Subdivision 1. **Financial review required.** (a) Before awarding a competitive, legislatively named, single-source, or sole-source grant to a nonprofit organization under this act, the grantor must require the applicant to submit financial information sufficient for the grantor to document and assess the applicant's current financial standing and management. Items of significant concern must be addressed with the applicant and resolved to the satisfaction of the grantor before a grant is awarded. The grantor must document the material requested and reviewed; whether the applicant had a significant operating deficit, a deficit in unrestricted net assets, or insufficient internal controls; whether and how the applicant resolved the grantor's concerns; and the grantor's final decision. This documentation must be maintained in the grantor's files.

(b) At a minimum, the grantor must require each applicant to provide the following information:

(1) the applicant's most recent Form 990, Form 990-EZ, or Form 990-N filed with the Internal Revenue Service. If the applicant has not been in existence long enough or is not required to file Form 990, Form 990-EZ, or Form 990-N, the applicant must demonstrate to the grantor that the applicant is exempt and must instead submit documentation of internal controls and the applicant's most recent financial statement prepared in accordance with generally accepted accounting principles and approved by the applicant's board of directors or trustees or, if there is no such board, by the applicant's managing group;

Subd. 3. **Authority to award subject to additional assistance and oversight.** A grantor that identifies an area of significant concern regarding an applicant's financial standing or management may award a grant to the applicant if the grantor provides or the grantee otherwise obtains additional technical assistance as needed and the grantor imposes additional requirements in the grant agreement. Additional requirements may include but are not limited to enhanced monitoring, additional reporting, or other reasonable requirements imposed by the grantor to protect the interests of the state.

Subd. 4. **Relation to other law and policy.** The requirements in this section are in addition to any other requirements imposed by law, the commissioner of administration under Minnesota Statutes, sections 16B.97 to 16B.98, or agency policy."

"Section 1. Minnesota Statutes 2022, section 119A.52, is amended to read:

119A.52 DISTRIBUTION OF APPROPRIATION.

(a) The commissioner of education must distribute money appropriated for that purpose to federally designated Head Start programs to expand services and to serve additional low-income children. ~~Migrant and Indian reservation programs must be initially allocated money based on the programs' share of federal funds., which may~~

include costs associated with program operations, infrastructure, or reconfiguration to serve children from birth to age five in center-based services. The distribution must occur in the following order: (1) 10.72 percent of the total Head Start appropriation must be initially allocated to federally designated Tribal Head Start programs; (2) the Tribal Head Start portion of the appropriation must be initially allocated to Tribal Head Start programs based on the programs' share of federal funds; and (3) migrant programs must be initially allocated funding based on the programs' share of federal funds. The remaining money must be initially allocated to the remaining local agencies based equally on the agencies' share of federal funds and on the proportion of eligible children in the agencies' service area who are not currently being served. A Head Start program must be funded at a per child rate equal to its contracted, federally funded base level at the start of the fiscal year. For all agencies without a federal Early Head Start rate, the state average federal cost per child for Early Head Start applies. In allocating funds under this paragraph, the commissioner of education must assure that each Head Start program in existence in 1993 is allocated no less funding in any fiscal year than was allocated to that program in fiscal year 1993. Before paying money to the programs, the commissioner must notify each program of its initial allocation and how the money must be used. Each program must present a plan under section 119A.535. For any program that cannot utilize its full allocation at the beginning of the fiscal year, the commissioner must reduce the allocation proportionately. Money available after the initial allocations are reduced must be redistributed to eligible programs.

(b) The commissioner must develop procedures to make payments to programs based upon the number of children reported to be enrolled during the required time period of program operations. Enrollment is defined by federal Head Start regulations. The procedures must include a reporting schedule, corrective action plan requirements, and financial consequences to be imposed on programs that do not meet full enrollment after the period of corrective action. Programs reporting chronic underenrollment, as defined by the commissioner, will have their subsequent program year allocation reduced proportionately. Funds made available by prorating payments and allocations to programs with reported underenrollment will be made available to the extent funds exist to fully enrolled Head Start programs through a form and manner prescribed by the department.

(c) Programs with approved innovative initiatives that target services to high-risk populations, including homeless families and families living in homeless shelters and transitional housing, are exempt from the procedures in paragraph (b). This exemption does not apply to entire programs. The exemption applies only to approved innovative initiatives that target services to high-risk populations, including homeless families and families living in homeless shelters, transitional housing, and permanent supportive housing.

