9.36 vehicles; and promote cooperation with local,

10.1 state, tribal, and federal governments;

10.3 (3) \$200,000 is to share the cost by

10.6 under their jurisdiction when the needs are a
10.7 result of increased use by off-road vehicles
10.8 and are attributable to a border-to-border
10.9 touring route established by the commissioner.

10.10 This paragraph applies to roads that are
10.11 operated by a public road authority as defined
10.12 in Minnesota Statutes, section 160.02,

10.16 paragraph, the claimant must demonstrate that:
10.17 the needs result from additional traffic
10.18 generated by the border-to-border touring
10.19 route; and increased use attributable to a
10.20 border-to-border touring route has caused at
10.21 least a 50 percent increase in maintenance
10.22 costs for roads under the claimant's
10.23 jurisdiction, based on a ten-year maintenance
10.24 average. The commissioner may accept an
10.25 alternative to the ten-year maintenance average
10.26 if a jurisdiction does not have sufficient
10.27 maintenance records. The commissioner has
10.28 discretion to accept an alternative based on a
10.29 good-faith effort by the jurisdiction. Any
10.30 alternative should include baseline
10.31 maintenance costs for at least two years before
10.32 the year the route begins operating. The
10.33 ten-year maintenance average or any
10.34 alternative must be calculated from the years
10.35 immediately preceding the year the route
10.36 begins operating. Before reimbursing a claim

11.1 under this paragraph, the commissioner must
11.2 consider whether the claim is consistent with
11.3 claims made by other entities that administer
11.4 roads on the touring route, in terms of the
11.5 amount requested for reimbursement and the
11.6 frequency of claims made.

11.7 ~~(j)~~ (k) \$600,000 the first year is from the
11.8 all-terrain vehicle account in the natural

 17.23 the disease has been identified as being present. A copy of the transportation permit showing
 17.24 the date of certification inspection must accompany the shipment of fish while in transit
 17.25 and must be available for inspection by the commissioner. By 14 days after a completed
 17.26 application is received, the commissioner must approve or deny the importation permits as

 18.6 disease area to a containment facility if the fish are certified within the previous year to be
 18.7 free of certifiable diseases, except that eggs with enteric redmouth, whirling disease, or
 18.8 furunculosis may be imported following treatment approved by the commissioner, and fish
 18.9 with bacterial kidney disease or viral hemorrhagic septicemia may be imported into areas
 18.10 where the disease has been identified as being present; and

18.11 (3) trout, salmon, catfish, or species on the ~~official list of viral hemorrhagic septicemia~~
 18.12 ~~susceptible species published by the United States Department of Agriculture, Animal and~~
 18.13 ~~Plant Health Inspection Services,~~ VHS-susceptible-species list from a facility in a

 18.15 standard facility, except that eggs with enteric redmouth, whirling disease, or furunculosis
 18.16 may be imported following treatment approved by the commissioner, and fish with bacterial
 18.17 kidney disease or viral hemorrhagic septicemia may be imported into areas where the disease
 18.18 has been identified as being present.

18.19 (b) If a source facility in a nonemergency enzootic disease area cannot demonstrate a

 18.26 ~~Agriculture, Animal and Plant Health Inspection Services~~ VHS-susceptible-species list, the
 18.27 disease history must be of consecutive years that include the year previous to, or the year
 18.28 of, the transportation request.

18.29 Sec. 13. Minnesota Statutes 2018, section 17.4991, subdivision 3, is amended to read:

18.30 Subd. 3. **Fish health inspection.** (a) An aquatic farm propagating salmonids, catfish,
 18.31 or species on the ~~viral hemorrhagic septicemia (VHS) susceptible list published by the~~
 18.32 ~~United States Department of Agriculture, Animal and Plant Health Inspection Services,~~
 18.33 VHS-susceptible-species list and having an effluent discharge from the aquatic farm into

19.1 public waters must have a fish health inspection conducted at least once every 12 months
19.2 by a certified fish health inspector. Testing must be conducted according to laboratory
19.3 methods of the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal
19.4 Diseases, published by the International Office of Epizootics (OIE).

