must be placed pursuant to a voluntary placement agreement between the responsible social services agency and the child's parent. The voluntary placement agreement must give the responsible social services agency legal responsibility for the child's physical care, custody, and control, but must not transfer legal custody of the child to the agency. The voluntary placement agreement must be executed in a form developed and promulgated by the commissioner of human services. The responsible social services agency shall report to the commissioner the number of children who are the subject of a voluntary placement agreement under this subdivision and other information regarding these children as the commissioner may require.

~~(b)~~ If a developmentally disabled child or a child diagnosed as emotionally disturbed has been placed in a residential facility pursuant to a voluntary release by the child's parent or parents because of the child's disabling conditions or need for long-term residential treatment or supervision, the social services agency responsible for the placement shall report to the court and bring a petition for review of the child's foster care status as required in section 260C.141, subdivision 2a.

~~(b)~~ ~~(c)~~ If a child is in placement due solely to the child's developmental disability or emotional disturbance, ~~and~~ the court finds compelling reasons not to proceed under section 260C.201, subdivision 11, ~~and~~ custody of the child is not transferred to the responsible social services agency under section 260C.201, subdivision 1, paragraph (a), clause (2), ~~and~~ no petition is required by section 260C.201, subdivision 11.

~~(c)~~ ~~(d)~~ Whenever a petition for review is brought pursuant to this subdivision, a guardian ad litem shall be appointed for the child.

Sec. 22. Minnesota Statutes 2006, section 260C.317, subdivision 3, is amended to read:

Subd. 3. **Order; retention of jurisdiction.** (a) A certified copy of the findings and the order terminating parental rights, and a summary of the court's information concerning the child shall be furnished by the court to the commissioner or the agency to which guardianship is transferred. The orders shall be on a document separate from the findings. The court shall furnish the individual to whom guardianship is transferred a copy of the order terminating parental rights.

(b) The court shall retain jurisdiction in a case where adoption is the intended permanent placement disposition until the child's adoption is finalized, the child is 18 years of age, or the child is otherwise ordered discharged from the jurisdiction of the court. The guardian ad litem and counsel for the child shall continue on the case until an adoption decree is entered. A hearing must be held every 90 days following termination of parental rights for the court to review progress toward an adoptive placement and the specific recruitment efforts the agency has taken to find an adoptive family or other placement living arrangement for the child and to finalize the adoption or other permanency plan.

(c) The responsible social services agency may make a determination of compelling reasons for a child to be in long-term foster care when the agency has made exhaustive efforts to recruit, identify, and place the child in an adoptive home, and the child continues in foster care for at least 24 months after the court has issued the order terminating parental rights. A child of any age who is under the guardianship of the commissioner of the Department of Human Services and is legally available for adoption may not refuse or waive the commissioner's agent's exhaustive efforts to recruit, identify, and place the child in an adoptive home required under paragraph (b) or sign a document relieving county social services agencies of all recruitment efforts on the child's behalf. Upon approving the agency's determination of compelling reasons, the court may order the child placed in long-term foster care. At least every 12 months thereafter as long as the child continues in out-of-home placement, the court shall conduct a permanency review hearing to determine the future status of the child using the review requirements of section 260C.201, subdivision 11, paragraph (g).

(d) The court shall retain jurisdiction through the child's minority in a case where long-term foster care is the permanent disposition whether under paragraph (c) or section 260C.201, subdivision 11.

Sec. 23. Minnesota Statutes 2006, section 260C.331, subdivision 1, is amended to read:

Subdivision 1. **Care, examination, or treatment.** (a) Except where parental rights are terminated,

(1) whenever legal custody of a child is transferred by the court to a responsible social services agency,

(2) whenever legal custody is transferred to a person other than the responsible social services agency, but under the supervision of the responsible social services agency, or

(3) whenever a child is given physical or mental examinations or treatment under order of the court, and no provision is otherwise made by law for payment for the care, examination, or treatment of the child, these costs are a charge upon the welfare funds of the county in which proceedings are held upon certification of the judge of juvenile court.

(b) The court shall order, and the responsible social services agency shall require, the parents or custodian of a child, while the child is under the age of 18, to use the total income and resources attributable to the child for the period of care, examination, or treatment, except for clothing and personal needs allowance as provided in section 256B.35, to reimburse the county for the cost of care, examination, or treatment. Income and resources attributable to the child include, but are not limited to, Social Security benefits, supplemental security income (SSI), veterans benefits, railroad retirement benefits and child support. When the child is over the age of 18, and continues to receive care, examination, or treatment, the court shall order, and the responsible social services agency shall require, reimbursement from the child for the cost of care, examination, or treatment from the income and resources attributable to the child less the clothing and personal needs allowance. Income does not include earnings from a child over the age of 18 who is working as part of a plan under section 260C.212, subdivision 1, paragraph (c), clause (8), to transition from foster care.

(c) If the income and resources attributable to the child are not enough to reimburse the county for the full cost of the care, examination, or treatment, the court shall inquire into the ability of the parents to support the child and, after giving the parents a reasonable opportunity to be heard, the court shall order, and the responsible social services agency shall require, the parents to contribute to the cost of care, examination, or treatment of the child. When determining the amount to be contributed by the parents, the court shall use a fee schedule based upon ability to pay that is established by the responsible social services agency and approved by the commissioner of human services. The income of a stepparent who has not adopted a child shall be excluded in calculating the parental contribution under this section.

(d) The court shall order the amount of reimbursement attributable to the parents or custodian, or attributable to the child, or attributable to both sources, withheld under chapter 518A from the income of the parents or the custodian of the child. A parent or custodian who fails to pay without good reason may be proceeded against for contempt, or the court may inform the county attorney, who shall proceed to collect the unpaid sums, or both procedures may be used.

(e) If the court orders a physical or mental examination for a child, the examination is a medically necessary service for purposes of determining whether the service is covered by a health insurance policy, health maintenance contract, or other health coverage plan. Court-ordered treatment shall be subject to policy, contract, or plan requirements for medical necessity. Nothing in this paragraph changes or eliminates benefit limits, conditions of coverage, co-payments or deductibles, provider restrictions, or other requirements in the policy, contract, or plan that relate to coverage of other medically necessary services.

Sec. 24. Minnesota Statutes 2006, section 626.556, subdivision 2, is amended to read:

Subd. 2. **Definitions.** As used in this section, the following terms have the meanings given them unless the specific content indicates otherwise:

(a) "Family assessment" means a comprehensive assessment of child safety, risk of subsequent child maltreatment, and family strengths and needs that is applied to a child maltreatment report that does not allege substantial child endangerment. Family assessment does not include a determination as to whether child maltreatment occurred but does determine the need for services to address the safety of family members and the risk of subsequent maltreatment.

(b) "Investigation" means fact gathering related to the current safety of a child and the risk of subsequent maltreatment that determines whether child maltreatment occurred and whether child protective services are needed. An investigation must be used when reports involve substantial child endangerment, and for reports of maltreatment in facilities required to be licensed under chapter 245A or 245B; under sections 144.50 to 144.58 and 241.021; in a school as defined in sections 120A.05, subdivisions 9, 11, and 13, and 124D.10; or in a nonlicensed personal care provider association as defined in sections 256B.04, subdivision 16, and 256B.0625, subdivision 19a.

(c) "Substantial child endangerment" means a person responsible for a child's care, and in the case of sexual abuse includes a person who has a significant relationship to the child as defined in section 609.341, or a person in a position of authority as defined in section 609.341, who by act or omission commits or attempts to commit an act against a child under their care that constitutes any of the following:

- (1) egregious harm as defined in section 260C.007, subdivision 14;
- (2) sexual abuse as defined in paragraph (d);
- (3) abandonment under section 260C.301, subdivision 2;
- (4) neglect as defined in paragraph (f), clause (2), that substantially endangers the child's physical or mental health, including a growth delay, which may be referred to as failure to thrive, that has been diagnosed by a physician and is due to parental neglect;

The police department or the county sheriff, upon receiving a report, shall immediately notify the local welfare agency or agency responsible for assessing or investigating the report, orally and in writing. The local welfare agency, or agency responsible for assessing or investigating the report, upon receiving a report, shall immediately notify the local police department or the county sheriff orally and in writing. The county sheriff and the head of every local welfare agency, agency responsible for assessing or investigating reports, and police department shall each designate a person within their agency, department, or office who is responsible for ensuring that the notification duties of this paragraph and paragraph (b) are carried out. Nothing in this subdivision shall be construed to require more than one report from any institution, facility, school, or agency.

(b) Any person may voluntarily report to the local welfare agency, agency responsible for assessing or investigating the report, police department, or the county sheriff if the person knows, has reason to believe, or suspects a child is being or has been neglected or subjected to physical or sexual abuse. The police department or the county sheriff, upon receiving a report, shall immediately notify the local welfare agency or agency responsible for assessing or investigating the report, orally and in writing. (e) For purposes of this ~~subdivision~~ section, "immediately" means as soon as possible but in no event longer than 24 hours.

Sec. 26. Minnesota Statutes 2006, section 626.556, is amended by adding a subdivision to read:

Subd. 3e. **Agency responsibility for assessing or investigating reports of sexual abuse.** The local welfare agency is the agency responsible for investigating allegations of sexual abuse if the alleged offender is the parent, guardian, sibling, or an individual functioning within the family unit as a person responsible for the child's care, or a person with a significant relationship to the child if that person resides in the child's household.

Sec. 27. Minnesota Statutes 2006, section 626.556, is amended by adding a subdivision to read:

Subd. 3f. **Law enforcement agency responsibility for investigating maltreatment.** The local law enforcement agency has responsibility for investigating any report of child maltreatment if a violation of a criminal statute is alleged. Law enforcement and the responsible agency must coordinate their investigations or assessments as required under subdivision 10.

Sec. 28. Minnesota Statutes 2006, section 626.556, subdivision 10, is amended to read:

**Subd. 10. Duties of local welfare agency and local law enforcement agency upon receipt of a report.** (a) Upon receipt of a report, the local welfare agency shall determine whether to conduct a family assessment or an investigation as appropriate to prevent or provide a remedy for child maltreatment. The local welfare agency:

(1) shall conduct an investigation on reports involving substantial child endangerment;

(2) shall begin an immediate investigation if, at any time when it is using a family assessment response, it determines that there is reason to believe that substantial child endangerment or a serious threat to the child's safety exists;

(3) may conduct a family assessment for reports that do not allege substantial child endangerment. In determining that a family assessment is appropriate, the local welfare agency may consider issues of child safety, parental cooperation, and the need for an immediate response; and

(4) may conduct a family assessment on a report that was initially screened and assigned for an investigation. In determining that a complete investigation is not required, the local welfare agency must document the reason for terminating the investigation and notify the local law enforcement agency if the local law enforcement agency is conducting a joint investigation.

If the report alleges neglect, physical abuse, or sexual abuse by a parent, guardian, or individual functioning within the family unit as a person responsible for the child's care, or sexual abuse by a person with a significant relationship to the child when that person resides in the child's household or by a sibling, the local welfare agency shall immediately conduct a family assessment or investigation as identified in clauses (1) to (4). In conducting a family assessment or investigation, the local welfare agency shall gather information on the existence of substance abuse and domestic violence and offer services for purposes of preventing future child maltreatment, safeguarding and enhancing the welfare of the abused or neglected minor, and supporting and preserving family life whenever possible. If the report alleges a violation of a criminal statute involving sexual abuse, physical abuse, or neglect or endangerment, under section 609.378, the local law enforcement agency and local welfare agency shall coordinate the planning and execution of their respective investigation and assessment efforts to avoid a duplication of fact-finding efforts and multiple interviews. Each agency shall prepare a separate report of the results of its investigation. In cases of alleged child maltreatment resulting in death, the local agency may rely on the fact-finding efforts of a law enforcement investigation to make a determination of whether or not maltreatment occurred. When necessary the local welfare agency shall seek authority to remove the child from the custody of a parent, guardian, or adult with whom the child is living. In performing any of these duties, the local welfare agency shall maintain appropriate records.

If the family assessment or investigation indicates there is a potential for abuse of alcohol or other drugs by the parent, guardian, or person responsible for the child's care, the local welfare agency shall conduct a chemical use assessment pursuant to Minnesota Rules, part 9530.6615. The local welfare agency shall report the determination of the chemical use assessment, and the recommendations and referrals for alcohol and other drug treatment services to the state authority on alcohol and drug abuse.

(b) When a local agency receives a report or otherwise has information indicating that a child who is a client, as defined in section 245.91, has been the subject of physical abuse, sexual abuse, or neglect at an agency, facility, or program as defined in section 245.91, it shall, in addition to its other duties under this section, immediately inform the ombudsman established under sections 245.91 to 245.97. The commissioner of education shall inform the ombudsman established under sections 245.91 to 245.97 of reports regarding a child defined as a client in section 245.91 that maltreatment occurred at a school as defined in sections 120A.05, subdivisions 9, 11, and 13, and 124D.10.

(c) Authority of the local welfare agency responsible for assessing or investigating the child abuse or neglect report, the agency responsible for assessing or investigating the report, and of the local law enforcement agency for investigating the alleged abuse or neglect includes, but is not limited to, authority to interview, without parental consent, the alleged victim and any other minors who currently reside with or who have resided with the alleged offender. The interview may take place at school or at any facility or other place where the alleged victim or other minors might be found or the child may be transported to, and the interview conducted at, a place appropriate for the interview of a child designated by the local welfare agency or law enforcement agency. The interview may take

place outside the presence of the alleged offender or parent, legal custodian, guardian, or school official. For family assessments, it is the preferred practice to request a parent or guardian's permission to interview the child prior to conducting the child interview, unless doing so would compromise the safety assessment. Except as provided in this paragraph, the parent, legal custodian, or guardian shall be notified by the responsible local welfare or law enforcement agency no later than the conclusion of the investigation or assessment that this interview has occurred. Notwithstanding rule ~~49.02~~ 32 of the Minnesota Rules of Procedure for Juvenile Courts, the juvenile court may, after hearing on an ex parte motion by the local welfare agency, order that, where reasonable cause exists, the agency withhold notification of this interview from the parent, legal custodian, or guardian. If the interview took place or is to take place on school property, the order shall specify that school officials may not disclose to the parent, legal custodian, or guardian the contents of the notification of intent to interview the child on school property, as provided under this paragraph, and any other related information regarding the interview that may be a part of the child's school record. A copy of the order shall be sent by the local welfare or law enforcement agency to the appropriate school official.

(d) When the local welfare, local law enforcement agency, or the agency responsible for assessing or investigating a report of maltreatment determines that an interview should take place on school property, written notification of intent to interview the child on school property must be received by school officials prior to the interview. The notification shall include the name of the child to be interviewed, the purpose of the interview, and a reference to the statutory authority to conduct an interview on school property. For interviews conducted by the local welfare agency, the notification shall be signed by the chair of the local social services agency or the chair's designee. The notification shall be private data on individuals subject to the provisions of this paragraph. School officials may not disclose to the parent, legal custodian, or guardian the contents of the notification or any other related information regarding the interview until notified in writing by the local welfare or law enforcement agency that the investigation or assessment has been concluded, unless a school employee or agent is alleged to have maltreated the child. Until that time, the local welfare or law enforcement agency or the agency responsible for assessing or investigating a report of maltreatment shall be solely responsible for any disclosures regarding the nature of the assessment or investigation.

Except where the alleged offender is believed to be a school official or employee, the time and place, and manner of the interview on school premises shall be within the discretion of school officials, but the local welfare or law enforcement agency shall have the exclusive authority to determine who may attend the interview. The conditions as to time, place, and manner of the interview set by the school officials shall be reasonable and the interview shall be conducted not more than 24 hours after the receipt of the notification unless another time is considered necessary by agreement between the school officials and the local welfare or law enforcement agency. Where the school fails to comply with the provisions of this paragraph, the juvenile court may order the school to comply. Every effort must be made to reduce the disruption of the educational program of the child, other students, or school staff when an interview is conducted on school premises.

(e) Where the alleged offender or a person responsible for the care of the alleged victim or other minor prevents access to the victim or other minor by the local welfare agency, the juvenile court may order the parents, legal custodian, or guardian to produce the alleged victim or other minor for questioning by the local welfare agency or the local law enforcement agency outside the presence of the alleged offender or any person responsible for the child's care at reasonable places and times as specified by court order.

(f) Before making an order under paragraph (e), the court shall issue an order to show cause, either upon its own motion or upon a verified petition, specifying the basis for the requested interviews and fixing the time and place of the hearing. The order to show cause shall be served personally and shall be heard in the same manner as provided in other cases in the juvenile court. The court shall consider the need for appointment of a guardian ad litem to protect the best interests of the child. If appointed, the guardian ad litem shall be present at the hearing on the order to show cause.

(g) The commissioner of human services, the ombudsman for mental health and developmental disabilities, the local welfare agencies responsible for investigating reports, the commissioner of education, and the local law enforcement agencies have the right to enter facilities as defined in subdivision 2 and to inspect and copy the facility's records, including medical records, as part of the investigation. Notwithstanding the provisions of chapter 13, they also have the right to inform the facility under investigation that they are conducting an investigation, to disclose to the facility the names of the individuals under investigation for abusing or neglecting a child, and to provide the facility with a copy of the report and the investigative findings.

(h) The local welfare agency responsible for conducting a family assessment or investigation shall collect available and relevant information to determine child safety, risk of subsequent child maltreatment, and family strengths and needs and share not public information with an Indian's tribal social services agency without violating any law of the state that may otherwise impose duties of confidentiality on the local welfare agency in order to implement the tribal state agreement. The local welfare agency or the agency responsible for investigating the report shall collect available and relevant information to ascertain whether maltreatment occurred and whether protective services are needed. Information collected includes, when relevant, information with regard to the person reporting the alleged maltreatment, including the nature of the reporter's relationship to the child and to the alleged offender, and the basis of the reporter's knowledge for the report; the child allegedly being maltreated; the alleged offender; the child's caretaker; and other collateral sources having relevant information related to the alleged maltreatment. The local welfare agency or the agency responsible for assessing or investigating the report may make a determination of no maltreatment early in an assessment, and close the case and retain immunity, if the collected information shows no basis for a full assessment or investigation.

Information relevant to the assessment or investigation must be asked for, and may include:

(1) the child's sex and age, prior reports of maltreatment, information relating to developmental functioning, credibility of the child's statement, and whether the information provided under this clause is consistent with other information collected during the course of the assessment or investigation;

(2) the alleged offender's age, a record check for prior reports of maltreatment, and criminal charges and convictions. The local welfare agency or the agency responsible for assessing or investigating the report must provide the alleged offender with an opportunity to make a statement. The alleged offender may submit supporting documentation relevant to the assessment or investigation;

(3) collateral source information regarding the alleged maltreatment and care of the child. Collateral information includes, when relevant: (i) a medical examination of the child; (ii) prior medical records relating to the alleged maltreatment or the care of the child maintained by any facility, clinic, or health care professional and an interview with the treating professionals; and (iii) interviews with the child's caretakers, including the child's parent, guardian, foster parent, child care provider, teachers, counselors, family members, relatives, and other persons who may have knowledge regarding the alleged maltreatment and the care of the child; and

(4) information on the existence of domestic abuse and violence in the home of the child, and substance abuse.

Nothing in this paragraph precludes the local welfare agency, the local law enforcement agency, or the agency responsible for assessing or investigating the report from collecting other relevant information necessary to conduct the assessment or investigation. Notwithstanding section 13.384 or 144.335, the local welfare agency has access to medical data and records for purposes of clause (3). Notwithstanding the data's classification in the possession of any other agency, data acquired by the local welfare agency or the agency responsible for assessing or investigating the report during the course of the assessment or investigation are private data on individuals and must be maintained in accordance with subdivision 11. Data of the commissioner of education collected or maintained during and for the purpose of an investigation of alleged maltreatment in a school are governed by this section, notwithstanding the data's classification as educational, licensing, or personnel data under chapter 13.

In conducting an assessment or investigation involving a school facility as defined in subdivision 2, paragraph (i), the commissioner of education shall collect investigative reports and data that are relevant to a report of maltreatment and are from local law enforcement and the school facility.

(i) Upon receipt of a report, the local welfare agency shall conduct a face-to-face contact with the child reported to be maltreated and with the child's primary caregiver sufficient to complete a safety assessment and ensure the immediate safety of the child. The face-to-face contact with the child and primary caregiver shall occur immediately if substantial child endangerment is alleged and within five calendar days for all other reports. If the alleged offender was not already interviewed as the primary caregiver, the local welfare agency shall also conduct a face-to-face interview with the alleged offender in the early stages of the assessment or investigation. At the initial contact, the local child welfare agency or the agency responsible for assessing or investigating the report must inform the alleged offender of the complaints or allegations made against the individual in a manner consistent with laws protecting the rights of the person who made the report. The interview with the alleged offender may be postponed if it would jeopardize an active law enforcement investigation.

(j) When conducting an investigation, the local welfare agency shall use a question and answer interviewing format with questioning as nondirective as possible to elicit spontaneous responses. For investigations only, the following interviewing methods and procedures must be used whenever possible when collecting information:

(1) audio recordings of all interviews with witnesses and collateral sources; and

(2) in cases of alleged sexual abuse, audio-video recordings of each interview with the alleged victim and child witnesses.

(k) In conducting an assessment or investigation involving a school facility as defined in subdivision 2, paragraph (i), the commissioner of education shall collect available and relevant information and use the procedures in paragraphs (i), (k), and subdivision 3d, except that the requirement for face-to-face observation of the child and face-to-face interview of the alleged offender is to occur in the initial stages of the assessment or investigation provided that the commissioner may also base the assessment or investigation on investigative reports and data received from the school facility and local law enforcement, to the extent those investigations satisfy the requirements of paragraphs (i) and (k), and subdivision 3d.

Sec. 29. Minnesota Statutes 2006, section 626.556, subdivision 10a, is amended to read:

Subd. 10a. ~~Abuse outside family unit~~ **Law enforcement agency responsibility for investigation; welfare agency reliance on law enforcement fact-finding; welfare agency offer of services.** (a) If the report alleges neglect, physical abuse, or sexual abuse by a person who is not a parent, guardian, sibling, person responsible for the child's care functioning outside within the family unit, or a person who lives in the child's household and who has a significant relationship to the child, in a setting other than a facility as defined in subdivision 2, the local welfare agency shall immediately notify the appropriate law enforcement agency, which shall conduct an investigation of the alleged abuse or neglect if a violation of a criminal statute is alleged.

(b) The local agency may rely on the fact-finding efforts of the law enforcement investigation conducted under this subdivision to make a determination whether or not threatened harm or other maltreatment has occurred under subdivision 2 if an alleged offender has minor children or lives with minors.

(c) The local welfare agency shall offer appropriate social services for the purpose of safeguarding and enhancing the welfare of the abused or neglected minor.

Sec. 30. Minnesota Statutes 2006, section 626.556, subdivision 10c, is amended to read:

Subd. 10c. **Duties of local social service agency upon receipt of a report of medical neglect.** If the report alleges medical neglect as defined in section 260C.007, subdivision 4.6, clause (5), the local welfare agency shall, in addition to its other duties under this section, immediately consult with designated hospital staff and with the parents of the infant to verify that appropriate nutrition, hydration, and medication are being provided; and shall immediately secure an independent medical review of the infant's medical charts and records and, if necessary, seek a court order for an independent medical examination of the infant. If the review or examination leads to a conclusion of medical neglect, the agency shall intervene on behalf of the infant by initiating legal proceedings under section 260C.141 and by filing an expedited motion to prevent the withholding of medically indicated treatment.

Sec. 31. Minnesota Statutes 2006, section 626.556, subdivision 10f, is amended to read:

Subd. 10f. **Notice of determinations.** Within ten working days of the conclusion of a family assessment, the local welfare agency shall notify the parent or guardian of the child of the need for services to address child safety concerns or significant risk of subsequent child maltreatment. The local welfare agency and the family may also jointly agree that family support and family preservation services are needed. Within ten working days of the conclusion of an investigation, the local welfare agency or agency responsible for assessing or investigating the report shall notify the parent or guardian of the child, the person determined to be maltreating the child, and if applicable, the director of the facility, of the determination and a summary of the specific reasons for the determination. The notice must also include a certification that the information collection procedures under subdivision 10, paragraphs (h), (i), and (j), were followed and a notice of the right of a data subject to obtain access to other private data on the subject collected, created, or maintained under this section. In addition, the notice shall include the length of time that the records will be kept under subdivision 11c. The investigating agency shall notify the parent or guardian of the child who is the subject of the report, and any person or facility determined to have maltreated a child, of their appeal or review rights under this section or section 256.022. The notice must also state that a finding of maltreatment may result in denial of a license application or background study disqualification under chapter 245C related to employment or services that are licensed by the Department of Human Services under chapter 245A, the Department of Health under chapter 144 or 144A, the Department of Corrections under section 241.021, and from providing services related to an unlicensed personal care provider organization under chapter 256B.

Sec. 12. Minnesota Statutes 2006, section 119B.13, subdivision 1, is amended to read:

Subdivision 1. **Subsidy restrictions.** (a) Beginning July 1, 2006, the maximum rate paid for child care assistance in any county or multicounty region under the child care fund shall be the rate for like-care arrangements in the county effective January 1, 2006, increased by six percent.

(b) Rate changes shall be implemented for services provided in September 2006 unless a participant eligibility redetermination or a new provider agreement is completed between July 1, 2006, and August 31, 2006.

As necessary, appropriate notice of adverse action must be made according to Minnesota Rules, part 3400.0185, subparts 3 and 4.

New cases approved on or after July 1, 2006, shall have the maximum rates under paragraph (a), implemented immediately.

(c) ~~Not less than once every two years~~ Every year, the commissioner shall survey rates charged by child care providers in Minnesota to determine the 75th percentile for like-care arrangements in counties. When the commissioner determines that, using the commissioner's established protocol, the number of providers responding to the survey is too small to determine the 75th percentile rate for like-care arrangements in a county or multicounty region, the commissioner may establish the 75th percentile maximum rate based on like-care arrangements in a county, region, or category that the commissioner deems to be similar.

(d) A rate which includes a special needs rate paid under subdivision 3 or under a school readiness service agreement paid under section 61 may be in excess of the maximum rate allowed under this subdivision.

(e) The department shall monitor the effect of this paragraph on provider rates. The county shall pay the provider's full charges for every child in care up to the maximum established. The commissioner shall determine the maximum rate for each type of care on an hourly, full-day, and weekly basis, including special needs and disability care.

(f) When the provider charge is greater than the maximum provider rate allowed, the parent is responsible for payment of the difference in the rates in addition to any family co-payment fee.

Sec. 13. Minnesota Statutes 2006, section 119B.13, subdivision 3a, is amended to read:

Subd. 3a. **Provider rate differential for accreditation.** A family child care provider or child care center shall be paid a 15 percent differential above the maximum rate established in subdivision 1, up to the actual provider rate, if the provider or center holds a current early childhood development credential or is accredited. For a family child care provider, early childhood development credential and accreditation includes an individual who has earned a child development associate degree, a child development associate credential, a diploma in child development from a Minnesota state technical college, or a bachelor's or post baccalaureate degree in early childhood education from an accredited college or university, or who is accredited by the National Association for Family Child Care or the Competency Based Training and Assessment Program. For a child care center, accreditation includes accreditation by the National Association for the Education of Young Children, the Council on Accreditation, the National Early Childhood Program Accreditation, the National School-Age Care Association, or the National Head Start Association Program of Excellence. For Montessori programs, accreditation includes the American Montessori Society, Association of Montessori International-USA, or the National Center for Montessori Education.

Sec. 14. Minnesota Statutes 2006, section 119B.13, subdivision 6, is amended to read:

Subd. 6. **Provider payments.** (a) Counties or the state shall make vendor payments to the child care provider or pay the parent directly for eligible child care expenses.

(b) If payments for child care assistance are made to providers, the provider shall bill the county for services provided within ten days of the end of the service period. If bills are submitted within ten days of the end of the service period, a county or the state shall issue payment to the provider of child care under the child care fund within 30 days of receiving a bill from the provider. Counties or the state may establish policies that make payments on a more frequent basis.

(c) ~~All bills~~ If a provider has received an authorization of care and has been issued a billing form for an eligible family, the bill must be submitted within 60 days of the last date of service on the bill. A county may pay a bill submitted more than 60 days after the last date of service if the provider shows good cause why the bill was not submitted within 60 days. Good cause must be defined in the county's child care fund plan under section 119B.08, subdivision 3, and the definition of good cause must include county error. A county may not pay any bill submitted more than a year after the last date of service on the bill.

(d) If a provider provided care for a time period without receiving an authorization of care and a billing form for an eligible family, payment of child care assistance may only be made retroactively for a maximum of six months from the date the provider is issued an authorization of care and a billing form.

~~(d)~~ (e) A county may stop payment issued to a provider or may refuse to pay a bill submitted by a provider if:

(1) the provider admits to intentionally giving the county materially false information on the provider's billing forms; or

(2) a county finds by a preponderance of the evidence that the provider intentionally gave the county materially false information on the provider's billing forms.

~~(e)~~ (f) A county's payment policies must be included in the county's child care plan under section 119B.08, subdivision 3. If payments are made by the state, in addition to being in compliance with this subdivision, the payments must be made in compliance with section 16A.124.

Sec. 15. Minnesota Statutes 2006, section 119B.13, subdivision 7, is amended to read:

Subd. 7. **Absent days.** (a) Child care providers may not be reimbursed for more than 25 full-day absent days per child, excluding holidays, in a fiscal year, or for more than ten consecutive full-day absent days, unless the child has a documented medical condition that causes more frequent absences. Absences due to a documented medical condition of a parent or sibling who lives in the same residence as the child receiving child care assistance do not count against the 25-day absent day limit in a fiscal year. Documentation of medical conditions must be on the forms and submitted according to the timelines established by the commissioner. A public health nurse or school nurse may verify the illness in lieu of a medical practitioner. If a provider sends a child home early due to a medical reason, including, but not limited to, fever or contagious illness, the child care center director or lead teacher may verify the illness in lieu of a medical practitioner. If a child attends for part of the time authorized to be in care in a day, but is absent for part of the time authorized to be in care in that same day, the absent time will be reimbursed but the time will not count toward the ten consecutive or 25 cumulative absent day limits. Children in families where at least one parent is under the age of 21, does not have a high school or general equivalency diploma, and is a student in a school district or another similar program that provides or arranges for child care, as well as parenting,

social services, career and employment supports, and academic support to achieve high school graduation, may be exempt from the absent day limits upon request of the program and approval of the county. If a child attends part of an authorized day, payment to the provider must be for the full amount of care authorized for that day. Child care providers may only be reimbursed for absent days if the provider has a written policy for child absences and charges all other families in care for similar absences.

(b) Child care providers must be reimbursed for up to ten federal or state holidays or designated holidays per year when the provider charges all families for these days and the holiday or designated holiday falls on a day when the child is authorized to be in attendance. Parents may substitute other cultural or religious holidays for the ten recognized state and federal holidays. Holidays do not count toward the ten consecutive or 25 cumulative absent day limits.

(c) A family or child care provider may not be assessed an overpayment for an absent day payment unless (1) there was an error in the amount of care authorized for the family, (2) all of the allowed full-day absent payments for the child have been paid, or (3) the family or provider did not timely report a change as required under law.

(d) The provider and family must receive notification of the number of absent days used upon initial provider authorization for a family and when the family has used 15 cumulative absent days. Upon statewide implementation of the Minnesota Electronic Child Care System, the provider and family authorization for a family and ongoing notification of the number of absent days used as of the date of the notification.

(e) A county may pay for more absent days than the statewide absent day policy established under this subdivision if current market practice in the county justifies payment for those additional days. County policies for payment of absent days in excess of the statewide absent day policy and justification for these county policies must be included in the county's child care fund plan under section 119B.08, subdivision 3. This paragraph may be implemented by counties on or after July 1, 2008.

Sec. 16. Minnesota Statutes 2006, section 119B.21, subdivision 5, is amended to read:

Subd. 5. **Child care services grants.** (a) A child care resource and referral program designated under section 119B.19, subdivision 1a, may award child care services grants for:

(1) creating new licensed child care facilities and expanding existing facilities, including, but not limited to, supplies, equipment, facility renovation, and remodeling;

(2) improving licensed child care facility programs;

(3) staff training and development services including, but not limited to, in-service training, curriculum development, accreditation, certification, consulting, resource centers, ~~and~~ program and resource materials, supporting effective teacher-child interactions, child-focused teaching, and content-driven classroom instruction;

(4) interim financing;

(5) capacity building through the purchase of appropriate technology to create, enhance, and maintain business management systems;

(6) emergency assistance for child care programs;

(7) new programs or projects for the creation, expansion, or improvement of programs that serve ethnic immigrant and refugee communities; and

(8) targeted recruitment initiatives to expand and build the capacity of the child care system and to improve the quality of care provided by legal nonlicensed child care providers.

(b) A child care resource and referral program designated under section 119B.19, subdivision 1a, may award child care services grants to:

- (1) licensed providers;
- (2) providers in the process of being licensed;
- (3) corporations or public agencies that develop or provide child care services;
- (4) school-age care programs; or
- (5) any combination of clauses (1) to (4).

Unlicensed providers are only eligible for grants under paragraph (a), clause (7).

(c) A recipient of a child care services grant for facility improvements, interim financing, or staff training and development must provide a 25 percent local match.

~~(6) may cooperate with other state agencies in establishing reciprocal agreements in instances where a child receiving Minnesota family investment program assistance moves or contemplates moving into or out of the state, in order that such child may continue to receive supervised aid from the state moved from until the child shall have resided for one year in the state moved to;~~

~~(7)~~ (5) on or before October 1 in each even-numbered year make a biennial report to the governor concerning the activities of the agency;

The appointments required under this paragraph must be completed by September 1, 2007.

