9.20 result of increased use by off-road vehicles
9.21 and are attributable to a border-to-border
9.22 touring route established by the commissioner.

9.23 This paragraph applies to roads that are

9.30 the needs result from additional traffic
9.31 generated by the border-to-border touring
9.32 route; and increased use attributable to a
9.33 border-to-border touring route has caused at
9.34 least a 50 percent increase in maintenance
9.35 costs for roads under the claimant's
9.36 jurisdiction, based on a ten-year maintenance

10.1 average. The commissioner may accept an
10.2 alternative to the ten-year maintenance average
10.3 if a jurisdiction does not have sufficient
10.4 maintenance records. The commissioner has
10.5 discretion to accept an alternative based on a
10.6 good-faith effort by the jurisdiction. Any
10.7 alternative should include baseline
10.8 maintenance costs for at least two years before
10.9 the year the route begins operating. The
10.10 ten-year maintenance average or any
10.11 alternative must be calculated from the years
10.12 immediately preceding the year the route
10.13 begins operating. Before reimbursing a claim
10.14 under this paragraph, the commissioner must
10.15 consider whether the claim is consistent with
10.16 claims made by other entities that administer
10.17 roads on the touring route, in terms of the
10.18 amount requested for reimbursement and the
10.19 frequency of claims made.

17.18 free of certifiable diseases, except that eggs with enteric redmouth, whirling disease, or
17.19 furunculosis may be imported following treatment approved by the commissioner, and fish
17.20 with bacterial kidney disease or viral hemorrhagic septicemia may be imported into areas

18.6 ~~Agriculture, Animal and Plant Health Inspection Services~~ VHS-susceptible-species list, the
18.7 disease history must be of consecutive years that include the year previous to, or the year
18.8 of, the transportation request.

18.9 Sec. 13. Minnesota Statutes 2018, section 17.4991, subdivision 3, is amended to read:

18.10 Subd. 3. **Fish health inspection.** (a) An aquatic farm propagating salmonids, catfish,
18.11 or species on the ~~viral hemorrhagic septicemia (VHS) susceptible list published by the~~
18.12 ~~United States Department of Agriculture, Animal and Plant Health Inspection Services,~~
18.13 VHS-susceptible-species list and having an effluent discharge from the aquatic farm into
18.14 public waters must have a fish health inspection conducted at least once every 12 months
18.15 by a certified fish health inspector. Testing must be conducted according to laboratory
18.16 methods of the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal
18.17 Diseases, published by the International Office of Epizootics (OIE).

18.18 (b) An aquatic farm propagating any species on the VHS susceptible list and having an
18.19 effluent discharge from the aquatic farm into public waters must test for VHS virus using
18.20 the guidelines of the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal
18.21 Diseases. The commissioner may, by written order published in the State Register, prescribe
18.22 alternative testing time periods and methods from those prescribed in the Fish Health Blue
18.23 Book or the OIE Diagnostic Manual if the commissioner determines that biosecurity measures
18.24 will not be compromised. These alternatives are not subject to the rulemaking provisions
18.25 of chapter 14 and section 14.386 does not apply. The commissioner must provide reasonable
18.26 notice to affected parties of any changes in testing requirements.

18.27 (c) Results of fish health inspections must be provided to the commissioner for all fish
18.28 that remain in the state. All data used to prepare and issue a fish health certificate must be
18.29 maintained for three years by the issuing fish health inspector, approved laboratory, or
18.30 accredited veterinarian.

18.31 (d) A health inspection fee must be charged based on each lot of fish sampled. The fee
18.32 by check or money order payable to the Department of Natural Resources must be prepaid
18.33 or paid at the time a bill or notice is received from the commissioner that the inspection and
18.34 processing of samples is completed.

19.1 (e) Upon receipt of payment and completion of inspection, the commissioner shall notify
19.2 the operator and issue a fish health certificate. The certification must be made according to
19.3 the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal Diseases by a
19.4 person certified as a fish health inspector.

19.5 (f) All aquatic life in transit or held at transfer stations within the state may be inspected
19.6 by the commissioner. This inspection may include the collection of stock for purposes of
19.7 pathological analysis. Sample size necessary for analysis will follow guidelines listed in
19.8 the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal Diseases.

19.9 (g) Salmonids, catfish, or species on the VHS susceptible list must have a fish health
19.10 inspection before being transported from a containment facility, unless the fish are being
19.11 transported directly to an outlet for processing or other food purposes or unless the
19.12 commissioner determines that an inspection is not needed. A fish health inspection conducted
19.13 for this purpose need only be done on the lot or lots of fish that will be transported. The
19.14 commissioner must conduct a fish health inspection requested for this purpose within five
19.15 working days of receiving written notice. Salmonids and catfish may be immediately
19.16 transported from a containment facility to another containment facility once a sample has
19.17 been obtained for a health inspection or once the five-day notice period has expired.

