

Community Input on Redistricting

While written testimony/input is encouraged by the dates established in each committee posting, the House Redistricting Committee will accept written public testimony/input through September 30, 2021.

Documents can be submitted to Nancy.conley@house.mn and should be saved as a PDF file or sent in the body of an email (to be formatted as a PDF file).

Input submitted will be posted on the Redistricting website and shared with committee members. For purposes of organization, documents will be saved by congressional district or “general” for input that is broader than one specific district.