Topics for discussion may include child support enforcement, adoption services, child care licensing, child care assistance, and other programs. The state senators and state representatives on the advisory committee, in consultation with the advisory committee, shall report annually to the chairs of the legislative committees and divisions with jurisdiction over the Department of Human Services, beginning January 15, 2008, with recommendations developed by the advisory group.

For purposes of section 176.191, subdivision 4, the Department of Labor and Industry may allow the Department of Human Services and county agencies direct access and data matching on information relating to workers' compensation claims in order to determine whether the claimant has reported the fact of a pending claim and the amount paid to or on behalf of the claimant to the Department of Human Services. The Department of Human Services and county agencies shall limit its use of information gained from agencies, third party payers, and employers to purposes directly connected with the administration of its public assistance and child support programs. The provision of information by agencies, third party payers, and employers to the department under this subdivision is not a violation of any right of confidentiality or data privacy.

The purpose of the compliance system is to permit the commissioner to supervise the administration of public assistance programs and to enforce timely and accurate distribution of benefits, completeness of service and efficient and effective program management and operations, to increase uniformity and consistency in the administration and delivery of public assistance programs throughout the state, and to reduce the possibility of sanctions and fiscal disallowances for noncompliance with federal regulations and state statutes.

The commissioner shall utilize training, technical assistance, and monitoring activities, as specified in section 256.01, subdivision 2, to encourage county agency compliance with written policies and procedures.

Sec. 21. Minnesota Statutes 2006, section 256.017, subdivision 9, is amended to read:

**Subdivision 1. Assessments.** (a) For purposes of MFIP employment services, assessment is a continuing process of gathering information related to employability for the purpose of identifying both participant's strengths and strategies for coping with issues that interfere with employment. The job counselor must use information from the assessment process to develop and update the employment plan under subdivision 2 or 3, as appropriate, ~~and~~ to determine whether the participant qualifies for a family violence waiver including an employment plan under subdivision 3, and to determine whether the participant should be referred to the family stabilization services program under section 256J.575.

(b) The scope of assessment must cover at least the following areas:

(1) basic information about the participant's ability to obtain and retain employment, including: a review of the participant's education level; interests, skills, and abilities; prior employment or work experience; transferable work skills; child care and transportation needs;

(2) identification of personal and family circumstances that impact the participant's ability to obtain and retain employment, including: any special needs of the children, the level of English proficiency, family violence issues, and any involvement with social services or the legal system;

Screening tools for mental and chemical health and special learning needs must be approved by the commissioner and may only be administered by job counselors or county staff trained in using such screening tools. The commissioner shall work with county agencies to develop protocols for referrals and follow-up actions after screens are administered to participants, including guidance on how employment plans may be modified based upon outcomes of certain screens. Participants must be told of the purpose of the screens and how the information will be used to assist the participant in identifying and overcoming barriers to employment. Screening for mental and chemical health and special learning needs must be completed by participants who are unable to find suitable employment after six weeks of job search under subdivision 2, paragraph (b), and participants who are determined to have barriers to employment under subdivision 2, paragraph (d). Failure to complete the screens will result in sanction under section 256J.46; and

(4) a comprehensive review of participation and progress for participants who have received MFIP assistance and have not worked in unsubsidized employment during the past 12 months. The purpose of the review is to determine the need for additional services and supports, including placement in subsidized employment or unpaid work experience under section 256J.49, subdivision 13, or referral to the family stabilization services program under section 256J.575.

(c) Information gathered during a caregiver's participation in the diversionary work program under section 256J.95 must be incorporated into the assessment process.

(d) The job counselor may require the participant to complete a professional chemical use assessment to be performed according to the rules adopted under section 254A.03, subdivision 3, including provisions in the administrative rules which recognize the cultural background of the participant, or a professional psychological assessment as a component of the assessment process, when the job counselor has a reasonable belief, based on objective evidence, that a participant's ability to obtain and retain suitable employment is impaired by a medical condition. The job counselor may assist the participant with arranging services, including child care assistance and transportation, necessary to meet needs identified by the assessment. Data gathered as part of a professional assessment must be classified and disclosed according to the provisions in section 13.46.

Sec. 38. Minnesota Statutes 2006, section 256J.521, subdivision 2, is amended to read:

Subd. 2. **Employment plan; contents.** (a) Based on the assessment under subdivision 1, the job counselor and the participant must develop an employment plan that includes participation in activities and hours that meet the requirements of section 256J.55, subdivision 1. The purpose of the employment plan is to identify for each participant the most direct path to unsubsidized employment and any subsequent steps that support long-term economic stability. The employment plan should be developed using the highest level of activity appropriate for the participant. Activities must be chosen from clauses (1) to (6), which are listed in order of preference. Notwithstanding this order of preference for activities, priority must be given for activities related to a family violence waiver when developing the employment plan. The employment plan must also list the specific steps the participant will take to obtain employment, including steps necessary for the participant to progress from one level of activity to another, and a timetable for completion of each step. Levels of activity include:

- (1) unsubsidized employment;
- (2) job search;
- (3) subsidized employment or unpaid work experience;
- (4) unsubsidized employment and job readiness education or job skills training;

(5) unsubsidized employment or unpaid work experience and activities related to a family violence waiver or preemployment needs; and

- (6) activities related to a family violence waiver or preemployment needs.

(b) Participants who are determined to possess sufficient skills such that the participant is likely to succeed in obtaining unsubsidized employment must job search at least 30 hours per week for up to six weeks and accept any offer of suitable employment. The remaining hours necessary to meet the requirements of section 256J.55, subdivision 1, may be met through participation in other work activities under section 256J.49, subdivision 13. The participant's employment plan must specify, at a minimum: (1) whether the job search is supervised or unsupervised; (2) support services that will be provided; and (3) how frequently the participant must report to the job counselor. Participants who are unable to find suitable employment after six weeks must meet with the job counselor to determine whether other activities in paragraph (a) should be incorporated into the employment plan. Job search activities which are continued after six weeks must be structured and supervised.

(c) Beginning July 1, 2004, activities and hourly requirements in the employment plan may be adjusted as necessary to accommodate the personal and family circumstances of participants identified under section 256J.561, subdivision 2, paragraph (d). Participants who no longer meet the provisions of section 256J.561, subdivision 2, paragraph (d), must meet with the job counselor within ten days of the determination to revise the employment plan.

(d) Participants who are determined to have barriers to obtaining or retaining employment that will not be overcome during six weeks of job search under paragraph (b) must work with the job counselor to develop an employment plan that addresses those barriers by incorporating appropriate activities from paragraph (a), clauses (1) to (6). The employment plan must include enough hours to meet the participation requirements in section 256J.55, subdivision 1, unless a compelling reason to require fewer hours is noted in the participant's file.

- (e) The job counselor and the participant must sign the employment plan to indicate agreement on the contents.

(f) Except as provided under paragraph (g), failure to develop or comply with activities in the plan, or voluntarily quitting suitable employment without good cause, will result in the imposition of a sanction under section 256J.46. The job counselor is encouraged to allow participants who are participating in at least 20 hours of work activities to also participate in employment and training activities in order to meet the federal hourly participation rates.

(g) When a participant fails to meet the agreed upon hours of participation in paid employment because the participant is not eligible for holiday pay and the participant's place of employment is closed for a holiday, the job counselor shall not impose a sanction or increase the hours of participation in any other activity, including paid employment, to offset the hours that were missed due to the holiday.

(h) Except as provided under paragraph (g), employment plans must be reviewed at least every three months to determine whether activities and hourly requirements should be revised. The job counselor is encouraged to allow participants who are participating in at least 20 hours of work activities to also participate in education and training activities in order to meet the federal hourly participations rates.

Sec. 41. **[256J.575] FAMILY STABILIZATION SERVICES.**

Subdivision 1. Purpose. (a) The family stabilization services serve families who are not making significant progress within the Minnesota family investment program (MFIP) due to a variety of barriers to employment.

(b) The goal of the services is to stabilize and improve the lives of families at risk of long-term welfare dependency or family instability due to employment barriers such as physical disability, mental disability, age, or providing care for a disabled household member. These services promote and support families to achieve the greatest possible degree of self-sufficiency.

Subd. 2. Definitions. The terms used in this section have the meanings given them in paragraphs (a) to (d).

(a) "Case manager" means the county-designated staff person or employment services counselor.

(b) "Case management" means the services provided by or through the county agency or through the employment services agency to participating families, including assessment, information, referrals, and assistance in the preparation and implementation of a family stabilization plan under subdivision 5.

(c) "Family stabilization plan" means a plan developed by a case manager and the participant, which identifies the participant's most appropriate path to unsubsidized employment, family stability, and barrier reduction, taking into account the family's circumstances.

(d) "Family stabilization services" means programs, activities, and services in this section that provide participants and their family members with assistance regarding, but not limited to:

(1) obtaining and retaining unsubsidized employment;

(2) family stability;

(3) economic stability; and

(4) barrier reduction.

The goal of the services is to achieve the greatest degree of economic self-sufficiency and family well-being possible for the family under the circumstances.

Subd. 3. **Eligibility.** (a) The following MFIP or diversionary work program (DWP) participants are eligible for the services under this section:

(1) a participant who meets the requirements for or has been granted a hardship extension under section 256J.425, subdivision 2 or 3, except that it is not necessary for the participant to have reached or be approaching 60 months of eligibility for this section to apply;

(2) a participant who is applying for supplemental security income or Social Security disability insurance; and

(3) a participant who is a noncitizen who has been in the United States for 12 or fewer months.

(b) Families must meet all other eligibility requirements for MFIP established in this chapter. Families are eligible for financial assistance to the same extent as if they were participating in MFIP.

(c) A participant under paragraph (a), clause (5), must be provided with English as a second language opportunities and skills training for up to 12 months. After 12 months, the case manager and participant must determine whether the participant should continue with English as a second language classes or skills training, or both, or if the participant should become an MFIP participant.

Subd. 4. **Universal participation.** All caregivers must participate in family stabilization services as defined in subdivision 2.

Subd. 5. **Case management; family stabilization plans; coordinated services.** (a) The county agency or employment services provider shall provide family stabilization services to families through a case management model. A case manager shall be assigned to each participating family within 30 days after the family begins to receive financial assistance as a participant of the family stabilization services. The case manager, with the full involvement of the participant, shall recommend, and the county agency shall establish and modify as necessary, a family stabilization plan for each participating family. If a participant is already assigned to a county case manager or a county-designated case manager in social services, disability services, or housing services that case manager already assigned may be the case manager for purposes of these services.

(b) The family stabilization plan must include:

(1) each participant's plan for long-term self-sufficiency, including an employment goal where applicable;

(2) an assessment of each participant's strengths and barriers, and any special circumstances of the participant's family that impact, or are likely to impact, the participant's progress towards the goals in the plan; and

(3) an identification of the services, supports, education, training, and accommodations needed to reduce or overcome any barriers to enable the family to achieve self-sufficiency and to fulfill each caregiver's personal and family responsibilities.

(c) The case manager and the participant shall meet within 30 days of the family's referral to the case manager. The initial family stabilization plan must be completed within 30 days of the first meeting with the case manager. The case manager shall establish a schedule for periodic review of the family stabilization plan that includes personal contact with the participant at least once per month. In addition, the case manager shall review and, if necessary, modify the plan under the following circumstances:

(1) there is a lack of satisfactory progress in achieving the goals of the plan;

(2) the participant has lost unsubsidized or subsidized employment;

- (3) a family member has failed or is unable to comply with a family stabilization plan requirement;
- (4) services, supports, or other activities required by the plan are unavailable;
- (5) changes to the plan are needed to promote the well-being of the children; or

**Subd. 6. Cooperation with services requirements.** (a) To be eligible, a participant shall comply with paragraphs (b) to (d).

(b) Participants shall engage in family stabilization plan services for the appropriate number of hours per week that the activities are scheduled and available, unless good cause exists for not doing so, as defined in section 256J.57, subdivision 1. The appropriate number of hours must be based on the participant's plan.

(c) The case manager shall review the participant's progress toward the goals in the family stabilization plan every six months to determine whether conditions have changed, including whether revisions to the plan are needed.

(d) A participant's requirement to comply with any or all family stabilization plan requirements under this subdivision is excused when the case management services, training and educational services, and family support services identified in the participant's family stabilization plan are unavailable for reasons beyond the control of the participant, including when money appropriated is not sufficient to provide the services.

**Subd. 7. Sanctions.** (a) The financial assistance grant of a participating family is reduced according to section 256J.46, if a participating adult fails without good cause to comply or continue to comply with the family stabilization plan requirements in this subdivision, unless compliance has been excused under subdivision 6, paragraph (e).

(b) Given the purpose of the family stabilization services in this section and the nature of the underlying family circumstances that act as barriers to both employment and full compliance with program requirements, sanctions are appropriate only when it is clear that there is both the ability to comply and willful noncompliance by the participant, as confirmed by a behavioral health or medical professional.

(c) Prior to the imposition of a sanction, the county agency or employment services provider shall review the participant's case to determine if the family stabilization plan is still appropriate and meet with the participant face-to-face. The participant may bring an advocate to the face-to-face meeting.

During the face-to-face meeting, the county agency shall:

(1) determine whether the continued noncompliance can be explained and mitigated by providing a needed family stabilization service, as defined in subdivision 2, paragraph (d);

(2) determine whether the participant qualifies for a good cause exception under section 256J.57, or if the sanction is for noncooperation with child support requirements, determine if the participant qualifies for a good cause exemption under section 256.741, subdivision 10;

(3) determine whether activities in the family stabilization plan are appropriate based on the family's circumstances;

(4) explain the consequences of continuing noncompliance;

(5) identify other resources that may be available to the participant to meet the needs of the family; and

(6) inform the participant of the right to appeal under section 256J.40.

If the lack of an identified activity or service can explain the noncompliance, the county shall work with the participant to provide the identified activity.

(d) If the participant fails to come to the face-to-face meeting, the case manager or a designee shall attempt at least one home visit. If a face-to-face meeting is not conducted, the county agency shall send the participant a written notice that includes the information under paragraph (c).

(e) After the requirements of paragraphs (c) and (d) are met and prior to imposition of a sanction, the county agency shall provide a notice of intent to sanction under section 256J.57, subdivision 2, and, when applicable, a notice of adverse action under section 256J.31.

(f) Section 256J.57 applies to this section except to the extent that it is modified by this subdivision.

Subd. 8. **Funding.** (a) The commissioner of human services shall treat MFIP expenditures made to or on behalf of any minor child under this section, who is part of a household that meets criteria in subdivision 3, as expenditures under a separately funded state program. These expenditures shall not count toward the state's maintenance of effort requirements under the federal TANF program.

(b) A family is no longer part of a separately funded program under this section if the caregiver no longer meets the criteria for family stabilization services in subdivision 3, or if it is determined at recertification that the caregiver is meeting the federal work participation rate, whichever occurs sooner.

Sec. 42. **[256J.621] WORK PARTICIPATION BONUS.**

(a) Upon exiting the diversionary work program (DWP) or upon terminating MFIP cash assistance with earnings, a participant who is employed may be eligible for transitional assistance of \$100 per month to assist in meeting the family's basic needs as the participant continues to move toward self-sufficiency.

(b) To be eligible for a transitional assistance payment, the participant shall not receive MFIP cash assistance or diversionary work program assistance during the month and the participant or participants must meet the following work requirements:

(1) if the participant is a single caregiver and has a child under six years of age, the participant must be employed at least 87 hours per month;

(2) if the participant is a single caregiver and does not have a child under six years of age, the participant must be employed at least 130 hours per month; or

(3) if the household is a two-parent family, at least one of the parents must be employed an average of at least 130 hours per month.

Whenever a participant exits the diversionary work program or is terminated from MFIP cash assistance and meets the other criteria in this section, transitional assistance is available for up to 24 consecutive months.

(c) Expenditures on the program are maintenance of effort state funds for participants under paragraph (b), clauses (1) and (2). Expenditures for participants under paragraph (b), clause (3), are nonmaintenance of effort funds. Months in which a participant receives transitional assistance under this section do not count toward the participant's MFIP 60-month time limit.

**EFFECTIVE DATE.** This section is effective February 1, 2009.

Sec. 43. Minnesota Statutes 2006, section 256J.626, subdivision 1, is amended to read:

Projects shall be targeted to geographic areas with poor outcomes as specified in section 256J.751, subdivision 5, or to subgroups within the MFIP case load who are experiencing poor outcomes. For purposes of an incentive, a county or tribe exceeds performance if the county or tribe is above the top of the county or tribe's annualized range of expected performance on the three-year self-support index under section 256J.751, subdivision 2, clause (6), and achieves a 50 percent MFIP participation rate under section 256J.751, subdivision 2, clause (7), as averaged across the four quarterly measurements for the most recent year for which the measurements are available.

The expected range shall be derived by a statistical methodology developed by the commissioner in consultation with the counties and tribes. The statistical methodology shall control differences across counties in economic conditions and demographics of the MFIP and DWP case load; and

(7) the MFIP TANF work participation rate, defined as the participation requirements specified ~~in title 1 of Public Law 104-193 applied to all MFIP cases except child only cases~~ under Public Law 109-171, the Deficit Reduction Act of 2005.

Sec. 51. Minnesota Statutes 2006, section 256J.751, subdivision 5, is amended to read:

Subd. 5. **Failure to meet federal performance standards.** (a) If sanctions occur for failure to meet the performance standards specified in title 1 of Public Law 104-193 of the Personal Responsibility and Work Opportunity Act of 1996, and under Public Law 109-171, the Deficit Reduction Act of 2005, the state shall pay 88

percent of the sanction. The remaining 12 percent of the sanction will be paid by the counties. The county portion of the sanction will be distributed across all counties in proportion to each county's percentage of the MFIP average monthly caseload during the period for which the sanction was applied.

(b) If a county fails to meet the performance standards specified in title 1 of Public Law 104-193 of the Personal Responsibility and Work Opportunity Act of 1996, and Public Law 109-171, the Deficit Reduction Act of 2005, for any year, the commissioner shall work with counties to organize a joint state-county technical assistance team to work with the county. (2) performs below 40 percent for the measure in subdivision 2, clause ~~(8)~~ (7), as averaged across the four quarterly measurements for the year, or the ten counties with the lowest rates if more than ten are below 40 percent.

(d) Low-performing counties under paragraph (c) must engage in corrective action planning as defined by the commissioner. The commissioner may coordinate technical assistance as specified in paragraph (b) for low-performing counties under paragraph (c).

Family units that are not eligible for the diversionary work program include:

(1) child only cases;

(7) family units with a caregiver who received MFIP within the 12 months prior to the month the family unit applied for DWP;

(8) a family unit with a caregiver who received 60 or more months of TANF assistance; ~~and~~

(9) a family unit with a caregiver who is disqualified from DWP or MFIP due to fraud; and

(10) refugees as defined in Code of Federal Regulations, title 45, chapter IV, section 444.43, who arrived in the United States in the 12 months prior to the date of application for family cash assistance.

(b) A two-parent family must participate in DWP unless both caregivers meet the criteria for an exception under paragraph (a), clauses (1) through (5), or the family unit includes a parent who meets the criteria in paragraph (a), clause (6), (7), (8), or (9).

(c) Once DWP eligibility is determined, the four months run consecutively. If a participant leaves the program for any reason and reapplies during the four-month period, the county must redetermine eligibility for DWP.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 53. Minnesota Statutes 2006, section 256K.45, is amended by adding a subdivision to read:

Sec. 58. **MINNESOTA FOOD SUPPORT PROGRAM SIMPLIFIED APPLICATION.**

The commissioner of human services shall implement a simplified application form and process for the food support program by January 1, 2008. The commissioner shall consult with counties and representatives of persons served by the program to develop the simplified application form and process. The application process shall:

- (1) include a simple, short form that can be completed by individuals with limited literacy skills;
- (2) include an application form for individuals without dependents;
- (3) include a process that does not require individuals to take time off work for a face-to-face interview; and
- (4) minimize demands on county staff in assisting applicants.

**EFFECTIVE DATE.** This section is effective January 1, 2008.

Sec. 59. **INSPECTION OF LEGAL UNLICENSED CHILD CARE PROVIDERS.**

The commissioner of human services, in consultation with the commissioner of health and the counties, shall develop and present recommendations to the legislature in January 2008 in order for each legally unlicensed child care provider receiving child care assistance funds to receive a onetime home visit to receive information on health and safety, and school readiness.

Sec. 60. **COMMISSIONER OF HUMAN SERVICES DUTIES; EARLY CHILDHOOD AND SCHOOL-AGE PROFESSIONAL DEVELOPMENT TRAINING.**

**Subdivision 1. Development and implementation of an early childhood and school-age professional development system.** (a) The commissioner of human services, in cooperation with the commissioners of education and health, shall develop and phase-in the implementation of a professional development system for practitioners serving children in early childhood and school-age programs. The system shall provide training options and supports for practitioners to voluntarily choose, as they complete or exceed existing licensing requirements.

The system must, at a minimum, include the following features:

- (1) a continuum of training content based on the early childhood and school-age care practitioner core competencies that translates knowledge into improved practice to support children's school success;
- (2) training strategies that provide direct feedback about practice to practitioners through ongoing consultation, mentoring, or coaching with special emphasis on early literacy and early mathematics;
- (3) an approval process for trainers;
- (4) a professional development registry for early childhood and school-age care practitioners that will provide tracking and recognition of practitioner training/career development progress;
- (5) a career lattice that includes a range of professional development and educational opportunities that provide appropriate coursework and degree pathways;

(6) development of a plan with public higher education institutions for an articulated system of education, training, and professional development that includes credit for prior learning and development of equivalences to two- and four-year degrees;

(7) incentives and supports for early childhood and school-age care practitioners to seek additional training and education, including TEACH, other scholarships, and career guidance; and

(8) coordinated and accessible delivery of training to early childhood and school-age care practitioners.

(b) By January 1, 2008, the commissioner, in consultation with the organizations named in subdivision 2 shall develop additional opportunities in order to qualify more licensed family child care providers under section 119B.13, subdivision 3a.

(c) The commissioner of human services must evaluate the professional development system and make continuous improvements.

(d) Beginning July 1, 2007, as appropriations permit, the commissioner shall phase-in the professional development system.

Subd. 2. **Two-hour early childhood training.** By January 15, 2008, the commissioner of human services, with input from the Minnesota Licensed Family Child Care Association and the Minnesota Professional Development Council, shall identify trainings that qualify for the two-hour early childhood development training requirement for new child care practitioners under Minnesota Statutes, section 245A.14, subdivision 9a, paragraphs (a) and (b). For licensed family child care, the commissioner shall also seek the input of labor unions that serve licensed family child care providers, if the union has been recognized by a county to serve licensed family child care providers.

#### Sec. 61. **SCHOOL READINESS SERVICE AGREEMENTS.**

Subdivision 1. **Overview.** (a) Effective July 1, 2007, funds must be made available to allow the commissioner to pay higher rates to up to 50 child care providers who are deemed by the commissioner to meet the requirements of a school readiness service agreement (SRSA) provider and perform services that support school readiness for children and economic stability for parents. The commissioner shall annually earmark a proportionate amount of the funds under this section for family child care providers meeting the requirements under subdivision 2. If, after a reasonable amount of time to allow family child care providers to enter into agreements under this section, the earmarked funds have not been disbursed, the commissioner may make the funds available to other eligible providers.

(b) A provider may be paid a rate above that currently allowed under Minnesota Statutes, section 119B.13, if:

(1) the provider has entered into an SRSA with the commissioner;

(2) a family using that provider receives child care assistance under any provision in Minnesota Statutes, chapter 119B, except Minnesota Statutes, section 119B.035;

(3) the family using that provider meets the criteria in this section; and

(4) funding is available under this section.

Subd. 2. **Provider eligibility.** (a) To be considered for an SRSA, a provider shall apply to the commissioner. To be eligible to apply for an SRSA, a provider shall:

- (1) be eligible for child care assistance payments under Minnesota Statutes, chapter 119B;
- (2) have at least 25 percent of the children enrolled with the provider subsidized through the child care assistance program;
- (3) provide full-time, full-year child care services; and
- (4) serve at least one child who is subsidized through the child care assistance program and who is expected to enter kindergarten within the following 30 months.

(b) The commissioner may waive the 25 percent requirement in paragraph (a), clause (2), if necessary to achieve geographic distribution of SRSA providers and diversity of types of care provided by SRSA providers.

(c) An eligible provider who would like to enter into an SRSA with the commissioner shall submit an SRSA application. To determine whether to enter into an SRSA with a provider, the commissioner shall evaluate the following factors:

- (1) the qualifications of the provider and the provider's staff;
- (2) the provider's staff-child ratios;
- (3) the provider's curriculum;
- (4) the provider's current or planned parent education activities;
- (5) the provider's current or planned social service and employment linkages;
- (6) the provider's child development assessment plan;
- (7) the geographic distribution needed for SRSA providers;
- (8) the inclusion of a variety of child care delivery models; and
- (9) other related factors determined by the commissioner.

Subd. 3. **Family and child eligibility.** (a) A family eligible to choose an SRSA provider for their children shall:

(1) be eligible to receive child care assistance under any provision in Minnesota Statutes, chapter 119B, except Minnesota Statutes, section 119B.035;

(2) be in an authorized activity for an average of at least 35 hours per week when initial eligibility is determined; and

(3) include a child who has not yet entered kindergarten.

(b) A family who is determined to be eligible to choose an SRSA provider remains eligible to be paid at a higher rate through the SRSA provider when the following conditions exist:

- (1) the child attends child care with the SRSA provider a minimum of 25 hours per week, on average;
- (2) the family has a child who has not yet entered kindergarten; and

(3) the family maintains eligibility under Minnesota Statutes, chapter 119B, except Minnesota Statutes, section 119B.035.

(c) For the 12 months after initial eligibility has been determined, a decrease in the family's authorized activities to an average of less than 35 hours per week does not result in ineligibility for the SRSA rate.

(d) A family that moves between counties but continues to use the same SRSA provider shall continue to receive SRSA funding for the increased payments.

Subd. 4. **Requirements of providers.** An SRSA must include assessment, evaluation, and reporting requirements that promote the goals of improved school readiness and movement toward appropriate child development milestones. A provider who enters into an SRSA shall comply with the assessment, evaluation, and reporting requirements in the SRSA.

Subd. 5. **Relationship to current law.** (a) The following provisions in Minnesota Statutes, chapter 119B, must be waived or modified for families receiving services under this section.

(b) Notwithstanding Minnesota Statutes, section 119B.13, subdivisions 1 and 1a, maximum weekly rates under this section are 125 percent of the existing maximum weekly rate for like-care. Providers eligible for a differential rate under Minnesota Statutes, section 119B.13, subdivision 3a, remain eligible for the differential above the rate identified in this section. Only care for children who have not yet entered kindergarten may be paid at the maximum rate under this section. The provider's charge for service provided through an SRSA may not exceed the rate that the provider charges a private-pay family for like-care arrangements.

(c) A family or child care provider may not be assessed an overpayment for care provided through an SRSA unless:

(1) there was an error in the amount of care authorized for the family; or

(2) the family or provider did not timely report a change as required under the law.

(d) Care provided through an SRSA is authorized on a weekly basis.

(e) Funds appropriated under this section to serve families eligible under Minnesota Statutes, section 119B.03, are not allocated through the basic sliding fee formula under Minnesota Statutes, section 119B.03. Funds appropriated under this section are used to offset increased costs when payments are made under SRSA's.

(f) Notwithstanding Minnesota Statutes, section 119B.09, subdivision 6, the maximum amount of child care assistance that may be authorized for a child receiving care through an SRSA in a two-week period is 160 hours per child.

Subd. 6. **Establishment of service agreements.** (a) The commissioner shall approve SRSA's for up to 50 providers that represent diverse parts of the state and a variety of child care delivery models. Entering into a service agreement does not guarantee that a provider will receive payment at a higher rate for families receiving child care assistance. A family eligible under this section shall choose a provider participating in an SRSA in order for a higher rate to be paid. Payments through SRSA's are also limited by the availability of SRSA funds.

(b) Nothing in this section shall be construed to limit parent choice as defined in Minnesota Statutes, section 119B.09, subdivision 5.

(c) The commissioner may allow for startup time for some providers if failing to do so would limit geographic diversity of SRSA providers or a variety of child care delivery models.

Sec. 62. **FAMILY, FRIEND, AND NEIGHBOR GRANT PROGRAM.**

Subdivision 1. **Establishment.** A family, friend, and neighbor (FFN) grant program is established to promote children's early literacy, healthy development, and school readiness, and to foster community partnerships to promote children's school readiness. The commissioner shall attempt to ensure that grants are made in all areas of the state. The commissioner of human services shall make grants available to fund: community-based organizations, nonprofit organizations, and Indian tribes working with FFN caregivers under subdivision 2, paragraph (a); and community-based partnerships to implement early literacy programs under subdivision 2, paragraph (b).

Subd. 2. **Program components.** (a)(1) Grants that the commissioner awards under this section must be used by community-based organizations, nonprofit organizations, and Indian tribes working with FFN caregivers in local communities, cultural communities, and Indian tribes to:

(i) provide training, support, and resources to FFN caregivers in order to improve and promote children's health, safety, nutrition, and school readiness;

(ii) connect FFN caregivers and children's families with appropriate community resources that support the families' health, mental health, economic, and developmental needs;

(iii) connect FFN caregivers and children's families to early childhood screening programs and facilitate referrals where appropriate;

(iv) provide FFN caregivers and children's families with information about early learning guidelines from the Departments of Human Services and Education;

(v) provide FFN caregivers and children's families with information about becoming a licensed family child care provider; and

(vi) provide FFN caregivers and children's families with information about early learning allowances and enrollment opportunities in high quality community-based child-care and preschool programs.

(2) Grants that the commissioner awards under this paragraph also may be used for:

(i) health and safety and early learning kits for FFN caregivers;

(ii) play-and-learn groups with FFN caregivers;

(iii) culturally appropriate early childhood training for FFN caregivers;

(iv) transportation for FFN caregivers and children's families to school readiness and other early childhood training activities;

(v) other activities that promote school readiness;

(vi) data collection and evaluation;

(vii) staff outreach and outreach activities;

(viii) translation needs; or

(ix) administrative costs that equal up to 12 percent of the recipient's grant award.

(b) Grants that the commissioner awards under this section also must be used to fund partnerships among Minnesota public and regional library systems, community-based organizations, nonprofit organizations, and Indian tribes to implement early literacy programs in low-income communities, including tribal communities, to:

(1) purchase and equip early childhood read-mobiles that provide FFN caregivers and children's families with books, training, and early literacy activities;

(2) provide FFN caregivers and children's families with translations of early childhood books, training, and early literacy activities in native languages; or

(3) provide FFN caregivers and children's families with early literacy activities in local libraries.

Subd. 3. **Grant awards.** Interested entities eligible to receive a grant under this section may apply to the commissioner in the form and manner the commissioner determines. The commissioner shall awards grants to eligible entities consistent with the requirements of this section.

Subd. 4. **Evaluation.** The commissioner, in consultation with early childhood care and education experts at the University of Minnesota, must evaluate the impact of the grants under subdivision 2 on children's school readiness and submit a written report to the human services and education finance and policy committees of the legislature by February 15, 2010.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 63. **CHILD CARE PROVIDER STUDY.**

If sufficient resources to support the costs are provided by one or more governmental entities, the commissioner of human services is directed to study the implications of restricting the use of state subsidies in center-based child care to centers meeting state quality standards under Minnesota Statutes, section 124D.175, paragraph (c), and to publish the results no later than January 1, 2010. The study must include:

(1) the likelihood of there being sufficient child care providers meeting the standards;

(2) the cost to bring providers up to the standards and how this cost would be funded;

(3) how the standards and the ratings would be communicated to both parents and the general public; and

(4) a determination whether a similar system could be implemented for non-center-based care.

Sec. 64. **DIRECTION TO COMMISSIONER.**

(a) The commissioner of human services shall offer a request for proposals to identify a research and evaluation firm with experience working with:

(1) homeless youth providers;

(2) data; and

(3) the topics of housing, homelessness, and a continuum of care for youth.

(b) The research and evaluation firm identified under paragraph (a) shall monitor and evaluate the programs receiving funding under Minnesota Statutes, section 256K.45.

Sec. 65. **NOT ASSESSING TANF PENALTIES AGAINST COUNTIES.**

From October 2006 through October 2007, if the state does not meet the federal work participation requirements, and the state is penalized by a reduction in the TANF grant, the state shall not assess penalties against the counties.

Sec. 66. **REPEALER.**

(a) Minnesota Statutes 2006, sections 119B.08, subdivision 4; 256J.24, subdivision 6; 256J.29; 256J.37, subdivision 3b; and 256J.626, subdivision 9, are repealed.

(b) Laws 1997, chapter 8, section 1, is repealed.

(c) Minnesota Rules, part 9560.0102, subpart 2, item C, is repealed.