19.18 Sec. 14. Minnesota Statutes 2018, section 17.4992, subdivision 2, is amended to read:

19.19 Subd. 2. **Restriction on the sale of fish.** (a) Except as provided in paragraph (b), species
19.20 on the ~~official list of viral hemorrhagic septicemia susceptible species published by the~~
19.21 ~~United States Department of Agriculture, Animal and Plant Health Inspection Services,~~
19.22 VHS-susceptible-species list must be free of viral hemorrhagic septicemia and species of
19.23 the family salmonidae or ictaluridae, except bullheads, must be free of certifiable diseases
19.24 if sold for stocking or transfer to another aquatic farm.

19.25 (b) The following exceptions apply to paragraph (a):

19.26 (1) eggs with enteric redmouth, whirling disease, or furunculosis may be transferred
19.27 between licensed facilities or stocked following treatment approved by the commissioner;

19.28 (2) fish with bacterial kidney disease or viral hemorrhagic septicemia may be transferred
19.29 between licensed facilities or stocked in areas where the disease has been identified as being
19.30 present; and

19.31 (3) the commissioner may allow transfer between licensed facilities or stocking of fish
19.32 with enteric redmouth or furunculosis when the commissioner determines that doing so
19.33 would pose no threat to the state's aquatic resources.

20.1 Sec. 15. Minnesota Statutes 2018, section 35.155, subdivision 1, is amended to read:

20.2 Subdivision 1. **Running at large prohibited.** (a) An owner may not allow farmed
20.3 Cervidae to run at large. The owner must make all reasonable efforts to return escaped
20.4 farmed Cervidae to their enclosures as soon as possible. The owner must immediately notify
20.5 the commissioner of natural resources of the escape of farmed Cervidae ~~if the farmed~~
20.6 ~~Cervidae are not returned or captured by the owner within 24 hours of their escape.~~

20.7 (b) An owner is liable for expenses of another person in capturing, caring for, and
20.8 returning farmed Cervidae that have left their enclosures if the person capturing the farmed
20.9 Cervidae contacts the owner as soon as possible.

20.10 (c) ~~If an owner is unwilling or unable to capture escaped farmed Cervidae, The~~
20.11 ~~commissioner of natural resources may destroy the escaped farmed Cervidae. The~~
20.12 ~~commissioner of natural resources must allow the owner to attempt to capture the escaped~~
20.13 ~~farmed Cervidae prior to destroying the farmed Cervidae. Farmed Cervidae that are not~~
20.14 ~~captured by 24 hours after escape may be destroyed.~~

20.15 (d) A hunter licensed by the commissioner of natural resources under chapter 97A may
20.16 kill and possess escaped farmed Cervidae in a lawful manner and is not liable to the owner
20.17 for the loss of the animal.

20.18 (e) Escaped farmed Cervidae killed by a hunter or destroyed by the commissioner of
20.19 natural resources must be tested for chronic wasting disease at the owner's expense.

20.23 Subd. 6. **Identification.** (a) Farmed Cervidae must be identified by means approved by
20.24 the Board of Animal Health. The identification must include a distinct number that has not
20.25 been used during the previous three years and either incorporate global positioning system
20.26 technology or include a phone number, address, or other contact information that enables
20.27 the reader to readily identify the owner of escaped farmed Cervidae. Identification must be
20.28 visible to the naked eye during daylight under normal conditions at a distance of 50 yards.
20.29 White-tailed deer must be identified before October 31 of the year in which the animal is
20.30 born, at the time of weaning, or before movement from the premises, whichever occurs
20.31 first. Elk and other cervids must be identified by December 31 of the year in which the
20.32 animal is born or before movement from the premises, whichever occurs first. As coordinated

21.1 by the board, the commissioner of natural resources may destroy any animal that is not
21.2 identified as required under this subdivision.

21.3 (b) The Board of Animal Health shall register farmed Cervidae. The owner must submit
21.4 the registration request on forms provided by the board. The forms must include sales
21.5 receipts or other documentation of the origin of the Cervidae. The board must provide copies
21.6 of the registration information to the commissioner of natural resources upon request. The
21.7 owner must keep written records of the acquisition and disposition of registered farmed
21.8 Cervidae.

21.9 **EFFECTIVE DATE.** This section is effective September 1, 2021.

