new affordable rental homes created

or

200,000
rental homes preserved

Rental Opportunity Solutions

8,300
more families* have ongoing rent assistance

*25,000 Minnesotans

OUR FUTURE STARTS AT HOME

Dedicated Revenue via the MN Constitutional Amendment for Housing

No matter what we look like or where we come from, Minnesotans belong in safe and healthy homes we can afford. But today, many of us know the struggle of finding a place to live. When everyone has a roof over their head, our communities are stronger, and Minnesota families do better.

The amendment would dedicate predictable housing investments, much like we do for infrastructure or education. Just 37 cents of every \$100 you spend will keep our neighbors and families housed and in our homes, making sure future generations of Minnesotans can live and thrive here.

Home Ownership Opportunity Fund

Create more homes to own and eliminate racial disparities in homeownership

Rental Opportunity Fund

Provide rent support and rental homes so more Minnesotans have a safe and stable home

Household and Community Stability Fund

Support people facing instability and homelessness, with healthy and climate resilient homes

Coalition Members

Our coalition of housing, faith, and grassroots groups is fighting for predictable, dedicated housing investments in our families and neighbors to meet today's and future generations' housing needs.