In the event that the agency is unable to complete any of the record checks required by paragraph (b), the agency shall document the fact and the agency's efforts to obtain the information.~~

~~(d) For a study completed under this section, when the agency has reasonable cause to believe that further information may exist on the prospective adoptive parent or household member over the age of 13 that may relate to the health, safety, or welfare of the child, the prospective adoptive parent or household member over the age of 13 shall provide the agency with a set of classifiable fingerprints obtained from an authorized law enforcement agency and the agency may obtain criminal history data from the National Criminal Records Repository by submitting fingerprints to the Bureau of Criminal Apprehension. The affidavit must contain an acknowledgment that if, at any time before the adoption is final, a court receives evidence leading to a conclusion that a prospective adoptive parent knowingly gave false information in the affidavit, it shall be determined that the adoption of the child by the prospective adoptive parent is not in the best interests of the child.~~

~~(f) For the purposes of subdivision 1 and section 259.47, subdivisions 3 and 6, an adoption study is complete for placement, even though the background checks required by paragraph (b) have not been completed, if each prospective adoptive parent has completed the affidavit allowed by paragraph (e) and the other requirements of this section have been met. The background checks required by paragraph (b) must be completed before an adoption petition is filed. If an adoption study has been submitted to the court under section 259.47, subdivision 3 or 6, before the background checks required by paragraph (b) were complete, an updated adoption study report which includes the results of the background check must be filed with the adoption petition. (2) a drug-related offense.

Subd. 4. **Updates to adoption study; period of validity.** An agency may update an adoption study and report as needed, regardless of when the original study and report or most recent update was completed. An update must be in a format specified by the commissioner and must verify the continuing accuracy of the elements of the original report and document any changes to elements of the original report. An update to a study and report not originally completed under this section must ensure that the study and report, as updated, meet the requirements of this section. An adoption study is valid if the report has been completed or updated within the previous 12 months.

Sec. 27. Minnesota Statutes 2006, section 259.53, subdivision 2, is amended to read:

Subd. 2. **Adoption agencies; postplacement assessment and report.** (a) The agency to which the petition has been referred under subdivision 1 shall conduct a postplacement assessment and file a report with the court within 90 days of receipt of a copy of the adoption petition. The agency shall send a copy of the report to the commissioner at the time it files the report with the court. The assessment and report must evaluate the environment and antecedents of the child to be adopted, the home of the petitioners, whether placement with the petitioners meets the needs of the child as described in section 259.57, subdivision 2. The report must include a recommendation to the court as to whether the petition should or should not be granted.

In making evaluations and recommendations, the postplacement assessment and report must, at a minimum, address the following:

~~(c) If the petitioner is an individual who is related to the child, as defined by section 245A.02, subdivision 13, the agency, as part of its postplacement assessment and report under paragraph (a), shall conduct a background check meeting the requirements of section 259.41, subdivision 3, paragraph (b). The prospective adoptive parent shall cooperate in the completion of the background check by supplying the information and authorizations described in section 259.41, subdivision 3, paragraph (a).~~

~~(d)~~ (c) If the report recommends that the court not grant the petition to adopt the child, the provisions of this paragraph apply. Unless the assessment and report were completed by the local social services agency, the agency completing the report, at the time it files the report with the court under paragraph (a), must provide a copy of the report to the local social services agency in the county where the prospective adoptive parent lives. The agency or local social services agency may recommend that the court dismiss the petition. If the local social services agency determines that continued placement in the home endangers the child's physical or emotional health, the agency shall seek a court order to remove the child from the home.

~~(e)~~ (d) If, through no fault of the petitioner, the agency to whom the petition was referred under subdivision 1, paragraph (b), fails to complete the assessment and file the report within 90 days of the date it received a copy of the adoption petition, the court may hear the petition upon giving the agency and the local social services agency, if different, five days' notice by mail of the time and place of the hearing.

Sec. 28. Minnesota Statutes 2006, section 259.57, subdivision 2, is amended to read:

Subd. 2. **Protection of child's best interests.** (a) The policy of the state of Minnesota is to ensure that the best interests of children are met by requiring an individualized determination of the needs of the child and how the adoptive placement will serve the needs of the child.

(b) Among the factors the court shall consider in determining the needs of the child are those specified under section 260C.193, subdivision 3, paragraph (b). Consistent with section 245C.33 and Public Law 109-248, a complete background study is required before the approval of an adoptive placement in a home.

(c) In reviewing adoptive placement and in determining appropriate adoption, the court shall consider placement, consistent with the child's best interests and in the following order, with (1) a relative or relatives of the child, or (2) an important friend with whom the child has resided or had significant contact. Placement of a child cannot be delayed or denied based on race, color, or national origin of the adoptive parent or the child. Whenever possible, siblings should be placed together unless it is determined not to be in the best interests of a sibling.

(d) If the child's birth parent or parents explicitly request that relatives and important friends not be considered, the court shall honor that request consistent with the best interests of the child.

If the child's birth parent or parents express a preference for placing the child in an adoptive home of the same or a similar religious background to that of the birth parent or parents, the court shall place the child with a family that also meets the birth parent's religious preference. Only if no family is available as described in clause (a) or (b) may the court give preference to a family described in clause (c) that meets the parent's religious preference.

(e) This subdivision does not affect the Indian Child Welfare Act, United States Code, title 25, sections 1901 to 1923, and the Minnesota Indian Family Preservation Act, sections 260.751 to 260.835.

Sec. 3. **[256.963] PRIMARY CARE ACCESS INITIATIVE.**

Subdivision 1. **Establishment.** (a) The commissioner shall award a grant to implement in Hennepin and Ramsey Counties a Web-based primary care access pilot project designed as a collaboration between private and public sectors to connect, where appropriate, a patient with a primary care medical home, and schedule patients into available community-based appointments as an alternative to nonemergency use of the hospital emergency room. The grantee must establish a program that diverts patients presenting at an emergency room for nonemergency care to more appropriate outpatient settings. The program must refer the patient to an appropriate health care professional based on the patient's health care needs and situation. The program must provide the patient with a scheduled appointment that is timely, with an appropriate provider who is conveniently located. If the patient is uninsured and potentially eligible for a Minnesota health care program, the program must connect the patient to a primary care provider, community clinic, or agency that can assist the patient with the application process. The program must also ensure that discharged patients are connected with a community-based primary care provider and assist in scheduling any necessary follow-up visits before the patient is discharged.

(b) The program must not require a provider to pay a fee for accepting charity care patients or patients enrolled in a Minnesota public health care program.

Subd. 2. **Evaluation.** (a) The grantee must report to the commissioner on a quarterly basis the following information:

The evaluation shall compare the number of nonemergency visits and repeat visits to hospital emergency rooms for the period before the commencement of the project and one year after the commencement, and an estimate of the costs saved from any documented reductions.

Sec. 4. Minnesota Statutes 2006, section 256.969, subdivision 3a, is amended to read:

Subd. 3a. **Payments.** (a) Acute care hospital billings under the medical assistance program must not be submitted until the recipient is discharged. However, the commissioner shall establish monthly interim payments for inpatient hospitals that have individual patient lengths of stay over 30 days regardless of diagnostic category. Except as provided in section 256.9693, medical assistance reimbursement for treatment of mental illness shall be reimbursed based on diagnostic classifications. Individual hospital payments established under this section and sections 256.9685, 256.9686, and 256.9695, in addition to third party and recipient liability, for discharges occurring during the rate year shall not exceed, in aggregate, the charges for the medical assistance covered inpatient services paid for the same period of time to the hospital. This payment limitation shall be calculated separately for medical assistance and general assistance medical care services. The limitation on general assistance medical care shall be effective for admissions occurring on or after July 1, 1991. Services that have rates established under subdivision 11 or 12, must be limited separately from other services. After consulting with the affected hospitals, the commissioner may consider related hospitals one entity and may merge the payment rates while maintaining separate provider numbers. The operating and property base rates per admission or per day shall be derived from the best Medicare and claims data available when rates are established. The commissioner shall determine the best Medicare and claims data, taking into consideration variables of recency of the data, audit disposition, settlement status, and the ability to set rates in a timely manner. The commissioner shall notify hospitals of payment rates by December 1 of the year preceding the rate year. The rate setting data must reflect the admissions data used to establish relative values. Base year changes from 1981 to the base year established for the rate year beginning January 1, 1991, and for subsequent rate years, shall not be limited to the limits ending June 30, 1987, on the maximum rate of increase under subdivision 1. The commissioner may adjust base year cost, relative value, and case mix index data to exclude the costs of services that have been discontinued by the October 1 of the year preceding the rate year or that are paid separately from inpatient services. Inpatient stays that encompass portions of two or more rate years shall have payments established based on payment rates in effect at the time of admission unless the date of admission preceded the rate year in effect by six months or more. In this case, operating payment rates for services rendered during the rate year in effect and established based on the date of admission shall be adjusted to the rate year in effect by the hospital cost index.

(b) For fee-for-service admissions occurring on or after July 1, 2002, the total payment, before third-party liability and spenddown, made to hospitals for inpatient services is reduced by .5 percent from the current statutory rates.

(c) In addition to the reduction in paragraph (b), the total payment for fee-for-service admissions occurring on or after July 1, 2003, made to hospitals for inpatient services before third-party liability and spenddown, is reduced five percent from the current statutory rates. Mental health services within diagnosis related groups 424 to 432, ~~and~~ facilities defined under subdivision 16, and, effective for admissions occurring on or after July 1, 2007, a long-term hospital as designated by the Medicare program that is located in a city of the first class as defined in section 410.01, are excluded from this paragraph.

(d) In addition to the reduction in paragraphs (b) and (c), the total payment for fee-for-service admissions occurring on or after July 1, 2005, made to hospitals for inpatient services before third-party liability and spenddown, is reduced 6.0 percent from the current statutory rates. Mental health services within diagnosis related groups 424 to 432 ~~and~~, facilities defined under subdivision 16, and, effective for admissions occurring on or after July 1, 2007, a long-term hospital as designated by the Medicare program that is located in a city of the first class as defined in section 410.01, are excluded from this paragraph. Notwithstanding section 256.9686, subdivision 7, for purposes of this paragraph, medical assistance does not include general assistance medical care. Payments made to managed care plans shall be reduced for services provided on or after January 1, 2006, to reflect this reduction.

Sec. 5. Minnesota Statutes 2006, section 256.969, subdivision 9, is amended to read:

Subd. 9. **Disproportionate numbers of low-income patients served.** (a) For admissions occurring on or after October 1, 1992, through December 31, 1992, the medical assistance disproportionate population adjustment shall comply with federal law and shall be paid to a hospital, excluding regional treatment centers and facilities of the federal Indian Health Service, with a medical assistance inpatient utilization rate in excess of the arithmetic mean. The adjustment must be determined as follows:

(1) for a hospital with a medical assistance inpatient utilization rate above the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service but less than or equal to one standard deviation above the mean, the adjustment must be determined by multiplying the total of the operating and property payment rates by the difference between the hospital's actual medical assistance inpatient utilization rate and the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service; and

(2) for a hospital with a medical assistance inpatient utilization rate above one standard deviation above the mean, the adjustment must be determined by multiplying the adjustment that would be determined under clause (1) for that hospital by 1.1. If federal matching funds are not available for all adjustments under this subdivision, the commissioner shall reduce payments on a pro rata basis so that all adjustments qualify for federal match. The commissioner may establish a separate disproportionate population operating payment rate adjustment under the general assistance medical care program. For purposes of this subdivision medical assistance does not include general assistance medical care. The commissioner shall report annually on the number of hospitals likely to receive the adjustment authorized by this paragraph. The commissioner shall specifically report on the adjustments received by public hospitals and public hospital corporations located in cities of the first class.

(b) For admissions occurring on or after July 1, 1993, the medical assistance disproportionate population adjustment shall comply with federal law and shall be paid to a hospital, excluding regional treatment centers and facilities of the federal Indian Health Service, with a medical assistance inpatient utilization rate in excess of the arithmetic mean. The adjustment must be determined as follows:

(1) for a hospital with a medical assistance inpatient utilization rate above the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service but less than or equal to one standard deviation above the mean, the adjustment must be determined by multiplying the total of the operating and property payment rates by the difference between the hospital's actual medical assistance inpatient utilization rate and the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service;

(2) for a hospital with a medical assistance inpatient utilization rate above one standard deviation above the mean, the adjustment must be determined by multiplying the adjustment that would be determined under clause (1) for that hospital by 1.1. The commissioner may establish a separate disproportionate population operating payment rate adjustment under the general assistance medical care program. For purposes of this subdivision, medical assistance does not include general assistance medical care. The commissioner shall report annually on the number of hospitals likely to receive the adjustment authorized by this paragraph. The commissioner shall specifically report on the adjustments received by public hospitals and public hospital corporations located in cities of the first class;

(3) for a hospital that had medical assistance fee-for-service payment volume during calendar year 1991 in excess of 13 percent of total medical assistance fee-for-service payment volume, a medical assistance disproportionate population adjustment shall be paid in addition to any other disproportionate payment due under this subdivision as follows: \$1,515,000 due on the 15th of each month after noon, beginning July 15, 1995. For a hospital that had medical assistance fee-for-service payment volume during calendar year 1991 in excess of eight

percent of total medical assistance fee-for-service payment volume and was the primary hospital affiliated with the University of Minnesota, a medical assistance disproportionate population adjustment shall be paid in addition to any other disproportionate payment due under this subdivision as follows: \$505,000 due on the 15th of each month after noon, beginning July 15, 1995; and

(4) effective August 1, 2005, the payments in paragraph (b), clause (3), shall be reduced to zero.

(c) The commissioner shall adjust rates paid to a health maintenance organization under contract with the commissioner to reflect rate increases provided in paragraph (b), clauses (1) and (2), on a nondiscounted hospital-specific basis but shall not adjust those rates to reflect payments provided in clause (3).

(d) If federal matching funds are not available for all adjustments under paragraph (b), the commissioner shall reduce payments under paragraph (b), clauses (1) and (2), on a pro rata basis so that all adjustments under paragraph (b) qualify for federal match.

(e) For purposes of this subdivision, medical assistance does not include general assistance medical care.

(f) For hospital services occurring on or after July 1, 2005, to June 30, 2007;

(1) general assistance medical care expenditures for fee-for-service inpatient and outpatient hospital payments made by the department and by prepaid health plans participating in general assistance medical care shall be considered Medicaid disproportionate share hospital payments, except as limited below:

~~(1)~~ (i) only the portion of Minnesota's disproportionate share hospital allotment under section 1923(f) of the Social Security Act that is not spent on the disproportionate population adjustments in paragraph (b), clauses (1) and (2), may be used for general assistance medical care expenditures;

~~(2)~~ (ii) only those general assistance medical care expenditures made to hospitals that qualify for disproportionate share payments under section 1923 of the Social Security Act and the Medicaid state plan may be considered disproportionate share hospital payments;

~~(3)~~ (iii) only those general assistance medical care expenditures made to an individual hospital that would not cause the hospital to exceed its individual hospital limits under section 1923 of the Social Security Act may be considered; and

~~(4)~~ (iv) general assistance medical care expenditures may be considered only to the extent of Minnesota's aggregate allotment under section 1923 of the Social Security Act.

All hospitals and prepaid health plans participating in general assistance medical care must provide any necessary expenditure, cost, and revenue information required by the commissioner as necessary for purposes of obtaining federal Medicaid matching funds for general assistance medical care expenditures; and

(2) certified public expenditures made by Hennepin County Medical Center shall be considered Medicaid disproportionate share hospital payments. Hennepin County and Hennepin County Medical Center shall report by June 15, 2007, on payments made beginning July 1, 2005, or another date specified by the commissioner, that may qualify for reimbursement under federal law. Based on these reports, the commissioner shall apply for federal matching funds.

(g) Upon federal approval of the related state plan amendment, paragraph (f) is effective retroactively from July 1, 2005, or the earliest effective date approved by the Centers for Medicare and Medicaid Services.

**EFFECTIVE DATE.** This section is effective retroactively from July 1, 2005.

Sec. 6. Minnesota Statutes 2006, section 256.969, subdivision 27, is amended to read:

A hospital located in Woodbury and not in existence during the base year shall be reimbursed under this clause.

(b) The state share of payments under paragraph (a) shall be equal to federal reimbursements to the commissioner to reimburse ~~nonstate~~ expenditures reported under section 256B.199. The commissioner shall ratably reduce or increase payments under this subdivision in order to ensure that these payments equal the amount of reimbursement received by the commissioner under section 256B.199, except that payments shall be ratably reduced by an amount equivalent to the state share of a four percent reduction in MinnesotaCare and medical assistance payments for inpatient hospital services. Effective July 1, 2009, the ratable reduction shall be equivalent to the state share of a three percent reduction in these payments.

(c) The payments under paragraph (a) shall be paid quarterly based on each hospital's operating and property payments from the second previous quarter, beginning on July 15, 2007, or upon federal approval of federal reimbursements under section 256B.199, whichever occurs later.

(d) The commissioner shall not adjust rates paid to a prepaid health plan under contract with the commissioner to reflect payments provided in paragraph (a).

(e) The commissioner shall maximize the use of available federal money for disproportionate share hospital payments and shall maximize payments to qualifying hospitals. In order to accomplish these purposes, the commissioner may, in consultation with the nonstate entities identified in section 256B.199, adjust, on a pro rata basis if feasible, the amounts reported by nonstate entities under section 256B.199 when application for reimbursement is made to the federal government, and otherwise adjust the provisions of this subdivision. The commissioner shall utilize a settlement process based on finalized data to maximize revenue under section 256B.199 and payments under this section.

(a) For outpatient hospital facility fee payments for services rendered on or after October 1, 1992, the commissioner of human services shall pay the lower of (1) submitted charge, or (2) 32 percent above the rate in effect on June 30, 1992, except for those services for which there is a federal maximum allowable payment. Effective for services rendered on or after January 1, 2000, payment rates for nonsurgical outpatient hospital facility fees and emergency room facility fees shall be increased by eight percent over the rates in effect on December 31, 1999, except for those services for which there is a federal maximum allowable payment. Services for which there is a federal maximum allowable payment shall be paid at the lower of (1) submitted charge, or (2) the federal maximum allowable payment. Total aggregate payment for outpatient hospital facility fee services shall not exceed the Medicare upper limit. If it is determined that a provision of this section conflicts with existing or future requirements of the United States government with respect to federal financial participation in medical assistance, the federal requirements prevail. The commissioner may, in the aggregate, prospectively reduce payment rates to avoid reduced federal financial participation resulting from rates that are in excess of the Medicare upper limitations.

(b) Notwithstanding paragraph (a), payment for outpatient, emergency, and ambulatory surgery hospital ~~facility fee~~ services for critical access hospitals designated under section 144.1483, clause (10), shall be paid on a cost-based payment system that is based on the cost-finding methods and allowable costs of the Medicare program. (c) Effective for services provided on or after July 1, 2003, rates that are based on the Medicare outpatient prospective payment system shall be replaced by a budget neutral prospective payment system that is derived using medical assistance data. The commissioner shall provide a proposal to the 2003 legislature to define and implement this provision.

(d) For fee-for-service services provided on or after July 1, 2002, the total payment, before third-party liability and spenddown, made to hospitals for outpatient hospital facility services is reduced by .5 percent from the current statutory rate.

(e) In addition to the reduction in paragraph (d), the total payment for fee-for-service services provided on or after July 1, 2003, made to hospitals for outpatient hospital facility services before third-party liability and spenddown, is reduced five percent from the current statutory rates. Facilities defined under section 256.969, subdivision 16, are excluded from this paragraph.

Sec. 20. Minnesota Statutes 2006, section 256B.76, is amended to read:

(1) payment for level one Centers for Medicare and Medicaid Services' common procedural coding system codes titled "office and other outpatient services," "preventive medicine new and established patient," "delivery, antepartum, and postpartum care," "critical care," cesarean delivery and pharmacologic management provided to psychiatric patients, and level three codes for enhanced services for prenatal high risk, shall be paid at the lower of (i) submitted charges, or (ii) 25 percent above the rate in effect on June 30, 1992. If the rate on any procedure code within these categories is different than the rate that would have been paid under the methodology in section 256B.74, subdivision 2, then the larger rate shall be paid;

(2) payments for all other services shall be paid at the lower of (i) submitted charges, or (ii) 15.4 percent above the rate in effect on June 30, 1992;

(3) all physician rates shall be converted from the 50th percentile of 1982 to the 50th percentile of 1989, less the percent in aggregate necessary to equal the above increases except that payment rates for home health agency services shall be the rates in effect on September 30, 1992;

(4) effective for services rendered on or after January 1, 2000, payment rates for physician and professional services shall be increased by three percent over the rates in effect on December 31, 1999, except for home health agency and family planning agency services; and

(5) the increases in clause (4) shall be implemented January 1, 2000, for managed care.

(b) Effective for services rendered on or after October 1, 1992, the commissioner shall make payments for dental services as follows:

(2) dental rates shall be converted from the 50th percentile of 1982 to the 50th percentile of 1989, less the percent in aggregate necessary to equal the above increases;

(3) effective for services rendered on or after January 1, 2000, payment rates for dental services shall be increased by three percent over the rates in effect on December 31, 1999;

(4) the commissioner shall award grants to community clinics or other nonprofit community organizations, political subdivisions, professional associations, or other organizations that demonstrate the ability to provide dental services effectively to public program recipients. Grants may be used to fund the costs related to coordinating access for recipients, developing and implementing patient care criteria, upgrading or establishing new facilities, acquiring furnishings or equipment, recruiting new providers, or other development costs that will improve access to dental care in a region. In awarding grants, the commissioner shall give priority to applicants that plan to serve areas of the state in which the number of dental providers is not currently sufficient to meet the needs of recipients of public programs or uninsured individuals. The commissioner shall consider the following in awarding the grants:

(i) potential to successfully increase access to an underserved population;

- (ii) the ability to raise matching funds;
- (iii) the long-term viability of the project to improve access beyond the period of initial funding;
- (iv) the efficiency in the use of the funding; and
- (v) the experience of the proposers in providing services to the target population.

The commissioner shall monitor the grants and may terminate a grant if the grantee does not increase dental access for public program recipients. The commissioner shall consider grants for the following:

(ii) a pilot program for utilizing hygienists outside of a traditional dental office to provide dental hygiene services; and

(iii) a program that organizes a network of volunteer dentists, establishes a system to refer eligible individuals to volunteer dentists, and through that network provides donated dental care services to public program recipients or uninsured individuals;

(5) beginning October 1, 1999, the payment for tooth sealants and fluoride treatments shall be the lower of (i) submitted charge, or (ii) 80 percent of median 1997 charges;

(6) the increases listed in clauses (3) and (5) shall be implemented January 1, 2000, for managed care; and

(7) effective for services provided on or after January 1, 2002, payment for diagnostic examinations and dental x-rays provided to children under age 21 shall be the lower of (i) the submitted charge, or (ii) 85 percent of median 1999 charges.

(c) Effective for dental services rendered on or after January 1, 2002, the commissioner ~~may, within the limits of available appropriation, shall~~ increase reimbursements to dentists and dental clinics deemed by the commissioner to be critical access dental providers. ~~Reimbursement to a critical access dental provider may be increased by not more than 50 percent above the reimbursement rate that would otherwise be paid to the provider. Payments to health plan companies shall be adjusted to~~ For dental services rendered on or after July 1, 2007, the commissioner shall increase reimbursement by 33 percent above the reimbursement rate that would otherwise be paid to the critical access dental provider. The commissioner shall pay the health plan companies in amounts sufficient to reflect increased reimbursements to critical access dental providers as approved by the commissioner. In determining which dentists and dental clinics shall be deemed critical access dental providers, the commissioner shall review:

(1) the utilization rate in the service area in which the dentist or dental clinic operates for dental services to patients covered by medical assistance, general assistance medical care, or MinnesotaCare as their primary source of coverage;

(2) the level of services provided by the dentist or dental clinic to patients covered by medical assistance, general assistance medical care, or MinnesotaCare as their primary source of coverage; and

(3) whether the level of services provided by the dentist or dental clinic is critical to maintaining adequate levels of patient access within the service area.

In the absence of a critical access dental provider in a service area, the commissioner may designate a dentist or dental clinic as a critical access dental provider if the dentist or dental clinic is willing to provide care to patients covered by medical assistance, general assistance medical care, or MinnesotaCare at a level which significantly increases access to dental care in the service area.

~~The commissioner shall annually establish a reimbursement schedule for critical access dental providers and provider specific limits on total reimbursement received under the reimbursement schedule, and shall notify each critical access dental provider of the schedule and limit.~~

(d) An entity that operates both a Medicare certified comprehensive outpatient rehabilitation facility and a facility which was certified prior to January 1, 1993, that is licensed under Minnesota Rules, parts 9570.2000 to 9570.3600, and for whom at least 33 percent of the clients receiving rehabilitation services in the most recent calendar year are medical assistance recipients, shall be reimbursed by the commissioner for rehabilitation services at rates that are 38 percent greater than the maximum reimbursement rate allowed under paragraph (a), clause (2), when those services are (1) provided within the comprehensive outpatient rehabilitation facility and (2) provided to residents of nursing facilities owned by the entity.

(e) Effective for services rendered on or after January 1, 2007, the commissioner shall make payments for physician and professional services based on the Medicare relative value units (RVU's). Enrollees who become eligible for medical assistance shall be terminated and transferred to medical assistance. Exempt assets, the reduction of excess assets, and the waiver of excess assets must conform to the medical assistance program in section 256B.056, subdivision 3, with the following exception: the maximum amount of undistributed funds in a trust that could be distributed to or on behalf of the beneficiary by the trustee, assuming the full exercise of the trustee's discretion under the terms of the trust, must be applied toward the asset maximum;

(ii) who has gross countable income above 75 percent of the federal poverty guidelines but not in excess of 175 percent of the federal poverty guidelines for the family size, using a six-month budget period, whose equity in assets is not in excess of the limits in section 256B.056, subdivision 3c, and who applies during an inpatient hospitalization; or

(iii) the commissioner shall adjust the income standards under this section each July 1 by the annual update of the federal poverty guidelines following publication by the United States Department of Health and Human Services.

(b) Effective for applications and renewals processed on or after September 1, 2006, general assistance medical care may not be paid for applicants or recipients who are adults with dependent children under 21 whose gross family income is equal to or less than 275 percent of the federal poverty guidelines who are not described in paragraph (e).

(c) Effective for applications and renewals processed on or after September 1, 2006, general assistance medical care may be paid for applicants and recipients who meet all eligibility requirements of paragraph (a), clause (2), item (i), for a temporary period beginning the date of application. Immediately following approval of general assistance medical care, enrollees shall be enrolled in MinnesotaCare under section 256L.04, subdivision 7, with covered services as provided in section 256L.03 for the rest of the six-month general assistance medical care eligibility period, until their six-month renewal.

(d) To be eligible for general assistance medical care following enrollment in MinnesotaCare as required by paragraph (c), an individual must complete a new application.

(e) Applicants and recipients eligible under paragraph (a), clause (1); who have applied for and are awaiting a determination of blindness or disability by the state medical review team or a determination of eligibility for Supplemental Security Income or Social Security Disability Insurance by the Social Security Administration; who fail to meet the requirements of section 256L.09, subdivision 2; who are homeless as defined by United States Code, title 42, section 11301, et seq.; who are classified as end-stage renal disease beneficiaries in the Medicare program; who are enrolled in private health care coverage as defined in section 256B.02, subdivision 9; who are eligible under paragraph (j); or who receive treatment funded pursuant to section 254B.02 are exempt from the MinnesotaCare enrollment requirements of this subdivision.

(f) For applications received on or after October 1, 2003, eligibility may begin no earlier than the date of application. For individuals eligible under paragraph (a), clause (2), item (i), a redetermination of eligibility must occur every 12 months. Individuals are eligible under paragraph (a), clause (2), item (ii), only during inpatient hospitalization but may reapply if there is a subsequent period of inpatient hospitalization.

(g) Beginning September 1, 2006, Minnesota health care program applications and renewals completed by recipients and applicants who are persons described in paragraph (c) and submitted to the county agency shall be determined for MinnesotaCare eligibility by the county agency. If all other eligibility requirements of this subdivision are met, eligibility for general assistance medical care shall be available in any month during which MinnesotaCare enrollment is pending. Upon notification of eligibility for MinnesotaCare, notice of termination for eligibility for general assistance medical care shall be sent to an applicant or recipient. If all other eligibility requirements of this subdivision are met, eligibility for general assistance medical care shall be available until enrollment in MinnesotaCare subject to the provisions of paragraphs (c), (e), and (f).

(h) The date of an initial Minnesota health care program application necessary to begin a determination of eligibility shall be the date the applicant has provided a name, address, and Social Security number, signed and dated, to the county agency or the Department of Human Services. If the applicant is unable to provide a name, address, Social Security number, and signature when health care is delivered due to a medical condition or

disability, a health care provider may act on an applicant's behalf to establish the date of an initial Minnesota health care program application by providing the county agency or Department of Human Services with provider identification and a temporary unique identifier for the applicant. The applicant must complete the remainder of the application and provide necessary verification before eligibility can be determined. The county agency must assist the applicant in obtaining verification if necessary.

(i) County agencies are authorized to use all automated databases containing information regarding recipients' or applicants' income in order to determine eligibility for general assistance medical care or MinnesotaCare. Such use shall be considered sufficient in order to determine eligibility and premium payments by the county agency.

(j) General assistance medical care is not available for a person in a correctional facility unless the person is detained by law for less than one year in a county correctional or detention facility as a person accused or convicted of a crime, or admitted as an inpatient to a hospital on a criminal hold order, and the person is a recipient of general assistance medical care at the time the person is detained by law or admitted on a criminal hold order and as long as the person continues to meet other eligibility requirements of this subdivision.

(k) General assistance medical care is not available for applicants or recipients who do not cooperate with the county agency to meet the requirements of medical assistance.

Any transfer described in this paragraph shall be presumed to have been for the purpose of establishing eligibility for general assistance medical care, unless the individual furnishes convincing evidence to establish that the transaction was exclusively for another purpose. For purposes of this paragraph, the value of the asset or interest shall be the fair market value at the time it was given away, sold, or disposed of, less the amount of compensation received. For any uncompensated transfer, the number of months of ineligibility, including partial months, shall be calculated by dividing the uncompensated transfer amount by the average monthly per person payment made by the medical assistance program to skilled nursing facilities for the previous calendar year. The individual shall remain ineligible until this fixed period has expired. The period of ineligibility may exceed 30 months, and a reapplication for benefits after 30 months from the date of the transfer shall not result in eligibility unless and until the period of ineligibility has expired. The period of ineligibility begins in the month the transfer was reported to the county agency, or if the transfer was not reported, the month in which the county agency discovered the transfer, whichever comes first. For applicants, the period of ineligibility begins on the date of the first approved application.

(m) When determining eligibility for any state benefits under this subdivision, the income and resources of all noncitizens shall be deemed to include their sponsor's income and resources as defined in the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, title IV, Public Law 104-193, sections 421 and 422, and subsequently set out in federal rules.

(p) Effective July 1, 2003, general assistance medical care emergency services end.

The commissioner shall consider proposals by counties and vendors for prepaid health plans, competitive bidding programs, block grants, or other vendor payment mechanisms designed to provide services in an economical manner or to control utilization, with safeguards to ensure that necessary services are provided. Before implementing prepaid programs in counties with a county operated or affiliated public teaching hospital or a hospital or clinic operated by the University of Minnesota, the commissioner shall consider the risks the prepaid program creates for the hospital and allow the county or hospital the opportunity to participate in the program in a manner that reflects the risk of adverse selection and the nature of the patients served by the hospital, provided the terms of participation in the program are competitive with the terms of other participants considering the nature of the population served. The sliding fee scale must be based on the enrollee's monthly gross individual or family income. The sliding fee scale begins with a premium of 1.5 percent of monthly gross individual or family income for individuals or families with incomes below the limits for the medical assistance program for families and children in effect on January 1, 1999, and proceeds through the following evenly spaced steps: 1.8, 2.3, 3.1, 3.8, 4.8, 5.9, 7.4, and 8.8 percent. These percentages are matched to evenly spaced income steps ranging from the medical assistance income limit for families and children in effect on January 1, 1999, to 275 percent of the federal poverty guidelines for the applicable family size, up to a family size of five. The sliding fee scale for a family of five must be used for families of more than five. ~~Effective October 1, 2003, the commissioner shall increase each percentage by 0.5 percentage points for enrollees with income greater than 100 percent but not exceeding 200 percent of the federal poverty guidelines and shall increase each percentage by 1.0 percentage points for families and children with incomes greater than 200 percent of the federal poverty guidelines.~~ The sliding fee scale and percentages are not subject to the provisions of chapter 14. If a family or individual reports increased income after enrollment, premiums shall be adjusted at the time the change in income is reported.

(b) ~~Children in~~ Families whose gross income is above 275 percent of the federal poverty guidelines shall pay the maximum premium. The maximum premium is defined as a base charge for one, two, or three or more enrollees so that if all MinnesotaCare cases paid the maximum premium, the total revenue would equal the total cost of MinnesotaCare medical coverage and administration. In this calculation, administrative costs shall be assumed to equal ten percent of the total. The costs of medical coverage for pregnant women and children under age two and the enrollees in these groups shall be excluded from the total. The maximum premium for two enrollees shall be twice the maximum premium for one, and the maximum premium for three or more enrollees shall be three times the maximum premium for one.

~~(c) After calculating the percentage of premium each enrollee shall pay under paragraph (a), eight percent shall be added to the premium.~~

Subd. 3b. **Transition assistance.** (a) A long-term care consultation team shall provide assistance to persons residing in a nursing facility, hospital, regional treatment center, or intermediate care facility for persons with developmental disabilities who request or are referred for assistance. Transition assistance must include assessment, community support plan development, referrals to Minnesota health care programs, and referrals to programs that provide assistance with housing. Transition assistance must also include information about the Centers for Independent Living and about other organizations that can provide assistance with relocation efforts, and information about contacting these organizations to obtain their assistance and support.

(b) The county shall develop transition processes with institutional social workers and discharge planners to ensure that:

(1) persons admitted to facilities receive information about transition assistance that is available;

(2) the assessment is completed for persons within ten working days of the date of request or recommendation for assessment; and

(3) there is a plan for transition and follow-up for the individual's return to the community. The plan must require notification of other local agencies when a person who may require assistance is screened by one county for admission to a facility located in another county.