21.10 Sec. 17. Minnesota Statutes 2019 Supplement, section 84.027, subdivision 18, is amended

21.15 Legislative Permanent School Fund Commission and the legislature on the management of
21.16 the school trust lands that shows how the commissioner has and will continue to achieve
21.17 the following goals:

21.18 (1) manage the school trust lands efficiently and in a manner that reflects the undivided
21.19 loyalty to the beneficiaries consistent with the commissioner's fiduciary duties;

21.20 (2) reduce the management expenditures of school trust lands and maximize the revenues
21.21 deposited in the permanent school trust fund;

21.22 (3) manage the sale, exchange, and commercial leasing of school trust lands, requiring
21.23 returns of not less than fair market value, to maximize the revenues deposited in the
21.24 permanent school trust fund and retain the value from the long-term appreciation of the
21.25 school trust lands;

21.26 (4) manage the school trust lands to maximize the long-term economic return for the
21.27 permanent school trust fund while maintaining sound natural resource conservation and
21.28 management principles;

21.29 (5) optimize school trust land revenues and maximize the value of the trust consistent
21.30 with balancing short-term and long-term interests, so that long-term benefits are not lost in
21.31 an effort to maximize short-term gains; and

22.1 (6) maintain the integrity of the trust and prevent the misapplication of its lands and its
22.2 revenues.

22.3 (b) When the commissioner finds an irresolvable conflict between maximizing the
22.4 long-term economic return and protecting natural resources and recreational values on
22.5 school trust lands, the commissioner shall give precedence to the long-term economic return
22.6 in managing school trust lands. By July 1, 2018, the permanent school fund must be
22.7 compensated for all school trust lands included under a designation or policy provision that
22.8 prohibits long-term economic return. The commissioner shall submit recommendations to
22.9 the appropriate legislative committees and divisions on methods of funding for the
22.10 compensation required under this paragraph, including recommendations for appropriations
22.11 from the general fund, nongeneral funds, and the state bond fund. Any uncompensated
22.12 designation or policy provision restrictions on the long-term economic return on school
22.13 trust lands remaining after July 1, 2018, must be compiled and submitted to the Legislative
22.14 Permanent School Fund Commission for review.

22.15 (c) By December 31, 2013, the report required under paragraph (a) must provide an
22.16 inventory and identification of all school trust lands that are included under a designation
22.17 or policy provision that prohibits long-term economic return. The report must include a plan
22.18 to compensate the permanent school fund through the purchase or exchange of the lands or
22.19 a plan to manage the school trust land to generate long-term economic return to the permanent
22.20 school fund. Subsequent reports under paragraph (a) must include a status report of the
22.21 commissioner's progress in maximizing the long-term economic return on lands identified
22.22 in the 2013 report.

22.23 (d) When management practices, policies, or designations by the commissioner diminish
22.24 or prohibit the long-term economic return on school trust land, the conflict must be resolved
22.25 as provided in section 92.122.

22.26 Sec. 18. [84.625] CONVEYANCE OF CONSERVATION EASEMENTS.

22.27 Notwithstanding any law to the contrary, the commissioner of natural resources may,
22.28 on state-owned lands administered by the commissioner and on behalf of the state, convey
22.29 conservation easements as defined in section 84C.01, upon such terms and conditions,
22.30 including reversion in the event of nonuse, as the commissioner may determine. Any terms
22.31 and conditions obligating the state to incur costs related to monitoring or maintaining a
22.32 conservation easement must acknowledge the state is liable for the costs only to the extent
22.33 of an available appropriation according to section 16A.138.

23.1 Sec. 19. Minnesota Statutes 2018, section 84.82, subdivision 1a, is amended to read:

35.2 but may end earlier in the respective zones if the quotas are reached. The quotas must be
35.3 reassessed at the expiration of the current ten-year Fisheries Management Plan for the
35.4 Minnesota Waters of Lake Superior ~~dated September 2006~~.

35.5 Sec. 51. Minnesota Statutes 2018, section 103C.315, subdivision 4, is amended to read:

35.6 Subd. 4. **Compensation.** A supervisor shall receive compensation for services up to \$75
35.7 \$125 per day, and may be reimbursed for expenses, including traveling expenses, necessarily
35.8 incurred in the discharge of duties. A supervisor may be reimbursed for the use of the
35.9 supervisor's own automobile in the performance of official duties at a rate up to the maximum
35.10 tax-deductible mileage rate permitted under the federal Internal Revenue Code.

35.11 Sec. 52. Minnesota Statutes 2018, section 103G.271, is amended by adding a subdivision
35.12 to read:

35.13 Subd. 2a. **Public meeting.** Before issuing a water-use permit or a plan for the consumptive
35.14 use of more than one-quarter of a million gallons per day average in a 30-day period, the
35.15 commissioner must hold a public meeting in the county affected most by the potential impact
35.16 to the public groundwater resource. At least 21 days before the public meeting, the
35.17 commissioner must publish notice of the meeting in a newspaper of general circulation in
35.18 the county and must mail the notice to persons who have registered their names with the
35.19 commissioner for this purpose.

35.20 Sec. 53. Minnesota Statutes 2018, section 103G.271, is amended by adding a subdivision
35.21 to read:

35.22 Subd. 4b. **Vintage groundwater.** The commissioner may not issue a new or modified
35.23 water-use permit that will appropriate vintage groundwater unless the commissioner
35.24 determines that the groundwater use will not cause groundwater with a tritium concentration
35.25 greater than one tritium unit to be drawn into the vintage groundwater. For the purposes of
35.26 this section, "vintage groundwater" is groundwater with tritium concentrations less than or
35.27 equal to one tritium unit.

