

DANCE MATTERS

WE ARE COMMITTED TO ELEVATING THE VALUE OF DANCE

ABOUT US

Cypher Side Dance School opened up its doors in 2021 with a mission to cultivate a diverse and inclusive community that inspires and nurtures young dancers. As a central hub for youth dance culture, we provide a platform for learning and exploration across various dance styles. We firmly believe in the transformative power of performing arts, which instills lifelong qualities of confidence, strength, and resilience in our youth.

WHAT WE DO

At Cypher Side, we recognize the transformative potential of the performing arts. Through our programs, young individuals not only learn technical dance skills but also develop qualities such as confidence, strength, and resilience that are invaluable in both their personal and professional lives.

We are committed to providing job opportunities in the arts sector, ensuring that our students and instructors have avenues to pursue their passions while contributing meaningfully to society and economy. Additionally, we are proud to offer adult classes tailored to accommodate individuals with developmental disabilities.

OUR GOAL

To further our mission, we are seeking funding support of \$100,000. With this financial assistance, we aim to expand our programs by increasing our current 38 classes to 45 by summer of 2024. Along with providing quality youth and staff training and workshops. By enhancing our developmental disabilities classes through specialized training and support, we create inclusivity and accessibility within our community.