(c) If a person who is eligible for a Minnesota health care program is admitted to a nursing facility, the nursing facility must include a consultation team member or the case manager in the discharge planning process.

Sec. 24. Minnesota Statutes 2006, section 256B.0911, subdivision 4b, is amended to read:

Subd. 4b. **Exemptions and emergency admissions.** (a) Exemptions from the federal screening requirements outlined in subdivision 4a, paragraphs (b) and (c), are limited to:

(1) a person who, having entered an acute care facility from a certified nursing facility, is returning to a certified nursing facility;

(2) a person transferring from one certified nursing facility in Minnesota to another certified nursing facility in Minnesota; and

(3) a person, 21 years of age or older, who satisfies the following criteria, as specified in Code of Federal Regulations, title 42, section 483.106(b)(2):

(i) the person is admitted to a nursing facility directly from a hospital after receiving acute inpatient care at the hospital;

(ii) the person requires nursing facility services for the same condition for which care was provided in the hospital; and

(iii) the attending physician has certified before the nursing facility admission that the person is likely to receive less than 30 days of nursing facility services.

(b) Persons who are exempt from preadmission screening for purposes of level of care determination include:

(1) persons described in paragraph (a);

(2) an individual who has a contractual right to have nursing facility care paid for indefinitely by the veterans' administration;

(3) an individual enrolled in a demonstration project under section 256B.69, subdivision 8, at the time of application to a nursing facility; and

(4) an individual currently being served under the alternative care program or under a home and community-based services waiver authorized under section 1915(c) of the federal Social Security Act; and

~~(5) individuals admitted to a certified nursing facility for a short term stay, which is expected to be 14 days or less in duration based upon a physician's certification, and who have been assessed and approved for nursing facility admission within the previous six months. This exemption applies only if the consultation team member determines at the time of the initial assessment of the six month period that it is appropriate to use the nursing facility for short-term stays and that there is an adequate plan of care for return to the home or community based setting. If a stay exceeds 14 days, the individual must be referred no later than the first county working day following the 14th resident day for a screening, which must be completed within five working days of the referral. The payment limitations in subdivision 7 apply to an individual found at screening to not meet the level of care criteria for admission to a certified nursing facility.~~

(c) Persons admitted to a Medicaid-certified nursing facility from the community on an emergency basis as described in paragraph (d) or from an acute care facility on a nonworking day must be screened the first working day after admission.

(d) Emergency admission to a nursing facility prior to screening is permitted when all of the following conditions are met:

(1) a person is admitted from the community to a certified nursing or certified boarding care facility during county nonworking hours;

(2) a physician has determined that delaying admission until preadmission screening is completed would adversely affect the person's health and safety;

(3) there is a recent precipitating event that precludes the client from living safely in the community, such as sustaining an injury, sudden onset of acute illness, or a caregiver's inability to continue to provide care;

(4) the attending physician has authorized the emergency placement and has documented the reason that the emergency placement is recommended; and

(5) the county is contacted on the first working day following the emergency admission.

Transfer of a patient from an acute care hospital to a nursing facility is not considered an emergency except for a person who has received hospital services in the following situations: hospital admission for observation, care in an emergency room without hospital admission, or following hospital 24-hour bed care.

(e) A nursing facility must provide a written ~~notice to persons who satisfy the criteria in paragraph (a), clause (3),~~ information to all persons admitted regarding the person's right to request and receive long-term care consultation services as defined in subdivision 1a. The ~~notice~~ information must be provided prior to the person's discharge from the facility and in a format specified by the commissioner.

Sec. 25. Minnesota Statutes 2006, section 256B.0911, subdivision 4c, is amended to read:

Subd. 4c. **Screening requirements.** (a) A person may be screened for nursing facility admission by telephone or in a face-to-face screening interview. Consultation team members shall identify each individual's needs using the following categories:

(1) the person needs no face-to-face screening interview to determine the need for nursing facility level of care based on information obtained from other health care professionals;

(2) the person needs an immediate face-to-face screening interview to determine the need for nursing facility level of care and complete activities required under subdivision 4a; or

(3) the person may be exempt from screening requirements as outlined in subdivision 4b, but will need transitional assistance after admission or in-person follow-along after a return home.

(b) Persons admitted on a nonemergency basis to a Medicaid-certified nursing facility must be screened prior to admission.

~~(c) The long-term care consultation team shall recommend a case mix classification for persons admitted to a certified nursing facility when sufficient information is received to make that classification. The nursing facility is authorized to conduct all case mix assessments for persons who have been screened prior to admission for whom the county did not recommend a case mix classification. The nursing facility is authorized to conduct all case mix assessments for persons admitted to the facility prior to a preadmission screening. The county retains the responsibility of distributing appropriate case mix forms to the nursing facility.~~

~~(d)~~ (c) The county screening or intake activity must include processes to identify persons who may require transition assistance as described in subdivision 3b.

Sec. 26. Minnesota Statutes 2006, section 256B.0911, subdivision 6, is amended to read:

Subd. 6. **Payment for long-term care consultation services.** (a) The total payment for each county must be paid monthly by certified nursing facilities in the county. The monthly amount to be paid by each nursing facility for each fiscal year must be determined by dividing the county's annual allocation for long-term care consultation services by 12 to determine the monthly payment and allocating the monthly payment to each nursing facility based on the number of licensed beds in the nursing facility. Payments to counties in which there is no certified nursing facility must be made by increasing the payment rate of the two facilities located nearest to the county seat.

(b) The commissioner shall include the total annual payment determined under paragraph (a) for each nursing facility reimbursed under section 256B.431 or 256B.434 according to section 256B.431, subdivision 2b, paragraph (g), ~~or 256B.435.~~

(c) In the event of the layaway, delicensure and decertification, or removal from layaway of 25 percent or more of the beds in a facility, the commissioner may adjust the per diem payment amount in paragraph (b) and may adjust the monthly payment amount in paragraph (a). The effective date of an adjustment made under this paragraph shall be on or after the first day of the month following the effective date of the layaway, delicensure and decertification, or removal from layaway.

(d) Payments for long-term care consultation services are available to the county or counties to cover staff salaries and expenses to provide the services described in subdivision 1a. The county shall employ, or contract with other agencies to employ, within the limits of available funding, sufficient personnel to provide long-term care consultation services while meeting the state's long-term care outcomes and objectives as defined in section 256B.0917, subdivision 1. The county shall be accountable for meeting local objectives as approved by the commissioner in the biennial home and community-based services quality assurance plan on a form provided by the commissioner.

(e) Notwithstanding section 256B.0641, overpayments attributable to payment of the screening costs under the medical assistance program may not be recovered from a facility.

(f) The commissioner of human services shall amend the Minnesota medical assistance plan to include reimbursement for the local consultation teams.

(g) The county may bill, as case management services, assessments, support planning, and follow-along provided to persons determined to be eligible for case management under Minnesota health care programs. No individual or family member shall be charged for an initial assessment or initial support plan development provided under subdivision 3a or 3b.

Sec. 27. Minnesota Statutes 2006, section 256B.0911, is amended by adding a subdivision to read:

Subd. 6a. **Withholding.** If any provider obligated to pay the long-term care consultation amount as described in subdivision 6 is more than two months delinquent in the timely payment of the monthly installment, the commissioner may withhold payments, penalties, and interest in accordance with the methods outlined in section 256.9657, subdivision 7a. Any amount withheld under this provision must be returned to the county to whom the delinquent payments were due.

Sec. 28. Minnesota Statutes 2006, section 256B.0911, subdivision 7, is amended to read:

Subd. 7. **Reimbursement for certified nursing facilities.** (a) Medical assistance reimbursement for nursing facilities shall be authorized for a medical assistance recipient only if a preadmission screening has been conducted prior to admission or the county has authorized an exemption. Medical assistance reimbursement for nursing facilities shall not be provided for any recipient who the local screener has determined does not meet the level of care criteria for nursing facility placement or, if indicated, has not had a level II OBRA evaluation as required under the federal Omnibus Budget Reconciliation Act of 1987 completed unless an admission for a recipient with mental illness is approved by the local mental health authority or an admission for a recipient with developmental disability is approved by the state developmental disability authority.

(b) The nursing facility must not bill a person who is not a medical assistance recipient for resident days that preceded the date of completion of screening activities as required under subdivisions 4a, 4b, and 4c. The nursing facility must include unreimbursed resident days in the nursing facility resident day totals reported to the commissioner.

~~(c) The commissioner shall make a request to the Centers for Medicare and Medicaid Services for a waiver allowing team approval of Medicaid payments for certified nursing facility care. An individual has a choice and makes the final decision between nursing facility placement and community placement after the screening team's recommendation, except as provided in subdivision 4a, paragraph (c).~~

Sec. 29. Minnesota Statutes 2006, section 256B.0913, subdivision 4, is amended to read:

Subd. 4. **Eligibility for funding for services for nonmedical assistance recipients.** (a) Funding for services under the alternative care program is available to persons who meet the following criteria:

(1) the person has been determined by a community assessment under section 256B.0911 to be a person who would require the level of care provided in a nursing facility, but for the provision of services under the alternative care program;

(2) the person is age 65 or older;

(3) the person would be eligible for medical assistance within 135 days of admission to a nursing facility;

(4) the person is not ineligible for the payment of long-term care services by the medical assistance program due to an asset transfer penalty under section 256B.0595 or equity interest in the home exceeding \$500,000 as stated in section 256B.056;

(5) the person needs long-term care services that are not funded through other state or federal funding;

(6) the monthly cost of the alternative care services funded by the program for this person does not exceed 75 percent of the monthly limit described under section 256B.0915, subdivision 3a. This monthly limit does not prohibit the alternative care client from payment for additional services, but in no case may the cost of additional services purchased under this section exceed the difference between the client's monthly service limit defined under section 256B.0915, subdivision 3, and the alternative care program monthly service limit defined in this paragraph. If ~~medical care-related~~ supplies and equipment or environmental modifications and adaptations are or will be purchased for an alternative care services recipient, the costs may be prorated on a monthly basis for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's other alternative care services exceeds the monthly limit established in this paragraph, the annual cost of the alternative care services shall be determined. In this event, the annual cost of alternative care services shall not exceed 12 times the monthly limit described in this paragraph; and

(7) the person is making timely payments of the assessed monthly fee.

A person is ineligible if payment of the fee is over 60 days past due, unless the person agrees to:

- (i) the appointment of a representative payee;
- (ii) automatic payment from a financial account;
- (iii) the establishment of greater family involvement in the financial management of payments; or
- (iv) another method acceptable to the ~~county~~ lead agency to ensure prompt fee payments.

The ~~county shall~~ lead agency may extend the client's eligibility as necessary while making arrangements to facilitate payment of past-due amounts and future premium payments. Following disenrollment due to nonpayment of a monthly fee, eligibility shall not be reinstated for a period of 30 days.

(b) Alternative care funding under this subdivision is not available for a person who is a medical assistance recipient or who would be eligible for medical assistance without a spenddown or waiver obligation. A person whose initial application for medical assistance and the elderly waiver program is being processed may be served under the alternative care program for a period up to 60 days. If the individual is found to be eligible for medical assistance, medical assistance must be billed for services payable under the federally approved elderly waiver plan and delivered from the date the individual was found eligible for the federally approved elderly waiver plan. Notwithstanding this provision, alternative care funds may not be used to pay for any service the cost of which: (i) is payable by medical assistance; (ii) is used by a recipient to meet a waiver obligation; or (iii) is used to pay a medical assistance income spenddown for a person who is eligible to participate in the federally approved elderly waiver program under the special income standard provision.

(c) Alternative care funding is not available for a person who resides in a licensed nursing home, certified boarding care home, hospital, or intermediate care facility, except for case management services which are provided in support of the discharge planning process for a nursing home resident or certified boarding care home resident to assist with a relocation process to a community-based setting.

(d) Alternative care funding is not available for a person whose income is greater than the maintenance needs allowance under section 256B.0915, subdivision 1d, but equal to or less than 120 percent of the federal poverty guideline effective July 1 in the fiscal year for which alternative care eligibility is determined, who would be eligible for the elderly waiver with a waiver obligation.

Sec. 30. Minnesota Statutes 2006, section 256B.0913, subdivision 5, is amended to read:

Subd. 5. **Services covered under alternative care.** Alternative care funding may be used for payment of costs of:

- (1) adult day care;
- (2) home health aide;
- (3) homemaker services;
- (4) personal care;
- (5) case management;

- (6) respite care;
- (7) care-related supplies and equipment;
- (8) meals delivered to the home;
- (9) nonmedical transportation;
- (10) nursing services;
- (11) chore services;
- (12) companion services;
- (13) nutrition services;
- (14) training for direct informal caregivers;
- (15) telehome care to provide services in their own homes in conjunction with in-home visits;
- (16) ~~discretionary services, for which counties may make payment from their alternative care program allocation or services not otherwise defined in this section or section 256B.0625, following approval by the commissioner~~ consumer-directed community services under the alternative care programs which are available statewide and limited to the average monthly expenditures representative of all alternative care program participants for the same case mix resident class assigned in the most recent fiscal year for which complete expenditure data is available;
- (17) environmental modifications and adaptations; and
- (18) ~~direct cash payments for which counties may make payment from their alternative care program allocation to clients for the purpose of purchasing services, following approval by the commissioner, and subject to the provisions of subdivision 5h, until approval and implementation of consumer directed services through the federally approved elderly waiver plan. Upon implementation, consumer directed services under the alternative care program are available statewide and limited to the average monthly expenditures representative of all alternative care program participants for the same case mix resident class assigned in the most recent fiscal year for which complete expenditure data is available~~ discretionary services, for which lead agencies may make payment from their alternative care program allocation for services not otherwise defined in this section or section 256B.0625, following approval by the commissioner.

Total annual payments for discretionary services ~~and direct cash payments, until the federally approved consumer directed service option is implemented statewide, for all clients within a county may served by a lead agency must~~ not exceed 25 percent of that ~~county's lead agency's~~ annual alternative care program base allocation. ~~Thereafter, discretionary services are limited to 25 percent of the county's annual alternative care program base allocation.~~

Sec. 31. Minnesota Statutes 2006, section 256B.0913, subdivision 5a, is amended to read:

Subd. 5a. **Services; service definitions; service standards.** (a) Unless specified in statute, the services, service definitions, and standards for alternative care services shall be the same as the services, service definitions, and standards specified in the federally approved elderly waiver plan, except ~~for alternative care does not cover~~ transitional support services, assisted living services, adult foster care services, and residential care services and benefits defined under section 256B.0625 that meet primary and acute health care needs.

(b) The county lead agency must ensure that the funds are not used to supplant or supplement services available through other public assistance or services programs, including supplementation of client co-pays, deductibles, premiums, or other cost-sharing arrangements for health-related benefits and services or entitlement programs and services that are available to the person, but in which they have elected not to enroll. For a provider of supplies and equipment when the monthly cost of the supplies and equipment is less than \$250, persons or agencies must be employed by or under a contract with the county lead agency or the public health nursing agency of the local board of health in order to receive funding under the alternative care program. Supplies and equipment may be purchased from a vendor not certified to participate in the Medicaid program if the cost for the item is less than that of a Medicaid vendor.

(c) Personal care services must meet the service standards defined in the federally approved elderly waiver plan, except that a county lead agency may contract with a client's relative who meets the relative hardship waiver requirements or a relative who meets the criteria and is also the responsible party under an individual service plan that ensures the client's health and safety and supervision of the personal care services by a qualified professional as defined in section 256B.0625, subdivision 19c. Relative hardship is established by the county lead agency when the client's care causes a relative caregiver to do any of the following: resign from a paying job, reduce work hours resulting in lost wages, obtain a leave of absence resulting in lost wages, incur substantial client-related expenses, provide services to address authorized, unstaffed direct care time, or meet special needs of the client unmet in the formal service plan.

Sec. 32. Minnesota Statutes 2006, section 256B.0913, subdivision 8, is amended to read:

Subd. 8. **Requirements for individual care plan.** (a) The case manager shall implement the plan of care for each alternative care client and ensure that a client's service needs and eligibility are reassessed at least every 12 months. The plan shall include any services prescribed by the individual's attending physician as necessary to allow the individual to remain in a community setting. In developing the individual's care plan, the case manager should include the use of volunteers from families and neighbors, religious organizations, social clubs, and civic and service organizations to support the formal home care services. The county lead agency shall be held harmless for damages or injuries sustained through the use of volunteers under this subdivision including workers' compensation liability. The county of service case manager shall provide documentation in each individual's plan of care and, if requested, to the commissioner that the most cost-effective alternatives available have been offered to the individual and that the individual was free to choose among available qualified providers, both public and private, including qualified case management or service coordination providers other than those employed by any county; however, the county or tribe maintains responsibility for prior authorizing services in accordance with statutory and administrative requirements. The case manager must give the individual a ten-day written notice of any denial, termination, or reduction of alternative care services.

(b) The county of service or tribe must provide access to and arrange for case management services, including assuring implementation of the plan. "County of service" has the meaning given it in Minnesota Rules, part 9505.0015, subpart 11. The county of service must notify the county of financial responsibility of the approved care plan and the amount of encumbered funds.

Sec. 33. Minnesota Statutes 2006, section 256B.0913, subdivision 9, is amended to read:

Subd. 9. **Contracting provisions for providers.** Alternative care funds paid to service providers are subject to audit by the commissioner for fiscal and utilization control.

The lead agency must select providers for contracts or agreements using the following criteria and other criteria established by the county lead agency:

(1) the need for the particular services offered by the provider;

(2) the population to be served, including the number of clients, the length of time services will be provided, and the medical condition of clients;

(3) the geographic area to be served;

(4) quality assurance methods, including appropriate licensure, certification, or standards, and supervision of employees when needed;

(5) rates for each service and unit of service exclusive of county lead agency administrative costs;

(6) evaluation of services previously delivered by the provider; and

(7) contract or agreement conditions, including billing requirements, cancellation, and indemnification.

The county lead agency must evaluate its own agency services under the criteria established for other providers.

Sec. 34. Minnesota Statutes 2006, section 256B.0913, subdivision 10, is amended to read:

Subd. 10. **Allocation formula.** (a) ~~The alternative care appropriation for fiscal years 1992 and beyond shall cover only alternative care eligible clients.~~ By July 1<sup>5</sup> of each year, the commissioner shall allocate to county agencies the state funds available for alternative care for persons eligible under subdivision 2.

(b) The adjusted base for each county lead agency is the county's lead agency's current fiscal year base allocation plus any targeted funds approved during the current fiscal year. Calculations for paragraphs (c) and (d) are to be made as follows: for each county lead agency, the determination of alternative care program expenditures shall be based on payments for services rendered from April 1 through March 31 in the base year, to the extent that claims have been submitted and paid by June 1 of that year.

(c) If the alternative care program expenditures as defined in paragraph (b) are 95 percent or more of the county's lead agency's adjusted base allocation, the allocation for the next fiscal year is 100 percent of the adjusted base, plus inflation to the extent that inflation is included in the state budget.

(d) If the alternative care program expenditures as defined in paragraph (b) are less than 95 percent of the county's lead agency's adjusted base allocation, the allocation for the next fiscal year is the adjusted base allocation less the amount of unspent funds below the 95 percent level.

(e) If the annual legislative appropriation for the alternative care program is inadequate to fund the combined county lead agency allocations for a biennium, the commissioner shall distribute to each county lead agency the entire annual appropriation as that county's lead agency's percentage of the computed base as calculated in paragraphs (c) and (d).

(f) On agreement between the commissioner and the lead agency, the commissioner may have discretion to reallocate alternative care base allocations distributed to lead agencies in which the base amount exceeds program expenditures.

Sec. 35. Minnesota Statutes 2006, section 256B.0913, subdivision 11, is amended to read:

Subd. 11. **Targeted funding.** (a) The purpose of targeted funding is to make additional money available to counties lead agencies with the greatest need. Targeted funds are not intended to be distributed equitably among all counties lead agencies, but rather, allocated to those with long-term care strategies that meet state goals.

(b) The funds available for targeted funding shall be the total appropriation for each fiscal year minus ~~county~~ lead agency allocations determined under subdivision 10 as adjusted for any inflation increases provided in appropriations for the biennium.

(c) The commissioner shall allocate targeted funds to ~~counties~~ lead agencies that demonstrate to the satisfaction of the commissioner that they have developed feasible plans to increase alternative care spending. In making targeted funding allocations, the commissioner shall use the following priorities:

(1) ~~counties~~ lead agencies that received a lower allocation in fiscal year 1991 than in fiscal year 1990. Counties remain in this priority until they have been restored to their fiscal year 1990 level plus inflation;

(2) ~~counties~~ lead agencies that sustain a base allocation reduction for failure to spend 95 percent of the allocation if they demonstrate that the base reduction should be restored;

(3) ~~counties~~ lead agencies that propose projects to divert community residents from nursing home placement or convert nursing home residents to community living; and

(4) ~~counties~~ lead agencies that can otherwise justify program growth by demonstrating the existence of waiting lists, demographically justified needs, or other unmet needs.

(d) ~~Counties~~ Lead agencies that would receive targeted funds according to paragraph (c) must demonstrate to the commissioner's satisfaction that the funds would be appropriately spent by showing how the funds would be used to further the state's alternative care goals as described in subdivision 1, and that the county has the administrative and service delivery capability to use them.

(e) The commissioner shall ~~request applications~~ make applications available for targeted funds by November 1 of each year. The ~~counties~~ lead agencies selected for targeted funds shall be notified of the amount of their additional funding. Targeted funds allocated to a ~~county~~ lead agency in one year shall be treated as part of the ~~county's lead agency's~~ base allocation for that year in determining allocations for subsequent years. No reallocations between ~~counties~~ lead agencies shall be made.

Sec. 36. Minnesota Statutes 2006, section 256B.0913, subdivision 12, is amended to read:

Subd. 12. **Client fees.** (a) A fee is required for all alternative care eligible clients to help pay for the cost of participating in the program. The amount of the fee for the alternative care client shall be determined as follows:

(1) when the alternative care client's income less recurring and predictable medical expenses is less than 100 percent of the federal poverty guideline effective on July 1 of the state fiscal year in which the fee is being computed, and total assets are less than \$10,000, the fee is zero;

(2) when the alternative care client's income less recurring and predictable medical expenses is equal to or greater than 100 percent but less than 150 percent of the federal poverty guideline effective on July 1 of the state fiscal year in which the fee is being computed, and total assets are less than \$10,000, the fee is five percent of the cost of alternative care services;

(3) when the alternative care client's income less recurring and predictable medical expenses is equal to or greater than 150 percent but less than 200 percent of the federal poverty guidelines effective on July 1 of the state fiscal year in which the fee is being computed and assets are less than \$10,000, the fee is 15 percent of the cost of alternative care services;

(4) when the alternative care client's income less recurring and predictable medical expenses is equal to or greater than 200 percent of the federal poverty guidelines effective on July 1 of the state fiscal year in which the fee is being computed and assets are less than \$10,000, the fee is 30 percent of the cost of alternative care services; and

(5) when the alternative care client's assets are equal to or greater than \$10,000, the fee is 30 percent of the cost of alternative care services.

For married persons, total assets are defined as the total marital assets less the estimated community spouse asset allowance, under section 256B.059, if applicable. For married persons, total income is defined as the client's income less the monthly spousal allotment, under section 256B.058.

All alternative care services shall be included in the estimated costs for the purpose of determining the fee.

Fees are due and payable each month alternative care services are received unless the actual cost of the services is less than the fee, in which case the fee is the lesser amount.

(b) The fee shall be waived by the commissioner when:

(1) a person ~~who~~ is residing in a nursing facility ~~is receiving case management only;~~

(2) a married couple is requesting an asset assessment under the spousal impoverishment provisions;

(3) a person is found eligible for alternative care, but is not yet receiving alternative care services including case management services; or

(4) a person has chosen to participate in a consumer-directed service plan for which the cost is no greater than the total cost of the person's alternative care service plan less the monthly fee amount that would otherwise be assessed.

(c) ~~The county agency must record in the state's receivable system the client's assessed fee amount or the reason the fee has been waived.~~ The commissioner will bill and collect the fee from the client. Money collected must be deposited in the general fund and is appropriated to the commissioner for the alternative care program. The client must supply the county lead agency with the client's Social Security number at the time of application. The county lead agency shall supply the commissioner with the client's Social Security number and other information the commissioner requires to collect the fee from the client. The commissioner shall collect unpaid fees using the Revenue Recapture Act in chapter 270A and other methods available to the commissioner. The commissioner may require counties lead agencies to inform clients of the collection procedures that may be used by the state if a fee is not paid. This paragraph does not apply to alternative care pilot projects authorized in Laws 1993, First Special Session chapter 1, article 5, section 133, if a county operating under the pilot project reports the following dollar amounts to the commissioner quarterly:

(1) total fees billed to clients;

(2) total collections of fees billed; and

(3) balance of fees owed by clients.

If a county lead agency does not adhere to these reporting requirements, the commissioner may terminate the billing, collecting, and remitting portions of the pilot project and require the county lead agency involved to operate under the procedures set forth in this paragraph.

Sec. 37. Minnesota Statutes 2006, section 256B.0913, subdivision 13, is amended to read:

Subd. 13. **County Lead agency biennial plan.** The ~~county~~ lead agency biennial plan for long-term care consultation services under section 256B.0911, the alternative care program under this section, and waivers for the elderly under section 256B.0915, shall be submitted by the lead agency as the home and community-based services quality assurance plan on a form provided by the commissioner.

(b) Payment for provided alternative care services as approved by the client's case manager shall occur through the invoice processing procedures of the department's Medicaid Management Information System (MMIS). To receive payment, the ~~county~~ lead agency or vendor must submit invoices within 12 months following the date of service. The ~~county~~ lead agency and its vendors under contract shall not be reimbursed for services which exceed the county allocation.

(c) The ~~county~~ lead agency shall negotiate individual rates with vendors and may authorize service payment for actual costs up to the county's current approved rate. Notwithstanding any other rule or statutory provision to the contrary, the commissioner shall not be authorized to increase rates by an annual inflation factor, unless so authorized by the legislature. To improve access to community services and eliminate payment disparities between the alternative care program and the elderly waiver program, the commissioner shall establish statewide maximum service rate limits and eliminate county-specific service rate limits.

(1) Effective July 1, 2001, for service rate limits, except those in subdivision 5, paragraphs (d) and (i), the rate limit for each service shall be the greater of the alternative care statewide maximum rate or the elderly waiver statewide maximum rate.

(2) ~~Counties~~ Lead agencies may negotiate individual service rates with vendors for actual costs up to the statewide maximum service rate limit.

Sec. 39. Minnesota Statutes 2006, section 256B.0919, subdivision 3, is amended to read:

A person certified by the county to provide adult foster care may be reimbursed for services provided and eligible for funding under ~~sections 256B.0913 and section~~ 256B.0915, if the relative would suffer a financial hardship as a result of providing care. For purposes of this subdivision, financial hardship refers to a situation in which a relative incurs a substantial reduction in income as a result of resigning from a full-time job or taking a leave of absence without pay from a full-time job to care for the client.

Sec. 40. Minnesota Statutes 2006, section 256B.27, subdivision 2a, is amended to read:

The commissioner shall meet the 15 percent requirement by either conducting an audit focused on an individual nursing facility, a group of facilities, or targeting specific data categories in multiple nursing facilities. These audits may be conducted on site at the nursing facility, at office space used by a nursing facility or a nursing facility's parent organization, or at the commissioner's office. Data being audited may be collected electronically, in person, or by any other means the commissioner finds acceptable.

Sec. 41. Minnesota Statutes 2006, section 256B.431, subdivision 1, is amended to read:

Subdivision 1. **In general.** The commissioner shall determine prospective payment rates for resident care costs. For rates established on or after July 1, 1985, the commissioner shall develop procedures for determining operating cost payment rates that take into account the mix of resident needs, geographic location, and other factors as determined by the commissioner. The commissioner shall consider whether the fact that a facility is attached to a hospital or has an average length of stay of 180 days or less should be taken into account in determining rates. The commissioner shall consider the use of the standard metropolitan statistical areas when developing groups by geographic location. The commissioner shall provide notice to each nursing facility on or before ~~May 1~~ August 15 of the rates effective for the following rate year except that if legislation is pending on ~~May 1~~ August 15 that may affect rates for nursing facilities, the commissioner shall set the rates after the legislation is enacted and provide notice to each facility as soon as possible.

Compensation for top management personnel shall continue to be categorized as a general and administrative cost and is subject to any limits imposed on that cost category.

Sec. 42. Minnesota Statutes 2006, section 256B.431, subdivision 3f, is amended to read:

Subd. 3f. **Property costs after July 1, 1988.** (a) **Investment per bed limit.** For the rate year beginning July 1, 1988, the replacement-cost-new per bed limit must be \$32,571 per licensed bed in multiple bedrooms and \$48,857 per licensed bed in a single bedroom. For the rate year beginning July 1, 1989, the replacement-cost-new per bed limit for a single bedroom must be \$49,907 adjusted according to Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1). Beginning January 1, 1990, the replacement-cost-new per bed limits must be adjusted annually as specified in Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1). Beginning January 1, 1991, the replacement-cost-new per bed limits will be adjusted annually as specified in Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1), except that the index utilized will be the Bureau of ~~the Census: Composite fixed-weighted price index as published in the C30 Report, Value of New Construction Put in Place~~ Economic Analysis: Price Indexes for Private Fixed Investments in Structures; Special Care.

(b) **Rental factor.** For the rate year beginning July 1, 1988, the commissioner shall increase the rental factor as established in Minnesota Rules, part 9549.0060, subpart 8, item A, by 6.2 percent rounded to the nearest 100th percent for the purpose of reimbursing nursing facilities for soft costs and entrepreneurial profits not included in the cost valuation services used by the state's contracted appraisers. For rate years beginning on or after July 1, 1989, the rental factor is the amount determined under this paragraph for the rate year beginning July 1, 1988.

(c) **Occupancy factor.** For rate years beginning on or after July 1, 1988, in order to determine property-related payment rates under Minnesota Rules, part 9549.0060, for all nursing facilities except those whose average length of stay in a skilled level of care within a nursing facility is 180 days or less, the commissioner shall use 95 percent of capacity days. For a nursing facility whose average length of stay in a skilled level of care within a nursing facility is 180 days or less, the commissioner shall use the greater of resident days or 80 percent of capacity days but in no event shall the divisor exceed 95 percent of capacity days.

(d) **Equipment allowance.** For rate years beginning on July 1, 1988, and July 1, 1989, the commissioner shall add ten cents per resident per day to each nursing facility's property-related payment rate. If the debt was incurred due to a sale between family members, the nursing facility must also demonstrate that the seller no longer participates in the management or operation of the nursing facility. Debts meeting the conditions of this paragraph are subject to all other provisions of Minnesota Rules, parts 9549.0010 to 9549.0080.

(f) **Building capital allowance for nursing facilities with operating leases.** For rate years beginning on or after July 1, 1990, a nursing facility with operating lease costs incurred for the nursing facility's buildings shall receive its building capital allowance computed in accordance with Minnesota Rules, part 9549.0060, subpart 8. Sec. 43. Minnesota Statutes 2006, section 256B.431, subdivision 17e, is amended to read:

Subd. 17e. **Replacement-costs-new per bed limit effective July October 1, 2001 2007.** Notwithstanding Minnesota Rules, part 9549.0060, subpart 11, item C, subitem (2), for a total replacement, as defined in ~~paragraph (f) subdivision 17d,~~ authorized under section 144A.071 or 144A.073 after July 1, 1999, ~~or any building project that is a relocation, renovation, upgrading, or conversion completed on or after July 1, 2001, or any building project eligible for reimbursement under section 256B.434, subdivision 4f,~~ the replacement-costs-new per bed limit shall be \$74,280 per licensed bed in multiple-bed rooms, \$92,850 per licensed bed in semiprivate rooms with a fixed partition separating the resident beds, and \$111,420 per licensed bed in single rooms. Except as provided in paragraph (c), 75 percent of the money received by a facility as a result of

the rate adjustment provided in paragraph (a) must be used only for wage, benefit, and staff increases implemented on or after the effective date of the rate increase each year, and must not be used for increases implemented prior to that date.

(c) With respect only to the October 1, 2005, rate increase, a nursing facility that incurred costs for salary and employee benefit increases first provided after July 1, 2003, may count those costs towards the amount required to be spent on salaries and benefits under paragraph (b). These costs must be reported to the commissioner in the form and manner specified by the commissioner.

(d) Nursing facilities may apply for the portion of the rate adjustment under paragraph (a) for employee wages and benefits and associated costs. The commissioner may waive the deadlines in this paragraph under extraordinary circumstances, either retroactively or prospectively, to be determined at the sole discretion of the commissioner. If a facility's distribution plan is effective after the first day of the applicable rate period that the funds are available, the rate adjustments are effective the same date as the facility's plan.

(e) A copy of the approved distribution plan must be made available to all employees by giving each employee a copy or by posting a copy in an area of the nursing facility to which all employees have access. If an employee does not receive the wage and benefit adjustment described in the facility's approved plan and is unable to resolve the problem with the facility's management or through the employee's union representative, the employee may contact the commissioner at an address or telephone number provided by the commissioner and included in the approved plan.

