(3) has been approved or deemed approved under subdivision 18.

EFFECTIVE DATE. This section is effective June 30, 2016.

Sec. 4. Minnesota Statutes 2015 Supplement, section 356.215, subdivision 11, is amended to read:

Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating the level normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial reporting purposes indicating the additional annual contribution sufficient to amortize the unfunded actuarial accrued liability and must contain an exhibit for contribution determination purposes indicating the additional contribution sufficient to amortize the unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph (c), but excluding the legislators retirement plan, the additional contribution must be calculated on a level percentage of covered payroll basis by the established date for full funding in effect when the valuation is prepared, assuming annual payroll growth at the applicable percentage rate set forth in subdivision 8, paragraph (d). For all other retirement plans and for the legislators retirement plan, the additional annual contribution must be calculated on a level annual dollar amount basis.

(b) For any retirement plan other than a retirement plan governed by paragraph (d), (e), (f), (g), (h), (i), or (j), if there has not been a change in the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, which change or changes by itself or by themselves without inclusion of any other items of increase or decrease produce a net increase in the unfunded actuarial accrued liability of the fund, the established date for full funding is the first actuarial valuation date occurring after June 1, 2020.

(c) For any retirement plan, if there has been a change in any or all of the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by itself or by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability in the fund, the established date for full funding must be determined using the following procedure:

(i) the unfunded actuarial accrued liability of the fund must be determined in accordance with the plan provisions governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;

(ii) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the unfunded actuarial accrued liability amount determined under item (i) by the established date for full funding in effect before the change must be calculated using the interest assumption specified in subdivision 8 in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective must be calculated using the applicable interest assumption specified in subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the level annual dollar amortization contribution or level percentage calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by the total level annual dollar or level percentage amortization contribution computed under item (v) must be calculated using the interest assumption specified in subdivision 8 in effect after any applicable change, rounded to the nearest integral number of years, but not to exceed 30 years from the end of the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and not to be less than the period of years beginning in the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before the change; and

(vii) the period determined under item (vi) must be added to the date as of which the actuarial valuation was prepared and the date obtained is the new established date for full funding.

(d) For the general employees retirement plan of the Public Employees Retirement Association, the established date for full funding is June 30, 2031.

(e) For the Teachers Retirement Association, the established date for full funding is June 30, ~~2037~~ 2046.

(f) For the correctional state employees retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2038.

(g) For the judges retirement plan, the established date for full funding is June 30, 2038.

(h) For the public employees police and fire retirement plan, the established date for full funding is June 30, 2038.

(i) For the St. Paul Teachers Retirement Fund Association, the established date for full funding is June 30, 2042. In addition to other requirements of this chapter, the annual actuarial valuation must contain an exhibit indicating the funded ratio and the deficiency or sufficiency in annual contributions when comparing liabilities to the market value of the assets of the fund as of the close of the most recent fiscal year.

(j) For the general state employees retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2040.

(k) For the retirement plans for which the annual actuarial valuation indicates an excess of valuation assets over the actuarial accrued liability, the valuation assets in excess of the actuarial accrued liability must be recognized as a reduction in the current contribution requirements by an amount equal to the amortization of the excess expressed as a level percentage of pay over a 30-year period beginning anew with each annual actuarial valuation of the plan.

EFFECTIVE DATE. This section is effective the day following final enactment.

(b)(1) If funding stability has been attained, the valuation must use a postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate specified in section ~~354A.27, subdivision 7~~; 354A.29, subdivision 9 $\frac{1}{2}$ or 356.415, subdivision 1, whichever applies.

(2) If funding stability has not been attained, the valuation must use a select postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate specified in section ~~354A.27, subdivision 6a~~; 354A.29, subdivision 8 $\frac{1}{2}$ or 356.415, subdivision 1a, 1b, 1c, 1d, 1e, or 1f, whichever applies, for a period ending when the approved actuary estimates that the plan will attain the defined funding stability measure, and thereafter an ultimate postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate under section ~~354A.27, subdivision 7~~; 354A.29, subdivision 9 $\frac{1}{2}$ or 356.415, subdivision 1, for the applicable period or periods beginning when funding stability is projected to be attained.

(c) The actuarial valuation must use the applicable following single rate future salary increase assumption, the applicable following modified single rate future salary increase assumption, or the applicable following graded rate future salary increase assumption:

(1) single rate future salary increase assumption

plan	future salary increase assumption
legislators retirement plan	5%

(2) ~~age-related future salary increase~~ ~~age-related select and ultimate future salary increase assumption or graded rate future salary increase assumption~~

plan	future salary increase assumption
local government correctional service retirement plan	assumption B
St. Paul teachers retirement plan	assumption A

~~For plans other than the St. Paul Teachers Retirement plan and the local government correctional service retirement plan, the select calculation is: Fund Association, during the a designated select period of 15 years, in addition to the age-based rates shown below, a designated percentage rate of 0.2 percent is multiplied by the result of the designated integer 15 minus T, where T is the number of completed years of service, and is added to the applicable future salary increase assumption. The designated select period is ten years and the designated integer is ten for the local government correctional service retirement plan and 15 for the St. Paul Teachers Retirement Fund Association. The designated percentage rate is 0.2 percent for the St. Paul Teachers Retirement Fund Association.~~

(e) The assumptions set forth in paragraphs (c) and (d) continue to apply, unless a different salary assumption or a different payroll increase assumption:

(1) has been proposed by the governing board of the applicable retirement plan;

(2) is accompanied by the concurring recommendation of the actuary retained under section 356.214, subdivision 1, if applicable, or by the approved actuary preparing the most recent actuarial valuation report if section 356.214 does not apply; and

(3) has been approved or deemed approved under subdivision 18.

