The program or collection of practices must include, at a minimum, ~~effective, balanced~~ evidence-based instruction in all five areas of reading: phonemic awareness, phonics, fluency, vocabulary development, and reading comprehension.

~~Comprehensive, scientifically based reading~~ Evidence-based literacy instruction also includes and integrates instructional strategies for continuously assessing, evaluating, and communicating the student's reading progress and needs in order to design and implement ongoing interventions so that students of all ages and proficiency levels can read and comprehend text, write, and apply higher level thinking skills. (e) ~~"Reading comprehension" is an active process that requires intentional thinking during which meaning is constructed through interactions between text and reader. Comprehension skills are taught explicitly by demonstrating, explaining, modeling, and implementing specific cognitive strategies to help beginning readers derive meaning through intentional, problem-solving thinking processes~~ the ability to read the words on the page and to understand and comprehend the words that have been read.

(f) "Vocabulary development" is the process of teaching vocabulary both directly and indirectly, with repetition and multiple exposures to vocabulary items. Learning in rich contexts, incidental learning, and use of computer technology enhance the acquiring of vocabulary.

(c) "Long-term services and supports" means any service available under the elderly waiver program or alternative care grant programs, nursing facility services, transportation services, caregiver support and respite care services, and other home and community-based services identified as necessary either to maintain lifestyle choices for older adults or to support them to remain in their own home.

~~(d)~~ (d) "Older adult services" means any services available under the elderly waiver program or alternative care grant programs; nursing facility services; transportation services; respite services; and other community-based services identified as necessary either to maintain lifestyle choices for older Minnesotans, or to promote independence.

These projects are intended to create incentives for new and expanded home and community-based services in Minnesota in order to:

(1) reach older adults early in the progression of their need for long-term services and supports, providing them with low-cost, high-impact services that will prevent or delay the use of more costly services;

(2) support older adults to live in the most integrated, least restrictive community setting;

Grants may also be made to renovate current buildings, provide transportation services, fund programs that would allow older adults or individuals with a disability to stay in their own homes by sharing a home, fund programs that coordinate and manage formal and informal services to older adults in their homes to enable them to live as independently as possible in their own homes as an alternative to nursing home care, or expand state-funded programs in the area.

Subd. 3a. **Priority for other grants.** The commissioner of health shall give priority to a grantee selected under subdivision 3 when awarding technology-related grants, if the grantee is using technology as part of the proposal unless that priority conflicts with existing state or federal guidance related to grant awards by the Department of Health. The commissioner of transportation shall give priority to a grantee under subdivision 3 when distributing transportation-related funds to create transportation options for older adults unless that preference conflicts with existing state or federal guidance related to grant awards by the Department of Transportation.

Subd. 3b. **State waivers.** The commissioner of health may waive applicable state laws and rules for grantees under subdivision 3 on a time-limited basis if the commissioner of health determines that a participating grantee requires a waiver in order to achieve demonstration project goals.

Subd. 3c. **Caregiver support and respite care projects.** (a) The commissioner shall establish projects to expand the availability of caregiver support and respite care services for family and other caregivers. The commissioner shall use a request for proposals to select nonprofit entities to administer the projects. Projects must:

(b) Projects must clearly describe:

(1) how they will achieve their purpose;

Projects must:

Subd. 3e. **Community service grants.** The commissioner shall award contracts for grants to public and private nonprofit agencies to establish services that strengthen a community's ability to provide a system of home and community-based services for elderly persons. The commissioner shall use a request for proposals process.

Subd. 3f. **Live well at home grants extension.** (a) A community or organization that has previously received a grant under subdivision 3c, 3d, or 3e, that funded a project that has proven to be successful and that is no longer eligible for funding under subdivision 3c, 3d, or 3e, may apply to the commissioner to receive ongoing funding to sustain the project.

The commissioner may award grants to the extent grant funds are available and to the extent applications are approved by the commissioner. Denial of approval of an application in one year does not preclude submission of an application in a subsequent year. The maximum grant amount is limited to \$750,000.