**EFFECTIVE DATE.** This section is effective upon enactment and is retroactive from October 1, 2005.

## ARTICLE 7

## CONTINUING CARE

Section 1. Minnesota Statutes 2006, section 47.58, subdivision 8, is amended to read:

Subd. 8. **Counseling; requirement; penalty.** A lender, mortgage banking company, or other mortgage lender not related to the mortgagor must keep a certificate on file documenting that the borrower, prior to entering into the reverse mortgage loan, received counseling as defined in this subdivision from an organization that meets the requirements of section 462A.209 and is a housing counseling agency approved by the Department of Housing and Urban Development. The certificate must be signed by the mortgagor and the counselor and include the date of the counseling, the name, address, and telephone number of both the mortgagor and the organization providing counseling. A failure by the lender to comply with this subdivision results in a \$1,000 civil penalty payable to the mortgagor. For the purposes of this subdivision, "counseling" means the following services are provided to the borrower:

- (1) a review of the advantages and disadvantages of reverse mortgage programs;
- (2) an explanation of how the reverse mortgage affects the borrower's estate and public benefits;
- (3) an explanation of the lending process;
- (4) a discussion of the borrower's supplemental income needs; ~~and~~
- (5) an explanation of the provisions of sections 256B.0913, subdivision 17, and 462A.05, subdivision 42; and
- (6) an opportunity to ask questions of the counselor.

Sec. 2. Minnesota Statutes 2006, section 144A.073, subdivision 4, is amended to read:

Subd. 4. **Criteria for review.** The following criteria shall be used in a consistent manner to compare, evaluate, and rank all proposals submitted. Except for the criteria specified in clause (3), the application of criteria listed under this subdivision shall not reflect any distinction based on the geographic location of the proposed project:

- (1) the extent to which the proposal furthers state long-term care goals, including the goal of enhancing the availability and use of alternative care services and the goal of reducing the number of long-term care resident rooms with more than two beds;
- (2) the proposal's long-term effects on state costs including the cost estimate of the project according to section 144A.071, subdivision 5a;
- (3) the extent to which the proposal promotes equitable access to long-term care services in nursing homes through redistribution of the nursing home bed supply, as measured by the number of beds relative to the population 85 or older, projected to the year 2000 by the state demographer, and according to items (i) to (iv):
  - (i) reduce beds in counties where the supply is high, relative to the statewide mean, and increase beds in counties where the supply is low, relative to the statewide mean;
  - (ii) adjust the bed supply so as to create the greatest benefits in improving the distribution of beds;

(iii) adjust the existing bed supply in counties so that the bed supply in a county moves toward the statewide mean; and

(iv) adjust the existing bed supply so that the distribution of beds as projected for the year 2020 would be consistent with projected need, based on the methodology outlined in the Interagency Long-Term Care Committee's nursing home bed distribution study;

(4) the extent to which the project improves conditions that affect the health or safety of residents, such as narrow corridors, narrow door frames, unenclosed fire exits, and wood frame construction, and similar provisions contained in fire and life safety codes and licensure and certification rules;

(5) the extent to which the project improves conditions that affect the comfort or quality of life of residents in a facility or the ability of the facility to provide efficient care, such as a relatively high number of residents in a room; inadequate lighting or ventilation; poor access to bathing or toilet facilities; a lack of available ancillary space for dining rooms, day rooms, or rooms used for other activities; problems relating to heating, cooling, or energy efficiency; inefficient location of nursing stations; narrow corridors; or other provisions contained in the licensure and certification rules;

(6) the extent to which the applicant demonstrates the delivery of quality care, as defined in state and federal statutes and rules, to residents as evidenced by the two most recent state agency certification surveys and the applicants' response to those surveys;

(7) the extent to which the project removes the need for waivers or variances previously granted by either the licensing agency, certifying agency, fire marshal, or local government entity;

(8) the extent to which the project increases the number of private or single bed rooms; ~~and~~

(9) the extent to which the applicant demonstrates the continuing need for nursing facility care in the community and adjacent communities; and

(10) other factors that may be developed in permanent rule by the commissioner of health that evaluate and assess how the proposed project will further promote or protect the health, safety, comfort, treatment, or well-being of the facility's residents.

**EFFECTIVE DATE.** This section is effective July 1, 2007.

Sec. 3. Minnesota Statutes 2006, section 252.27, subdivision 2a, is amended to read:

The parental contribution is a partial or full payment for medical services provided for diagnostic, therapeutic, curing, treating, mitigating, rehabilitation, maintenance, and personal care services as defined in United States Code, title 26, section 213, needed by the child with a chronic illness or disability.

(b) For households with adjusted gross income equal to or greater than 100 percent of federal poverty guidelines, the parental contribution shall be computed by applying the following schedule of rates to the adjusted gross income of the natural or adoptive parents:

(1) if the adjusted gross income is equal to or greater than 100 percent of federal poverty guidelines and less than 175 percent of federal poverty guidelines, the parental contribution is \$4 per month;

(2) if the adjusted gross income is equal to or greater than 175 percent of federal poverty guidelines and less than or equal to 545 percent of federal poverty guidelines, the parental contribution shall be determined using a sliding fee scale established by the commissioner of human services which begins at one percent of adjusted gross income at 175 percent of federal poverty guidelines and increases to 7.5 percent of adjusted gross income for those with adjusted gross income up to 545 percent of federal poverty guidelines;

(3) if the adjusted gross income is greater than 545 percent of federal poverty guidelines and less than 675 percent of federal poverty guidelines, the parental contribution shall be 7.5 percent of adjusted gross income;

(4) if the adjusted gross income is equal to or greater than 675 percent of federal poverty guidelines and less than 975 percent of federal poverty guidelines, the parental contribution shall be determined using a sliding fee scale established by the commissioner of human services which begins at 7.5 percent of adjusted gross income at 675 percent of federal poverty guidelines and increases to ten percent of adjusted gross income for those with adjusted gross income up to 975 percent of federal poverty guidelines; and

(5) if the adjusted gross income is equal to or greater than 975 percent of federal poverty guidelines, the parental contribution shall be 12.5 percent of adjusted gross income.

If the child lives with the parent, the annual adjusted gross income is reduced by \$2,400 prior to calculating the parental contribution. If the child resides in an institution specified in section 256B.35, the parent is responsible for the personal needs allowance specified under that section in addition to the parental contribution determined under this section. The parental contribution is reduced by any amount required to be paid directly to the child pursuant to a court order, but only if actually paid.

(c) The household size to be used in determining the amount of contribution under paragraph (b) includes natural and adoptive parents and their dependents, including the child receiving services. Adjustments in the contribution amount due to annual changes in the federal poverty guidelines shall be implemented on the first day of July following publication of the changes.

(d) For purposes of paragraph (b), "income" means the adjusted gross income of the natural or adoptive parents determined according to the previous year's federal tax form, except, effective retroactive to July 1, 2003, taxable capital gains to the extent the funds have been used to purchase a home shall not be counted as income.

(e) The contribution shall be explained in writing to the parents at the time eligibility for services is being determined. The contribution shall be made on a monthly basis effective with the first month in which the child receives services. Annually upon redetermination or at termination of eligibility, if the contribution exceeded the cost of services provided, the local agency or the state shall reimburse that excess amount to the parents, either by direct reimbursement if the parent is no longer required to pay a contribution, or by a reduction in or waiver of parental fees until the excess amount is exhausted.

(f) The monthly contribution amount must be reviewed at least every 12 months; when there is a change in household size; and when there is a loss of or gain in income from one month to another in excess of ten percent. The local agency shall mail a written notice 30 days in advance of the effective date of a change in the contribution amount. A decrease in the contribution amount is effective in the month that the parent verifies a reduction in income or change in household size.

(g) Parents of a minor child who do not live with each other shall each pay the contribution required under paragraph (a). An amount equal to the annual court-ordered child support payment actually paid on behalf of the child receiving services shall be deducted from the adjusted gross income of the parent making the payment prior to calculating the parental contribution under paragraph (b).

(h) The contribution under paragraph (b) shall be increased by an additional five percent if the local agency determines that insurance coverage is available but not obtained for the child. For purposes of this section, "available" means the insurance is a benefit of employment for a family member at an annual cost of no more than five percent of the family's annual income. For purposes of this section, "insurance" means health and accident insurance coverage, enrollment in a nonprofit health service plan, health maintenance organization, self-insured plan, or preferred provider organization.

Parents who have more than one child receiving services shall not be required to pay more than the amount for the child with the highest expenditures. There shall be no resource contribution from the parents. The parent shall not be required to pay a contribution in excess of the cost of the services provided to the child, not counting payments made to school districts for education-related services. Notice of an increase in fee payment must be given at least 30 days before the increased fee is due.

(i) The contribution under paragraph (b) shall be reduced by \$300 per fiscal year if, in the 12 months prior to July 1:

- (1) the parent applied for insurance for the child;
- (2) the insurer denied insurance;
- (3) the parents submitted a complaint or appeal, in writing to the insurer, submitted a complaint or appeal, in writing, to the commissioner of health or the commissioner of commerce, or litigated the complaint or appeal; and
- (4) as a result of the dispute, the insurer reversed its decision and granted insurance.

For purposes of this section, "insurance" has the meaning given in paragraph (h).

A parent who has requested a reduction in the contribution amount under this paragraph shall submit proof in the form and manner prescribed by the commissioner or county agency, including, but not limited to, the insurer's denial of insurance, the written letter or complaint of the parents, court documents, and the written response of the insurer approving insurance. The determinations of the commissioner or county agency under this paragraph are not rules subject to chapter 14.

(a) Notwithstanding section 252.294, the commissioner may license two six-bed, level B intermediate care facilities for persons with developmental disabilities (ICF's/MR) to replace a 15-bed level A facility in Minneapolis that is not accessible to persons with disabilities. The new facilities must be accessible to persons with disabilities and must be located on a different site or sites in Hennepin County. Notwithstanding section 256B.5012, the payment rate at the new facilities is \$200.47 plus any rate adjustments for ICF's/MR effective on or after July 1, 2007.

(d) The payment rates in paragraphs (b) and (c) are effective October 1, 2009.

The evaluation must include an analysis of funding adequacy, gaps in service delivery, continuity in information between the service and identified linkages, and potential use of private funding to enhance the service.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 8. Minnesota Statutes 2006, section 256B.056, subdivision 1a, is amended to read:

Subd. 1a. **Income and assets generally.** Unless specifically required by state law or rule or federal law or regulation, the methodologies used in counting income and assets to determine eligibility for medical assistance for persons whose eligibility category is based on blindness, disability, or age of 65 or more years, the methodologies for the supplemental security income program shall be used, except as provided under subdivision 3, paragraph (f). Increases in benefits under title II of the Social Security Act shall not be counted as income for purposes of this subdivision until July 1 of each year. Effective upon federal approval, for children eligible under section 256B.055, subdivision 12, or for home and community-based waiver services whose eligibility for medical assistance is determined without regard to parental income, child support payments, including any payments made by an obligor in satisfaction of or in addition to a temporary or permanent order for child support, and Social Security payments are not counted as income. For families and children, which includes all other eligibility categories, the methodologies under the state's AFDC plan in effect as of July 16, 1996, as required by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), Public Law 104-193, shall be used, except that

effective October 1, 2003, the earned income disregards and deductions are limited to those in subdivision 1c. For these purposes, a "methodology" does not include an asset or income standard, or accounting method, or method of determining effective dates.

Sec. 9. Minnesota Statutes 2006, section 256B.056, subdivision 3, is amended to read:

Subd. 3. **Asset limitations for aged, blind, or disabled individuals and families.** To be eligible for medical assistance, a person must not individually own more than \$3,000 in assets, or if a member of a household with two family members, husband and wife, or parent and child, the household must not own more than \$6,000 in assets, plus \$200 for each additional legal dependent. In addition to these maximum amounts, an eligible individual or family may accrue interest on these amounts, but they must be reduced to the maximum at the time of an eligibility redetermination. The accumulation of the clothing and personal needs allowance according to section 256B.35 must also be reduced to the maximum at the time of the eligibility redetermination. The value of assets that are not considered in determining eligibility for medical assistance is the value of those assets excluded under the supplemental security income program for aged, blind, and disabled persons, with the following exceptions:

- (a) Household goods and personal effects are not considered.
- (b) Capital and operating assets of a trade or business that the local agency determines are necessary to the person's ability to earn an income are not considered.
- (c) Motor vehicles are excluded to the same extent excluded by the supplemental security income program.
- (d) Assets designated as burial expenses are excluded to the same extent excluded by the supplemental security income program. Burial expenses funded by annuity contracts or life insurance policies must irrevocably designate the individual's estate as contingent beneficiary to the extent proceeds are not used for payment of selected burial expenses.
- (e) Effective upon federal approval, for a person who no longer qualifies as an employed person with a disability due to loss of earnings, assets allowed while eligible for medical assistance under section 256B.057, subdivision 9, are not considered for 12 months, beginning with the first month of ineligibility as an employed person with a disability, to the extent that the person's total assets remain within the allowed limits of section 256B.057, subdivision 9, paragraph (b).
- (f) When a person enrolled in medical assistance under section 256B.057, subdivision 9, reaches age 65 and has been enrolled during each of the 24 consecutive months before the person's 65th birthday, the assets owned by the person and the person's spouse must be disregarded, up to the limits of section 256B.057, subdivision 9, paragraph (b), when determining eligibility for medical assistance under section 256B.055, subdivision 7. The income of a spouse of a person enrolled in medical assistance under section 256B.057, subdivision 9, during each of the 24 consecutive months before the person's 65th birthday must be disregarded when determining eligibility for medical assistance under section 256B.055, subdivision 7, when the person reaches age 65. This paragraph does not apply at the time the person or the person's spouse requests medical assistance payment for long-term care services.

**EFFECTIVE DATE.** This section is effective July 1, 2007.

Sec. 10. Minnesota Statutes 2006, section 256B.0625, subdivision 18a, is amended to read:

Subd. 18a. **Access to medical services.** (a) Medical assistance reimbursement for meals for persons traveling to receive medical care may not exceed \$5.50 for breakfast, \$6.50 for lunch, or \$8 for dinner.

(b) Medical assistance reimbursement for lodging for persons traveling to receive medical care may not exceed \$50 per day unless prior authorized by the local agency.

(c) Medical assistance direct mileage reimbursement to the eligible person or the eligible person's driver may not exceed 20 cents per mile.

(d) Regardless of the number of employees that an enrolled health care provider may have, medical assistance covers sign and oral language interpreter services when provided by an enrolled health care provider during the course of providing a direct, person-to-person covered health care service to an enrolled recipient with limited English proficiency or who has a hearing loss and uses interpreting services.

Sec. 11. Minnesota Statutes 2006, section 256B.0625, is amended by adding a subdivision to read:

Subd. 49. **Self-directed supports option.** Upon federal approval, medical assistance covers the self-directed supports option as defined under section 256B.0657 and section 6087 of the Federal Deficit Reduction Act of 2005, Public Law 109-171.

**EFFECTIVE DATE.** This section is effective upon federal approval of the state Medicaid plan amendment. The commissioner of human services shall inform the Office of the Revisor of Statutes when approval is obtained.

Sec. 12. Minnesota Statutes 2006, section 256B.0651, subdivision 7, is amended to read:

Subd. 7. **Prior authorization; time limits.** The commissioner or the commissioner's designee shall determine the time period for which a prior authorization shall be effective and, if flexible use has been requested, whether to allow the flexible use option. If the recipient continues to require home care services beyond the duration of the prior authorization, the home care provider must request a new prior authorization. A personal care provider agency must request a new personal care assistant services assessment, or service update if allowed, at least 60 days prior to the end of the current prior authorization time period. The request for the assessment must be made on a form approved by the commissioner. Under no circumstances, other than the exceptions in subdivision 4, shall a prior authorization be valid prior to the date the commissioner receives the request or for more than 12 months. A recipient who appeals a reduction in previously authorized home care services may continue previously authorized services, other than temporary services under subdivision 8, pending an appeal under section 256.045. The commissioner must provide a detailed explanation of why the authorized services are reduced in amount from those requested by the home care provider.

Sec. 13. Minnesota Statutes 2006, section 256B.0655, subdivision 1b, is amended to read:

Subd. 1b. **Assessment.** "Assessment" means a review and evaluation of a recipient's need for home care services conducted in person. Assessments for personal care assistant services shall be conducted by the county public health nurse or a certified public health nurse under contract with the county. A face-to-face assessment must include: documentation of health status, determination of need, evaluation of service effectiveness, identification of appropriate services, service plan development or modification, coordination of services, referrals and follow-up to appropriate payers and community resources, completion of required reports, recommendation of service authorization, and consumer education. Once the need for personal care assistant services is determined under this section or sections 256B.0651, 256B.0653, 256B.0654, and 256B.0656, the county public health nurse or certified public health nurse under contract with the county is responsible for communicating this recommendation to the commissioner and the recipient. A face-to-face assessment for personal care assistant services is conducted on those recipients who have never had a county public health nurse assessment. A face-to-face assessment must occur at least annually or when there is a significant change in the recipient's condition or when there is a change in the need for personal care assistant services. A service update may substitute for the annual face-to-face assessment when

there is not a significant change in recipient condition or a change in the need for personal care assistant service. A service update may be completed by telephone, used when there is no need for an increase in personal care assistant services, and used for two consecutive assessments if followed by a face-to-face assessment. A service update must be completed on a form approved by the commissioner. A service update or review for temporary increase includes a review of initial baseline data, evaluation of service effectiveness, redetermination of service need, modification of service plan and appropriate referrals, update of initial forms, obtaining service authorization, and on going consumer education. Assessments must be completed on forms provided by the commissioner within 30 days of a request for home care services by a recipient or responsible party or personal care provider agency.

Sec. 14. Minnesota Statutes 2006, section 256B.0655, subdivision 3, is amended to read:

Subd. 3. **Assessment and service plan.** Assessments under subdivision 1b and sections 256B.0651, subdivision 1, paragraph (b), and 256B.0654, subdivision 1, paragraph (a), shall be conducted initially, and at least annually thereafter, in person with the recipient and result in a completed service plan using forms specified by the commissioner. A personal care provider agency must use a form approved by the commissioner to request a county public health nurse to conduct a personal care assistant services assessment. When requesting a reassessment, the personal care provider agency must notify the county and the recipient at least 60 days prior to the end of the current prior authorization for personal care assistant services. The recipient notice shall include information on the recipient's appeal rights. Within 30 days of recipient or responsible party or personal care assistant provider agency request for home care services, the assessment, the service plan, and other information necessary to determine medical necessity such as diagnostic or testing information, social or medical histories, and hospital or facility discharge summaries shall be submitted to the commissioner. Notwithstanding the provisions of subdivision 8, the commissioner shall maximize federal financial participation to pay for public health nurse assessments for personal care services. For personal care assistant services:

(1) The amount and type of service authorized based upon the assessment and service plan will follow the recipient if the recipient chooses to change providers.

(2) If the recipient's need changes, the recipient's provider may assess the need for a change in service authorization and request the change from the county public health nurse. The request must be made on a form approved by the commissioner. Within 30 days of the request, the public health nurse will determine whether to request the change in services based upon the provider assessment, or conduct a home visit to assess the need and determine whether the change is appropriate. If the change in service need is due to a change in medical condition, a new physician's statement of need required by section 256B.0625, subdivision 19c, must be obtained.

(3) To continue to receive personal care assistant services after the first year, the recipient or the responsible party, in conjunction with the public health nurse, may complete a service update on forms developed by the commissioner according to criteria and procedures in subdivisions 1a to 1i and sections 256B.0651, subdivision 1; 256B.0653, subdivision 1; and 256B.0654, subdivision 1.

Sec. 15. Minnesota Statutes 2006, section 256B.0655, subdivision 8, is amended to read:

Subd. 8. **Public health nurse assessment rate.** (a) The reimbursement rates for public health nurse visits that relate to the provision of personal care services under this section and section 256B.0625, subdivision 19a, are:

- (i) \$210.50 for a face-to-face assessment visit;
- (ii) \$105.25 for each service update; and
- (iii) \$105.25 for each request for a temporary service increase.

(b) The rates specified in paragraph (a) must be adjusted to reflect provider rate increases for personal care assistant services that are approved by the legislature for the fiscal year ending June 30, 2000, and subsequent fiscal years. Any requirements applied by the legislature to provider rate increases for personal care assistant services also apply to adjustments under this paragraph.

(c) Effective July 1, 2008, the payment rate for an assessment under this section and section 256B.0651 shall be reduced by 25 percent when the assessment is not completed on time or the service agreement documentation is not submitted in time to continue services. The commissioner shall recoup these amounts on a retroactive basis.

Sec. 16. **[256B.0657] SELF-DIRECTED SUPPORTS OPTION.**

Subdivision 1. **Definition.** "Self-directed supports option" means personal assistance, supports, items, and related services purchased under an approved budget plan and budget by a recipient.

Subd. 2. **Eligibility.** (a) The self-directed supports option is available to a person who:

(1) is a recipient of medical assistance as determined under sections 256B.055, 256B.056, and 256B.057, subdivision 9;

(3) lives in the person's own apartment or home, which is not owned, operated, or controlled by a provider of services not related by blood or marriage;

(4) has the ability to hire, fire, supervise, establish staff compensation for, and manage the individuals providing services, and to choose and obtain items, related services, and supports as described in the participant's plan. If the recipient is not able to carry out these functions but has a legal guardian or parent to carry them out, the guardian or parent may fulfill these functions on behalf of the recipient; and

(5) has not been excluded or disenrolled by the commissioner.

(b) The commissioner may disenroll or exclude recipients, including guardians and parents, under the following circumstances:

(1) recipients who have been restricted by the Primary Care Utilization Review Committee may be excluded for a specified time period; and

(2) recipients who exit the self-directed supports option during the recipient's service plan year shall not access the self-directed supports option for the remainder of that service plan year.

Subd. 3. **Eligibility for other services.** Selection of the self-directed supports option by a recipient shall not restrict access to other medically necessary care and services furnished under the state plan medical assistance benefit, including home care targeted case management, except that a person receiving home and community-based waiver services, a family support grant or a consumer support grant is not eligible for funding under the self-directed supports option.

Subd. 4. **Assessment requirements.** (a) The self-directed supports option assessment must meet the following requirements:

(1) it shall be conducted by the county public health nurse or a certified public health nurse under contract with the county;

(2) it shall be conducted face-to-face in the recipient's home initially, and at least annually thereafter; when there is a significant change in the recipient's condition; and when there is a change in the need for personal care assistant services. A recipient who is residing in a facility may be assessed for the self-directed support option for the purpose of returning to the community using this option; and

(3) it shall be completed using the format established by the commissioner.

(b) The results of the assessment and recommendations shall be communicated to the commissioner and the recipient by the county public health nurse or certified public health nurse under contract with the county.

Subd. 5. **Self-directed supports option plan requirements.** (a) The plan for the self-directed supports option must meet the following requirements:

(1) the plan must be completed using a person-centered process that:

(ii) respects the recipient's preferences, choices, and abilities;

(iii) involves families, friends, and professionals in the planning or delivery of services or supports as desired or required by the recipient; and

(iv) addresses the need for personal care assistant services identified in the recipient's self-directed supports option assessment;

(2) the plan shall be developed by the recipient or by the guardian of an adult recipient or by a parent or guardian of a minor child, with the assistance of an enrolled medical assistance home care targeted case manager provider who meets the requirements established for using a person-centered planning process and shall be reviewed at least annually upon reassessment or when there is a significant change in the recipient's condition; and

(3) the plan must include the total budget amount available divided into monthly amounts that cover the number of months of personal care assistant services authorization included in the budget. The amount used each month may vary, but additional funds shall not be provided above the annual personal care assistant services authorized amount unless a change in condition is documented.

(b) The commissioner shall:

(1) establish the format and criteria for the plan as well as the requirements for providers who assist with plan development;

(2) review the assessment and plan and, within 30 days after receiving the assessment and plan, make a decision on approval of the plan;

(3) notify the recipient, parent, or guardian of approval or denial of the plan and provide notice of the right to appeal under section 256.045; and

(4) provide a copy of the plan to the fiscal support entity selected by the recipient.

Subd. 6. **Services covered.** (a) Services covered under the self-directed supports option include:

(1) personal care assistant services under section 256B.0655; and

(2) items, related services, and supports, including assistive technology, that increase independence or substitute for human assistance to the extent expenditures would otherwise be used for human assistance.

(b) Items, supports, and related services purchased under this option shall not be considered home care services for the purposes of section 144A.43.

Subd. 7. **Noncovered services.** Services or supports that are not eligible for payment under the self-directed supports option include:

(1) services, goods, or supports that do not benefit the recipient;

(2) any fees incurred by the recipient, such as Minnesota health care program fees and co-pays, legal fees, or costs related to advocate agencies;

(3) insurance, except for insurance costs related to employee coverage or fiscal support entity payments;

(4) room and board and personal items that are not related to the disability, except that medically prescribed specialized diet items may be covered if they reduce the need for human assistance;

(5) home modifications that add square footage;

(6) home modifications for a residence other than the primary residence of the recipient, or in the event of a minor with parents not living together, the primary residences of the parents;

(7) expenses for travel, lodging, or meals related to training the recipient, the parent or guardian of an adult recipient, or the parent or guardian of a minor child, or paid or unpaid caregivers that exceed \$500 in a 12-month period;

(8) experimental treatment;

(9) any service or item covered by other medical assistance state plan services, including prescription and over-the-counter medications, compounds, and solutions and related fees, including premiums and co-payments;

(10) membership dues or costs, except when the service is necessary and appropriate to treat a physical condition or to improve or maintain the recipient's physical condition. The condition must be identified in the recipient's plan of care and monitored by a Minnesota health care program enrolled physician;

(11) vacation expenses other than the cost of direct services;

(12) vehicle maintenance or modifications not related to the disability;

(13) tickets and related costs to attend sporting or other recreational events; and

(14) costs related to Internet access, except when necessary for operation of assistive technology, to increase independence, or to substitute for human assistance.

Subd. 8. **Self-directed budget requirements.** The budget for the provision of the self-directed service option shall be equal to the greater of either:

(1) the annual amount of personal care assistant services under section 256B.0655 that the recipient has used in the most recent 12-month period; or

(2) the amount determined using the consumer support grant methodology under section 256.476, subdivision 11, except that the budget amount shall include the federal and nonfederal share of the average service costs.

Subd. 9. **Quality assurance and risk management.** (a) The commissioner shall establish quality assurance and risk management measures for use in developing and implementing self-directed plans and budgets that (1) recognize the roles and responsibilities involved in obtaining services in a self-directed manner, and (2) assure the appropriateness of such plans and budgets based upon a recipient's resources and capabilities. These measures must include (i) background studies, and (ii) backup and emergency plans, including disaster planning.

(b) The commissioner shall provide ongoing technical assistance and resource and educational materials for families and recipients selecting the self-directed option.

(c) Performance assessments measures, such as of a recipient's satisfaction with the services and supports, and ongoing monitoring of health and well-being shall be identified in consultation with the stakeholder group.

Subd. 10. **Fiscal support entity.** (a) Each recipient shall choose a fiscal support entity provider certified by the commissioner to make payments for services, items, supports, and administrative costs related to managing a self-directed service plan authorized for payment in the approved plan and budget. Recipients shall also choose the payroll, agency with choice, or the fiscal conduit model of financial and service management.

(b) The fiscal support entity:

(1) may not limit or restrict the recipient's choice of service or support providers, including use of the payroll, agency with choice, or fiscal conduit model of financial and service management;

(2) must have a written agreement with the recipient or the recipient's representative that identifies the duties and responsibilities to be performed and the specific related charges;

(3) must provide the recipient and the home care targeted case manager with a monthly written summary of the self-directed supports option services that were billed, including charges from the fiscal support entity;

(4) must be knowledgeable of and comply with Internal Revenue Service requirements necessary to process employer and employee deductions, provide appropriate and timely submission of employer tax liabilities, and maintain documentation to support medical assistance claims;

(5) must have current and adequate liability insurance and bonding and sufficient cash flow and have on staff or under contract a certified public accountant or an individual with a baccalaureate degree in accounting; and

(g) The person has the right to make the final decision between nursing facility placement and community placement after the screening team's recommendation, except as provided in subdivision 4a, paragraph (c).

(h) The team must give the person receiving assessment or support planning, or the person's legal representative, materials, and forms supplied by the commissioner containing the following information:

The effective eligibility start date for these programs can never be prior to the date of assessment. If an assessment was completed more than 60 days before the effective waiver or alternative care program eligibility start date, assessment and support plan information must be updated in a face-to-face visit and documented in the department's Medicaid Management Information System (MMIS). The effective date of program eligibility in this case cannot be prior to the date the updated assessment is completed.

The purpose of transitional long-term care consultation is to support persons with current or anticipated long-term care needs in making informed choices among options that include the most cost-effective and least restrictive settings, and to delay spenddown to eligibility for publicly funded programs by connecting people to alternative services in their homes before transition to housing with services. Regardless of the consultation, prospective residents maintain the right to choose housing with services or assisted living if that option is their preference.

(b) Transitional consultation services are provided as determined by the commissioner of human services in partnership with county long-term care consultation units, and the Area Agencies on Aging, and are a combination of telephone-based and in-person assistance provided under models developed by the commissioner. Sec. 20. Minnesota Statutes 2006, section 256B.0913, is amended by adding a subdivision to read:

(c) The commissioner shall require a certification of loan satisfaction or other documentation that the person qualifies under this subdivision.

Sec. 21. Minnesota Statutes 2006, section 256B.0915, is amended to read:

**256B.0915 MEDICAID WAIVER FOR ELDERLY SERVICES.**

Subdivision 1. **Authority.** The commissioner is authorized to apply for a home and community-based services waiver for the elderly, authorized under section 1915(c) of the Social Security Act, in order to obtain federal financial participation to expand the availability of services for persons who are eligible for medical assistance. The commissioner may apply for additional waivers or pursue other federal financial participation which is advantageous to the state for funding home care services for the frail elderly who are eligible for medical assistance. The provision of waived services to elderly and disabled medical assistance recipients must comply with the criteria for service definitions and provider standards approved in the waiver.

Subd. 1a. **Elderly waiver case management services.** (a) Elderly case management services under the home and community-based services waiver for elderly individuals are available from providers meeting qualification requirements and the standards specified in subdivision 1b. Eligible recipients may choose any qualified provider of elderly case management services.

Case management services assist individuals who receive waiver services in gaining access to needed waiver and other state plan services, as well as needed medical, social, educational, and other services regardless of the funding source for the services to which access is gained.

A case aide shall provide assistance to the case manager in carrying out administrative activities of the case management function. The case aide may not assume responsibilities that require professional judgment including assessments, reassessments, and care plan development. The case manager is responsible for providing oversight of the case aide.

Case managers shall be responsible for ongoing monitoring of the provision of services included in the individual's plan of care. Case managers shall initiate and oversee the process of assessment and reassessment of the individual's care and review plan of care at intervals specified in the federally approved waiver plan.

(b) The county of service or tribe must provide access to and arrange for case management services. County of service has the meaning given it in Minnesota Rules, part 9505.0015, subpart 11.

Subd. 1b. **Provider qualifications and standards.** The commissioner must enroll qualified providers of elderly case management services under the home and community-based waiver for the elderly under section 1915(c) of the Social Security Act. The enrollment process shall ensure the provider's ability to meet the qualification requirements and standards in this subdivision and other federal and state requirements of this service. An elderly case management provider is an enrolled medical assistance provider who is determined by the commissioner to have all of the following characteristics:

(1) the demonstrated capacity and experience to provide the components of case management to coordinate and link community resources needed by the eligible population;

(2) administrative capacity and experience in serving the target population for whom it will provide services and in ensuring quality of services under state and federal requirements;

(3) a financial management system that provides accurate documentation of services and costs under state and federal requirements;

(4) the capacity to document and maintain individual case records under state and federal requirements; and

(5) the county lead agency may allow a case manager employed by the county lead agency to delegate certain aspects of the case management activity to another individual employed by the county lead agency provided there is oversight of the individual by the case manager. The case manager may not delegate those aspects which require professional judgment including assessments, reassessments, and care plan development. Lead agencies include counties, health plans, and federally recognized tribes who authorize services under this section.

~~Subd. 1c. **Case management activities under the state plan.** The commissioner shall seek an amendment to the home and community-based services waiver for the elderly to implement the provisions of subdivisions 1a and 1b. If the commissioner is unable to secure the approval of the secretary of health and human services for the requested waiver amendment by December 31, 1993, the commissioner shall amend the medical assistance state plan to provide that case management provided under the home and community-based services waiver for the elderly is performed by counties as an administrative function for the proper and effective administration of the state medical assistance plan. The state shall reimburse counties for the nonfederal share of costs for case management performed as an administrative function under the home and community-based services waiver for the elderly.~~

Subd. 1d. **Posteligibility treatment of income and resources for elderly waiver.** Notwithstanding the provisions of section 256B.056, the commissioner shall make the following amendment to the medical assistance elderly waiver program effective July 1, 1999, or upon federal approval, whichever is later.

A recipient's maintenance needs will be an amount equal to the Minnesota supplemental aid equivalent rate as defined in section 256I.03, subdivision 5, plus the medical assistance personal needs allowance as defined in section 256B.35, subdivision 1, paragraph (a), when applying posteligibility treatment of income rules to the gross income of elderly waiver recipients, except for individuals whose income is in excess of the special income standard according to Code of Federal Regulations, title 42, section 435.236. Recipient maintenance needs shall be adjusted under this provision each July 1.

Subd. 2. **Spousal impoverishment policies.** The commissioner shall ~~seek to amend the federal waiver and the medical assistance state plan to allow~~ apply:

(1) the spousal impoverishment criteria as authorized under United States Code, title 42, section 1396r-5, and as implemented in sections 256B.0575, 256B.058, and 256B.059, except that the amendment shall seek to add to:

(2) the personal needs allowance permitted in section 256B.0575; and

(3) an amount equivalent to the group residential housing rate as set by section 256I.03, subdivision 5, and according to the approved federal waiver and medical assistance state plan.