EFFECTIVE DATE. This section is effective July 1, 2016, and applies to actuarial valuations prepared on or after that date.

ARTICLE 8 VOLUNTEER FIREFIGHTER RELIEF ASSOCIATIONS MODIFICATIONS

Section 1. Minnesota Statutes 2015 Supplement, section 353G.02, subdivision 6, is amended to read:

Subd. 6. **Initial administrative expenses of the monthly benefit retirement division; allocation of reimbursement.** (a) The administration expenses incurred by the Public Employees Retirement Association in the establishment of the monthly benefit retirement division of the voluntary statewide volunteer firefighter retirement plan, including any computer programming expenses and any actuarial consultant expenses, are payable from the assets of the initial monthly benefit volunteer firefighter relief association that elects to transfer its administration to the voluntary statewide volunteer firefighter retirement plan, following the transfer of assets.

~~(b) The administrative expenses in excess of \$33,600 paid under paragraph (a) must be reimbursed by the next nine monthly benefit volunteer firefighter relief associations that transfer plan administration to the voluntary statewide volunteer firefighter retirement plan. The reimbursement charge for each of the nine is three tenths of one percent of the market value of assets of the volunteer firefighter relief association as of December 31, 2012. The reimbursement amounts, up to the amount of administrative expenses actually incurred under paragraph (a) in excess of \$33,600, must be credited to the account of the fire department associated with the former monthly benefit volunteer firefighter relief association that first transferred plan administration to the volunteer firefighter retirement plan.~~

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 2. **[424A.003] CERTIFICATION OF SERVICE CREDIT.**

(a) When a municipal fire department, a joint powers fire department, or an independent nonprofit firefighting corporation is directly associated with the volunteer firefighters relief association, the fire chief shall certify annually by March 31 the service credit for the previous calendar year of each volunteer firefighter rendering active service with the fire department.

(b) The certification shall be made to an officer of the relief association's board of trustees and to the municipal clerk or clerk-treasurer of the largest municipality in population served by the associated fire department.

(c) The fire chief shall notify each volunteer firefighter rendering active service with the fire department of the amount of service credit rendered by the firefighter for the previous calendar year. The service credit notification and a description of the process and deadlines for the firefighter to challenge the fire chief's determination of service credit must be provided to the firefighter 60 days prior to its certification to the relief association and municipality. If the service credit amount is challenged, the fire chief shall accept and consider any additional pertinent information and shall make a final determination of service credit.

(d) The service credit certification must be expressed as the number of completed months of the previous year during which an active volunteer firefighter rendered at least the minimum level of duties as specified and required by the fire department under the rules, regulations, and policies applicable to the fire department. No more than one year of service credit may be certified for a calendar year.

(e) If a volunteer firefighter who is a member of the relief association leaves active firefighting service to render active military service that is required to be governed by the federal Uniformed Services Employment and Reemployment Rights Act, as amended, the firefighter must be certified as providing service credit for the period of the military service, up to the applicable limit of the federal Uniformed Services Employment and Reemployment Rights Act. If the volunteer firefighter does not return from the military service in compliance with the federal Uniformed Services Employment and Reemployment Rights Act, the service credits applicable to that military service credit period are forfeited and canceled at the end of the calendar year in which the time limit set by federal law occurs.

EFFECTIVE DATE. This section is effective January 1, 2017.

Sec. 3. Minnesota Statutes 2014, section 424A.01, is amended by adding a subdivision to read:

Subd. 4a. **Prohibition on receipt of concurrent service credit.** No firefighter may be credited with service credit in a volunteer firefighters relief association for the same hours of service for which coverage is already provided in a fund operated pursuant to chapter 353.

EFFECTIVE DATE. This section is effective January 1, 2017, and applies to service rendered on or after that date.

Sec. 4. Minnesota Statutes 2014, section 424A.01, is amended by adding a subdivision to read:

Subd. 5a. **Volunteer emergency medical personnel.** Volunteer emergency medical personnel are eligible to be members of the applicable volunteer firefighters relief association and to qualify for service pension or other benefit coverage of the relief association on the same basis as fire department personnel who perform or supervise fire suppression or fire prevention duties, if:

(1) the fire department employs or otherwise uses the services of persons solely as volunteer emergency medical personnel to perform emergency medical response duties or supervise emergency medical response activities;

(2) the bylaws of the relief association authorize the eligibility; and

(3) the eligibility is approved by:

(i) the municipality, if the fire department is a municipal department;

(ii) the joint powers board, if the fire department is a joint powers entity; or

(iii) the contracting municipality or municipalities, if the fire department is an independent nonprofit firefighting corporation.

EFFECTIVE DATE. This section is effective January 1, 2017, and applies to service rendered on or after that date.