35.28 Sec. 54. Minnesota Statutes 2018, section 103G.287, subdivision 5, is amended to read:

35.29 Subd. 5. **Sustainability standard.** (a) The commissioner may issue water-use permits
35.30 for appropriation from groundwater only if the commissioner determines that the groundwater
35.31 use is sustainable to supply the needs of future generations and the proposed use will not

36.1 harm ecosystems, degrade water, or reduce water levels beyond the reach of public water
36.2 supply and private domestic wells constructed according to Minnesota Rules, chapter 4725.

36.3 (b) When determining whether a consumptive use of groundwater is sustainable, the
36.4 commissioner must make a determination that the level of recharge to the aquifer impacted
36.5 is sufficient to replenish the groundwater supply to meet the needs of future generations.

36.6 **Sec. 55. [115.7412] ADVISORY COUNCIL ON WATER SUPPLY SYSTEMS AND**
36.7 **WASTEWATER TREATMENT FACILITIES.**

36.8 Subdivision 1. **Purpose; membership.** The Advisory Council on Water Supply Systems
36.9 and Wastewater Treatment Facilities shall advise the commissioners of health and the
36.10 Pollution Control Agency regarding classification of water supply systems and wastewater
36.11 treatment facilities, qualifications and competency evaluation of water supply system
36.12 operators and wastewater treatment facility operators, and additional laws, rules, and
36.13 procedures that may be desirable for regulating the operation of water supply systems and
36.14 of wastewater treatment facilities. The advisory council is composed of 11 voting members,
36.15 of whom:

36.16 (1) one member must be from the Department of Health, Division of Environmental
36.17 Health, appointed by the commissioner of health;

36.18 (2) one member must be from the Pollution Control Agency appointed by the
36.19 commissioner of the Pollution Control Agency;

36.20 (3) three members must be certified water supply system operators, appointed by the
36.21 commissioner of health, one of whom must represent a nonmunicipal community or
36.22 nontransient noncommunity water supply system;

36.23 (4) three members must be certified wastewater treatment facility operators, appointed
36.24 by the commissioner of the Pollution Control Agency;

36.25 (5) one member must be a representative from an organization representing municipalities,
36.26 appointed by the commissioner of health with the concurrence of the commissioner of the
36.27 Pollution Control Agency; and

36.28 (6) two members must be members of the public who are not associated with water
36.29 supply systems or wastewater treatment facilities. One must be appointed by the
36.30 commissioner of health and the other by the commissioner of the Pollution Control Agency.
36.31 Consideration should be given to one of these members being a representative of academia
36.32 knowledgeable in water or wastewater matters.

37.1 Subd. 2. **Geographic representation.** At least one of the water supply system operators
37.2 and at least one of the wastewater treatment facility operators must be from outside the
37.3 seven-county metropolitan area and one wastewater operator must come from the
37.4 Metropolitan Council.

37.5 Subd. 3. **Terms; compensation.** The terms of the appointed members and the
37.6 compensation and removal of all members are governed by section 15.059.

37.7 Subd. 4. **Officers.** When new members are appointed to the council, a chair must be
37.8 elected at the next council meeting. The Department of Health representative shall serve as
37.9 secretary of the council.

37.10 Sec. 56. Minnesota Statutes 2018, section 115B.17, subdivision 13, is amended to read:

37.11 Subd. 13. **Priorities; rules.** By November 1, 1983, the Pollution Control Agency shall
37.12 establish a temporary list of priorities among releases or threatened releases for the purpose
37.13 of taking remedial action and, to the extent practicable consistent with the urgency of the
37.14 action, for taking removal action under this section. The temporary list, with any necessary
37.15 modifications, shall remain in effect until the Pollution Control Agency adopts rules
37.16 establishing state criteria for determining priorities among releases and threatened releases.
37.17 The Pollution Control Agency shall adopt the rules by July 1, 1984. After rules are adopted,
37.18 a permanent priority list shall be established, and may be modified from time to time, using
37.19 the current guidance and tools for the Hazard Ranking System adopted by the federal
37.20 Environmental Protection Agency and according to the criteria set forth in the rules. Before
37.21 any list is established under this subdivision the Pollution Control Agency shall publish the
37.22 list in the State Register and allow 30 days for comments on the list by the public.

37.23 The temporary list and the rules required by this subdivision shall be based upon the
37.24 relative risk or danger to public health or welfare or the environment, taking into account
37.25 to the extent possible the population at risk, the hazardous potential of the hazardous
37.26 substances at the facilities, the potential for contamination of drinking water supplies, the
37.27 potential for direct human contact, the potential for destruction of sensitive ecosystems, the
37.28 administrative and financial capabilities of the Pollution Control Agency, and other
37.29 appropriate factors.