Subd. 3. **Limits of cases.** The number of medical assistance waiver recipients that a ~~county~~ lead agency may serve must be allocated according to the number of medical assistance waiver cases open on July 1 of each fiscal year. Additional recipients may be served with the approval of the commissioner.

Subd. 3a. **Elderly waiver cost limits.** (a) The monthly limit for the cost of waived services to an individual elderly waiver client shall be the weighted average monthly nursing facility rate of the case mix resident class to which the elderly waiver client would be assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, less the recipient's maintenance needs allowance as described in subdivision 1d, paragraph (a), until the first day of the state fiscal year in which the resident assessment system as described in section 256B.437 for nursing home rate determination is implemented. Effective on the first day of the state fiscal year in which the resident assessment system as described in section 256B.437 for nursing home rate determination is implemented and the first day of each subsequent state fiscal year, the monthly limit for the cost of waived services to an individual elderly waiver client shall be the rate of the case mix resident class to which the waiver client would be assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, in effect on the last day of the previous state fiscal year, adjusted by the greater of any legislatively adopted home and community-based services percentage rate increase or the average statewide percentage increase in nursing facility payment rates.

(b) If extended medical supplies and equipment or environmental modifications are or will be purchased for an elderly waiver client, the costs may be prorated for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's waived services exceeds the monthly limit established in paragraph (a), the annual cost of all waived services shall be determined. In this event, the annual cost of all waived services shall not exceed 12 times the monthly limit of waived services as described in paragraph (a).

Subd. 3b. **Cost limits for elderly waiver applicants who reside in a nursing facility.** (a) For a person who is a nursing facility resident at the time of requesting a determination of eligibility for elderly waived services, a monthly conversion limit for the cost of elderly waived services may be requested. The monthly conversion limit for the cost of elderly waiver services shall be the resident class assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, for that resident in the nursing facility where the resident currently resides until July 1 of the state fiscal year in which the resident assessment system as described in section ~~256B.437~~ 256B.438 for nursing home rate determination is implemented. Effective on July 1 of the state fiscal year in which the resident assessment system as described in section ~~256B.437~~ 256B.438 for nursing home rate determination is implemented, the monthly conversion limit for the cost of elderly waiver services shall be the per diem nursing facility rate as determined by the resident assessment system as described in section ~~256B.437~~ 256B.438 for that resident in the nursing facility where the resident currently resides multiplied by 365 and divided by 12, less the recipient's maintenance needs allowance as described in subdivision 1d. The initially approved conversion rate may be adjusted by the greater of any subsequent legislatively adopted home and community-based services percentage rate increase or the average statewide percentage increase in nursing facility payment rates. The limit under this subdivision only applies to persons discharged from a nursing facility after a minimum 30-day stay and found eligible for waived services on

or after July 1, 1997. For conversions from the nursing home to the elderly waiver with consumer directed community support services, the conversion rate limit is equal to the nursing facility rate reduced by a percentage equal to the percentage difference between the consumer directed services budget limit that would be assigned according to the federally approved waiver plan and the corresponding community case mix cap, but not to exceed 50 percent.

(b) The following costs must be included in determining the total monthly costs for the waiver client:

(1) cost of all waived services, including extended medical supplies and equipment and environmental modifications and adaptations; and

(2) cost of skilled nursing, home health aide, and personal care services reimbursable by medical assistance.

Subd. 3c. **Service approval and contracting provisions.** (a) Medical assistance funding for skilled nursing services, private duty nursing, home health aide, and personal care services for waiver recipients must be approved by the case manager and included in the individual care plan.

The payment agreement must delineate the services that have been customized for each recipient and specify the amount of each service to be provided. The lead agency shall ensure that there is a documented need for all services authorized. Customized living services must not include rent or raw food costs. The negotiated payment rate must be based on services to be provided. Negotiated rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale.

(b) The individualized monthly negotiated payment for ~~assisted living customized living services as described in section 256B.0913, subdivisions 5d to 5f, and residential care services as described in section 256B.0913, subdivision 5e,~~ shall not exceed the nonfederal share, in effect on July 1 of the state fiscal year for which the rate limit is being calculated, of the greater of either the statewide or any of the geographic groups' weighted average monthly nursing facility rate of the case mix resident class to which the elderly waiver eligible client would be assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, less the maintenance needs allowance as described in subdivision 1d, paragraph (a), until the July 1 of the state fiscal year in which the resident assessment system as described in section 256B.437 for nursing home rate determination is implemented. Effective on July 1 of the state fiscal year in which the resident assessment system as described in section 256B.437 for nursing home rate determination is implemented and July 1 of each subsequent state fiscal year, the individualized monthly negotiated payment for the services described in this clause shall not exceed the limit described in this clause which was in effect on June 30 of the previous state fiscal year and which has been adjusted by the greater of any legislatively adopted home and community-based services cost-of-living percentage increase or any legislatively adopted statewide percent rate increase for nursing facilities.

(c) ~~The individualized monthly negotiated payment for assisted Customized living services described in section 144A.4605 and are delivered by a provider licensed by the Department of Health as a class A or class F home care provider or an assisted living home care provider and provided in a building that is registered as a housing with services establishment under chapter 144D and that provides 24-hour supervision in combination with the payment for other elderly waiver services, including case management, must not exceed the limit specified in subdivision 3a.~~

Persons or agencies must be employed by or under a contract with the ~~county~~ lead agency or the public health nursing agency of the local board of health in order to receive funding under the elderly waiver program, except as a provider of supplies and equipment when the monthly cost of the supplies and equipment is less than \$250.

Subd. 3g. **Service rate limits; state assumption of costs.** (a) To improve access to community services and eliminate payment disparities between the alternative care program and the elderly waiver, the commissioner shall establish statewide maximum service rate limits and eliminate ~~county specific~~ lead agency-specific service rate limits.

(b) Effective July 1, 2001, for service rate limits, except those described or defined in subdivisions 3d and 3e, the rate limit for each service shall be the greater of the alternative care statewide maximum rate or the elderly waiver statewide maximum rate.

Subd. 7. **Prepaid elderly waiver services.** An individual for whom a prepaid health plan is liable for nursing home services or elderly waiver services according to section 256B.69, subdivision 6a, is not eligible to also receive county-administered elderly waiver services ~~under this section~~.

Sec. 24. **[256B.096] QUALITY MANAGEMENT, ASSURANCE, AND IMPROVEMENT SYSTEM FOR MINNESOTANS RECEIVING DISABILITY SERVICES.**

Subdivision 1. **Scope.** In order to improve the quality of services provided to Minnesotans with disabilities and to meet the requirements of the federally approved home and community-based waivers under section 1915c of the Social Security Act, a statewide quality assurance and improvement system for Minnesotans receiving disability services shall be developed. The disability services included are the home and community-based services waiver programs for persons with developmental disabilities under section 256B.092, subdivision 4, and for persons with disabilities under section 256B.49.

Subd. 2. **Stakeholder advisory group.** The commissioner shall consult with a stakeholder advisory group on the development and implementation of the state quality management, assurance, and improvement system, including representatives of disability service recipients, disability service providers, disability advocacy groups, county human service agencies, and state agency staff from the Departments of Human Services and Health, and the ombudsman for mental health and developmental disabilities on the development of a statewide quality assurance and improvement system.

Subd. 3. **Annual survey of service recipients.** The commissioner, in consultation with the stakeholder advisory group, shall develop an annual independent random statewide survey of between five and ten percent of service recipients to determine the effectiveness and quality of disability services. The survey shall be consistent with the system performance expectations of the Centers for Medicare and Medicaid Services quality management

requirements and framework. The survey shall analyze whether desired outcomes have been achieved for persons with different demographic, diagnostic, health, and functional needs receiving different types of services, in different settings, with different costs. The survey shall be field tested during 2008. The biennial report established in subdivision 5 shall include recommendations on statewide and regional reports of the survey results that, if published, would be useful to regions, counties, and providers to plan and measure the impact of quality improvement activities.

Subd. 4. **Improvements for incident reporting, investigation, analysis, and follow-up.** In consultation with the stakeholder advisory group, the commissioner shall identify the information, data sources, and technology needed to improve the system of incident reporting, including:

(1) reports made under the Maltreatment of Minors and Vulnerable Adults Acts; and

(2) investigation, analysis, and follow-up for disability services.

The commissioner must ensure that the federal home and community-based waiver requirements are met and that incidents that may have jeopardized safety and health or violated service-related assurances, civil and human rights, and other protections designed to prevent abuse, neglect, and exploitation, are reviewed, investigated, and acted upon in a timely manner.

Subd. 5. **Biennial report.** The commissioner shall provide a biennial report to the chairs of the legislative committees with jurisdiction over health and human services policy and funding beginning January 15, 2009, on the development and activities of the quality management, assurance, and improvement system designed to meet the federal requirements under the home and community-based services waiver programs for persons with disabilities. By January 15, 2008, the commissioner shall provide a preliminary report on priorities for meeting the federal requirements, progress on development and field testing of the annual survey, appropriations necessary to implement an annual survey of service recipients once field testing is completed, recommendations for improvements in the incident reporting system, and a plan for incorporating quality assurance efforts under section 256B.095 and other regional efforts into the statewide system.

Sec. 25. Minnesota Statutes 2006, section 256B.15, is amended by adding a subdivision to read:

Subd. 9. **Recovery of alternative care and certain reverse mortgages.** The state and a county agency shall not recover alternative care paid for a person under section 256B.0913, subdivision 17, under this section.

Sec. 26. Minnesota Statutes 2006, section 256B.431, subdivision 2e, is amended to read:

Subd. 2e. **Contracts for services for ventilator-dependent persons.** (a) The commissioner may negotiate with a nursing facility eligible to receive medical assistance payments to provide services to a ventilator-dependent person identified by the commissioner according to criteria developed by the commissioner, including:

(1) nursing facility care has been recommended for the person by a preadmission screening team;

(2) the person has been hospitalized and no longer requires inpatient acute care hospital services; and

(3) the commissioner has determined that necessary services for the person cannot be provided under existing nursing facility rates.

The commissioner may negotiate an adjustment to the operating cost payment rate for a nursing facility with a resident who is ventilator-dependent, for that resident. The negotiated adjustment must reflect only the actual additional cost of meeting the specialized care needs of a ventilator-dependent person identified by the

commissioner for whom necessary services cannot be provided under existing nursing facility rates and which are not otherwise covered under Minnesota Rules, parts 9549.0010 to 9549.0080 or 9505.0170 to 9505.0475. For persons who are initially admitted to a nursing facility before July 1, 2001, and have their payment rate under this subdivision negotiated after July 1, 2001, the negotiated payment rate must not exceed 200 percent of the highest multiple bedroom payment rate for the facility, as initially established by the commissioner for the rate year for case mix classification K; or, upon implementation of the RUG's-based case mix system, 200 percent of the highest RUG's rate. For persons initially admitted to a nursing facility on or after July 1, 2001, the negotiated payment rate must not exceed 300 percent of the facility's multiple bedroom payment rate for case mix classification K; or, upon implementation of the RUG's-based case mix system, 300 percent of the highest RUG's rate. The negotiated adjustment shall not affect the payment rate charged to private paying residents under the provisions of section 256B.48, subdivision 1.

(b) Effective July 1, 2007, or upon opening a unit of at least ten beds dedicated to care of ventilator-dependent persons in partnership with Mayo Health Systems, whichever is later, the operating payment rates for residents determined eligible under paragraph (a) of a nursing facility in Waseca County that on February 1, 2007, was licensed for 70 beds and reimbursed under this section, section 256B.434, or section 256B.441, shall be 300 percent of the facility's highest RUG rate.

Sec. 27. Minnesota Statutes 2006, section 256B.431, subdivision 17a, is amended to read:

Subd. 17a. **Allowable interest expense.** (a) Notwithstanding Minnesota Rules, part 9549.0060, subparts 5, item A, subitems (1) and (3), and 7, item D, allowable interest expense on debt shall include:

(1) interest expense on debt related to the cost of purchasing or replacing depreciable equipment, excluding vehicles, not to exceed ~~six~~ ten percent of the total historical cost of the project; and

(2) interest expense on debt related to financing or refinancing costs, including costs related to points, loan origination fees, financing charges, legal fees, and title searches; and issuance costs including bond discounts, bond counsel, underwriter's counsel, corporate counsel, printing, and financial forecasts. Allowable debt related to items in this clause shall not exceed seven percent of the total historical cost of the project. To the extent these costs are financed, the straight-line amortization of the costs in this clause is not an allowable cost; and

(3) interest on debt incurred for the establishment of a debt reserve fund, net of the interest earned on the debt reserve fund.

(b) Debt incurred for costs under paragraph (a) is not subject to Minnesota Rules, part 9549.0060, subpart 5, item A, subitem (5) or (6).

**EFFECTIVE DATE.** This section is effective October 1, 2007.

Sec. 28. Minnesota Statutes 2006, section 256B.434, subdivision 4, is amended to read:

Subd. 4. **Alternate rates for nursing facilities.** (a) For nursing facilities which have their payment rates determined under this section rather than section 256B.431, the commissioner shall establish a rate under this subdivision. The nursing facility must enter into a written contract with the commissioner.

(b) A nursing facility's case mix payment rate for the first rate year of a facility's contract under this section is the payment rate the facility would have received under section 256B.431.

(c) A nursing facility's case mix payment rates for the second and subsequent years of a facility's contract under this section are the previous rate year's contract payment rates plus an inflation adjustment and, for facilities reimbursed under this section or section 256B.431, an adjustment to include the cost of any increase in Health Department licensing fees for the facility taking effect on or after July 1, 2001. The index for the inflation adjustment must be based on the change in the Consumer Price Index-All Items (United States City average) (CPI-U) forecasted by the commissioner of finance's national economic consultant, as forecasted in the fourth quarter of the calendar year preceding the rate year. The inflation adjustment must be based on the 12-month period from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined. For the rate years beginning on July 1, 1999, July 1, 2000, July 1, 2001, July 1, 2002, July 1, 2003, July 1, 2004, July 1, 2005, July 1, 2006, July 1, 2007, ~~and~~ July 1, 2008, July 1, 2009, and July 1, 2010, this paragraph shall apply only to the property-related payment rate, except that adjustments to include the cost of any increase in Health Department licensing fees taking effect on or after July 1, 2001, shall be provided. Beginning in 2005, adjustment to the property payment rate under this section and section 256B.431 shall be effective on October 1. In determining the amount of the property-related payment rate adjustment under this paragraph, the commissioner shall determine the proportion of the facility's rates that are property-related based on the facility's most recent cost report.

(d) The commissioner shall develop additional incentive-based payments of up to five percent above a facility's operating payment rate for achieving outcomes specified in a contract. The commissioner may solicit contract amendments and implement those which, on a competitive basis, best meet the state's policy objectives. The commissioner shall limit the amount of any incentive payment and the number of contract amendments under this paragraph to operate the incentive payments within funds appropriated for this purpose. The contract amendments may specify various levels of payment for various levels of performance. Incentive payments to facilities under this paragraph may be in the form of time-limited rate adjustments or onetime supplemental payments. In establishing the specified outcomes and related criteria, the commissioner shall consider the following state policy objectives:

(1) successful diversion or discharge of residents to the residents' prior home or other community-based alternatives;

(2) adoption of new technology to improve quality or efficiency;

(3) improved quality as measured in the Nursing Home Report Card;

(4) reduced acute care costs; and

(5) any additional outcomes proposed by a nursing facility that the commissioner finds desirable.

(e) Notwithstanding the threshold in section 256B.431, subdivision 16, facilities that take action to come into compliance with existing or pending requirements of the life safety code provisions or federal regulations governing sprinkler systems must receive reimbursement for the costs associated with compliance if all of the following conditions are met:

(1) the expenses associated with compliance occurred on or after January 1, 2005, and before December 31, 2008;

(2) the costs were not otherwise reimbursed under subdivision 4f or section 144A.071 or 144A.073; and

(3) the total allowable costs reported under this paragraph are less than the minimum threshold established under section 256B.431, subdivision 15, paragraph (e), and subdivision 16.

The commissioner shall use money appropriated for this purpose to provide to qualifying nursing facilities a rate adjustment beginning October 1, 2007, and ending September 30, 2008. Nursing facilities that have spent money or anticipate the need to spend money to satisfy the most recent life safety code requirements by (1) installing a sprinkler system or (2) replacing all or portions of an existing sprinkler system may submit to the commissioner by June 30, 2007, on a form provided by the commissioner the actual costs of a completed project or the estimated costs, based on a project bid, of a planned project. The commissioner shall calculate a rate adjustment equal to the allowable costs of the project divided by the resident days reported for the report year ending September 30, 2006. If the costs from all projects exceed the appropriation for this purpose, the commissioner shall allocate the money appropriated on a pro rata basis to the qualifying facilities by reducing the rate adjustment determined for each facility by an equal percentage. Facilities that used estimated costs when requesting the rate adjustment shall report to the commissioner by January 31, 2009, on the use of this money on a form provided by the commissioner. If the nursing facility fails to provide the report, the commissioner shall recoup the money paid to the facility for this purpose. If the facility reports expenditures allowable under this subdivision that are less than the amount received in the facility's annualized rate adjustment, the commissioner shall recoup the difference.

Sec. 29. Minnesota Statutes 2006, section 256B.434, is amended by adding a subdivision to read:

Subd. 4j. **Rate increase for facilities in Chisago County.** Effective October 1, 2007, to September 30, 2008, operating payment rates of all nursing facilities in Chisago County that are reimbursed under this section or section 256B.441 shall be increased to be equal, for a RUG's rate with a weight of 1.00, to the geographic group III median rate for the same RUG's weight. The percentage of the operating payment rate for each facility to be case-mix adjusted shall be equal to the percentage that is case-mix adjusted in that facility's September 30, 2007, operating payment rate. This subdivision applies only if it results in a rate increase. Increases provided by this subdivision shall be added to the rate determined under any new reimbursement system established under section 256B.441.

Sec. 30. Minnesota Statutes 2006, section 256B.434, is amended by adding a subdivision to read:

Subd. 19. **Nursing facility rate increases beginning October 1, 2007.** (a) For the rate year beginning October 1, 2007, the commissioner shall make available to each nursing facility reimbursed under this section operating payment rate adjustments equal to 2.87 percent of the operating payment rates in effect on September 30, 2007.

(b) Seventy-five percent of the money resulting from the rate adjustment under paragraph (a) must be used for increases in compensation-related costs for employees directly employed by the nursing facility on or after the effective date of the rate adjustment, except:

(1) the administrator;

(2) persons employed in the central office of a corporation that has an ownership interest in the nursing facility or exercises control over the nursing facility; and

(3) persons paid by the nursing facility under a management contract.

(c) Two-thirds of the money available under paragraph (b) must be used for wage increases for all employees directly employed by the nursing facility on or after the effective date of the rate adjustment, except those listed in paragraph (b), clauses (1) to (3). The wage adjustment that employees receive under this paragraph must be paid as an equal hourly percentage wage increase for all eligible employees. Only costs associated with the portion of the equal hourly percentage wage increase that goes to all employees shall qualify under this paragraph. Costs associated with wage increases in excess of the amount of the equal hourly percentage wage increase provided to all employees shall be allowed only for meeting the requirements in paragraph (b). This paragraph shall not apply to:

(1) employees eligible for a Taft-Hartley insurance plan established under United States Code, title 29, section 186(c)(5); or

(2) public employees.

(d) The commissioner shall allow as compensation-related costs all costs for:

(1) wages and salaries;

(2) FICA taxes, Medicare taxes, state and federal unemployment taxes, and workers' compensation;

(3) the employer's share of health and dental insurance, life insurance, disability insurance, long-term care insurance, uniform allowance, and pensions; and

(4) other benefits provided, subject to the approval of the commissioner.

(e) The portion of the rate adjustment under paragraph (a) that is not subject to the requirements in paragraphs (b) and (c) shall be provided to nursing facilities effective October 1, 2007.

(f) Nursing facilities may apply for the portion of the rate adjustment under paragraph (a) that is subject to the requirements in paragraphs (b) and (c). The application must be submitted to the commissioner within six months of the effective date of the rate adjustment, and the nursing facility must provide additional information required by the commissioner within nine months of the effective date of the rate adjustment. The commissioner must respond to all applications within three weeks of receipt. The commissioner may waive the deadlines in this paragraph under extraordinary circumstances, to be determined at the sole discretion of the commissioner. The application must contain:

(1) an estimate of the amounts of money that must be used as specified in paragraphs (b) and (c);

(2) a detailed distribution plan specifying the allowable compensation-related and wage increases the nursing facility will implement to use the funds available in clause (1);

(3) a description of how the nursing facility will notify eligible employees of the contents of the approved application, which must provide for giving each eligible employee a copy of the approved application, excluding the information required in clause (1), or posting a copy of the approved application, excluding the information required in clause (1), for a period of at least six weeks in an area of the nursing facility to which all eligible employees have access; and

(4) instructions for employees who believe they have not received the compensation-related or wage increases specified in clause (2), as approved by the commissioner, and which must include a mailing address, e-mail address, and the telephone number that may be used by the employee to contact the commissioner or the commissioner's representative.

(g) The commissioner shall ensure that cost increases in distribution plans under paragraph (f), clause (2), that may be included in approved applications, comply with the following requirements:

(1) costs to be incurred during the applicable rate year resulting from wage and salary increases effective prior to the first day of the nursing facility's payroll period that includes October 1, 2007, shall be allowed if they were not used in a prior year's application;

(2) a portion of the costs resulting from tenure-related wage or salary increases may be considered to be allowable wage increases, according to formulas that the commissioner shall provide, where employee retention is above the average statewide rate of retention of direct care employees;

(3) the annualized amount of increases in costs for the employer's share of health and dental insurance, life insurance, disability insurance, and workers' compensation shall be allowable compensation-related increases if they are effective on or after April 1, 2007, and prior to April 1, 2008; and

(4) for nursing facilities in which employees are represented by an exclusive bargaining representative, the commissioner shall approve the application only upon receipt of a letter of acceptance of the distribution plan, in regard to members of the bargaining unit, signed by the exclusive bargaining agent and dated after enactment of this subdivision. Upon receipt of the letter of acceptance, the commissioner shall deem all requirements of this section as having been met in regard to the members of the bargaining unit.

(h) The commissioner shall review applications received under paragraph (f) and shall provide the portion of the rate adjustment under paragraphs (b) and (c) if the requirements of this subdivision have been met. The rate adjustment shall be effective October 1. Notwithstanding paragraph (a), if the approved application distributes less money than is available, the amount of the rate adjustment shall be reduced so that the amount of money made available is equal to the amount to be distributed.

Sec. 31. Minnesota Statutes 2006, section 256B.434, is amended by adding a subdivision to read:

**Subd. 20. Payment of Public Employees Retirement Association costs.** Nursing facilities that participate in the Public Employees Retirement Association (PERA) shall have the component of their payment rate associated with the costs of PERA determined for each rate year. Effective for rate years beginning on and after October 1, 2007, the commissioner shall determine the portion of the payment rate in effect on September 30 each year and shall subtract that amount from the payment rate to be effective on the following October 1. The portion that shall be deemed to be included in the September 30, 2007, rate that is associated with PERA costs shall be the allowed costs in the facility's base for determining rates under this section, divided by the resident days reported for that year. The commissioner shall add to the payment rate to be effective on October 1 each year an amount equal to the reported costs associated with PERA, for the year ended on the most recent September 30 for which data is available, divided by total resident days for that year, as reported by the facility and audited under section 256B.441.

Sec. 32. Minnesota Statutes 2006, section 256B.437, is amended by adding a subdivision to read:

**Subd. 10. Big Stone County rate adjustment.** Notwithstanding the requirements of this section, the commissioner shall approve a planned closure rate adjustment in Big Stone County for an eight-bed facility in Clinton for reassignment to a 50-bed facility in Graceville. The adjustment shall be calculated according to subdivisions 3 and 6.

Sec. 33. Minnesota Statutes 2006, section 256B.441, subdivision 1, is amended to read:

**Subdivision 1. ~~Rate determination~~ Rebasing of nursing facility operating cost payment rates.** (a) The commissioner shall establish a value-based nursing facility reimbursement system which will provide facility-specific, prospective rates for nursing facilities participating in the medical assistance program. The rates shall be determined using an annual statistical and cost report filed by each nursing facility. The total payment rate shall be composed of four rate components: direct care services, support services, external fixed, and property-related rate components. The payment rate shall be derived from statistical measures of actual costs incurred in facility operation of nursing facilities. From this cost basis, the components of the total payment rate shall be adjusted for quality of services provided, recognition of staffing levels, geographic variation in labor costs, and resident acuity. The commissioner shall rebase nursing facility operating cost payment rates to align payments to facilities with the cost of providing care. The rebased operating cost payment rates shall be calculated using the statistical and cost report filed by each nursing facility for the report period ending one year prior to the rate year.

(b) ~~Rates shall be rebased annually.~~ The new operating cost payment rates based on this section shall take effect beginning with the rate year beginning October 1, 2008, and shall be phased in over five rate years through October 1, 2012.

(c) Operating cost payment rates shall be rebased on October 1, 2013, and every two years after that date.

(d) Each cost reporting year shall begin on October 1 and end on the following September 30. Beginning in 2006, a statistical and cost report shall be filed by each nursing facility by January 15. Notice of rates shall be distributed by August 15 and the rates shall go into effect on October 1 for one year.

(e) ~~The commissioner shall begin to phase in the new reimbursement system beginning October 1, 2007. Full phase in shall be completed by October 1, 2011.~~

(e) Effective October 1, 2011, property rates shall be rebased in accordance with section 256B.431 and Minnesota Rules, chapter 9549. The commissioner shall determine what the property payment rate for a nursing facility would be had the facility not had its property rate determined under section 256B.434. The commissioner shall allow nursing facilities to provide information affecting this rate determination that would have been filed annually under Minnesota Rules, chapter 9549, and nursing facilities shall report information necessary to determine allowable debt. The commissioner shall use this information to determine the property payment rate.

The facility-specific direct care costs used in making this comparison and in the calculation of the median shall be based on a RUG's weight of 1.00. A facility that is above that limit shall have its total care-related per diem reduced to the limit. If a reduction of the total care-related per diem is necessary because of this limit, the reduction shall be made proportionally to both the direct care per diem and the other care-related per diem.

(b) Beginning with rates determined for October 1, 2014, the total care-related limit shall be a variable amount based on each facility's quality score, as determined under section 256B.441, subdivision 44, in accordance with clauses (1) to (4):

(1) determine the difference between the limits;

(2) determine the distance between the two facilities, by the shortest driving route. If the distance exceeds 20 miles, no adjustment shall be made;

(3) subtract the value in clause (2) from 20 miles, divide by 20, and convert to a percentage; and

(4) increase the limits for the nursing facility with the lower limits by the value determined in clause (1) multiplied by the value determined in clause (3).

Sec. 57. Minnesota Statutes 2006, section 256B.441, is amended by adding a subdivision to read:

The care-related limit may be increased by up to 50 percent.

(b) In selecting facilities with which to negotiate, the commissioner shall consider:

(1) the diagnoses or other circumstances of residents in the specialized program that require care that costs substantially more than the RUG's rates associated with those residents;

To determine a total payment rate for each RUG's level, the total care-related payment rate shall be divided into the direct care payment rate and the other care-related payment rate, and the direct care payment rate multiplied by the RUG's weight for each RUG's level using the weights in subdivision 14.

Sec. 62. Minnesota Statutes 2006, section 256B.441, is amended by adding a subdivision to read:

Subd. 55. **Phase-in of rebased operating cost payment rates.** (a) For the rate years beginning October 1, 2008, to October 1, 2012, the operating cost payment rate calculated under this section shall be phased in by blending the operating cost rate with the operating cost payment rate determined under section 256B.434. For the rate year beginning October 1, 2008, the operating cost payment rate for each facility shall be 24.9 percent of the operating cost payment rate from this section, and 75.1 percent of the operating cost payment rate from section 256B.434. The blending of operating cost payment rates under this section shall be performed separately for each RUG's class.

(b) A portion of the funds received under this subdivision that are in excess of operating cost payment rates that a facility would have received under section 256B.434, as determined in accordance with clauses (1) to (3), shall be subject to the requirements in section 256B.434, subdivision 19, paragraphs (b) to (h).

(1) Determine the amount of additional funding available to a facility, which shall be equal to total medical assistance resident days from the most recent reporting year times the difference between the blended rate determined in paragraph (a) for the rate year being computed and the blended rate for the prior year.

(2) Determine the portion of all operating costs, for the most recent reporting year, that are compensation related. If this value exceeds 75 percent, use 75 percent.

(3) Subtract the amount determined in clause (2) from 75 percent.

(4) The portion of the fund received under this subdivision that shall be subject to the requirements in section 256B.434, subdivision 19, paragraphs (b) to (h), shall equal the amount determined in clause (1) times the amount determined in clause (3).

The total payment rate shall include the adjustment provided in section 256B.501, subdivision 12. A facility whose payment rates are governed by closure agreements, receivership agreements, or Minnesota Rules, part 9553.0075, is not eligible for an adjustment otherwise granted under this subdivision.

(b) Seventy-five percent of the money resulting from the rate adjustments under paragraph (a) must be used for increases in compensation-related costs for employees directly employed by the facility on or after the effective date of the rate adjustments, except:

(c) Two-thirds of the money available under paragraph (b) must be used for wage increases for all employees directly employed by the facility on or after the effective date of the rate adjustments, except those listed in paragraph (b), clauses (1) to (3). The wage adjustment that employees receive under this paragraph must be paid as an equal hourly percentage wage increase for all eligible employees. Only costs associated with the portion of the equal hourly percentage wage increase that goes to all employees shall qualify under this paragraph. Costs associated with wage increases in excess of the amount of the equal hourly percentage wage increase provided to all employees shall be allowed only for meeting the requirements in paragraph (b). This paragraph shall not apply to:

(1) employees eligible for a Taft-Hartley insurance plan established under United States Code, title 29, section 186(c)(5); or

(2) public employees.

(d) The commissioner shall allow as compensation-related costs all costs for:

(1) wages and salaries;

The application must be submitted to the commissioner within six months of the effective date of the rate adjustments, and the facility must provide additional information required by the commissioner within nine months of the effective date of the rate adjustments. The commissioner must respond to all applications within three weeks of receipt. The commissioner may waive the deadlines in this paragraph under extraordinary circumstances, to be determined at the sole discretion of the commissioner. The application must contain:

(1) an estimate of the amounts of money that must be used as specified in paragraphs (b) and (c);

(2) a detailed distribution plan specifying the allowable compensation-related and wage increases the facility will implement to use the funds available in clause (1);

(3) a description of how the facility will notify eligible employees of the contents of the approved application, which must provide for giving each eligible employee a copy of the approved application, excluding the information required in clause (1), or posting a copy of the approved application, excluding the information required in clause (1), for a period of at least six weeks in an area of the facility to which all eligible employees have access; and

(4) instructions for employees who believe they have not received the compensation-related or wage increases specified in clause (2), as approved by the commissioner, and which must include a mailing address, e-mail address, and the telephone number that may be used by the employee to contact the commissioner or the commissioner's representative.

(g) The commissioner shall ensure that cost increases in distribution plans under paragraph (f), clause (2), that may be included in approved applications, comply with requirements in clauses (1) to (4):

(1) costs to be incurred during the applicable rate year resulting from wage and salary increases effective prior to the first day of the facility's payroll period that includes October 1 of each year shall be allowed if they were not used in a prior year's application and they meet the requirements of paragraphs (b) and (c);

(2) a portion of the costs resulting from tenure-related wage or salary increases may be considered to be allowable wage increases, according to formulas that the commissioner shall provide, where employee retention is above the average statewide rate of retention of direct care employees;

(3) the annualized amount of increases in costs for the employer's share of health and dental insurance, life insurance, disability insurance, and workers' compensation shall be allowable compensation-related increases if they are effective on or after April 1 of the year in which the rate adjustments are effective and prior to April 1 of the following year; and

(4) for facilities in which employees are represented by an exclusive bargaining representative, the commissioner shall approve the application only upon receipt of a letter of acceptance of the distribution plan, as regards members of the bargaining unit, signed by the exclusive bargaining agent and dated after enactment of this subdivision. Upon receipt of the letter of acceptance, the commissioner shall deem all requirements of this section as having been met in regard to the members of the bargaining unit.

(h) The commissioner shall review applications received under paragraph (f) and shall provide the portion of the rate adjustments under paragraphs (b) and (c) if the requirements of this subdivision have been met. The rate adjustments shall be effective October 1 of each year. Notwithstanding paragraph (a), if the approved application distributes less money than is available, the amount of the rate adjustment shall be reduced so that the amount of money made available is equal to the amount to be distributed.