Sec. 5. Minnesota Statutes 2014, section 424A.015, is amended by adding a subdivision to read:

Subd. 7. **Combined service pensions.** (a) A volunteer firefighter with credit for service as an active firefighter in more than one volunteer firefighters relief association is entitled to a prorated service pension from each relief association if:

(1) the articles of incorporation or bylaws of the relief associations provide;

(2) the applicable requirements of paragraphs (b) and (c) are met; and

(3) the volunteer firefighter otherwise qualifies.

(b) A volunteer firefighter receiving a prorated service pension under this subdivision must have a total combined amount of service credit from the two or more relief associations of ten years or more, unless the bylaws of every affected relief association specify less than a ten-year service vesting requirement, in which case, the total amount of required service credit is the longest service vesting requirement of the relief associations. The member must have one year or more of service credit in each relief association. The prorated service pension must be based on:

(1) for defined benefit relief associations, the service pension amount in effect for the relief association on the date on which active volunteer firefighting services covered by that relief association terminate; and

(2) for defined contribution relief associations, the member's individual account balance on the date on which active volunteer firefighting services covered by that relief association terminate.

(c) To receive a prorated service pension under this subdivision, the firefighter must become a member of the second or succeeding association and must give notice of membership to the prior association within two years of the date of termination of active service with the prior association. The second or subsequent relief association secretary must certify the notice.

EFFECTIVE DATE. This section is effective January 1, 2017.

Sec. 6. Minnesota Statutes 2015 Supplement, section 424A.02, subdivision 3, is amended to read:

Subd. 3. **Flexible service pension maximums.** (a) Annually on or before August 1 as part of the certification of the financial requirements and minimum municipal obligation determined under section 424A.092, subdivision 4, or 424A.093, subdivision 5, as applicable, the secretary or some other official of the relief association designated in the bylaws of each defined benefit relief association shall calculate and certify to the governing body of the applicable municipality the average amount of available financing per active covered firefighter for the most recent three-year

period. The amount of available financing includes any amounts of fire state aid and police and firefighter retirement supplemental state aid received or receivable by the relief association, any amounts of municipal contributions to the relief association raised from levies on real estate or from other available revenue sources exclusive of fire state aid, and one-tenth of the amount of assets in excess of the accrued liabilities of the relief association calculated under section 424A.092, subdivision 2; 424A.093, subdivisions 2 and 4; or 424A.094, subdivision 2, if any.

(b) The maximum service pension which the defined benefit relief association has authority to provide for in its bylaws for payment to a member retiring after the calculation date when the minimum age and service requirements specified in subdivision 1 are met must be determined using the table in paragraph (c) or (d), whichever applies.

(c) For a defined benefit relief association where the governing bylaws provide for a monthly service pension to a retiring member, the maximum monthly service pension amount per month for each year of service credited that may be provided for in the bylaws is the greater of the service pension amount provided for in the bylaws on the date of the calculation of the average amount of the available financing per active covered firefighter or the maximum service pension figure corresponding to the average amount of available financing per active covered firefighter:

(e) For a defined benefit relief association in which the governing bylaws provide for a monthly benefit service pension as an alternative form of service pension payment to a lump-sum service pension, the maximum service pension amount for each pension payment type must be determined using the applicable table contained in this subdivision.

(f) If a defined benefit relief association establishes a service pension in compliance with the applicable maximum contained in paragraph (c) or (d) and the minimum average amount of available financing per active covered firefighter is subsequently reduced because of a reduction in fire state aid or because of an increase in the number of active firefighters, the relief association may continue to provide the prior service pension amount specified in its bylaws, but may not increase the service pension amount until the minimum average amount of available financing per firefighter under the table in paragraph (c) or (d), whichever applies, permits.

(g) No defined benefit relief association is authorized to provide a service pension in an amount greater than the largest applicable flexible service pension maximum amount even if the amount of available financing per firefighter is greater than the financing amount associated with the largest applicable flexible service pension maximum.

(h) The method of calculating service pensions must be applied uniformly for all years of active service. Credit must be given for all years of active service except for caps on service credit if so provided in the bylaws of the relief association.

EFFECTIVE DATE; LOCAL APPROVAL. (a) For relief associations other than the Eden Prairie volunteer firefighters relief association, this section is effective January 1, 2017.

(b) For the Eden Prairie volunteer firefighters relief association, this section is effective the day after the city council of Eden Prairie and its chief clerical officer timely complete their compliance with Minnesota Statutes, section 645.021, subdivisions 2 and 3, or January 1, 2017, whichever is earlier.

Sec. 7. Minnesota Statutes 2014, section 424B.20, subdivision 4, is amended to read:

Subd. 4. **Benefit trust fund establishment.** (a) After the settlement of nonbenefit legal obligations of the special fund of the volunteer firefighters relief association under subdivision 3, the board of the relief association shall transfer the remaining assets of the special fund, as securities or in cash, as applicable, to the chief financial official of the municipality in which the associated fire department was located if the fire department was a municipal fire department or to the chief financial official of the municipality with the largest population served by the fire department if the fire department was an independent nonprofit firefighting corporation. If the fire department was a joint powers entity, the remaining assets of the special fund shall be transferred to the chief financial official of the municipality designated as the fiscal agent in the joint powers agreement or, if the agreement does not designate a municipality as the fiscal agent, the remaining assets of the special fund shall be transferred to the chief financial official of the municipality with the largest population served by the joint powers fire department. The board shall also compile a schedule of the relief association members to whom a service pension is or will be

owed, any beneficiary to whom a benefit is owed, the amount of the service pension or benefit payable based on the applicable bylaws and state law and the service rendered to the date of the dissolution, and the date on which the pension or benefit would first be payable under the bylaws of the relief association and state law.

