Non-claims-based payments are payments to health care providers designed to pay for value of health care services over volume of health care services and include alternative payment models or incentives, payments for infrastructure expenditures or investments, and payments for workforce expenditures or investments. Non-claims-based payments submitted under this subdivision must, to the extent possible, be attributed to a health care provider in the same manner in which claims-based data are attributed to a health care provider and, where appropriate, must be combined with data collected under subdivisions 4 and 5 in analyses of health care spending.

(b) Data collected under this subdivision are nonpublic data as defined in section 13.02. Notwithstanding the definition of summary data in section 13.02, subdivision 19, summary data prepared under this subdivision may be derived from nonpublic data. The commissioner shall establish procedures and safeguards to protect the integrity and confidentiality of any data maintained by the commissioner.

(c) The commissioner shall consult with health plan companies, hospitals, and health care providers in developing the data reported under this subdivision and standardized reporting forms.

(4) to evaluate the state innovation model (SIM) testing grant received by the Departments of Health and Human Services, including the analysis of health care cost, quality, and utilization baseline and trend information for targeted populations and communities; and

(5) to compile one or more public use files of summary data or tables that must:

(i) be available to the public for no or minimal cost by March 1, 2016, and available by web-based electronic data download by June 30, 2019;

(ii) not identify individual patients, payers, or providers;

(iii) be updated by the commissioner, at least annually, with the most current data available;

(iv) contain clear and conspicuous explanations of the characteristics of the data, such as the dates of the data contained in the files, the absence of costs of care for uninsured patients or nonresidents, and other disclaimers that provide appropriate context; and

(v) not lead to the collection of additional data elements beyond what is authorized under this section as of June 30, 2015.

(b) The commissioner may publish the results of the authorized uses identified in paragraph (a) so long as the data released publicly do not contain information or descriptions in which the identity of individual hospitals, clinics, or other providers may be discerned.

(c) Nothing in this subdivision shall be construed to prohibit the commissioner from using the data collected under subdivision 4 to complete the state-based risk adjustment system assessment due to the legislature on October 1, 2015.

The commissioner shall determine the difference between the projected and actual spending for each health indicator and for each year, and determine the savings attributable to changes in these health indicators. The assumptions and research methods used to calculate actual spending must be determined to be appropriate by an independent actuarial consultant. If the actual spending is less than the projected spending, the commissioner, in consultation with the commissioners of human services and management and budget, shall use the proportion of spending for state-administered health care programs to total private and public health care spending for each health indicator for the calendar year two years before the current calendar year to determine the percentage of the calculated aggregate savings amount accruing to state-administered health care programs.

(b) The commissioner may use the data submitted under section 62U.04, subdivisions 4 ~~and~~ 5, and 5b, to complete the activities required under this section, but may only report publicly on regional data aggregated to granularity of 25,000 lives or greater for this purpose.

Subd. 2. **Report.** (a) To provide the legislature with information needed to meet the evolving health care needs of Minnesotans, the commissioner shall report to the legislature by February 15, 2023, on the volume and distribution of health care spending across payment models used by health plan companies and third-party administrators, with a particular focus on value-based care models and primary care spending.

(b) The report must include specific health plan and third-party administrator estimates of health care spending for claims-based payments and non-claims-based payments for the most recent available year, reported separately for Minnesotans enrolled in state health care programs, Medicare Advantage, and commercial health insurance. The report must also include recommendations on changes needed to gather better data from health plan companies and third-party administrators on the use of value-based payments that pay for value of health care services provided over volume of services provided, promote the health of all Minnesotans, reduce health disparities, and support the provision of primary care services and preventive services.

(c) In preparing the report, the commissioner shall:

(1) describe the form, manner, and timeline for submission of data by health plan companies and third-party administrators to produce estimates as specified in paragraph (b);

(2) collect summary data that permits the computation of:

(i) the percentage of total payments that are non-claims-based payments; and

(ii) the percentage of payments in item (i) that are for primary care services;

(3) where data was not directly derived, specify the methods used to estimate data elements;

(4) notwithstanding Minnesota Statutes, section 62U.04, subdivision 11, conduct analyses of the magnitude of primary care payments using data collected by the commissioner under Minnesota Statutes, section 62U.04; and

(5) conduct interviews with health plan companies and third-party administrators to better understand the types of non-claims-based payments and models in use, the purposes or goals of each, the criteria for health care providers to qualify for these payments, and the timing and structure of health plan companies or third-party administrators making these payments to health care provider organizations.

(d) Health plan companies and third-party administrators must comply with data requests from the commissioner under this section within 60 days after receiving the request.