Sec. 68. Minnesota Statutes 2006, section 256B.69, subdivision 23, is amended to read:

Subd. 23. **Alternative services; elderly and disabled persons.** (a) The commissioner may implement demonstration projects to create alternative integrated delivery systems for acute and long-term care services to elderly persons and persons with disabilities as defined in section 256B.77, subdivision 7a, that provide increased coordination, improve access to quality services, and mitigate future cost increases. The commissioner may seek federal authority to combine Medicare and Medicaid capitation payments for the purpose of such demonstrations and may contract with Medicare-approved special needs plans to provide Medicaid services. Medicare funds and services shall be administered according to the terms and conditions of the federal contract and demonstration provisions. For the purpose of administering medical assistance funds, demonstrations under this subdivision are subject to subdivisions 1 to 22. The provisions of Minnesota Rules, parts 9500.1450 to 9500.1464, apply to these demonstrations, with the exceptions of parts 9500.1452, subpart 2, item B; and 9500.1457, subpart 1, items B and C, which do not apply to persons enrolling in demonstrations under this section. An initial open enrollment period may be provided. Persons who disenroll from demonstrations under this subdivision remain subject to Minnesota Rules, parts 9500.1450 to 9500.1464. When a person is enrolled in a health plan under these demonstrations and the health plan's participation is subsequently terminated for any reason, the person shall be provided an opportunity to select a new health plan and shall have the right to change health plans within the first 60 days of enrollment in the second health plan. Persons required to participate in health plans under this section who fail to make a choice of health plan shall not be randomly assigned to health plans under these demonstrations. Notwithstanding section 256L.12, subdivision 5, and Minnesota Rules, part 9505.5220, subpart 1, item A, if adopted, for the purpose of demonstrations under this subdivision, the commissioner may contract with managed care organizations, including counties, to serve only elderly persons eligible for medical assistance, elderly and disabled persons, or disabled persons only. For persons with a primary diagnosis of developmental disability, serious and persistent mental illness, or serious emotional disturbance, the commissioner must ensure that the county authority has approved the demonstration and contracting design. Enrollment in these projects for persons with disabilities shall be voluntary. The commissioner shall not implement any demonstration project under this subdivision for persons with a primary diagnosis of developmental disabilities, serious and persistent mental illness, or serious emotional disturbance, without approval of the county board of the county in which the demonstration is being implemented.

(b) Notwithstanding chapter 245B, sections 252.40 to 252.46, 256B.092, 256B.501 to 256B.5015, and Minnesota Rules, parts 9525.0004 to 9525.0036, 9525.1200 to 9525.1330, 9525.1580, and 9525.1800 to 9525.1930, the commissioner may implement under this section projects for persons with developmental disabilities. The commissioner may capitate payments for ICF/MR services, waived services for developmental disabilities, including case management services, day training and habilitation and alternative active treatment services, and other services as approved by the state and by the federal government. Case management and active treatment must be individualized and developed in accordance with a person-centered plan. Costs under these projects may not exceed costs that would have been incurred under fee-for-service. Beginning July 1, 2003, and until ~~two~~ four years after the pilot project implementation date, subcontractor participation in the long-term care developmental disability pilot is limited to a nonprofit long-term care system providing ICF/MR services, home and community-based waiver services, and in-home services to no more than 120 consumers with developmental disabilities in Carver, Hennepin, and Scott Counties. The commissioner shall report to the legislature prior to expansion of the developmental disability pilot project. This paragraph expires ~~two~~ four years after the implementation date of the pilot project.

(c) Before implementation of a demonstration project for disabled persons, the commissioner must provide information to appropriate committees of the house of representatives and senate and must involve representatives of affected disability groups in the design of the demonstration projects.

(d) A nursing facility reimbursed under the alternative reimbursement methodology in section 256B.434 may, in collaboration with a hospital, clinic, or other health care entity provide services under paragraph (a). The commissioner shall amend the state plan and seek any federal waivers necessary to implement this paragraph.

(e) The commissioner, in consultation with the commissioners of commerce and health, may approve and implement programs for all-inclusive care for the elderly (PACE) according to federal laws and regulations governing that program and state laws or rules applicable to participating providers. The process for approval of these programs shall begin only after the commissioner receives grant money in an amount sufficient to cover the state share of the administrative and actuarial costs to implement the programs during state fiscal years 2006 and 2007. Grant amounts for this purpose shall be deposited in an account in the special revenue fund and are appropriated to the commissioner to be used solely for the purpose of PACE administrative and actuarial costs. A PACE provider is not required to be licensed or certified as a health plan company as defined in section 62Q.01, subdivision 4. Persons age 55 and older who have been screened by the county and found to be eligible for services under the elderly waiver or community alternatives for disabled individuals or who are already eligible for Medicaid but meet level of care criteria for receipt of waiver services may choose to enroll in the PACE program. Medicare and Medicaid services will be provided according to this subdivision and federal Medicare and Medicaid requirements governing PACE providers and programs. PACE enrollees will receive Medicaid home and community-based services through the PACE provider as an alternative to services for which they would otherwise be eligible through home and community-based waiver programs and Medicaid State Plan Services. The commissioner shall establish Medicaid rates for PACE providers that do not exceed costs that would have been incurred under fee-for-service or other relevant managed care programs operated by the state.

(f) The commissioner shall seek federal approval to expand the Minnesota disability health options (MnDHO) program established under this subdivision in stages, first to regional population centers outside the seven-county metro area and then to all areas of the state. Until ~~January 1, 2008~~ July 1, 2009, expansion for MnDHO projects that include home and community-based services is limited to the two projects and service areas in effect on March 1, 2006. Enrollment in integrated MnDHO programs that include home and community-based services shall remain voluntary. Costs for home and community-based services included under MnDHO must not exceed costs that would have been incurred under the fee-for-service program. In developing program specifications for expansion of integrated programs, the commissioner shall involve and consult the state-level stakeholder group established in subdivision 28, paragraph (d), including consultation on whether and how to include home and community-based waiver programs. Plans for further expansion of MnDHO projects shall be presented to the chairs of the house and senate committees with jurisdiction over health and human services policy and finance by February 1, 2007.

(g) Notwithstanding section 256B.0261, health plans providing services under this section are responsible for home care targeted case management and relocation targeted case management. Services must be provided according to the terms of the waivers and contracts approved by the federal government.

Sec. 69. **[256C.261] SERVICES FOR DEAF-BLIND PERSONS.**

(a) The commissioner of human services shall combine the existing biennial base level funding for deaf-blind services into a single grant program. At least 35 percent of the total funding is awarded for services and other supports to deaf-blind children and their families and at least 25 percent is awarded for services and other supports to deaf-blind adults.

The commissioner shall award grants for the purposes of:

(1) providing services and supports to individuals who are deaf-blind; and

(2) developing and providing training to counties and the network of senior citizen service providers. The purpose of the training grants is to teach counties how to use existing programs that capture federal financial participation to meet the needs of eligible deaf-blind persons and to build capacity of senior service programs to meet the needs of seniors with a dual sensory hearing and vision loss.

(b) The commissioner may make grants:

(1) for services and training provided by organizations; and

(2) to develop and administer consumer-directed services.

(c) Any entity that is able to satisfy the grant criteria is eligible to receive a grant under paragraph (a).

(d) Deaf-blind service providers may, but are not required to, provide intervenor services as part of the service package provided with grant funds under this section.

Sec. 70. Minnesota Statutes 2006, section 256I.04, subdivision 3, is amended to read:

Subd. 3. **Moratorium on the development of group residential housing beds.** (a) County agencies shall not enter into agreements for new group residential housing beds with total rates in excess of the MSA equivalent rate except: (1) for group residential housing establishments licensed under Minnesota Rules, parts 9525.0215 to 9525.0355, provided the facility is needed to meet the census reduction targets for persons with developmental disabilities at regional treatment centers; (2) to ensure compliance with the federal Omnibus Budget Reconciliation Act alternative disposition plan requirements for inappropriately placed persons with developmental disabilities or mental illness; (3) up to 80 beds in a single, specialized facility located in Hennepin County that will provide housing for chronic inebriates who are repetitive users of detoxification centers and are refused placement in emergency shelters because of their state of intoxication, and planning for the specialized facility must have been initiated before July 1, 1991, in anticipation of receiving a grant from the Housing Finance Agency under section 462A.05, subdivision 20a, paragraph (b); (4) notwithstanding the provisions of subdivision 2a, for up to 190 supportive housing units in Anoka, Dakota, Hennepin, or Ramsey County for homeless adults with a mental illness, a history of substance abuse, or human immunodeficiency virus or acquired immunodeficiency syndrome. For purposes of this section, "homeless adult" means a person who is living on the street or in a shelter or discharged from a regional treatment center, community hospital, or residential treatment program and has no appropriate housing available and lacks the resources and support necessary to access appropriate housing. At least 70 percent of the supportive housing units must serve homeless adults with mental illness, substance abuse problems, or human

immunodeficiency virus or acquired immunodeficiency syndrome who are about to be or, within the previous six months, has been discharged from a regional treatment center, or a state-contracted psychiatric bed in a community hospital, or a residential mental health or chemical dependency treatment program. If a person meets the requirements of subdivision 1, paragraph (a), and receives a federal or state housing subsidy, the group residential housing rate for that person is limited to the supplementary rate under section 256I.05, subdivision 1a, and is determined by subtracting the amount of the person's countable income that exceeds the MSA equivalent rate from the group residential housing supplementary rate. A resident in a demonstration project site who no longer participates in the demonstration program shall retain eligibility for a group residential housing payment in an amount determined under section 256I.06, subdivision 8, using the MSA equivalent rate. Service funding under section 256I.05, subdivision 1a, will end June 30, 1997, if federal matching funds are available and the services can be provided through a managed care entity. If federal matching funds are not available, then service funding will continue under section 256I.05, subdivision 1a; ~~or (6) (5)~~ for group residential housing beds in settings meeting the requirements of subdivision 2a, clauses (1) and (3), which are used exclusively for recipients receiving home and community-based waiver services under sections 256B.0915, 256B.092, subdivision 5, 256B.093, and 256B.49, and who resided in a nursing facility for the six months immediately prior to the month of entry into the group residential housing setting. The group residential housing rate for these beds must be set so that the monthly group residential housing payment for an individual occupying the bed when combined with the nonfederal share of services delivered under the waiver for that person does not exceed the nonfederal share of the monthly medical assistance payment made for the person to the nursing facility in which the person resided prior to entry into the group residential housing establishment. The rate may not exceed the MSA equivalent rate plus \$426.37 for any case; or (6) for an additional two beds, resulting in a total of 32 beds, for a facility located in Hennepin County providing services for recovering and chemically dependent men that has had a group residential housing contract with the county and has been licensed as a board and lodge facility with special services since 1980; (7) for a group residential housing provider located in Stearns County that operates a 40-bed facility, that received financing through the Minnesota Housing Finance Agency Ending Long-Term Homelessness Initiative and serves chemically dependent clientele, providing 24-hour-a-day supervision; and (8) for a new 65-bed facility in Crow Wing County that will serve chemically dependent persons, operated by a group residential housing provider that currently operates a 304-bed facility in Minneapolis, and a 44-bed facility in Duluth.

(b) A county agency may enter into a group residential housing agreement for beds with rates in excess of the MSA equivalent rate in addition to those currently covered under a group residential housing agreement if the additional beds are only a replacement of beds with rates in excess of the MSA equivalent rate which have been made available due to closure of a setting, a change of licensure or certification which removes the beds from group residential housing payment, or as a result of the downsizing of a group residential housing setting. The transfer of available beds from one county to another can only occur by the agreement of both counties.

Sec. 71. Minnesota Statutes 2006, section 256I.05, is amended by adding a subdivision to read:

Subd. 1h. **Supplementary rate for certain facilities serving chemically dependent males.** Notwithstanding subdivisions 1a and 1c, beginning July 1, 2007, a county agency shall negotiate a supplementary rate in addition to the rate specified in subdivision 1, not to exceed \$737.87 per month, including any legislatively authorized inflationary adjustments, for a group residential housing provider that:

Subdivision 1. **Policy.** The commissioner of human services shall undertake a series of reforms to address the underlying structural, financial, and organizational problems in Minnesota's mental health system with the goal of improving the availability, quality, and accountability of mental health care within the state.

Subd. 2. **General provisions.** (a) In the design and implementation of reforms to the mental health system, the commissioner shall:

(1) consult with consumers, families, counties, tribes, advocates, providers, and other stakeholders;

(2) bring to the legislature, and the State Advisory Council on Mental Health, by January 15, 2008, recommendations for legislation to update the role of counties and to clarify the case management roles, functions, and decision-making authority of health plans and counties, and to clarify county retention of the responsibility for the delivery of social services as required under subdivision 3, paragraph (a);

(3) withhold implementation of any recommended changes in case management roles, functions, and decision-making authority until after the release of the report due January 15, 2008;

(4) ensure continuity of care for persons affected by these reforms including ensuring client choice of provider by requiring broad provider networks and developing mechanisms to facilitate a smooth transition of service responsibilities;

(5) provide accountability for the efficient and effective use of public and private resources in achieving positive outcomes for consumers;

(6) ensure client access to applicable protections and appeals; and

(7) make budget transfers necessary to implement the reallocation of services and client responsibilities between counties and health care programs that do not increase the state and county costs and efficiently allocate state funds.

(b) When making transfers under paragraph (a) necessary to implement movement of responsibility for clients and services between counties and health care programs, the commissioner, in consultation with counties, shall ensure that any transfer of state grants to health care programs, including the value of case management transfer grants under section 256B.0625, subdivision 20, does not exceed the value of the services being transferred for the latest 12-month period for which data is available. The commissioner may make quarterly adjustments based on the availability of additional data during the first four quarters after the transfers first occur. If case management transfer grants under section 256B.0625, subdivision 20, are repealed and the value, based on the last year prior to repeal, exceeds the value of the services being transferred, the difference becomes an ongoing part of each county's adult and children's mental health grants under sections 245.4661, 245.4889, and 256E.12.

(c) This appropriation is not authorized to be expended after December 31, 2010, unless approved by the legislature.

The commissioner shall require that each project be based on locally defined partnerships that include at least one health maintenance organization, community integrated service network, or accountable provider network authorized and operating under chapter 62D, 62N, or 62T, or county-based purchasing entity under section 256B.692 that is eligible to contract with the commissioner as a prepaid health plan, and the county or counties within the service area. Counties shall retain responsibility and authority for social services in these locally defined partnerships.

(b) The commissioner, in consultation with consumers, families, and their representatives, shall:

(1) determine criteria for approving the projects and use those criteria to solicit proposals for preferred integrated networks. The commissioner must develop criteria to evaluate the partnership proposed by the county and prepaid health plan to coordinate access and delivery of services. The proposal must at a minimum address how the partnership will coordinate the provision of:

(i) client outreach and identification of health and social service needs paired with expedited access to appropriate resources;

(ii) activities to maintain continuity of health care coverage;

(vii) home and community-based waiver services;

(viii) assistance with finding and maintaining employment;

(ix) housing; and

(x) transportation;

(2) determine specifications for contracts with prepaid health plans to improve the plan's ability to serve persons with mental health conditions, including specifications addressing:

(i) early identification and intervention of physical and behavioral health problems;

(ii) communication between the enrollee and the health plan;

(iii) facilitation of enrollment for persons who are also eligible for a Medicare special needs plan offered by the health plan;

(iv) risk screening procedures;

(v) health care coordination;

(vi) member services and access to applicable protections and appeal processes;

(vii) specialty provider networks;

(viii) transportation services;

(ix) treatment planning; and

(x) administrative simplification for providers;

(3) begin implementation of the projects no earlier than January 1, 2009, with not more than 40 percent of the statewide population included during calendar year 2009 and additional counties included in subsequent years;

(4) waive any administrative rule not consistent with the implementation of the projects;

(5) allow potential bidders at least 90 days to respond to the request for proposals; and

(6) conduct an independent evaluation to determine if mental health outcomes have improved in that county or counties according to measurable standards designed in consultation with the advisory body established under this subdivision and reviewed by the State Advisory Council on Mental Health.

(c) Notwithstanding any statute or administrative rule to the contrary, the commissioner may enroll all persons eligible for medical assistance with serious mental illness or emotional disturbance in the prepaid plan of their choice within the project service area unless:

(1) the individual is eligible for home and community-based services for persons with developmental disabilities and related conditions under section 256B.092; or

(2) the individual has a basis for exclusion from the prepaid plan under section 256B.69, subdivision 4, other than disability, mental illness, or emotional disturbance.

(d) The commissioner shall involve organizations representing persons with mental illness and their families in the development and distribution of information used to educate potential enrollees regarding their options for health care and mental health service delivery under this subdivision.

(1) certification procedures to ensure that providers of these services are qualified; and

(2) treatment protocols including required service components and criteria for admission, continued treatment, and discharge.

**EFFECTIVE DATE.** This section is effective July 1, 2008, and subject to federal approval. The commissioner shall notify the revisor of statutes when federal approval is obtained.

Sec. 20. Minnesota Statutes 2006, section 256B.0625, subdivision 20, is amended to read:

Subd. 20. **Mental health case management.** (a) To the extent authorized by rule of the state agency, medical assistance covers case management services to persons with serious and persistent mental illness and children with severe emotional disturbance. Services provided under this section must meet the relevant standards in sections 245.461 to 245.4887, the Comprehensive Adult and Children's Mental Health Acts, Minnesota Rules, parts 9520.0900 to 9520.0926, and 9505.0322, excluding subpart 10.

(b) Entities meeting program standards set out in rules governing family community support services as defined in section 245.4871, subdivision 17, are eligible for medical assistance reimbursement for case management services for children with severe emotional disturbance when these services meet the program standards in Minnesota Rules, parts 9520.0900 to 9520.0926 and 9505.0322, excluding subparts 6 and 10.

(c) Medical assistance and MinnesotaCare payment for mental health case management shall be made on a monthly basis. In order to receive payment for an eligible child, the provider must document at least a face-to-face contact with the child, the child's parents, or the child's legal representative. To receive payment for an eligible adult, the provider must document:

(1) at least a face-to-face contact with the adult or the adult's legal representative; or

(2) at least a telephone contact with the adult or the adult's legal representative and document a face-to-face contact with the adult or the adult's legal representative within the preceding two months.

(d) Payment for mental health case management provided by county or state staff shall be based on the monthly rate methodology under section 256B.094, subdivision 6, paragraph (b), with separate rates calculated for child welfare and mental health, and within mental health, separate rates for children and adults.

(e) Payment for mental health case management provided by Indian health services or by agencies operated by Indian tribes may be made according to this section or other relevant federally approved rate setting methodology.

(f) Payment for mental health case management provided by vendors who contract with a county or Indian tribe shall be based on a monthly rate negotiated by the host county or tribe. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county or tribe may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county or tribe, except to reimburse the county or tribe for advance funding provided by the county or tribe to the vendor.

(g) If the service is provided by a team which includes contracted vendors, tribal staff, and county or state staff, the costs for county or state staff participation in the team shall be included in the rate for county-provided services. In this case, the contracted vendor, the tribal agency, and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, each entity must document, in the recipient's file, the need for team case management and a description of the roles of the team members.

~~(h) The commissioner shall calculate the nonfederal share of actual medical assistance and general assistance medical care payments for each county, based on the higher of calendar year 1995 or 1996, by service date, project that amount forward to 1999, and transfer one-half of the result from medical assistance and general assistance medical care to each county's mental health grants under section 256E.12 for calendar year 1999. The annualized minimum amount added to each county's mental health grant shall be \$3,000 per year for children and \$5,000 per year for adults. The commissioner may reduce the statewide growth factor in order to fund these minimums. The annualized total amount transferred shall become part of the base for future mental health grants for each county.~~

(~~h~~) (h) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for mental health case management shall be provided by the recipient's county of responsibility, as defined in sections 256G.01 to 256G.12, from sources other than federal funds or funds used to match other federal funds. If the service is provided by a tribal agency, the nonfederal share, if any, shall be provided by the recipient's tribe. When this service is paid by the state without a federal share through fee-for-service, 50 percent of the cost shall be provided by the recipient's county of responsibility.

(i) Notwithstanding any administrative rule to the contrary, prepaid medical assistance, general assistance medical care, and MinnesotaCare include mental health case management. When the service is provided through prepaid capitation, the nonfederal share is paid by the state and the county pays no share.

(j) The commissioner may suspend, reduce, or terminate the reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, or, if applicable, the tribal agency, is responsible for any federal disallowances. The county or tribe may share this responsibility with its contracted vendors.

(k) The commissioner shall set aside a portion of the federal funds earned for county expenditures under this section to repay the special revenue maximization account under section 256.01, subdivision 2, clause (15). The repayment is limited to:

- (1) the costs of developing and implementing this section; and
- (2) programming the information systems.

(l) Payments to counties and tribal agencies for case management expenditures under this section shall only be made from federal earnings from services provided under this section. When this service is paid by the state without a federal share through fee-for-service, 50 percent of the cost shall be provided by the state. Payments to county-contracted vendors shall include ~~both~~ the federal earnings, the state share, and the county share.

~~(m) Notwithstanding section 256B.041, county payments for the cost of mental health case management services provided by county or state staff shall not be made to the commissioner of finance. For the purposes of mental health case management services provided by county or state staff under this section, the centralized disbursement of payments to counties under section 256B.041 consists only of federal earnings from services provided under this section.~~

~~(n)~~ (m) Case management services under this subdivision do not include therapy, treatment, legal, or outreach services.

~~(o)~~ (n) If the recipient is a resident of a nursing facility, intermediate care facility, or hospital, and the recipient's institutional care is paid by medical assistance, payment for case management services under this subdivision is limited to the last 180 days of the recipient's residency in that facility and may not exceed more than six months in a calendar year.

~~(p)~~ (o) Payment for case management services under this subdivision shall not duplicate payments made under other program authorities for the same purpose.

~~(q) By July 1, 2000, the commissioner shall evaluate the effectiveness of the changes required by this section, including changes in number of persons receiving mental health case management, changes in hours of service per person, and changes in caseload size.~~

~~(r) For each calendar year beginning with the calendar year 2001, the annualized amount of state funds for each county determined under paragraph (h) shall be adjusted by the county's percentage change in the average number of clients per month who received case management under this section during the fiscal year that ended six months prior to the calendar year in question, in comparison to the prior fiscal year.~~

~~(s) For counties receiving the minimum allocation of \$3,000 or \$5,000 described in paragraph (h), the adjustment in paragraph (s) shall be determined so that the county receives the higher of the following amounts:~~

~~(1) a continuation of the minimum allocation in paragraph (h); or~~

~~(2) an amount based on that county's average number of clients per month who received case management under this section during the fiscal year that ended six months prior to the calendar year in question, times the average statewide grant per person per month for counties not receiving the minimum allocation.~~

~~(t) The adjustments in paragraphs (s) and (t) shall be calculated separately for children and adults.~~

**EFFECTIVE DATE.** This section is effective January 1, 2009, except the amendments to paragraphs (h), (r), (s), and (t) are effective January 1, 2008.

The commissioner shall consider proposals by counties and vendors for prepaid health plans, competitive bidding programs, block grants, or other vendor payment mechanisms designed to provide services in an economical manner or to control utilization, with safeguards to ensure that necessary services are provided. Before implementing prepaid programs in counties with a county operated or affiliated public teaching hospital or a hospital or clinic operated by the University of Minnesota, the commissioner shall consider the risks the prepaid program creates for the hospital and allow the county or hospital the opportunity to participate in the program in a manner that reflects the risk of adverse selection and the nature of the patients served by the hospital, provided the terms of participation in the program are competitive with the terms of other participants considering the nature of the population served. (j) **Related health care entity.** "Related health care entity" means an affiliate, as defined in section 144.6521, subdivision 3, paragraph (b), of the provider releasing the health records.

### Sec. 3. **[144.292] PATIENT RIGHTS.**

**Subdivision 1. Scope.** Patients have the rights specified in this section regarding the treatment the patient receives and the patient's health record.

**Subd. 2. Patient access.** Upon request, a provider shall supply to a patient complete and current information possessed by that provider concerning any diagnosis, treatment, and prognosis of the patient in terms and language the patient can reasonably be expected to understand.

**Subd. 3. Additional patient rights.** A patient's right specified in this section and sections 144.293 to 144.298 are in addition to the rights specified in sections 144.651 and 144.652 and any other provision of law relating to the access of a patient to the patient's health records.

**Subd. 4. Notice of rights; information on release.** A provider shall provide to patients, in a clear and conspicuous manner, a written notice concerning practices and rights with respect to access to health records. The notice must include an explanation of:

(1) disclosures of health records that may be made without the written consent of the patient, including the type of records and to whom the records may be disclosed; and

(2) the right of the patient to have access to and obtain copies of the patient's health records and other information about the patient that is maintained by the provider.

The notice requirements of this subdivision are satisfied if the notice is included with the notice and copy of the patient and resident bill of rights under section 144.652 or if it is displayed prominently in the provider's place of business. The commissioner of health shall develop the notice required in this subdivision and publish it in the State Register.

Subd. 5. **Copies of health records to patients.** Except as provided in section 144.296, upon a patient's written request, a provider, at a reasonable cost to the patient, shall promptly furnish to the patient:

(1) copies of the patient's health record, including but not limited to laboratory reports, x-rays, prescriptions, and other technical information used in assessing the patient's health conditions; or

(2) the pertinent portion of the record relating to a condition specified by the patient.

With the consent of the patient, the provider may instead furnish only a summary of the record. The provider may exclude from the health record written speculations about the patient's health condition, except that all information necessary for the patient's informed consent must be provided.

Subd. 6. **Cost.** (a) When a patient requests a copy of the patient's record for purposes of reviewing current medical care, the provider must not charge a fee.

(b) When a provider or its representative makes copies of patient records upon a patient's request under this section, the provider or its representative may charge the patient or the patient's representative no more than 75 cents per page, plus \$10 for time spent retrieving and copying the records, unless other law or a rule or contract provide for a lower maximum charge. This limitation does not apply to x-rays. The provider may charge a patient no more than the actual cost of reproducing x-rays, plus no more than \$10 for the time spent retrieving and copying the x-rays.

(c) The respective maximum charges of 75 cents per page and \$10 for time provided in this subdivision are in effect for calendar year 1992 and may be adjusted annually each calendar year as provided in this subdivision. The permissible maximum charges shall change each year by an amount that reflects the change, as compared to the previous year, in the Consumer Price Index for all Urban Consumers, Minneapolis-St. Paul (CPI-U), published by the Department of Labor.

(d) A provider or its representative must not charge a fee to provide copies of records requested by a patient or the patient's authorized representative if the request for copies of records is for purposes of appealing a denial of Social Security disability income or Social Security disability benefits under title II or title XVI of the Social Security Act. For the purpose of further appeals, a patient may receive no more than two medical record updates without charge, but only for medical record information previously not provided. For purposes of this paragraph, a patient's authorized representative does not include units of state government engaged in the adjudication of Social Security disability claims.

Subd. 7. **Withholding health records from patient.** (a) If a provider, as defined in section 144.291, subdivision 2, paragraph (h), clause (1), reasonably determines that the information is detrimental to the physical or mental health of the patient, or is likely to cause the patient to inflict self harm, or to harm another, the provider may withhold the information from the patient and may supply the information to an appropriate third party or to another provider, as defined in section 144.291, subdivision 2, paragraph (h), clause (1). The other provider or third party may release the information to the patient.

(b) A provider, as defined in section 144.291, subdivision 2, paragraph (h), clause (3), shall release information upon written request unless, prior to the request, a provider, as defined in section 144.291, subdivision 2, paragraph (h), clause (1), has designated and described a specific basis for withholding the information as authorized by paragraph (a).

Subd. 8. **Form.** By January 1, 2008, the Department of Health must develop a form that may be used by a patient to request access to health records under this section. A form developed by the commissioner must be accepted by a provider as a legally enforceable request under this section.

Sec. 4. **[144.293] RELEASE OR DISCLOSURE OF HEALTH RECORDS.**

Subdivision 1. **Release or disclosure of health records.** Health records can be released or disclosed as specified in subdivisions 2 to 9 and sections 144.294 and 144.295.

Subd. 2. **Patient consent to release of records.** A provider, or a person who receives health records from a provider, may not release a patient's health records to a person without:

(1) a signed and dated consent from the patient or the patient's legally authorized representative authorizing the release;

(2) specific authorization in law; or

(3) a representation from a provider that holds a signed and dated consent from the patient authorizing the release.

Subd. 3. **Release from one provider to another.** A patient's health record, including, but not limited to, laboratory reports, x-rays, prescriptions, and other technical information used in assessing the patient's condition, or the pertinent portion of the record relating to a specific condition, or a summary of the record, shall promptly be furnished to another provider upon the written request of the patient. The written request shall specify the name of the provider to whom the health record is to be furnished. The provider who furnishes the health record or summary may retain a copy of the materials furnished. The patient shall be responsible for the reasonable costs of furnishing the information.

Subd. 4. **Duration of consent.** Except as provided in this section, a consent is valid for one year or for a lesser period specified in the consent or for a different period provided by law.

Subd. 5. **Exceptions to consent requirement.** This section does not prohibit the release of health records:

(1) for a medical emergency when the provider is unable to obtain the patient's consent due to the patient's condition or the nature of the medical emergency;

(2) to other providers within related health care entities when necessary for the current treatment of the patient; or

(3) to a health care facility licensed by this chapter, chapter 144A, or to the same types of health care facilities licensed by this chapter and chapter 144A that are licensed in another state when a patient:

(i) is returning to the health care facility and unable to provide consent; or

(ii) who resides in the health care facility, has services provided by an outside resource under Code of Federal Regulations, title 42, section 483.75(h), and is unable to provide consent.

Subd. 6. **Consent does not expire.** Notwithstanding subdivision 4, if a patient explicitly gives informed consent to the release of health records for the purposes and restrictions in clauses (1) and (2), the consent does not expire after one year for:

(1) the release of health records to a provider who is being advised or consulted with in connection with the releasing provider's current treatment of the patient;

(2) the release of health records to an accident and health insurer, health service plan corporation, health maintenance organization, or third-party administrator for purposes of payment of claims, fraud investigation, or quality of care review and studies, provided that:

(i) the use or release of the records complies with sections 72A.49 to 72A.505;

(ii) further use or release of the records in individually identifiable form to a person other than the patient without the patient's consent is prohibited; and

(iii) the recipient establishes adequate safeguards to protect the records from unauthorized disclosure, including a procedure for removal or destruction of information that identifies the patient.

Subd. 7. **Exception to consent.** Subdivision 2 does not apply to the release of health records to the commissioner of health or the Health Data Institute under chapter 62J, provided that the commissioner encrypts the patient identifier upon receipt of the data.

Subd. 8. **Record locator service.** (a) A provider or group purchaser may release patient identifying information and information about the location of the patient's health records to a record locator service without consent from the patient, unless the patient has elected to be excluded from the service under paragraph (d). The Department of Health may not access the record locator service or receive data from the record locator service. Only a provider may have access to patient identifying information in a record locator service. Except in the case of a medical emergency, a provider participating in a health information exchange using a record locator service does not have access to patient identifying information and information about the location of the patient's health records unless the patient specifically consents to the access. A consent does not expire but may be revoked by the patient at any time by providing written notice of the revocation to the provider.

(b) A health information exchange maintaining a record locator service must maintain an audit log of providers accessing information in a record locator service that at least contains information on:

(1) the identity of the provider accessing the information;

(2) the identity of the patient whose information was accessed by the provider; and

(3) the date the information was accessed.

(c) No group purchaser may in any way require a provider to participate in a record locator service as a condition of payment or participation.

(d) A provider or an entity operating a record locator service must provide a mechanism under which patients may exclude their identifying information and information about the location of their health records from a record locator service. At a minimum, a consent form that permits a provider to access a record locator service must include a conspicuous check-box option that allows a patient to exclude all of the patient's information from the record locator service. A provider participating in a health information exchange with a record locator service who receives a patient's request to exclude all of the patient's information from the record locator service or to have a specific provider contact excluded from the record locator service is responsible for removing that information from the record locator service.

**Subd. 9. Documentation of release.** (a) In cases where a provider releases health records without patient consent as authorized by law, the release must be documented in the patient's health record. In the case of a release under section 144.294, subdivision 2, the documentation must include the date and circumstances under which the release was made, the person or agency to whom the release was made, and the records that were released.

(b) When a health record is released using a representation from a provider that holds a consent from the patient, the releasing provider shall document:

(1) the provider requesting the health records;

(2) the identity of the patient;

(3) the health records requested; and

(4) the date the health records were requested.

**Subd. 10. Warranties regarding consents, requests, and disclosures.** (a) When requesting health records using consent, a person warrants that the consent:

(1) contains no information known to the person to be false; and

(2) accurately states the patient's desire to have health records disclosed or that there is specific authorization in law.

(b) When requesting health records using consent, a provider warrants that the request:

(1) contains no information known to the provider to be false;

(2) accurately states the patient's desire to have health records disclosed or that there is specific authorization in law; and

(3) does not exceed any limits imposed by the patient in the consent.

(c) When disclosing health records, a person releasing health records warrants that the person:

(1) has complied with the requirements of this section regarding disclosure of health records;

(2) knows of no information related to the request that is false; and

(3) has complied with the limits set by the patient in the consent.

**Sec. 5. [144.294] RECORDS RELATING TO MENTAL HEALTH.**

**Subdivision 1. Provider inquiry.** Upon the written request of a spouse, parent, child, or sibling of a patient being evaluated for or diagnosed with mental illness, a provider shall inquire of a patient whether the patient wishes to authorize a specific individual to receive information regarding the patient's current and proposed course of treatment. If the patient so authorizes, the provider shall communicate to the designated individual the patient's current and proposed course of treatment. Section 144.293, subdivisions 2 and 4, apply to consents given under this subdivision.

Subd. 2. **Disclosure to law enforcement agency.** Notwithstanding section 144.293, subdivisions 2 and 4, a provider must disclose health records relating to a patient's mental health to a law enforcement agency if the law enforcement agency provides the name of the patient and communicates that the:

- (1) patient is currently involved in an emergency interaction with the law enforcement agency; and
- (2) disclosure of the records is necessary to protect the health or safety of the patient or of another person.

The scope of disclosure under this subdivision is limited to the minimum necessary for law enforcement to respond to the emergency. A law enforcement agency that obtains health records under this subdivision shall maintain a record of the requestor, the provider of the information, and the patient's name. Health records obtained by a law enforcement agency under this subdivision are private data on individuals as defined in section 13.02, subdivision 12, and must not be used by law enforcement for any other purpose.