(b) The municipality ~~in which is located~~ receiving the remaining assets of the special fund of a volunteer firefighters relief association that is dissolving under this section shall establish a separate account in the municipal treasury which must function as a trust fund for members of the volunteer firefighters relief association and their beneficiaries to whom the volunteer firefighters relief association owes a service pension or other benefit under the bylaws of the relief association and state law. Upon proper application, on or after the initial date on which the service pension or benefit is payable, the municipal treasurer shall pay the pension or benefit due, based on the schedule prepared under paragraph (a) and the other records of the dissolved relief association. The trust fund under this section must be invested and managed consistent with chapter 356A and section 424A.095. Upon payment of the last service pension or benefit due and owing, any remaining assets in the trust fund cancel to the general fund of the municipality; or, if the fire department was a joint powers entity, any remaining assets in the trust fund cancel to the general fund of each municipality that was a contracting party to the joint powers agreement as specified in the joint powers agreement. If the joint powers agreement does not specify how the remaining assets are to be distributed among the contracting parties, each of the contracting parties shall receive a pro rata share of the remaining assets based on the proportion of total operating contributions each contracting municipality made to the joint powers entity over the most recent ten calendar years. If the special fund of the volunteer firefighters relief association had an unfunded actuarial accrued liability upon dissolution, the municipality is liable for that unfunded actuarial accrued liability. If the fire department was a joint powers entity, the contracting municipalities are liable for their share of the unfunded actuarial accrued liability as specified in the joint powers agreement. If the joint powers agreement does not specify liability for any unfunded actuarial accrued liability, the contracting municipalities are liable for their pro rata share of the unfunded actuarial accrued liability based on the proportion of total operating contributions each contracting municipality made to the joint powers entity over the most recent ten calendar years.

EFFECTIVE DATE. This section is effective January 1, 2017.

Sec. 8. **EDEN PRAIRIE VOLUNTEER FIREFIGHTERS RELIEF ASSOCIATION SERVICE PENSIONS; RETURN TO ACTIVE SERVICE.**

(a) Notwithstanding any provision of Minnesota Statutes, section 424A.01, subdivision 6, section 424A.02, subdivision 2, or any other provision of law to the contrary, if the bylaws of the Eden Prairie volunteer firefighters relief association so provide, a former firefighter who has received a lump-sum service pension or is receiving a monthly benefit service pension and returns to active relief association membership under Minnesota Statutes, section 424A.01, subdivision 6, paragraph (b), is entitled to receive an unreduced lump-sum service pension for the resumption service period if the firefighter completes at least three years of active service as an active member of the fire department during the resumption service period and completes at least three years of active membership with the relief association during the resumption service period.

(b) A lump-sum service pension must be calculated by applying the service pension amount in effect on the date of the firefighter's termination of the resumption service for all years of the resumption service. No firefighter may be paid a service pension more than once for the same period of service. Payment of a lump-sum service pension shall have no effect on the firefighter's previous service pension.

EFFECTIVE DATE. This section is effective the day after the Eden Prairie City Council and its chief clerical officer timely complete their compliance with Minnesota Statutes, section 645.021, subdivisions 2 and 3.

Sec. 9. **COLERAINE AND BOVEY VOLUNTEER FIREFIGHTERS RELIEF ASSOCIATIONS; CONSOLIDATION.**

Subdivision 1. **Consolidation.** Notwithstanding any provision of Minnesota Statutes, section 424B.02, subdivision 2, paragraph (c), to the contrary, the Coleraine and Bovey volunteer firefighters relief associations are consolidated effective September 1, 2016, if all other consolidation requirements are satisfied pursuant to Minnesota Statutes, chapter 424B.

Subd. 2. **Reporting.** The consolidated relief association created under subdivision 1 shall report the number of active firefighter members of the relief association as of September 1, 2016, to the state auditor and to the commissioner of revenue no later than September 7, 2016. The commissioner may use this information to determine and calculate any minimum fire state aid payable under Minnesota Statutes, section 69.021, beginning with aid payable in 2016.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 10. **REPEALER.**

Minnesota Statutes 2014, section 424A.02, subdivision 13, is repealed.

EFFECTIVE DATE. This section is effective January 1, 2017.

ARTICLE 9
MSRS-ADMINISTERED RETIREMENT PLAN MODIFICATIONS

Section 1. Minnesota Statutes 2014, section 352.113, subdivision 2, is amended to read:

Subd. 2. **Application; accrual of benefits.** (a) An employee making claim for a total and permanent disability benefit, or someone acting on behalf of the employee upon proof of authority satisfactory to the director, shall file a written application for benefits in the office of the system on or before the deadline specified in subdivision 4, paragraph (g).

(b) The application must be in a form and manner prescribed by the executive director.

(c) The benefit shall begin to accrue the day following the start of disability or the day following the last day paid, whichever is later, but not earlier than 180 days before the date the application is filed with the director.