(e) Data collected under this section are nonpublic data. Notwithstanding the definition of summary data in Minnesota Statutes, section 13.02, subdivision 19, summary data prepared under this section may be derived from nonpublic data. The commissioner shall establish procedures and safeguards to protect the integrity and confidentiality of any data maintained by the commissioner."

363A.50 NONDISCRIMINATION IN ACCESS TO TRANSPLANTS.

Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have the meanings given unless the context clearly requires otherwise.

(b) "Anatomical gift" has the meaning given in section 525A.02, subdivision 4.

(c) "Auxiliary aids and services" include, but are not limited to:

(1) qualified interpreters or other effective methods of making aurally delivered materials available to individuals with hearing impairments and to non-English-speaking individuals;

(2) qualified readers, taped texts, texts in accessible electronic format, or other effective methods of making visually delivered materials available to individuals with visual impairments;

(3) the provision of information in a format that is accessible for individuals with cognitive, neurological, developmental, intellectual, or physical disabilities;

(4) the provision of supported decision-making services; and

(5) the acquisition or modification of equipment or devices.

(d) "Covered entity" means:

(1) any licensed provider of health care services, including licensed health care practitioners, hospitals, nursing facilities, laboratories, intermediate care facilities, psychiatric residential treatment facilities, institutions for individuals with intellectual or developmental disabilities, and prison health centers; or

(2) any entity responsible for matching anatomical gift donors to potential recipients.

(e) "Disability" has the meaning given in section 363A.03, subdivision 12.

(f) "Organ transplant" means the transplantation or infusion of a part of a human body into the body of another for the purpose of treating or curing a medical condition.

(g) "Qualified individual" means an individual who, with or without available support networks, the provision of auxiliary aids and services, or reasonable modifications to policies or practices, meets the essential eligibility requirements for the receipt of an anatomical gift.

(h) "Reasonable modifications" include, but are not limited to:

(1) communication with individuals responsible for supporting an individual with postsurgical and post-transplantation care, including medication; and

(2) consideration of support networks available to the individual, including family, friends, and home and community-based services, including home and community-based services funded through Medicaid, Medicare, another health plan in which the individual is enrolled, or any program or source of funding available to the individual, in determining whether the individual is able to comply with post-transplant medical requirements.

(i) "Supported decision making" has the meaning given in section 524.5-102, subdivision 16a.

Subd. 2. **Prohibition of discrimination.** (a) A covered entity may not, on the basis of a qualified individual's race, ethnicity, mental disability, or physical disability:

(1) deem an individual ineligible to receive an anatomical gift or organ transplant;

(2) deny medical or related organ transplantation services, including evaluation, surgery, counseling, and postoperative treatment and care;

(3) refuse to refer the individual to a transplant center or other related specialist for the purpose of evaluation or receipt of an anatomical gift or organ transplant;

(4) refuse to place an individual on an organ transplant waiting list or place the individual at a lower-priority position on the list than the position at which the individual would have been placed if not for the individual's race, ethnicity, or disability; or

(5) decline insurance coverage for any procedure associated with the receipt of the anatomical gift or organ transplant, including post-transplantation and postinfusion care.

(b) Notwithstanding paragraph (a), a covered entity may take an individual's disability into account when making treatment or coverage recommendations or decisions, solely to the extent that the physical or mental disability has been found by a physician, following an individualized evaluation of the potential recipient to be medically significant to the provision of the anatomical gift or organ transplant. The provisions of this section may not be deemed to require referrals or recommendations for, or the performance of, organ transplants that are not medically appropriate given the individual's overall health condition.

(c) If an individual has the necessary support system to assist the individual in complying with post-transplant medical requirements, an individual's inability to independently comply with those requirements may not be deemed to be medically significant for the purposes of paragraph (b).

(d) A covered entity must make reasonable modifications to policies, practices, or procedures, when such modifications are necessary to make services such as transplantation-related counseling, information, coverage, or treatment available to qualified individuals with disabilities, unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such services.

(e) A covered entity must take such steps as may be necessary to ensure that no qualified individual with a disability is denied services such as transplantation-related counseling, information, coverage, or treatment because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally alter the nature of the services being offered or result in an undue burden. A covered entity is not required to provide supported decision-making services.

(f) A covered entity must otherwise comply with the requirements of Titles II and III of the Americans with Disabilities Act of 1990, the Americans with Disabilities Act Amendments Act of 2008, and the Minnesota Human Rights Act.

(g) The provisions of this section apply to each part of the organ transplant process.