19.5 (b) An aquatic farm propagating any species on the VHS susceptible list and having an
19.6 effluent discharge from the aquatic farm into public waters must test for VHS virus using
19.7 the guidelines of the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal
19.8 Diseases. The commissioner may, by written order published in the State Register, prescribe
19.9 alternative testing time periods and methods from those prescribed in the Fish Health Blue
19.10 Book or the OIE Diagnostic Manual if the commissioner determines that biosecurity measures
19.11 will not be compromised. These alternatives are not subject to the rulemaking provisions
19.12 of chapter 14 and section 14.386 does not apply. The commissioner must provide reasonable
19.13 notice to affected parties of any changes in testing requirements.

19.14 (c) Results of fish health inspections must be provided to the commissioner for all fish
19.15 that remain in the state. All data used to prepare and issue a fish health certificate must be
19.16 maintained for three years by the issuing fish health inspector, approved laboratory, or
19.17 accredited veterinarian.

19.18 (d) A health inspection fee must be charged based on each lot of fish sampled. The fee
19.19 by check or money order payable to the Department of Natural Resources must be prepaid
19.20 or paid at the time a bill or notice is received from the commissioner that the inspection and
19.21 processing of samples is completed.

19.22 (e) Upon receipt of payment and completion of inspection, the commissioner shall notify
19.23 the operator and issue a fish health certificate. The certification must be made according to
19.24 the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal Diseases by a
19.25 person certified as a fish health inspector.

19.26 (f) All aquatic life in transit or held at transfer stations within the state may be inspected
19.27 by the commissioner. This inspection may include the collection of stock for purposes of
19.28 pathological analysis. Sample size necessary for analysis will follow guidelines listed in
19.29 the Fish Health Blue Book or the Diagnostic Manual for Aquatic Animal Diseases.

19.30 (g) Salmonids, catfish, or species on the VHS susceptible list must have a fish health
19.31 inspection before being transported from a containment facility, unless the fish are being
19.32 transported directly to an outlet for processing or other food purposes or unless the
19.33 commissioner determines that an inspection is not needed. A fish health inspection conducted
19.34 for this purpose need only be done on the lot or lots of fish that will be transported. The

20.1 commissioner must conduct a fish health inspection requested for this purpose within five
 20.2 working days of receiving written notice. Salmonids and catfish may be immediately
 20.3 transported from a containment facility to another containment facility once a sample has
 20.4 been obtained for a health inspection or once the five-day notice period has expired.

20.5 Sec. 14. Minnesota Statutes 2018, section 17.4992, subdivision 2, is amended to read:

20.6 Subd. 2. **Restriction on the sale of fish.** (a) Except as provided in paragraph (b), species
 20.7 on the ~~official list of viral hemorrhagic septicemia susceptible species published by the~~
 20.8 ~~United States Department of Agriculture, Animal and Plant Health Inspection Services,~~
 20.9 VHS-susceptible-species list must be free of viral hemorrhagic septicemia and species of
 20.10 the family salmonidae or ictaluridae, except bullheads, must be free of certifiable diseases
 20.11 if sold for stocking or transfer to another aquatic farm.

20.12 (b) The following exceptions apply to paragraph (a):

20.13 (1) eggs with enteric redmouth, whirling disease, or furunculosis may be transferred
 20.14 between licensed facilities or stocked following treatment approved by the commissioner;

20.15 (2) fish with bacterial kidney disease or viral hemorrhagic septicemia may be transferred
 20.16 between licensed facilities or stocked in areas where the disease has been identified as being
 20.17 present; and

20.18 (3) the commissioner may allow transfer between licensed facilities or stocking of fish
 20.19 with enteric redmouth or furunculosis when the commissioner determines that doing so
 20.20 would pose no threat to the state's aquatic resources.

20.21 Sec. 15. Minnesota Statutes 2018, section 35.155, subdivision 1, is amended to read:

20.22 Subdivision 1. **Running at large prohibited.** (a) An owner may not allow farmed
 20.23 Cervidae to run at large. The owner must make all reasonable efforts to return escaped
 20.24 farmed Cervidae to their enclosures as soon as possible. The owner must immediately notify
 20.25 the commissioner of natural resources of the escape of farmed Cervidae ~~if the farmed~~
 20.26 ~~Cervidae are not returned or captured by the owner within 24 hours of their escape.~~

20.27 (b) An owner is liable for expenses of another person in capturing, caring for, and
 20.28 returning farmed Cervidae that have left their enclosures if the person capturing the farmed
 20.29 Cervidae contacts the owner as soon as possible.