EFFECTIVE DATE. This section is effective July 1, 2016.

Sec. 2. Minnesota Statutes 2014, section 352.113, subdivision 4, is amended to read:

Subd. 4. **Medical or psychological examinations; authorization for payment of benefit.** (a) Any physician, psychologist, chiropractor, or physician assistant providing any service specified in this section must be licensed.

(b) An applicant shall provide a detailed report signed by a physician, and at least one additional report signed by a physician, chiropractor, psychologist, or physician assistant with evidence to support an application for total and permanent disability. The reports must include an expert opinion regarding whether the employee is permanently and totally disabled within the meaning of section 352.01, subdivision 17, and that the disability arose before the employee ~~was placed on any paid or unpaid leave of absence or terminated public service.~~

(c) If there is medical evidence that supports the expectation that at some point the person applying for the disability benefit will no longer be disabled, the decision granting the disability benefit may provide for a termination date upon which the total and permanent disability can be expected to no longer exist. When a termination date is part of the decision granting benefits, prior to the benefit termination the executive director shall review any evidence provided by the disabled employee to show that the disabling condition for which benefits were initially granted continues. If the benefits cease, the disabled employee may follow the appeal procedures described in section 356.96 or may reapply for disability benefits using the process described in this subdivision.

(d) Any claim to disability must be supported by a report from the employer indicating that there is no available work that the employee can perform with the disabling condition and that all reasonable accommodations have been considered. Upon request of the executive director, an employer shall provide evidence of the steps the employer has taken to attempt to provide reasonable accommodations and continued employment to the claimant.

(e) The director shall also obtain written certification from the employer stating whether the employment has ceased or whether the employee is on sick leave of absence because of a disability that will prevent further service to the employer and that the employee is not entitled to compensation from the employer.

(f) The medical adviser shall consider the reports of the physicians, physician assistants, psychologists, and chiropractors and any other evidence supplied by the employee or other interested parties. If the medical adviser finds the employee totally and permanently disabled, the adviser shall make appropriate recommendation to the director in writing together with the date from which the employee has been totally disabled. The director shall then determine if the disability occurred ~~within 18 months of filing the application,~~ while still in the employment of the state, ~~and the propriety of authorizing payment of a disability benefit as provided in this section~~ and constitutes a total and permanent disability as defined in section 353.01, subdivision 19.

(g) A terminated employee may apply for a disability benefit within 18 months of termination as long as the disability occurred while in the employment of the state. The fact that an employee is placed on leave of absence without compensation because of disability does not bar that employee from receiving a disability benefit.

(h) Upon appeal, the board of directors may extend the disability benefit application deadline in paragraph (g) by an additional 18 months if the terminated employee is determined by the board of directors to have a cognitive impairment that made it unlikely that the terminated employee understood that there was an application deadline or that the terminated employee was able to meet the application deadline.

(i) Unless the payment of a disability benefit has terminated because the employee is no longer totally disabled, or because the employee has reached normal retirement age as provided in this section, the disability benefit must cease with the last payment received by the disabled employee or which had accrued during the lifetime of the employee unless there is a spouse surviving. In that event, the surviving spouse is entitled to the disability benefit for the calendar month in which the disabled employee died.

EFFECTIVE DATE. This section is effective July 1, 2016.

The eligible person must pay the member contributions that the eligible person would have made to the Public Employees Retirement Association on the eligible person's compensation from the Minnesota State Colleges and Universities system for the period of service described in paragraph (c) as if the person had been covered by the Public Employees Retirement Association during the period, plus annual compound interest on that amount at the rate of 8.5 percent from February 22, 2006, until June 30, 2015, and eight percent from July 1, 2015, until the date on which payment is made to the Public Employees Retirement Association, less the transferred member contributions and investment earnings.

(e) Upon transfer of the equivalent member contribution amount and any additional payments under paragraph (d), the balance of the eligible person's higher education individual retirement account plan account must be transferred to the Public Employees Retirement Association within 60 days following the receipt of the eligible person's payment under paragraph (d).

(f) Upon the transfer of the amounts under paragraphs (d) and (e), the Minnesota State Colleges and Universities system shall pay the prior service credit purchase payment amount calculated under Minnesota Statutes, section 356.551, less any amounts received under paragraphs (d) and (e), within 60 days following the receipt of the eligible person's payment under paragraph (d).

(g) Upon the transfers and payments under paragraph (f), the eligible person must be credited by the Public Employees Retirement Association with allowable service credit for Minnesota State Colleges and Universities System employment from February 22, 2006, until May 10, 2011.

(h) Authority to make a service credit purchase under this section expires January 1, 2017.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 3. TRA COVERAGE ELECTION AND PERA REFUND REPAYMENT AUTHORITY FOR CERTAIN MNSCU EMPLOYEE.

(a) Notwithstanding any provision of Minnesota Statutes, chapter 353 or 354B, to the contrary, an eligible person described in paragraph (b) is eligible to become a coordinated member of the Teachers Retirement Association and to purchase service and salary credit in the Teachers Retirement Association coordinated plan retroactively from July 1, 2001, upon repaying a member contribution refund taken from the general employees retirement plan of the Public Employees Retirement Association under paragraph (c), upon making an election under paragraph (e), and upon making all required payments under paragraphs (f) and (g).

