

2018 Appropriations

1. State Match For Revolving Loan Funds

2018 G.O. bonds (available):	\$14,000,000
2018 Environmental Trust Fund bonds (not available):	\$6,000,000

- State match funds provide the required 20% match for federal capitalization grants which support the Clean Water and Drinking Water revolving loan funds. The revolving funds are the state's largest programs to help cities construct wastewater and drinking water infrastructure projects. Over the past 5 years, these programs have provided an average of \$137 million per year in project financing to cities and other local governments.
- If the 2018 appropriated funds are not available it could jeopardize the timely receipt of federal funds and reduce the future lending capacity of the revolving loan funds.

2. Wastewater Infrastructure Funding (WIF) Program

2018 G.O. bonds – DW WIF (available):	\$25,000,000
2018 Environmental Trust Fund bonds – WW WIF (not available):	\$14,642,000

- The WIF program provides supplemental grants up to \$5 million for high cost projects based on affordability criteria. The majority of WIF grants go smaller cities which typically have the highest costs per household.
- If the 2018 appropriated funds are not available, numerous cities with high priority wastewater projects that are working toward 2019 construction will not be able to proceed.

3. Point Source Implementation Grant (PSIG) Program:

2018 G.O. bonds:	\$0
2018 Environmental Trust Fund bonds (not available):	\$38,348,000

- The PSIG program provides grants up to \$7 million to help cities upgrade treatment facilities to reduce discharge of specific pollutants to meet regulatory requirements.
- If the 2018 appropriated funds are not available, 7 cities with approved projects and documented grant needs of \$23 million that are ready for construction now will not be able to proceed. An additional 25 cities with an estimated \$88 million in grant needs have submitted PSIG applications and are working toward getting approvals to start construction as early as this summer.

**Minnesota Public Facilities Authority
Point Source Implementation Grant (PSIG) Program**

**PSIG
FY 2019**

Funds available as of 7/1/2018 (from CWF and 2017 g.o. bonds) : 18,551,858
2018 ENRTF Appropriation Bonds (not available): 38,348,000
56,899,858

Note: New PSIG applications accepted at beginning of each FY. PSIG grants not awarded until projects are bid and ready for construction.

Shading = PSIG grants awarded or reserved to date

Dotted line (---) indicates last project that can be fully funded based on current estimates and available funds