Sec. 2. Minnesota Statutes 2022, section 121A.17, subdivision 3, is amended to read:

Subd. 3. **Screening program.** (a) A screening program must include at least the following components: developmental assessments, including virtual developmental screening for families who make the request based on their immunocompromised health status or other health conditions, hearing and vision screening or referral, immunization review and referral, the child's height and weight, the date of the child's most recent comprehensive vision examination, if any, identification of risk factors that may influence learning, an interview with the parent about the child, and referral for assessment, diagnosis, and treatment when potential needs are identified. The district and the person performing or supervising the screening must provide a parent or guardian with clear written notice that the parent or guardian may decline to answer questions or provide information about family circumstances that might affect development and identification of risk factors that may influence learning. The notice must state "Early childhood developmental screening helps a school district identify children who may benefit from district and community resources available to help in their development. Early childhood developmental screening includes a vision screening that helps detect potential eye problems but is not a substitute for a comprehensive eye exam." The notice must clearly state that declining to answer questions or provide information does not prevent the child from being enrolled in kindergarten or first grade if all other screening components are met. If a parent or guardian is not able to read and comprehend the written notice, the district and the person performing or supervising the screening must convey the information in another manner. The notice must also inform the parent or guardian that a child need not submit to the district screening program if the child's health records indicate to the school that the child has received comparable developmental screening performed

within the preceding 365 days by a public or private health care organization or individual health care provider. The notice must be given to a parent or guardian at the time the district initially provides information to the parent or guardian about screening and must be given again at the screening location.

(b) All screening components shall be consistent with the standards of the state commissioner of health for early developmental screening programs. A developmental screening program must not provide laboratory tests or a physical examination to any child. The district must request from the public or private health care organization or the individual health care provider the results of any laboratory test or physical examination within the 12 months preceding a child's scheduled screening. For the purposes of this section, "comprehensive vision examination" means a vision examination performed by an optometrist or ophthalmologist.

(c) If a child is without health coverage, the school district must refer the child to an appropriate health care provider.

(d) A board may offer additional components such as nutritional, physical and dental assessments, review of family circumstances that might affect development, blood pressure, laboratory tests, and health history.

Developmental screening aid shall not be paid for any student who is screened more than 30 days after the first day of attendance at a public school kindergarten, except if a student transfers to another public school kindergarten within 30 days after first enrolling in a Minnesota public school kindergarten program. In this case, if the student has not been screened, the district to which the student transfers may receive developmental screening aid for screening that student when the screening is performed within 30 days of the transfer date.

Subdivision 1. **Financial review required.** (a) Before awarding a competitive, legislatively named, single source, or sole source grant to a nonprofit organization under this act, the grantor must require the applicant to submit financial information sufficient for the grantor to document and assess the applicant's current financial standing and management. Items of significant concern must be addressed with the applicant and resolved to the satisfaction of the grantor before a grant is awarded. The grantor must document the material requested and reviewed; whether the applicant had a significant operating deficit, a deficit in unrestricted net assets, or insufficient internal controls; whether and how the applicant resolved the grantor's concerns; and the grantor's final decision. This documentation must be maintained in the grantor's files.

(b) At a minimum, the grantor must require each applicant to provide the following information:

(1) the applicant's most recent Form 990, Form 990-EZ, or Form 990-N filed with the Internal Revenue Service. Subd. 2. **Authority to postpone or forgo; reporting required.** (a) Notwithstanding any contrary provision in this act, a grantor that identifies an area of significant concern regarding the financial standing or management of a legislatively named applicant may postpone or forgo awarding the grant.

(b) No later than 30 days after a grantor exercises the authority provided under paragraph (a), the grantor must report to the chairs and ranking minority members of the legislative committees with jurisdiction over the grantor's operating budget. The report must identify the legislatively named applicant and the grantor's reason for postponing or forgoing the grant.

Subd. 3. Authority to award subject to additional assistance and oversight. A grantor that identifies an area of significant concern regarding an applicant's financial standing or management may award a grant to the applicant if the grantor provides or the grantee otherwise obtains additional technical assistance, as needed, and the grantor imposes additional requirements in the grant agreement. Additional requirements may include but are not limited to enhanced monitoring, additional reporting, or other reasonable requirements imposed by the grantor to protect the interests of the state.