(b) An eligible person is a person who:

(1) was born April 4, 1956;

(2) was employed by a governmental subdivision in 1995, with retirement coverage in the general employees retirement plan of the Public Employees Retirement Association, for which a refund of member contributions and interest was taken before 2001;

(3) was employed by St. Cloud State University in the late 1990s, with retirement coverage in the general state employees retirement plan of the Minnesota State Retirement System;

(4) was hired as an academic advisor by St. Cloud State University on July 1, 2001, with retirement coverage in the higher education individual retirement account plan; and

(5) was not informed of the option to elect Teachers Retirement Association coverage in the coverage election authorized by Minnesota Statutes 2001, section 354B.21, so remained in the higher education individual retirement account plan.

(c) The refund repayment required by Minnesota Statutes, section 356.551, subdivision 1, paragraph (c), must be calculated under Minnesota Statutes, section 353.35, subdivision 1, paragraph (c).

(d) Authority to repay a refund under this section expires January 1, 2017.

(e) To be eligible for coverage by the Teachers Retirement Association, an eligible person must submit a written application to the executive director of the Teachers Retirement Association on a form provided by the Teachers Retirement Association. The application must include all documentation of the applicability of this section and any other relevant information that the executive director may require. Teachers Retirement Association plan membership commences after the date of the retirement coverage election under this section and past salary and service credit is granted for past Minnesota State Colleges and Universities system employment from July 1, 2001, until the executive director receives the written application specified in this paragraph and receipts of the payments specified in paragraphs (c), (f), and (g). Coverage by the Teachers Retirement Association is in lieu of coverage by the individual retirement account plan.

(f) If the eligible person makes the retirement coverage election under paragraph (e), the eligible person's member contributions to the higher education individual retirement account plan must be transferred to the Teachers Retirement Association with any earned investment returns on those contributions. If the transferred member contributions and investment earnings are less than the calculated amount of the member contributions that the

eligible person would have made to the Teachers Retirement Association on the eligible person's compensation from the Minnesota State Colleges and Universities system for the period from July 1, 2001, to the date of the retirement coverage election if the person had been covered by the Teachers Retirement Association during the period, plus annual compound interest at the rate of 8.5 percent, then the eligible person shall pay the balance of that calculated member contribution obligation within 30 days of the retirement coverage election.

(g) Upon the transfer of the equivalent member contribution amount and any additional payment under paragraph (f), the balance of the eligible person's higher education individual retirement account plan account must be transferred to the Teachers Retirement Association. If the amounts under paragraph (f) and the individual retirement account plan balance under this paragraph are less than the prior service credit purchase payment amount calculated under Minnesota Statutes, section 356.551, the Minnesota State Colleges and Universities system shall pay the difference within 60 days of the retirement election date.

(h) The authority to make a retirement coverage election under this section expires January 1, 2017.

EFFECTIVE DATE. This section is effective the day following final enactment.

Coverage by the Teachers Retirement Association is in lieu of coverage by the individual retirement account plan.

(d) If the eligible person makes the retirement coverage election under paragraph (c), the eligible person shall make a contribution to the Teachers Retirement Association equal to the excess, if any, of the employee contributions that the eligible person would have made if the Teachers Retirement Association had provided coverage from July 19, 2000, or September 15, 2000, whichever is applicable, rather than the individual retirement account plan. These additional contribution amounts shall include 8.5 percent annual compound interest computed from the date the contribution would have been made if deducted from salary until paid. The total amount to be paid under this paragraph shall be determined by the executive director of the Teachers Retirement Association and written notification of the amount required under this paragraph must be transmitted to the eligible person.

(e) If payment is made under paragraph (d), the value of the applicable eligible person's higher education individual retirement account plan account shall be transferred to the Teachers Retirement Association.

ARTICLE 13 TECHNICAL CORRECTIONS

Section 1. Minnesota Statutes 2015 Supplement, section 353.01, subdivision 16, is amended to read:

Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service" means:

(1) service during years of actual membership in the course of which employee deductions were withheld from salary and contributions were made at the applicable rates under section 353.27, 353.65, or 353E.03;

(2) periods of service covered by payments in lieu of salary deductions under sections 353.27, subdivisions 12 and 12a, and 353.35;

(3) service in years during which the public employee was not a member but for which the member later elected, while a member, to obtain credit by making payments to the fund as permitted by any law then in effect;

(4) a period of authorized leave of absence during which the employee receives pay as specified in subdivision 10, paragraph (a), clause (4) or (5), from which deductions for employee contributions are made, deposited, and credited to the fund;

(5) a period of authorized leave of absence without pay, or with pay that is not included in the definition of salary under subdivision 10, paragraph (a), clause (4) or (5), for which salary deductions are not authorized, and for which a member obtained service credit for up to 12 months of the authorized leave period by payment under section ~~353.0161~~ or 353.0162, to the fund made in place of salary deductions;

(6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest until June 30, 2015, and eight percent interest thereafter, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

(7) an authorized temporary or seasonal layoff under subdivision 12, limited to three months allowable service per authorized temporary or seasonal layoff in one calendar year. An employee who has received the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;

(8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service must be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed

at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter, compounded annually, from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

(9) a period specified under section 353.0162.