20.30 (c) ~~If an owner is unwilling or unable to capture escaped farmed Cervidae, The~~
 20.31 commissioner of natural resources may destroy the escaped farmed Cervidae. ~~The~~
 20.32 ~~commissioner of natural resources must allow the owner to attempt to capture the escaped~~

21.1 ~~farmed Cervidae prior to destroying the farmed Cervidae. Farmed Cervidae that are not~~
 21.2 ~~captured by 24 hours after escape may be destroyed.~~

21.3 (d) A hunter licensed by the commissioner of natural resources under chapter 97A may
 21.4 kill and possess escaped farmed Cervidae in a lawful manner and is not liable to the owner
 21.5 for the loss of the animal.

21.6 (e) Escaped farmed Cervidae killed by a hunter or destroyed by the commissioner of
 21.7 natural resources must be tested for chronic wasting disease at the owner's expense.

21.8 **EFFECTIVE DATE.** This section is effective September 1, 2021.

21.9 Sec. 16. Minnesota Statutes 2019 Supplement, section 35.155, subdivision 6, is amended
 21.10 to read:

21.11 Subd. 6. **Identification.** (a) Farmed Cervidae must be identified by means approved by
 21.12 the Board of Animal Health. The identification must include a distinct number that has not
 21.13 been used during the previous three years and either incorporate global positioning system
 21.14 technology or include a phone number, address, or other contact information that enables
 21.15 the reader to readily identify the owner of escaped farmed Cervidae. Identification must be
 21.16 visible to the naked eye during daylight under normal conditions at a distance of 50 yards.
 21.17 White-tailed deer must be identified before October 31 of the year in which the animal is
 21.18 born, at the time of weaning, or before movement from the premises, whichever occurs
 21.19 first. Elk and other cervids must be identified by December 31 of the year in which the
 21.20 animal is born or before movement from the premises, whichever occurs first. As coordinated
 21.21 by the board, the commissioner of natural resources may destroy any animal that is not
 21.22 identified as required under this subdivision.

21.23 (b) The Board of Animal Health shall register farmed Cervidae. The owner must submit
 21.24 the registration request on forms provided by the board. The forms must include sales
 21.25 receipts or other documentation of the origin of the Cervidae. The board must provide copies
 21.26 of the registration information to the commissioner of natural resources upon request. The
 21.27 owner must keep written records of the acquisition and disposition of registered farmed
 21.28 Cervidae.

21.29 **EFFECTIVE DATE.** This section is effective September 1, 2021.

22.1 Sec. 17. Minnesota Statutes 2019 Supplement, section 84.027, subdivision 18, is amended
22.2 to read:

22.3 Subd. 18. **Permanent school fund authority; reporting.** (a) The commissioner of
22.4 natural resources has the authority and responsibility to administer school trust lands under
22.5 sections 92.122 and 127A.31. The commissioner shall ~~biannually~~ biennially report to the
22.6 Legislative Permanent School Fund Commission and the legislature on the management of
22.7 the school trust lands that shows how the commissioner has and will continue to achieve
22.8 the following goals:

22.9 (1) manage the school trust lands efficiently and in a manner that reflects the undivided
22.10 loyalty to the beneficiaries consistent with the commissioner's fiduciary duties;

22.11 (2) reduce the management expenditures of school trust lands and maximize the revenues
22.12 deposited in the permanent school trust fund;

22.13 (3) manage the sale, exchange, and commercial leasing of school trust lands, requiring
22.14 returns of not less than fair market value, to maximize the revenues deposited in the
22.15 permanent school trust fund and retain the value from the long-term appreciation of the
22.16 school trust lands;

22.17 (4) manage the school trust lands to maximize the long-term economic return for the
22.18 permanent school trust fund while maintaining sound natural resource conservation and
22.19 management principles;

22.20 (5) optimize school trust land revenues and maximize the value of the trust consistent
22.21 with balancing short-term and long-term interests, so that long-term benefits are not lost in
22.22 an effort to maximize short-term gains; and

22.23 (6) maintain the integrity of the trust and prevent the misapplication of its lands and its
22.24 revenues.