37.30 Sec. 57. Minnesota Statutes 2018, section 115B.406, subdivision 1, is amended to read:

37.31 Subdivision 1. **Legislative findings.** The legislature recognizes the need to protect the
37.32 public health and welfare and the environment at priority qualified facilities. To implement

38.1 a timely and effective cleanup and prevent multiparty litigation, the legislature finds it is in
38.2 the public interest to direct the commissioner of the Pollution Control Agency to:

38.3 (1) take environmental response actions that the commissioner deems reasonable and
38.4 necessary to protect the public health or welfare or the environment at priority qualified
38.5 facilities and to;

38.6 (2) acquire real property interests at priority qualified facilities to ensure the completion
38.7 and long-term effectiveness of environmental response actions; and

38.8 (3) prevent both an unjust financial windfall to and double liability of owners and
38.9 operators of priority qualified facilities.

38.10 **EFFECTIVE DATE.** This section is effective the day following final enactment and
38.11 applies to actions commenced on or after January 1, 2020.

38.12 Sec. 58. Minnesota Statutes 2018, section 115B.406, subdivision 9, is amended to read:

38.13 **Subd. 9. Environmental response costs; liens.** (a) All environmental response costs
38.14 and reasonable and necessary expenses, including administrative and legal expenses, incurred
38.15 by the commissioner at a priority qualified facility constitute a lien in favor of the state upon
38.16 any real property located in the state, other than homestead property, owned by the owner
38.17 or operator of the priority qualified facility who is subject to the requirements of section
38.18 115B.40, subdivision 4 or 5. A lien under this paragraph may not be extinguished, limited,
38.19 or impaired by application of section 500.20 or 541.023. Notwithstanding section 514.672,
38.20 a lien under this paragraph continues until the lien is satisfied or is released according to
38.21 paragraph (c).

38.22 (b) If the commissioner conducts an environmental response action at a priority qualified
38.23 facility and the environmental response action increases the fair market value of the facility
38.24 above the fair market value of the facility that existed before the response action was initiated,
38.25 then the state has a lien on the facility for the increase in fair market value of the property
38.26 attributable to the response action, valued at the time that construction of the final
38.27 environmental response action was completed, not including operation and maintenance.
38.28 A lien under this paragraph may not be extinguished, limited, or impaired by application
38.29 of section 500.20 or 541.023. Notwithstanding section 514.672, a lien under this paragraph
38.30 continues until the lien is satisfied or is released according to paragraph (c).

38.31 (c) A lien under this subdivision paragraph (a) or (b) attaches when the environmental
38.32 response costs are first incurred. Notwithstanding section 514.672, a lien under this
38.33 subdivision continues until the lien is satisfied or six years after completion of construction

39.1 ~~of the final environmental response action, not including operation and maintenance.~~ Notice,
39.2 filing, ~~and release, and enforcement~~ of the lien are governed by sections 514.671 to 514.676,
39.3 except where those requirements specifically are related to only cleanup action expenses
39.4 as defined in section 514.671. The commissioner may release a lien under this subdivision
39.5 if the commissioner determines that attachment or enforcement of the lien is not in the
39.6 public interest. A lien under this subdivision is not subject to the foreclosure limitation
39.7 described in section 514.674, subdivision 2. Relative priority of a lien under this subdivision
39.8 is governed by section 514.672, except that a lien attached to property that was included in
39.9 any permit for the priority qualified facility takes precedence over all other liens regardless
39.10 of when the other liens were or are perfected. Amounts received to satisfy all or a part of a
39.11 lien must be deposited in the remediation fund.

39.12 **EFFECTIVE DATE.** This section is effective the day following final enactment and
39.13 applies to actions commenced on or after January 1, 2020.

39.14 Sec. 59. Minnesota Statutes 2018, section 115B.407, is amended to read:

39.15 **115B.407 ACQUISITION AND DISPOSITION ACQUIRING AND DISPOSING**
39.16 **OF REAL PROPERTY AT PRIORITY QUALIFIED FACILITIES.**

39.17 Subdivision 1. Acquiring and disposing of real property. (a) The commissioner may
39.18 acquire interests in real property by donation or eminent domain at all or a portion of a
39.19 priority qualified facility. Condemnation under this section includes acquisition of fee title
39.20 or an easement. After acquiring an interest in real property under this section, the
39.21 commissioner must take environmental response actions at the priority qualified facility
39.22 according to sections 115B.39 to 115B.414 after the legislature makes an appropriation for
39.23 that purpose.

39.24 (b) The commissioner may dispose of real property acquired under this section according
39.25 to section 115B.17, subdivision 16.

39.26 (c) Except as modified by this section, chapter 117 governs condemnation proceedings
39.27 by the commissioner under this section. The exceptions under section 117.189 apply to the
39.28 use of eminent domain authority under this section. Section 117.226 does not apply to
39.29 properties acquired by the use of eminent domain authority under this section.