(b) No member may receive more than 12 months of allowable service credit in a year either for vesting purposes or for benefit calculation purposes.

(c) For an active member who was an active member of the former Minneapolis Firefighters Relief Association on December 29, 2011, "allowable service" is the period of service credited by the Minneapolis Firefighters Relief Association as reflected in the transferred records of the association up to December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011. For an active member who was an active member of the former Minneapolis Police Relief Association on December 29, 2011, "allowable service" is the period of service credited by the Minneapolis Police Relief Association as reflected in the transferred records of the association up to December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011.

Sec. 6. Minnesota Statutes 2014, section 354A.35, subdivision 2, is amended to read:

Subd. 2. **Death while eligible to retire; surviving spouse optional annuity.** (a) The surviving spouse of a vested coordinated member who dies prior to retirement may elect to receive, instead of a refund with interest under subdivision 1, an annuity equal to the 100 percent joint and survivor annuity the member could have qualified for had the member terminated service on the date of death. The surviving spouse eligible for a surviving spouse benefit under this paragraph may apply for the annuity at any time after the date on which the deceased employee would have attained the required age for retirement based on the employee's allowable service. A surviving spouse eligible for surviving spouse benefits under paragraph (b) or (c) may apply for an annuity at any time after the member's death. The member's surviving spouse shall be paid a joint and survivor annuity under section 354A.32 and computed under section 354A.31.

(b) If the member was under age 55 and has credit for at least 30 years of allowable service on the date of death, the surviving spouse may elect to receive a 100 percent joint and survivor annuity based on the age of the member and surviving spouse on the date of death. ~~(c) If a vested member of the Duluth Teachers Retirement Fund Association was under age 55 on the date of death but did not yet qualify for retirement, the surviving spouse may elect to receive the 100 percent joint and survivor annuity based on the age of the member and the survivor at the time of death. Subd. 7. **Criminal investigative data.** Except for the data defined in subdivisions 2, 3, and 6, investigative data collected or created by a law enforcement agency in order to prepare a case against a person, whether known or unknown, for the commission of a crime or other offense for which the agency has primary investigative responsibility are confidential or protected nonpublic while the investigation is active. Inactive investigative data are public unless the release of the data would jeopardize another ongoing investigation or would reveal the identity of individuals protected under subdivision 17. ~~Photographs which are part of inactive investigative files and which are clearly offensive to common sensibilities are classified as private or nonpublic data, provided that the existence of the photographs shall be disclosed to any person requesting access to the inactive investigative file.~~ An investigation becomes inactive upon the occurrence of any of the following events:

- (a) a decision by the agency or appropriate prosecutorial authority not to pursue the case;
- (b) expiration of the time to bring a charge or file a complaint under the applicable statute of limitations, or 30 years after the commission of the offense, whichever comes earliest; or
- (c) exhaustion of or expiration of all rights of appeal by a person convicted on the basis of the investigative data.

Any investigative data presented as evidence in court shall be public. Data determined to be inactive under clause (a) may become active if the agency or appropriate prosecutorial authority decides to renew the investigation.

During the time when an investigation is active, any person may bring an action in the district court located in the county where the data are being maintained to authorize disclosure of investigative data. The court may order that all or part of the data relating to a particular investigation be released to the public or to the person bringing the action. In making the determination as to whether investigative data shall be disclosed, the court shall consider whether the benefit to the person bringing the action or to the public outweighs any harm to the public, to the agency or to any person identified in the data. The data in dispute shall be examined by the court in camera."

\$4,483,000 the first year and \$8,500,000 the second year are for transfer to the agriculture research, education, extension, and technology transfer account under Minnesota Statutes, section 41A.14, subdivision 3. The transfer in this paragraph includes money for plant breeders at the University of Minnesota for wild rice, potatoes, and grapes. Of these amounts, at least \$600,000

each year is for ~~agriculture rapid response~~ the Minnesota Agricultural Experiment Station's Agriculture Rapid Response Fund under Minnesota Statutes, section 41A.14, subdivision 1, clause (2). Of the amount appropriated in this paragraph, \$1,000,000 each year is for transfer to the Board of Regents of the University of Minnesota for research to determine (1) what is causing avian influenza, (2) why some fowl are more susceptible, and (3) prevention measures that can be taken. Of the amount appropriated in this paragraph, \$2,000,000 each year is for grants to the Minnesota Agriculture Education Leadership Council to enhance agricultural education with priority given to Farm Business Management challenge grants. The commissioner shall transfer the remaining grant funds in this appropriation each year to the Board of Regents of the University of Minnesota for purposes of Minnesota Statutes, section 41A.14.

To the extent practicable, funds expended under Minnesota Statutes, section 41A.14, subdivision 1, clauses (1) and (2), must supplement and not supplant existing sources and levels of funding. The commissioner may use up to 4.5 percent of this appropriation for costs incurred to administer the program. Any unencumbered balance does not cancel at the end of the first year and is available for the second year.