Subd. 3. **Records release for family and caretaker; mental health care.** (a) Notwithstanding section 144.293, a provider providing mental health care and treatment may disclose health record information described in paragraph (b) about a patient to a family member of the patient or other person who requests the information if:

- (1) the request for information is in writing;
  - (2) the family member or other person lives with, provides care for, or is directly involved in monitoring the treatment of the patient;
  - (3) the involvement under clause (2) is verified by the patient's mental health care provider, the patient's attending physician, or a person other than the person requesting the information, and is documented in the patient's medical record;
  - (4) before the disclosure, the patient is informed in writing of the request, the name of the person requesting the information, the reason for the request, and the specific information being requested;
  - (5) the patient agrees to the disclosure, does not object to the disclosure, or is unable to consent or object, and the patient's decision or inability to make a decision is documented in the patient's medical record; and
  - (6) the disclosure is necessary to assist in the provision of care or monitoring of the patient's treatment.
- (b) The information disclosed under this paragraph is limited to diagnosis, admission to or discharge from treatment, the name and dosage of the medications prescribed, side effects of the medication, consequences of failure of the patient to take the prescribed medication, and a summary of the discharge plan.
- (c) If a provider reasonably determines that providing information under this subdivision would be detrimental to the physical or mental health of the patient or is likely to cause the patient to inflict self harm or to harm another, the provider must not disclose the information.
- (d) This subdivision does not apply to disclosures for a medical emergency or to family members as authorized or required under subdivision 1 or section 144.293, subdivision 5, clause (1).

**Sec. 6. [144.295] DISCLOSURE OF HEALTH RECORDS FOR EXTERNAL RESEARCH.**

Subdivision 1. **Methods of release.** (a) Notwithstanding section 144.293, subdivisions 2 and 4, health records may be released to an external researcher solely for purposes of medical or scientific research only as follows:

(1) health records generated before January 1, 1997, may be released if the patient has not objected or does not elect to object after that date;

(2) for health records generated on or after January 1, 1997, the provider must:

(i) disclose in writing to patients currently being treated by the provider that health records, regardless of when generated, may be released and that the patient may object, in which case the records will not be released; and

(ii) use reasonable efforts to obtain the patient's written general authorization that describes the release of records in item (i), which does not expire but may be revoked or limited in writing at any time by the patient or the patient's authorized representative;

(3) the provider must advise the patient of the rights specified in clause (4); and

(4) the provider must, at the request of the patient, provide information on how the patient may contact an external researcher to whom the health record was released and the date it was released.

(b) Authorization may be established if an authorization is mailed at least two times to the patient's last known address with a postage prepaid return envelope and a conspicuous notice that the patient's medical records may be released if the patient does not object, and at least 60 days have expired since the second notice was sent.

Subd. 2. **Duties of researcher.** In making a release for research purposes, the provider shall make a reasonable effort to determine that:

(1) the use or disclosure does not violate any limitations under which the record was collected;

(2) the use or disclosure in individually identifiable form is necessary to accomplish the research or statistical purpose for which the use or disclosure is to be made;

(3) the recipient has established and maintains adequate safeguards to protect the records from unauthorized disclosure, including a procedure for removal or destruction of information that identifies the patient; and

(4) further use or release of the records in individually identifiable form to a person other than the patient without the patient's consent is prohibited.

**Sec. 7. [144.296] COPIES OF VIDEOTAPES.**

A provider may not release a copy of a videotape of a child victim or alleged victim of physical or sexual abuse without a court order under section 13.03, subdivision 6, or as provided in section 611A.90. This section does not limit the right of a patient to view the videotape.

**Sec. 8. [144.297] INDEPENDENT MEDICAL EXAMINATION.**

Sections 144.291 to 144.298 apply to the subject and provider of an independent medical examination requested by or paid for by a third party. Notwithstanding section 144.293, a provider may release health records created as part of an independent medical examination to the third party who requested or paid for the examination.

**Sec. 9. [144.298] PENALTIES.**

Subdivision 1. **Licensing action.** A violation of sections 144.291 to 144.298 may be grounds for disciplinary action against a provider by the appropriate licensing board or agency.

Subd. 2. **Liability of provider or other person.** A person who does any of the following is liable to the patient for compensatory damages caused by an unauthorized release, plus costs and reasonable attorney fees:

(1) negligently or intentionally requests or releases a health record in violation of sections 144.291 to 144.297;

(2) forges a signature on a consent form or materially alters the consent form of another person without the person's consent; or

(3) obtains a consent form or the health records of another person under false pretenses.

Subd. 3. **Liability for record locator service.** A patient is entitled to receive compensatory damages plus costs and reasonable attorney fees if a health information exchange maintaining a record locator service, or an entity maintaining a record locator service for a health information exchange, negligently or intentionally violates the provisions of section 144.293, subdivision 8.

The court or county agency must notify a parent or guardian whose parental rights have not been terminated of the potential mental health screening and the option to prevent the screening by notifying the court or county agency in writing. The screening shall be conducted with a screening instrument approved by the commissioner of human services according to criteria that are updated and issued annually to ensure that approved screening instruments are valid and useful for child welfare and juvenile justice populations, and shall be conducted by a mental health practitioner as defined in section 245.4871, subdivision 26, or a probation officer or local social services agency staff person who is trained in the use of the screening instrument. Training in the use of the instrument shall include training in the administration of the instrument, the interpretation of its validity given the child's current circumstances, the state and federal data practices laws and confidentiality standards, the parental consent requirement, and providing respect for families and cultural values. Subdivision 1. **Chemical dependency treatment allocation.** The chemical dependency funds appropriated for allocation shall be placed in a special revenue account. The commissioner shall annually transfer funds from the chemical dependency fund to pay for operation of the drug and alcohol abuse normative evaluation system and to pay for all costs incurred by adding two positions for licensing of chemical dependency treatment and rehabilitation programs located in hospitals for which funds are not otherwise appropriated. ~~For each year of the biennium ending June 30, 1999, the commissioner shall allocate funds to the American Indian chemical dependency tribal account for treatment of American Indians by eligible vendors under section 254B.05, equal to the amount allocated in fiscal year 1997. Six percent of the remaining money must be reserved for the nonreservation American Indian chemical dependency allocation for treatment of American Indians by eligible vendors under section 254B.05, subdivision 1. The remainder of the money must be allocated among the counties according to the following formula, using state demographer data and other data sources determined by the commissioner:

(c) The prepaid plan months of eligibility is multiplied by the proportion of exempt service expenditures to determine the adjusted prepaid plan months of eligibility for each county.

(d) The adjusted prepaid plan months of eligibility is added to the number of restricted population fee for service months of eligibility for the Minnesota family investment program, general assistance, and medical assistance and divided by the county restricted population to determine county per capita months of covered service eligibility.

(e) The number of adjusted prepaid plan months of eligibility for the state is added to the number of fee for service months of eligibility for the Minnesota family investment program, general assistance, and medical assistance for the state restricted population and divided by the state restricted population to determine state per capita months of covered service eligibility.

(f) The county per capita months of covered service eligibility is divided by the state per capita months of covered service eligibility to determine the county welfare caseload factor.

(g) The median married couple income for the most recent three-year period available for the state is divided by the median married couple income for the same period for each county to determine the income factor for each county.

(h) The county restricted population is multiplied by the sum of the county welfare caseload factor and the county income factor to determine the adjusted population.

(i) \$15,000 shall be allocated to each county.

(j) The remaining funds shall be allocated proportional to the county adjusted population.

Chemical dependency money must be administered by the local agencies according to law and rules adopted by the commissioner under sections 14.001 to 14.69.

(b) In order to contain costs, the county board shall, with the approval of the commissioner of human services, select eligible vendors of chemical dependency services who can provide economical and appropriate treatment. Unless the local agency is a social services department directly administered by a county or human services board, the local agency shall not be an eligible vendor under section 254B.05. The commissioner may approve proposals from county boards to provide services in an economical manner or to control utilization, with safeguards to ensure that necessary services are provided. If a county implements a demonstration or experimental medical services funding plan, the commissioner shall transfer the money as appropriate. If a county selects a vendor located in another state, the county shall ensure that the vendor is in compliance with the rules governing licensure of programs located in the state.

~~(c) The calendar year 2002 rate for vendors may not increase more than three percent above the rate approved in effect on January 1, 2001. The calendar year 2003 rate for vendors may not increase more than three percent above the rate in effect on January 1, 2002. The commissioner shall bill the county monthly for services, based on the most recent month for which expenditure information is available. Adjustment of any overestimate or underestimate based on actual expenditures shall be made by the state agency by adjusting the estimate for any succeeding month.~~

Sec. 15. Minnesota Statutes 2006, section 254B.06, subdivision 3, is amended to read:

Subd. 3. **Payment; denial.** The commissioner shall pay eligible vendors for placements made by local agencies under section 254B.03, subdivision 1, and placements by tribal designated agencies according to section 254B.09. The commissioner may reduce or deny payment of the state share when services are not provided according to the placement criteria established by the commissioner. The commissioner may pay for all or a portion of improper county chemical dependency placements and bill the county for the entire payment made when the placement did not comply with criteria established by the commissioner. The commissioner may make payments to vendors and charge the county 100 percent of the payments if documentation of a county approved placement is received more than 30 working days, exclusive of weekends and holidays, after the date services began; ~~or if the county approved invoice is received by the commissioner more than 120 days after the last date of service provided.~~ The commissioner shall not pay vendors until private insurance company claims have been settled.

Sec. 17. Minnesota Statutes 2006, section 256B.0943, subdivision 6, is amended to read:

Subd. 6. **Provider entity clinical infrastructure requirements.** (a) To be an eligible provider entity under this section, a provider entity must have a clinical infrastructure that utilizes diagnostic assessment, an individualized treatment plan, service delivery, and individual treatment plan review that are culturally competent, child-centered, and family-driven to achieve maximum benefit for the client. The provider entity must review and update the clinical policies and procedures every three years and must distribute the policies and procedures to staff initially and upon each subsequent update.

(b) The clinical infrastructure written policies and procedures must include policies and procedures for:

(1) providing or obtaining a client's diagnostic assessment that identifies acute and chronic clinical disorders, co-occurring medical conditions, sources of psychological and environmental problems, and a functional assessment. The functional assessment must clearly summarize the client's individual strengths and needs;

(2) developing an individual treatment plan that is:

(i) based on the information in the client's diagnostic assessment;

(ii) developed no later than the end of the first psychotherapy session after the completion of the client's diagnostic assessment by the mental health professional who provides the client's psychotherapy;

(iii) developed through a child-centered, family-driven planning process that identifies service needs and individualized, planned, and culturally appropriate interventions that contain specific treatment goals and objectives for the client and the client's family or foster family;

(iv) reviewed at least once every 90 days and revised, if necessary; and

(v) signed by the client or, if appropriate, by the client's parent or other person authorized by statute to consent to mental health services for the client;

(3) developing an individual behavior plan that documents services to be provided by the mental health behavioral aide. The individual behavior plan must include:

(i) detailed instructions on the service to be provided;

(ii) time allocated to each service;

(iii) methods of documenting the child's behavior;

(iv) methods of monitoring the child's progress in reaching objectives; and

(v) goals to increase or decrease targeted behavior as identified in the individual treatment plan;

(4) clinical supervision of the mental health practitioner and mental health behavioral aide. A mental health professional must document the clinical supervision the professional provides by cosigning individual treatment plans and making entries in the client's record on supervisory activities. Clinical supervision does not include the authority to make or terminate court-ordered placements of the child. A clinical supervisor must be available for urgent consultation as required by the individual client's needs or the situation. Clinical supervision may occur individually or in a small group to discuss treatment and review progress toward goals. The focus of clinical supervision must be the client's treatment needs and progress and the mental health practitioner's or behavioral aide's ability to provide services;

(4a) CTSS certified provider entities providing day treatment programs must meet the conditions in items (i) to (iii):

(i) the ~~provider~~ supervisor must be present and available on the premises more than 50 percent of the time in a five-working-day period during which the supervisee is providing a mental health service;

(ii) the diagnosis and the client's individual treatment plan or a change in the diagnosis or individual treatment plan must be made by or reviewed, approved, and signed by the ~~provider~~ supervisor; and

(iii) every 30 days, the supervisor must review and sign the record of the client's care for all activities in the preceding 30-day period;

(4b) for all other services provided under CTSS, clinical supervision standards provided in items (i) to (iii) must be used:

(i) medical assistance shall reimburse a mental health practitioner who maintains a consulting relationship with a mental health professional who accepts full professional responsibility and is present on site for at least one observation during the first 12 hours in which the mental health practitioner provides the individual, family, or group skills training to the child or the child's family;

(ii) thereafter, the mental health professional is required to be present on site for observation as clinically appropriate when the mental health practitioner is providing individual, family, or group skills training to the child or the child's family; and

(iii) the observation must be a minimum of one clinical unit. The on-site presence of the mental health professional must be documented in the child's record and signed by the mental health professional who accepts full professional responsibility;

(5) providing direction to a mental health behavioral aide. For entities that employ mental health behavioral aides, the clinical supervisor must be employed by the provider entity or other certified children's therapeutic supports and services provider entity to ensure necessary and appropriate oversight for the client's treatment and continuity of care. The mental health professional or mental health practitioner giving direction must begin with the goals on the individualized treatment plan, and instruct the mental health behavioral aide on how to construct therapeutic activities and interventions that will lead to goal attainment. The professional or practitioner giving direction must also instruct the mental health behavioral aide about the client's diagnosis, functional status, and other characteristics that are likely to affect service delivery. Direction must also include determining that the mental health behavioral aide has the skills to interact with the client and the client's family in ways that convey personal and cultural respect and that the aide actively solicits information relevant to treatment from the family. The aide must be able to clearly explain the activities the aide is doing with the client and the activities' relationship to treatment goals. Direction is more didactic than is supervision and requires the professional or practitioner providing it to continuously evaluate the mental health behavioral aide's ability to carry out the activities of the individualized treatment plan and the individualized behavior plan. When providing direction, the professional or practitioner must:

(i) review progress notes prepared by the mental health behavioral aide for accuracy and consistency with diagnostic assessment, treatment plan, and behavior goals and the professional or practitioner must approve and sign the progress notes;

(ii) identify changes in treatment strategies, revise the individual behavior plan, and communicate treatment instructions and methodologies as appropriate to ensure that treatment is implemented correctly;

(iii) demonstrate family-friendly behaviors that support healthy collaboration among the child, the child's family, and providers as treatment is planned and implemented;

(iv) ensure that the mental health behavioral aide is able to effectively communicate with the child, the child's family, and the provider; and

(v) record the results of any evaluation and corrective actions taken to modify the work of the mental health behavioral aide;

(6) providing service delivery that implements the individual treatment plan and meets the requirements under subdivision 9; and

(7) individual treatment plan review. The review must determine the extent to which the services have met the goals and objectives in the previous treatment plan. The review must assess the client's progress and ensure that services and treatment goals continue to be necessary and appropriate to the client and the client's family or foster family. Revision of the individual treatment plan does not require a new diagnostic assessment unless the client's mental health status has changed markedly. The updated treatment plan must be signed by the client, if appropriate, and by the client's parent or other person authorized by statute to give consent to the mental health services for the child.

Sec. 18. Minnesota Statutes 2006, section 256B.0943, subdivision 9, is amended to read:

The goal of the day treatment program must be to reduce or relieve the effects of mental illness and provide training to enable the client to live in the community. The program must be available at least one day a week for a ~~minimum~~ three-hour time block. The three-hour time block must include at least one hour, but no more than two hours, of individual or group psychotherapy. The remainder of the three-hour time block may include recreation therapy, socialization therapy, or independent living skills therapy, but only if the therapies are included in the client's individual treatment plan. Day treatment programs are not part of inpatient or residential treatment services; and

Crisis assistance must utilize resources designed to address abrupt or substantial changes in the functioning of the child or the child's family as evidenced by a sudden change in behavior with negative consequences for well being, a loss of usual coping mechanisms, or the presentation of danger to self or others;

(4) medically necessary services that are provided by a mental health behavioral aide must be designed to improve the functioning of the child and support the family in activities of daily and community living. A mental health behavioral aide must document the delivery of services in written progress notes. The mental health behavioral aide must implement goals in the treatment plan for the child's emotional disturbance that allow the child to acquire developmentally and therapeutically appropriate daily living skills, social skills, and leisure and recreational skills through targeted activities. These activities may include:

- (i) assisting a child as needed with skills development in dressing, eating, and toileting;

The provider entity may not bill for anything other than direct service time.

~~(2) a public program volume factor, which is determined by the total volume of public program revenue received by each training site as a percentage of all public program revenue received by all training sites in the fund pool; and~~

(2) a supplemental public program volume factor, which is determined by providing a supplemental payment of 20 percent of each training site's grant to training sites whose public program revenue accounted for at least 0.98 percent of the total public program revenue received by all eligible training sites. Public program revenue for the distribution formula includes revenue from medical assistance, prepaid medical assistance, general assistance medical care, and prepaid general assistance medical care. Training sites that receive no public program revenue are ineligible for funds available under this ~~paragraph~~ subdivision. For purposes of determining training-site level grants to be distributed under paragraph (a), total statewide average costs per trainee for medical residents is based on audited clinical training costs per trainee in primary care clinical medical education programs for medical residents. (d) Funds shall be distributed to the sponsoring institutions indicating the amount to be distributed to each of the sponsor's clinical medical education programs based on the criteria in this subdivision and in accordance with the commissioner's approval letter. Each clinical medical education program must distribute funds allocated under paragraph (a) to the training sites as specified in the commissioner's approval letter. (2) take necessary action if the contract requirements are not met. Action may include the withholding of payments under this section or the removal of students from the site.

(e) Any funds not distributed in accordance with the commissioner's approval letter must be returned to the medical education and research fund within 30 days of receiving notice from the commissioner. The commissioner shall distribute returned funds to the appropriate training sites in accordance with the commissioner's approval letter.

(c) By February 15 of each year, the commissioner, with advice from the advisory committee, shall provide an annual summary report to the legislature on the implementation of this section.

**EFFECTIVE DATE.** This section is effective January 1, 2008.

Sec. 11. Minnesota Statutes 2006, section 62J.692, subdivision 8, is amended to read:

Subd. 8. **Federal financial participation.** ~~(a) The commissioner of human services shall seek to maximize federal financial participation in payments for medical education and research costs. If the commissioner of human services determines that federal financial participation is available for the medical education and research, the commissioner of health shall transfer to the commissioner of human services the amount of state funds necessary to maximize the federal funds available. The amount transferred to the commissioner of human services, plus the amount of federal financial participation, shall be distributed to medical assistance providers in accordance with the distribution methodology described in subdivision 4.~~

~~(b) For the purposes of paragraph (a), The commissioner shall use physician clinic rates where possible to maximize federal financial participation. Any additional funds that become available must be distributed under subdivision 4, paragraph (a).~~

**EFFECTIVE DATE.** This section is effective January 1, 2008.

Sec. 12. Minnesota Statutes 2006, section 62J.81, subdivision 1, is amended to read:

Subdivision 1. **Required disclosure of estimated payment.** (a) A health care provider, as defined in section 62J.03, subdivision 8, or the provider's designee as agreed to by that designee, shall, at the request of a consumer, and at no cost to the consumer or the consumer's employer, provide that consumer with a good faith estimate of the reimbursement allowable payment the provider expects to receive from the health plan company in which the consumer is enrolled has agreed to accept from the consumer's health plan company for the services specified by the consumer, specifying the amount of the allowable payment due from the health plan company. Health plan companies must allow contracted providers, or their designee, to release this information. ~~A good faith estimate must also be made available at the request of a consumer who is not enrolled in a health plan company. If a consumer has no applicable public or private coverage, the health care provider must give the consumer, and at no~~

cost to the consumer, a good faith estimate of the average allowable reimbursement the provider accepts as payment from private third-party payers for the services specified by the consumer and the estimated amount the noncovered consumer will be required to pay. Payment information provided by a provider, or by the provider's designee as agreed to by that designee, to a patient pursuant to this subdivision does not constitute a legally binding estimate of the allowable charge for or cost to the consumer of services.

(b) A health plan company, as defined in section 62J.03, subdivision 10, shall, at the request of an enrollee or the enrollee's designee, provide that enrollee with a good faith estimate of the ~~reimbursement~~ allowable amount the health plan company ~~would expect to pay to~~ has contracted for with a specified provider within the network as total payment for a health care service specified by the enrollee and the portion of the allowable amount due from the enrollee and the enrollee's out-of-pocket costs. ~~If requested by the enrollee, the health plan company shall also provide to the enrollee a good faith estimate of the enrollee's out of pocket cost for the health care service. An estimate provided to an enrollee under this paragraph is not a legally binding estimate of the reimbursement allowable amount or enrollee's out-of-pocket cost.~~

**EFFECTIVE DATE.** This section is effective August 1, 2007.

Sec. 13. Minnesota Statutes 2006, section 62L.12, subdivision 2, is amended to read:

Subd. 2. **Exceptions.** (a) A health carrier may sell, issue, or renew individual conversion policies to eligible employees otherwise eligible for conversion coverage under section 62D.104 as a result of leaving a health maintenance organization's service area.

(b) A health carrier may sell, issue, or renew individual conversion policies to eligible employees otherwise eligible for conversion coverage as a result of the expiration of any continuation of group coverage required under sections 62A.146, 62A.17, 62A.21, 62C.142, 62D.101, and 62D.105.

(c) A health carrier may sell, issue, or renew conversion policies under section 62E.16 to eligible employees.

(d) A health carrier may sell, issue, or renew individual continuation policies to eligible employees as required.

(e) A health carrier may sell, issue, or renew individual health plans if the coverage is appropriate due to an unexpired preexisting condition limitation or exclusion applicable to the person under the employer's group health plan or due to the person's need for health care services not covered under the employer's group health plan.

(f) A health carrier may sell, issue, or renew an individual health plan, if the individual has elected to buy the individual health plan not as part of a general plan to substitute individual health plans for a group health plan nor as a result of any violation of subdivision 3 or 4.

(g) Nothing in this subdivision relieves a health carrier of any obligation to provide continuation or conversion coverage otherwise required under federal or state law.

(h) Nothing in this chapter restricts the offer, sale, issuance, or renewal of coverage issued as a supplement to Medicare under sections 62A.3099 to 62A.44, or policies or contracts that supplement Medicare issued by health maintenance organizations, or those contracts governed by sections 1833, 1851 to 1859, 1860D, or 1876 of the federal Social Security Act, United States Code, title 42, section 1395 et seq., as amended.

(i) Nothing in this chapter restricts the offer, sale, issuance, or renewal of individual health plans necessary to comply with a court order.

(j) A health carrier may offer, issue, sell, or renew an individual health plan to persons eligible for an employer group health plan, if the individual health plan is a high deductible health plan for use in connection with an existing health savings account, in compliance with the Internal Revenue Code, section 223. In that situation, the same or a different health carrier may offer, issue, sell, or renew a group health plan to cover the other eligible employees in the group.

(k) A health carrier may offer, sell, issue, or renew an individual health plan to one or more employees of a small employer if the individual health plan is marketed directly through the Minnesota Health Insurance Exchange under section 62A.67 or 62A.68 to all employees of the small employer and the small employer does not contribute directly or indirectly to the premiums or facilitate the administration of the individual health plan. The requirement to market an individual health plan to all employees through the Minnesota Health Insurance Exchange under section 62A.67 or 62A.68 does not require the health carrier to offer or issue an individual health plan to any employee. For purposes of this paragraph, an employer is not contributing to the premiums or facilitating the administration of the individual health plan if the employer does not contribute to the premium and merely collects the premiums from an employee's wages or salary through payroll deductions and submits payment for the premiums of one or more employees in a lump sum to the health carrier to the Minnesota Health Insurance Exchange under section 62A.67 or 62A.68. Except for coverage under section 62A.65, subdivision 5, paragraph (b), or 62E.16, at the request of an employee, the ~~health carrier~~ Minnesota Health Insurance Exchange under section 62A.67 or 62A.68 may bill the employer for the premiums payable by the employee, provided that the employer is not liable for payment except from payroll deductions for that purpose. If an employer is submitting payments under this paragraph, the health carrier and the Minnesota Health Insurance Exchange under section 62A.67 or 62A.68 shall jointly provide a cancellation notice directly to the primary insured at least ten days prior to termination of coverage for nonpayment of premium. Individual coverage under this paragraph may be offered only if the small employer has not provided coverage under section 62L.03 to the employees within the past 12 months.

The employer must provide a written and signed statement to the ~~health carrier~~ Minnesota Health Insurance Exchange under section 62A.67 or 62A.68 that the employer is not contributing directly or indirectly to the employee's premiums. The Minnesota Health Insurance Exchange under section 62A.67 or 62A.68 shall provide all health carriers with enrolled employees of the employer with a copy of the employer's statement. The health carrier may rely on the employer's statement provided by the Minnesota Health Insurance Exchange under section 62A.67 or 62A.68 and is not required to guarantee-issue individual health plans to the employer's ~~other current or future~~ employees.

Sec. 14. Minnesota Statutes 2006, section 62L.12, subdivision 4, is amended to read:

Subd. 4. **Employer prohibition.** A small employer offering a health benefit plan shall not encourage or direct an employee or applicant to:

(1) refrain from filing an application for health coverage when other similarly situated employees may file an application for health coverage;

(2) file an application for health coverage during initial eligibility for coverage, the acceptance of which is contingent on health status, when other similarly situated employees may apply for health coverage, the acceptance of which is not contingent on health status;

(3) seek coverage from another health carrier, including, but not limited to, MCHA; or

(4) cause coverage to be issued on different terms because of the health status or claims experience of that person or the person's dependents.

Sec. 15. **[62Q.101] EVALUATION OF PROVIDER PERFORMANCE.**

A health plan company, or a vendor of risk management services as defined under section 60A.23, subdivision 8, shall, in evaluating the performance of a health care provider:

- (2) disclose the baseline to the health care provider in writing and prior to the beginning of the time period used for the evaluation.

Sec. 16. Minnesota Statutes 2006, section 62Q.165, subdivision 1, is amended to read:

Subdivision 1. **Definition.** It is the commitment of the state to achieve universal health coverage for all Minnesotans by the year 2011. Universal coverage is achieved when:

- (1) every Minnesotan has access to a full range of quality health care services;
- (2) every Minnesotan is able to obtain affordable health coverage which pays for the full range of services, including preventive and primary care; and
- (3) every Minnesotan pays into the health care system according to that person's ability.

**EFFECTIVE DATE.** This section is effective July 1, 2007.

Sec. 17. Minnesota Statutes 2006, section 62Q.165, subdivision 2, is amended to read:

Subd. 2. **Goal.** It is the goal of the state to make continuous progress toward reducing the number of Minnesotans who do not have health coverage so that by January 1, 2000, ~~fewer than four percent of the state's population will be without health coverage~~ 2011, all Minnesota residents have access to affordable health care. The goal will be achieved by improving access to private health coverage through insurance reforms and market reforms, by making health coverage more affordable for low-income Minnesotans through purchasing pools and state subsidies, and by reducing the cost of health coverage through cost containment programs and methods of ensuring that all Minnesotans are paying into the system according to their ability.

**EFFECTIVE DATE.** This section is effective July 1, 2007.

Sec. 18. Minnesota Statutes 2006, section 144.698, subdivision 1, is amended to read:

(5) information on services provided to benefit the community, including services provided at no cost or for a reduced fee to patients unable to pay, teaching and research activities, or other community or charitable activities;

(6) information required on the revenue and expense report form set in effect on July 1, 1989, or as amended by the commissioner in rule;

(7) information on changes in ownership or control; ~~and~~

(8) other information required by the commissioner in rule;

(9) information on the number of available hospital beds that are dedicated to certain specialized services, as designated by the commissioner, and annual occupancy rates for those beds, separately for adult and pediatric care;

(10) from outpatient surgical centers, the total number of surgeries; and

Sec. 19. **[145.985] HEALTH PROMOTION AND WELLNESS.**

Community health boards as defined in section 145A.02, subdivision 5, may work with schools, health care providers, and others to coordinate health and wellness programs in their communities. In order to meet the requirements of this section, community health boards may:

(1) provide instruction, technical assistance, and recommendations on how to evaluate project outcomes;

(2) assist with on-site health and wellness programs utilizing volunteers and others addressing health and wellness topics including smoking, nutrition, obesity, and others; and

(3) encourage health and wellness programs consistent with the Centers for Disease Control and Prevention's Community Guide and goals consistent with the Centers for Disease Control and Prevention's Healthy People 2010 initiative.

Sec. 20. Minnesota Statutes 2006, section 256.01, subdivision 2b, is amended to read:

Subd. 2b. **Performance payments.** (a) The commissioner shall develop and implement a pay-for-performance system to provide performance payments to eligible medical groups and clinics that demonstrate optimum care in serving individuals with chronic diseases who are enrolled in health care programs administered by the commissioner under chapters 256B, 256D, and 256L. The commissioner may receive any federal matching money that is made available through the medical assistance program for managed care oversight contracted through vendors, including consumer surveys, studies, and external quality reviews as required by the federal Balanced Budget Act of 1997, Code of Federal Regulations, title 42, part 438-managed care, subpart E-external quality review. Any federal money received for managed care oversight is appropriated to the commissioner for this purpose. The commissioner may expend the federal money received in either year of the biennium.

(b) Upon federal approval the commissioner shall develop and implement a patient incentive health program to provide incentives and rewards to patients who are enrolled in health care programs administered by the commissioner under chapters 256B, 256D, and 256L, and who have agreed to and have met personal health goals established with the patients' primary care providers to manage a chronic disease or condition, including but not limited to diabetes, high blood pressure, and coronary artery disease.

Sec. 21. Minnesota Statutes 2006, section 256B.0625, is amended by adding a subdivision to read:

Subd. 49. **Provider-directed care coordination services.** The commissioner shall develop and implement a provider-directed care coordination program for medical assistance recipients who are not enrolled in the prepaid medical assistance program and who are receiving services on a fee-for-service basis. This program provides payment to primary care clinics for care coordination for people who have complex and chronic medical conditions. Clinics must meet certain criteria such as the capacity to develop care plans; have a dedicated care coordinator; and have an adequate number of fee-for-service clients, evaluation mechanisms, and quality improvement processes to qualify for reimbursement. For purposes of this subdivision, a primary care clinic is a medical clinic designated as the patient's first point of contact for medical care, available 24 hours a day, seven days a week, that provides or arranges for the patient's comprehensive health care needs, and provides overall integration, coordination and continuity over time and referrals for specialty care.

- (2) reward the use of evidence-based care;
- (3) discourage underutilization, overuse, and misuse;
- (4) reward the use of the most cost-effective settings, drugs, devices, providers, and treatments; and
- (5) encourage consumers to maintain good health and use the health care system appropriately.

In developing the plan, the commissioners shall analyze existing data to determine specific services and health conditions for which changes in payment rates and methods would lead to significant improvements in quality of care. The commissioners shall include a definition of the term "quality" for uniform understanding of the plan's impact.

Subd. 2. **Report.** The commissioners shall submit a report to the legislature by December 15, 2007, describing the payment reform plan. The report must include proposed legislation for implementing those components of the plan requiring legislative action or appropriations of money.

(6) a third-party payer, which may include a county-based purchasing plan, an employer, or a health plan company.

Subd. 2 **Proposal requirements.** The planning grants shall be used by community partnerships to develop a comprehensive proposal to provide affordable health care services to uninsured and underinsured individuals with chronic health conditions through an integrated community partnership system. A community partnership requesting a planning grant must submit to the commissioner a planning proposal that includes:

(1) methods for identifying potential uninsured or underinsured individuals and patients who have or who are at risk of developing a chronic health condition;

Testing and the recording and reporting of test results shall be performed at the times and in the manner prescribed by the commissioner of health. The commissioner shall charge ~~laboratory service fees~~ a fee so that the total of fees collected will approximate the costs of conducting the tests and implementing and maintaining a system to follow-up infants with heritable or congenital disorders, including hearing loss detected through the early hearing detection and intervention program under section 144.966. The ~~laboratory service fee~~ is ~~\$64~~ \$101 per specimen. Costs associated with capital expenditures and the development of new procedures may be prorated over a three-year period when calculating the amount of the fees.

Subd. 2. **Determination of tests to be administered.** The commissioner shall periodically revise the list of tests to be administered for determining the presence of a heritable or congenital disorder. Revisions to the list shall reflect advances in medical science, new and improved testing methods, or other factors that will improve the public health. In determining whether a test must be administered, the commissioner shall take into consideration the adequacy of ~~laboratory~~ analytical methods to detect the heritable or congenital disorder, the ability to treat or prevent medical conditions caused by the heritable or congenital disorder, and the severity of the medical conditions caused by the heritable or congenital disorder. The list of tests to be performed may be revised if the changes are recommended by the advisory committee established under section 144.1255, approved by the commissioner, and published in the State Register. The revision is exempt from the rulemaking requirements in chapter 14, and sections 14.385 and 14.386 do not apply.

Subd. 3. **Objection of parents to test.** Persons with a duty to perform testing under subdivision 1 shall advise parents of infants (1) that the blood or tissue samples used to perform testing thereunder as well as the results of such testing may be retained by the Department of Health, (2) the benefit of retaining the blood or tissue sample, and (3) that the following options are available to them with respect to the testing: (i) to decline to have the tests, or (ii) to elect to have the tests but to require that all blood samples and records of test results be destroyed within 24 months of the testing. If the parents of an infant object in writing to testing for heritable and congenital disorders or elect to require that blood samples and test results be destroyed, the objection or election shall be recorded on a form that is signed by a parent or legal guardian and made part of the infant's medical record. A written objection exempts an infant from the requirements of this section and section 144.128.