39.30 (d) The state is not liable under this chapter solely as a result of acquiring an interest in
39.31 real property under this section.

39.32 Subd. 2. Eminent domain damages. (a) For purposes of this subdivision, the following
39.33 terms have the meanings given:

40.1 (1) "after-market value" means the property value of that portion of the subject property
40.2 remaining after a partial taking;

40.3 (2) "as remediated" means the condition of the property assuming the environmental
40.4 response actions selected by the commissioner have been completed, including environmental
40.5 covenants and easements and other institutional controls that may apply;

40.6 (3) "before-market value" means the property value of the entire subject property before
40.7 the taking, less the remediation costs;

40.8 (4) "property value" means the fair market value of the real property, as remediated, less
40.9 any reduction in value attributable to the stigma of pollution; and

40.10 (5) "remediation costs" means the reasonably foreseeable costs and expenses, including
40.11 administrative and legal expenses, that the commissioner will incur to implement the
40.12 environmental response actions that the commissioner selected for the property according
40.13 to section 115B.406, subdivision 3, less the amount, if any, that the property owner
40.14 demonstrates was released under section 115B.443, subdivision 8, which must not be greater
40.15 than the extent of insurance coverage under policies for the property included in a settlement
40.16 consistent with section 115B.443, subdivision 8.

40.17 (b) The damages awarded for condemnation of real property under this section is the
40.18 greater of \$500 or:

40.19 (1) for a total taking of the subject property, the before-market value; or

40.20 (2) for a partial taking of the subject property, the before-market value less the
40.21 after-market value.

40.22 (c) When awarding damages in a condemnation proceeding under this section, in addition
40.23 to any other requirement of chapter 117, the finder of fact must report:

40.24 (1) the amount determined for the property value of the entire subject property before
40.25 the taking; and

40.26 (2) the itemized amount determined for remediation costs.

40.27 (d) The commissioner may seek recovery of environmental response costs only to the
40.28 extent the costs exceed the lower of the remediation costs or the property value of the entire
40.29 subject property before the taking as reported under paragraph (c).

40.30 (e) If the actual expenses incurred by the commissioner to take environmental response
40.31 actions at the priority qualified facility as determined at the time construction of the final
40.32 environmental response action was completed would have yielded a higher award of damages

41.1 under this section, then the commissioner must reimburse the owner an amount equal to the
41.2 amount of damages as if the actual expenses were used instead of the remediation costs,
41.3 less any damages already awarded.

41.4 **EFFECTIVE DATE.** This section is effective the day following final enactment and
41.5 applies to actions commenced on or after January 1, 2020.

41.6 Sec. 60. Minnesota Statutes 2018, section 116.07, is amended by adding a subdivision to
41.7 read:

41.8 Subd. 41. **Real property interests.** (a) To prevent, mitigate, or minimize the threat to
41.9 public health and the environment posed by closed disposal facilities, the commissioner
41.10 may acquire interests in real property at a solid waste disposal facility, including easements
41.11 and environmental covenants under chapter 114E, when the commissioner determines that
41.12 the property interests are needed to implement activity and use limitations related to:

41.13 (1) closure;

41.14 (2) postclosure care; and

41.15 (3) any other actions needed after the postclosure care period expires.

41.16 (b) The state is not liable under this chapter or any other law solely as a result of acquiring
41.17 an interest in real property under this section.

41.18 Sec. 61. **[116.385] TRICHLOROETHYLENE; BAN.**

41.19 Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms have
41.20 the meanings given.

41.21 (b) "Small business" means a business that has less than 500 full-time equivalent
41.22 employees.

41.23 (c) "Trichloroethylene" means a chemical with the Chemical Abstract Services Registry
41.24 Number of 79-01-6.

41.25 Subd. 2. **Use restriction.** (a) Beginning June 1, 2022, an owner or operator of a facility
41.26 required to have an air emissions permit issued by the Pollution Control Agency may not
41.27 use trichloroethylene at its permitted facility, including in any manufacturing, processing,
41.28 or cleaning processes, except as otherwise provided in this section. Cessation of use must
41.29 be made enforceable in the air emissions permit for the facility or in an enforceable agreement
41.30 by June 1, 2022. The commissioner of the Pollution Control Agency must not issue an air

42.1 emissions permit that authorizes using trichloroethylene at a permitted facility after January
42.2 1, 2022, except as described in paragraph (b) and subdivision 4.

42.3 (b) If a small business needs additional time to assess replacement chemicals or
42.4 modifications to facility operations, then by June 1, 2022, the commissioner shall include
42.5 a schedule of compliance in the facility's permit or enter into an enforceable agreement that
42.6 requires compliance with this section before June 1, 2023. A small business owner or
42.7 operator requesting additional time under this paragraph must demonstrate compliance with
42.8 the health-based value and health risk limits for trichloroethylene, as established by the
42.9 Department of Health as of January 1, 2019. Owners or operators may be required to comply
42.10 with additional restrictions based on impacts from nearby sources or background
42.11 concentrations. Owners or operators may be required to provide additional information as
42.12 requested by the commissioner to evaluate site-specific conditions or impacts.

