66.20	in the same city or county.				
66.21	Subd. 9. Cancellation of grant; return of money. If the commissioner determines that				
66.22	a grantee is unable to proceed with an approved project or has not expended or obligated

66.30	made only for projects in existing buildings used as a library, or to prepare another existing				
66.31	building for use as a library. Renovation of an existing building may include an addition to

67.2	be used to pay part of the cost of meeting accessibility requirements in a new building.			
67.3	Sec. 4. [174.13] TRANSPORTATION FACILITIES CAPITAL PROGRAM.			
67.4	Subdivision 1. Establishment; accounts. (a) A transportation facilities capital program

67.8	(3) renovate or construct facilities to meet the department's current and future operational			
67.9	needs.			
67.10	(b) Projects under the transportation facilities capital program are funded by proceeds			
67.11	from the sale of trunk highway bonds or from other funds appropriated for the purposes of			
67.12	this section.			
67.13	(c) A transportation facilities capital account is established in the trunk highway fund.			
67.14	The account consists of all money appropriated from the trunk highway fund for the purposes			
67.15	of this section and any other money donated, allotted, transferred, or otherwise provided to			
67.16	the account by law. Money in the account is appropriated to the commissioner for the			
67.17	purposes specified and consistent with the standards and criteria set forth in this section.			
67.18	(d) A transportation facilities capital account is established in the bond proceeds account			
67.19	of the trunk highway fund. The account consists of trunk highway bond proceeds appropriated			
67.20	to the commissioner. Money in the account may only be expended on trunk highway			
67.21	purposes, which includes the purposes in this section.			
67.22	Subd. 2. Standards. Article XIV of the Minnesota Constitution states that the trunk			
67.23	highway fund may be used for the purposes of constructing, improving, and maintaining			
67.24	the trunk highway system in the state. When allocating funding under this section, the			
67.25	commissioner must review the projects deemed eligible under subdivision 3 and prioritize			
67.26	allocations using the criteria in subdivision 4. Money allocated to a specific project in an			
67.27	act of appropriation or other law must be allocated as provided by the law.			
67.28	Subd. 3. Eligible expenditures. A project is eligible under this section only if it involves			
67.29	the construction, improvement, or maintenance of a capital building asset that is part of the			
67.30	state trunk highway system. These capital building assets include, but are not limited to,			
67.31	district headquarter buildings, truck stations, salt storage or other unheated storage buildings,			

deicing and anti-icing facilities, fuel dispensing facilities, highway rest areas, and vehicle 68.1 weigh and inspection stations. 68.2 Subd. 4. Criteria for priorities. Institutions of higher education are not eligible 68.18 to receive a grant. 68.19 68.20 (b) The commission must give priority to grant applications for indoor air quality improvements and projects that eliminate R-22. For purposes of this section: 68.21 (1) "indoor air quality improvements" means: (i) renovation or replacement of heating, 68.22 68.23 ventilating, and air conditioning systems in existing indoor ice arenas whose ice resurfacing and ice edging equipment are not powered by electricity in order to reduce concentrations 68.24 of carbon monoxide and nitrogen dioxide; and (ii) acquisition of zero-emission ice resurfacing 68.25 and ice edging equipment. The new or renovated systems may include continuous electronic 68.26 air monitoring devices to automatically activate the ventilation systems when the 68.27 concentration of carbon monoxide or nitrogen dioxide reaches a predetermined level; and 68.28 (2) "projects that eliminate R-22," means replacement of ice-making systems in existing 68.29 public facilities that use R-22 as a refrigerant, with systems that use alternative 68.30 non-ozone-depleting refrigerants. 68.31

(c) In the metropolitan area as defined in section 473.121, subdivision 2, the commission is encouraged to give priority to the following proposals:

- (e) Proposals for ice centers and matching grants must provide for meeting the demand for ice time for female groups by offering up to 50 percent of prime ice time, as needed, to female groups. For purposes of this section, prime ice time means the hours of 4:00 p.m. to 10:00 p.m. Monday to Friday and 9:00 a.m. to 8:00 p.m. on Saturdays and Sundays.
- 69.18 (f) The location for all proposed facilities must be in areas of maximum demonstrated 69.19 interest and must maximize accessibility to an arterial highway.
- (g) To the extent possible, all proposed facilities must be dispersed equitably, must be located to maximize potential for full utilization and profitable operation, and must accommodate noncompetitive family and community skating for all ages.
- (h) The commission may also use the money to upgrade current facilities, purchase girls' ice time, or conduct amateur women's hockey and other ice sport tournaments.
- (i) To the extent possible, 50 percent of all grants must be awarded to communities in greater Minnesota.
- (j) To the extent possible, technical assistance shall be provided to Minnesota communities by the commission on ice arena planning, design, and operation, including the marketing of ice time and on projects described in paragraph (b).