"Sec. 10. Minnesota Statutes 2022, section 216E.03, subdivision 7, as amended by Laws 2023, chapter 7, section 26, is amended to read:

Subd. 7. **Considerations in designating sites and routes.** (a) The commission's site and route permit determinations must be guided by the state's goals to conserve resources, minimize environmental impacts, minimize human settlement and other land use conflicts, and ensure the state's electric energy security through efficient, cost-effective power supply and electric transmission infrastructure.

(b) To facilitate the study, research, evaluation, and designation of sites and routes, the commission shall be guided by, but not limited to, the following considerations:

(1) evaluation of research and investigations relating to the effects on land, water and air resources of large electric power generating plants and high-voltage transmission lines and the effects of water and air discharges and electric and magnetic fields resulting from such facilities on public health and welfare, vegetation, animals, materials and aesthetic values, including baseline studies, predictive modeling, and evaluation of new or improved methods for minimizing adverse impacts of water and air discharges and other matters pertaining to the effects of power plants on the water and air environment;

(2) environmental evaluation of sites and routes proposed for future development and expansion and their relationship to the land, water, air and human resources of the state;

(3) evaluation of the effects of new electric power generation and transmission technologies and systems related to power plants designed to minimize adverse environmental effects;

(4) evaluation of the potential for beneficial uses of waste energy from proposed large electric power generating plants;

(5) analysis of the direct and indirect economic impact of proposed sites and routes including, but not limited to, productive agricultural land lost or impaired;

(6) evaluation of adverse direct and indirect environmental effects that cannot be avoided should the proposed site and route be accepted;

(7) evaluation of alternatives to the applicant's proposed site or route proposed pursuant to subdivisions 1 and 2;

(8) evaluation of potential routes that would use or parallel existing railroad and highway rights-of-way;

(9) evaluation of governmental survey lines and other natural division lines of agricultural land so as to minimize interference with agricultural operations;

(10) evaluation of the future needs for additional high-voltage transmission lines in the same general area as any proposed route, and the advisability of ordering the construction of structures capable of expansion in transmission capacity through multiple circuiting or design modifications;

(11) evaluation of irreversible and irretrievable commitments of resources should the proposed site or route be approved;

(12) when appropriate, consideration of problems raised by other state and federal agencies and local entities;

(13) with respect to siting a large electric power generating plant that is powered by solar energy, prioritizing use of nontillable, marginal-quality agricultural land instead of prime farmland;

~~(14)~~ (14) evaluation of the benefits of the proposed facility with respect to (i) the protection and enhancement of environmental quality, and (ii) the reliability of state and regional energy supplies;

~~(14)~~ (15) evaluation of the proposed facility's impact on socioeconomic factors; and

~~(15)~~ (16) evaluation of the proposed facility's employment and economic impacts in the vicinity of the facility site and throughout Minnesota, including the quantity and quality of construction and permanent jobs and their compensation levels. The commission must consider a facility's local employment and economic impacts, and may reject or place conditions on a site or route permit based on the local employment and economic impacts.

(c) If the commission's rules are substantially similar to existing regulations of a federal agency to which the utility in the state is subject, the federal regulations must be applied by the commission.

(d) No site or route shall be designated which violates state agency rules.

(e) The commission must make specific findings that it has considered locating a route for a high-voltage transmission line on an existing high-voltage transmission route and the use of parallel existing highway right-of-way and, to the extent those are not used for the route, the commission must state the reasons.'''

The commission shall, taking into account the provisions of paragraph (c), distribute the proper amount to each public and municipal utility in a grant and each public and municipal utility shall distribute the money it receives to natural gas customers according to the terms of the order.

(c) If the aggregate amount requested by public utilities and municipal utilities under paragraph (a) exceeds the amount appropriated for this purpose, the commission must prorate the amount distributed to each public utility and municipal utility by:

(1) dividing the amount of the appropriation by the sum of the aggregated requests made by all public and municipal utilities; and

(2) multiplying the quotient from clause (1) times the aggregate request made by each individual public utility and municipal utility.

(d) This section expires the day after the commission issues a written order affirming its determination that the aggregate amount of revenues distributed to public and municipal utilities and natural gas customers under this section since the effective date of this act is equal to the aggregate amount public and municipal utilities paid for wholesale natural gas purchased between February 5, 2021, and February 12, 2021.
