A Closer Look at the Change in District 5

Population Percent Change
2010 to 2020

Population Change in Congressional District 5

	2010	2020	Percent Difference
White	430,906	442,300	2.6
Black or African American	101,629	125,654	23.6
Native American	7,978	6,892	-13.6
Asian	37,324	44,917	20.3
Native Hawaiian and Other Pacific Islander	296	274	-7.4
Some Other Race	1,639	3,895	137.6
Multiple Races	21,221	38,118	79.6
Hispanic or Latino	61,998	73,986	19.3
Total	662,991	736,036	11

Changes in Data Collection

- Changes to the race and ethnicity questions on the 2020 Census allowed for more opportunity to write in racial and ethnic groups.
- This has painted a better picture of how individuals view themselves, which in turn has shown that we are a more multiracial society than previous data has been able to show.
- While not solely responsible for the changes, it has corresponded with an increase in the “Some other race” and Multiple race categories.

Other Data Considerations

- The 2020 Census was conducted during a world-wide pandemic, which required the Census Bureau to make several adjustments to the operational plan.
- There was unprecedented uncertainty regarding aspects of the Census—even before the pandemic—that caused concern regarding individuals' willingness to respond to the Census.
- This is the first census to implement Differential Privacy (DP) as the Disclosure Avoidance System (DAS) to protect respondents' confidentiality.

Thank you again!