\$10,235,000 the first year and \$10,235,000 the second year are for the agricultural growth, research, and innovation program in Minnesota Statutes, section 41A.12. No later than February 1, 2016, and February 1, 2017, the commissioner must report to the legislative committees with jurisdiction over agriculture policy and finance regarding the commissioner's accomplishments and anticipated accomplishments in the following areas: facilitating the start-up, modernization, or expansion of livestock operations including beginning and transitioning livestock operations; developing new markets for Minnesota farmers by providing more fruits, vegetables, meat, grain, and dairy for Minnesota school children; assisting value-added agricultural businesses to begin or expand, access new markets, or diversify products; developing urban agriculture; facilitating the start-up, modernization, or expansion of other beginning and transitioning farms including loans under Minnesota Statutes, section 41B.056; sustainable agriculture on farm research and demonstration; development or expansion of food hubs and other alternative community-based food distribution systems; and research on bioenergy, biobased content, or biobased formulated products and other renewable energy development. The commissioner may use up to 4.5 percent of this appropriation for costs incurred to administer the program. Any unencumbered balance does not cancel at the end of the first year and is available for the second year. Notwithstanding Minnesota Statutes, section 16A.28, the appropriations encumbered under contract on or before June 30, 2017, for agricultural growth, research, and innovation grants are available until June 30, 2019.

The commissioner may use funds appropriated for the agricultural growth, research, and innovation program as provided in this paragraph. The commissioner may award grants to owners of Minnesota facilities producing bioenergy, biobased content, or a biobased formulated product; to organizations that provide for on-station, on-farm field scale research and outreach to develop and test the agronomic and economic requirements of diverse strands of prairie plants and other perennials for bioenergy systems; or to certain nongovernmental entities. For the purposes of this paragraph, "bioenergy" includes transportation fuels derived from cellulosic material, as well as the generation of energy for commercial heat, industrial process heat, or electrical power from cellulosic materials via gasification or other processes. Grants are limited to 50 percent of the cost of research, technical assistance, or equipment related to bioenergy, biobased content, or biobased formulated product production or \$500,000, whichever is less. Grants to nongovernmental entities for the development of business plans and structures related to community ownership of eligible bioenergy facilities together may not exceed \$150,000. The commissioner shall make a good-faith effort to select projects that have merit and, when taken together, represent a variety of bioenergy technologies, biomass feedstocks, and geographic regions of the state. Projects must have a qualified engineer provide certification on the technology and fuel source. Grantees must provide reports at the request of the commissioner.

Of the amount appropriated for the agricultural growth, research, and innovation program in this subdivision, \$1,000,000 the first year and \$1,000,000 the second year are for distribution in equal amounts to each of the state's county fairs to preserve and promote Minnesota agriculture.

Of the amount appropriated for the agricultural growth, research, and innovation program in this subdivision, \$500,000 in fiscal year 2016 and \$1,500,000 in fiscal year 2017 are for incentive payments under Minnesota Statutes, sections 41A.16, 41A.17, and 41A.18. If the appropriation exceeds the total amount for which all producers are eligible in a fiscal year, the balance of the appropriation is available to the commissioner for the agricultural growth, research, and innovation program. Notwithstanding Minnesota Statutes, section 16A.28, the first year appropriation is available until June 30, 2017, and the second year appropriation is available until June 30, 2018. The commissioner may use up to 4.5 percent of the appropriation for administration of the incentive payment programs.

Of the amount appropriated for the agricultural growth, research, and innovation program in this subdivision, \$250,000 the first year is for grants to communities to develop or expand food hubs and other alternative community-based food distribution systems. Of this amount, \$50,000 is for the commissioner to consult with

existing food hubs, alternative community-based food distribution systems, and University of Minnesota Extension to identify best practices for use by other Minnesota communities. No later than December 15, 2015, the commissioner must report to the legislative committees with jurisdiction over agriculture and health regarding the status of emerging alternative community-based food distribution systems in the state along with recommendations to eliminate any barriers to success. Any unencumbered balance does not cancel at the end of the first year and is available for the second year. This is a onetime appropriation.

\$250,000 the first year and \$250,000 the second year are for grants that enable retail petroleum dispensers to dispense biofuels to the public in accordance with the biofuel replacement goals established under Minnesota Statutes, section 239.7911. A retail petroleum dispenser selling petroleum for use in spark ignition engines for vehicle model years after 2000 is eligible for grant money under this paragraph if the retail petroleum dispenser has no more than 15 retail petroleum dispensing sites and each site is located in Minnesota. The grant money received under this paragraph must be used for the installation of appropriate technology that uses fuel dispensing equipment appropriate for at least one fuel dispensing site to dispense gasoline that is blended with 15 percent of agriculturally derived, denatured ethanol, by volume, and appropriate technical assistance related to the installation. A grant award must not exceed 85 percent of the cost of the technical assistance and appropriate technology, including remetering of and retrofits for retail petroleum dispensers and replacement of petroleum dispenser projects. The commissioner may use up to \$35,000 of this appropriation for administrative expenses. The commissioner shall cooperate with biofuel stakeholders in the implementation of the grant program. The commissioner must report to the legislative committees with jurisdiction over agriculture policy and finance by February 1 each year, detailing the number of grants awarded under this paragraph and the projected effect of the grant program on meeting the biofuel replacement goals under Minnesota Statutes, section 239.7911. These are onetime appropriations.

\$25,000 the first year and \$25,000 the second year are for grants to the Southern Minnesota Initiative Foundation to promote local foods through an annual event that raises public awareness of local foods and connects local food producers and processors with potential buyers.
