The commissioner must evaluate complete applications for funding for eligible projects to determine that:

(1) the project is necessary to increase sites available for housing development that will provide adequate housing stock for the current or future workforce; and

(2) the increase in workforce housing will result in substantial public and private capital investment in the county or city in which the project would be located.

(b) The determination of whether to make a grant for a site is within the discretion of the commissioner, subject to this section. The commissioner's decisions and application of the criteria are not subject to judicial review, except for abuse of discretion.

(c) The nonstate contribution required for a grant under this subdivision may be either cash or in-kind. In-kind contributions may include the value of the site, whether the site is prepared before or after the law appropriating money for the grant is enacted.

(d) Housing infrastructure projects eligible for a grant under this section may be single-family or multifamily housing developments, owner-occupied or rental.

(e) An eligible applicant may receive no more than \$20,000 per lot for single-family, duplex, triplex, or four-plex housing developed, and no more than \$50,000 per lot for multifamily housing with more than four units per building. An eligible applicant may receive no more than \$500,000 in two years for one or more housing developments.

(f) If after five years, the commissioner determines that a project under this subdivision has not proceeded in a timely manner and is unlikely to be completed, the commissioner must cancel the grant and require the grantee to return all grant money awarded for that project.

(g) Grant money returned to the commissioner is appropriated to the commissioner to make additional grants under this section.

Subd. 5. **Appropriation availability.** The appropriation for projects under subdivisions 3 and 4 is a onetime appropriation and is available until June 30, 2028."