42.13 Subd. 3. **Replacement chemicals.** An owner or operator that must comply with this
42.14 section and elects to replace trichloroethylene with another chemical must replace
42.15 trichloroethylene with a chemical demonstrated to be less toxic to human health and reviewed
42.16 in a form determined and approved by the commissioner of the Pollution Control Agency.

42.17 Subd. 4. **Exceptions.** (a) The commissioner of the Pollution Control Agency shall grant
42.18 exceptions to the prohibition in subdivision 2, for any of the following uses where compliance
42.19 with the health-based value and health risk limits for trichloroethylene established by the
42.20 Department of Health as of January 1, 2019, is demonstrated:

42.21 (1) use of trichloroethylene in closed systems so that no trichloroethylene is emitted
42.22 from the facility;

42.23 (2) holding trichloroethylene or products containing trichloroethylene for distribution
42.24 to a third party; and

42.25 (3) a hospital licensed under sections 144.50 to 144.56, or an academic medical facility.

42.26 (b) The commissioner of the Pollution Control Agency may grant exceptions to the
42.27 prohibition in subdivision 2 through the variance process established in Minnesota Rules,
42.28 part 7000.7000, for any of the following uses where compliance with the health-based value
42.29 and health risk limits for trichloroethylene established by the Department of Health as of
42.30 January 1, 2019, is demonstrated:

42.31 (1) a facility that uses trichloroethylene exclusively for research and development, or
42.32 other laboratory or experimental purposes; and

42.33 (2) a facility that processes trichloroethylene for waste disposal.

43.1 (c) Owners or operators of facilities seeking an exception under this section must submit
43.2 information to the commissioner that specifies the exception that applies and provide all
43.3 information needed to determine applicability.

43.4 Subd. 5. **Application of exceptions.** Nothing in subdivision 4 shall be construed to
43.5 authorize a use of an amount of trichloroethylene that exceeds the levels authorized in a
43.6 stipulation agreement entered into between the Pollution Control Agency and a permittee
43.7 that was in effect on June 1, 2022.

43.8 **EFFECTIVE DATE.** This section is effective the day following final enactment.

43.9 Sec. 62. Minnesota Statutes 2018, section 116G.07, is amended by adding a subdivision
43.10 to read:

43.11 Subd. 4. **Exemption; Mississippi River Corridor Critical Area.** Plans and regulations
43.12 of local units of government within the Mississippi River Corridor Critical Area are exempt
43.13 from subdivisions 1 to 3 and are subject to section 116G.15, subdivision 8.

43.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.

43.15 Sec. 63. Minnesota Statutes 2018, section 116G.15, is amended by adding a subdivision
43.16 to read:

43.17 Subd. 8. **Reviewing and approving local plans and regulations.** (a) In the Mississippi
43.18 River Corridor Critical Area, the commissioner of natural resources is responsible for
43.19 carrying out the duties of the board and the Metropolitan Council is responsible for carrying
43.20 out the duties of the regional development commission under sections 116G.07 to 116G.10.
43.21 Notwithstanding sections 116G.07, subdivisions 2 and 3, and 116G.10, subdivision 3, the
43.22 responsibilities and procedures for reviewing and approving local plans and regulations in
43.23 the Mississippi River Corridor Critical Area, and amendments thereto, are subject to this
43.24 subdivision.

43.25 (b) Within 60 days of receiving a draft plan from a local unit of government, the
43.26 commissioner, in coordination with the Metropolitan Council, must review the plan to
43.27 determine the plan's consistency with:

43.28 (1) this section;

43.29 (2) Minnesota Rules, chapter 6106; and

43.30 (3) the local unit of government's comprehensive plan.

44.1 (c) Within 60 days of receiving draft regulations from a local unit of government, the
44.2 commissioner must review the regulations to determine the regulations' consistency with:

44.3 (1) Minnesota Rules, chapter 6106; and

44.4 (2) the commissioner-approved plan adopted by the local unit of government under
44.5 paragraph (b).

44.6 (d) Upon review of a draft plan and regulations under paragraphs (b) and (c), the
44.7 commissioner must:

44.8 (1) conditionally approve the draft plan and regulations by written decision; or

44.9 (2) return the draft plan and regulations to the local unit of government for modification,
44.10 along with a written explanation of the need for modification.

44.11 (i) When the commissioner returns a draft plan and regulations to the local unit of
44.12 government for modification, the local unit of government must revise the draft plan and
44.13 regulations within 60 days after receiving the commissioner's written explanation and must
44.14 resubmit the revised draft plan and regulations to the commissioner.

44.15 (ii) The Metropolitan Council and the commissioner must review the revised draft plan
44.16 and regulations upon receipt from the local unit of government as provided under paragraphs
44.17 (b) and (c).

