Overview

This bill appropriates \$1.6 million in fiscal year 2020 for a grant to public television and community radio stations to support the “Beyond Opioids Project,” a collaborative project to highlight the impact of opioid addiction in Minnesota.

Seventy percent of the grant funds must be awarded to Twin Cities Public Television, and 30 percent must be awarded to the Association of Minnesota Public Educational Radio Stations (AMPERS). The commissioner of administration must administer the grant program and may retain up to five percent of the total appropriation for administrative costs.
