

Written testimony HF784 (Thompson)

I am writing this letter to testify and support bill HF784 (Philando Castile Omnibus Bill 2021). There is no question that there are disparities amongst the African American community. For hundreds of years African Americans have endured countless acts of racism and prejudice in every way humanly possible. Racist enslavers of the past may not be able to go back in time but they are able to apologize in the form of true acknowledgement and compensation. This is bare minimum. That is why I support the Philando Castile Omnibus Bill 2021. Specifically 20 million to entrepreneurial and business training assistance as well as 10 million to urban agriculture. Economic justice should be important to all of us and this is the first step to writing the wrongs of America.