44.18 (iii) If the local unit of government or the Metropolitan Council requests a meeting, a
44.19 final revision need not be made until a meeting is held with the commissioner on the draft
44.20 plan and regulations. The request extends the 60-day time limit specified in item (i) until
44.21 after the meeting is held.

44.22 (e) Only plans and regulations receiving final approval from the commissioner have the
44.23 force and effect of law. The commissioner must grant final approval under this section only
44.24 if:

44.25 (1) the plan is an element of a comprehensive plan that is authorized by the Metropolitan
44.26 Council according to sections 473.175 and 473.858; and

44.27 (2) the local unit of government adopts a plan and regulations that are consistent with
44.28 the draft plan and regulations conditionally approved under paragraph (d).

44.29 (f) The local unit of government must implement and enforce the commissioner-approved
44.30 plan and regulations after the plan and regulations take effect.

44.31 **EFFECTIVE DATE.** This section is effective the day following final enactment.

45.1 Sec. 64. **[325E.048] NONWOVEN PERSONAL CARE DISPOSABLE PRODUCTS.**

45.2 **Subdivision 1. Definitions.** For purposes of this section, the following terms have the
45.3 meanings given:

45.4 (1) "advertised" means represented by statement, word, design, device, sound, or any
45.5 combination thereof in print, electronic, or broadcast media;

45.6 (2) "competent and reliable evidence" means tests, analyses, research, studies, or other
45.7 evidence that is based on the expertise of professionals in the relevant area and has been
45.8 conducted and evaluated in an objective manner by qualified persons using procedures that
45.9 are generally accepted in the profession to yield accurate and reliable results and that
45.10 substantially replicate the physical conditions of the environment in which the nonwoven
45.11 disposable product will likely be disposed;

45.12 (3) "flushable, septic safe, or sewer safe" means a nonwoven disposable product that
45.13 meets the tests for flushability established by the Federal Trade Commission in Docket No.
45.14 C-4556 for nonmisleading representations regarding the flushability of nonwoven disposable
45.15 products or that complies with the most recent INDA (Association of the Nonwoven Fabrics
45.16 Industry) code of practice for product labeling that has been approved by the commissioner
45.17 of the Pollution Control Agency;

45.18 (4) "label" means representations made by statement, word, picture, design, or emblem

45.21 products that:

45.22 (i) the manufacturer has designed or marketed for or that are commonly used in a
45.23 bathroom setting or for toileting purposes; and

45.24 (ii) during normal use could become contaminated with feces, menses, urine, and germs
45.25 typically associated with these wastes; and

45.26 (6) "tests for flushability" means competent and reliable scientific evidence that is of
45.27 sufficient quantity and quality to substantiate that nonwoven disposable product disperses
45.28 in a sufficiently short amount of time after flushing to avoid clogging or other operational
45.29 problems in household and municipal sewage lines, septic systems, and other standard
45.30 wastewater equipment.

45.31 **Subd. 2. Prohibition.** No nonwoven disposable product for sale in the state may be
45.32 advertised, packaged, or labeled as flushable, septic safe, or sewer safe unless it meets the

81.19 the expenditure. Restorations must be
81.20 evaluated relative to the stated goals and
81.21 standards in the restoration plan, current
81.22 science, and, when applicable, the Board of
81.23 Water and Soil Resources' native vegetation
81.24 establishment and enhancement guidelines.
81.25 The evaluation must determine whether the
81.26 restorations are meeting planned goals,
81.27 identify any problems with implementing the
81.28 restorations, and, if necessary, give
81.29 recommendations on improving restorations.
81.30 The evaluation must be focused on improving
81.31 future restorations.

82.19 and enforcing the easement agreement; and
- 82.20 (6) include requirements in the easement
82.21 document to protect the quantity and quality
82.22 of groundwater and surface water through
82.23 specific activities such as keeping water on
82.24 the landscape, reducing nutrient and
82.25 contaminant loading, and not permitting
82.26 artificial hydrological modifications.
- 82.27 (h) For any acquisition of lands or interest in
82.28 lands, a recipient of money appropriated under
82.29 this section must not agree to pay more than
82.30 100 percent of the appraised value for a parcel

83.1 be allowed to complete the purchase, in part
83.2 or in whole, using this money if permission is

83.16 implementation unless the work plan addresses
83.17 why a portion of the money is not necessary
83.18 to achieve a high-quality restoration.

83.19 (k) To ensure public accountability for using
83.20 public funds, a recipient of money
83.21 appropriated under this section must, within
83.22 60 days of the transaction, provide to the
83.23 Legislative-Citizen Commission on Minnesota

85.2 partial achievements as evidenced by approved
85.3 progress reports. Reasonable amounts may be
85.4 advanced to projects to accommodate
85.5 cash-flow needs or match federal money. The
85.6 advances must be approved as part of the work
85.7 plan. No expenditures for capital equipment
