A Closer Look at the Change in District 4

Population Percent Change
2010 to 2020

Population Change in Congressional District 4

	2010	2020	Percent Difference
White	470,429	453,458	-3.6
Black or African American	61,102	79,953	30.9
Native American	3,808	3,590	-5.7
Asian	68,018	99,672	46.5
Native Hawaiian and Other Pacific Islander	233	256	9.9
Some Other Race	879	2,960	236.7
Multiple Races	16,850	33,186	96.9
Hispanic or Latino	41,671	53,401	28.1
Total	662,990	726,476	9.6

Changes in Data Collection

- Changes to the race and ethnicity questions on the 2020 Census allowed for more opportunity to write in racial and ethnic groups.
- This has painted a better picture of how individuals view themselves, which in turn has shown that we are a more multiracial society than previous data has been able to show.
- While not solely responsible for the changes, it has corresponded with an increase in the “Some other race” and Multiple race categories.

Other Data Considerations

- The 2020 Census was conducted during a world-wide pandemic, which required the Census Bureau to make several adjustments to the operational plan.
- There was unprecedented uncertainty regarding aspects of the Census—even before the pandemic—that caused concern regarding individuals' willingness to respond to the Census.
- This is the first census to implement Differential Privacy (DP) as the Disclosure Avoidance System (DAS) to protect respondents' confidentiality.

Thank you again!