22.25 (b) When the commissioner finds an irresolvable conflict between maximizing the
22.26 long-term economic return and protecting natural resources and recreational values on
22.27 school trust lands, the commissioner shall give precedence to the long-term economic return
22.28 in managing school trust lands. By July 1, 2018, the permanent school fund must be
22.29 compensated for all school trust lands included under a designation or policy provision that
22.30 prohibits long-term economic return. The commissioner shall submit recommendations to
22.31 the appropriate legislative committees and divisions on methods of funding for the
22.32 compensation required under this paragraph, including recommendations for appropriations
22.33 from the general fund, nongeneral funds, and the state bond fund. Any uncompensated

23.1 designation or policy provision restrictions on the long-term economic return on school
 23.2 trust lands remaining after July 1, 2018, must be compiled and submitted to the Legislative
 23.3 Permanent School Fund Commission for review.

23.4 (c) By December 31, 2013, the report required under paragraph (a) must provide an
 23.5 inventory and identification of all school trust lands that are included under a designation
 23.6 or policy provision that prohibits long-term economic return. The report must include a plan
 23.7 to compensate the permanent school fund through the purchase or exchange of the lands or
 23.8 a plan to manage the school trust land to generate long-term economic return to the permanent
 23.9 school fund. Subsequent reports under paragraph (a) must include a status report of the
 23.10 commissioner's progress in maximizing the long-term economic return on lands identified
 23.11 in the 2013 report.

23.12 (d) When management practices, policies, or designations by the commissioner diminish
 23.13 or prohibit the long-term economic return on school trust land, the conflict must be resolved
 23.14 as provided in section 92.122.

23.15 Sec. 18. **[84.625] CONVEYANCE OF CONSERVATION EASEMENTS.**

23.16 Notwithstanding any law to the contrary, the commissioner of natural resources may,
 23.17 on state-owned lands administered by the commissioner and on behalf of the state, convey
 23.18 conservation easements as defined in section 84C.01, upon such terms and conditions,
 23.19 including reversion in the event of nonuse, as the commissioner may determine. Any terms

35.18 The commissioner shall authorize expanded assessment taking and sale of lake trout in Lake
35.19 Superior management zone MN-3 beginning annually in 2007 and zone MN-2 beginning
35.20 annually in 2010. Total assessment taking and sale may not exceed 3,000 lake trout in zone
35.21 MN-3 and 2,000 lake trout in zone MN-2 and may be reduced when necessary to protect
35.22 the lake trout population or to manage the effects of invasive species or fish disease. Taking
35.23 lake trout for expanded assessment and sale shall be allowed from June 1 to September 30,
35.24 but may end earlier in the respective zones if the quotas are reached. The quotas must be
35.25 reassessed at the expiration of the current ten-year Fisheries Management Plan for the
35.26 Minnesota Waters of Lake Superior ~~dated September 2006~~.

35.27 Sec. 51. Minnesota Statutes 2018, section 103C.315, subdivision 4, is amended to read:

35.28 Subd. 4. **Compensation.** A supervisor shall receive compensation for services up to ~~\$75~~
35.29 \$125 per day, and may be reimbursed for expenses, including traveling expenses, necessarily

36.5 Subd. 2a. **Public meeting.** Before issuing a water-use permit or a plan for the consumptive
36.6 use of more than one-quarter of a million gallons per day average in a 30-day period, the
36.7 commissioner must hold a public meeting in the county affected most by the potential impact
36.8 to the public groundwater resource. At least 21 days before the public meeting, the
36.9 commissioner must publish notice of the meeting in a newspaper of general circulation in
36.10 the county and must mail the notice to persons who have registered their names with the
36.11 commissioner for this purpose.

36.12 Sec. 53. Minnesota Statutes 2018, section 103G.271, is amended by adding a subdivision
36.13 to read:

36.14 Subd. 4b. **Vintage groundwater.** The commissioner may not issue a new or modified
36.15 water-use permit that will appropriate vintage groundwater unless the commissioner
36.16 determines that the groundwater use will not cause groundwater with a tritium concentration
36.17 greater than one tritium unit to be drawn into the vintage groundwater. For the purposes of
36.18 this section, "vintage groundwater" is groundwater with tritium concentrations less than or
36.19 equal to one tritium unit.

36.20 Sec. 54. Minnesota Statutes 2018, section 103G.287, subdivision 5, is amended to read:

36.21 Subd. 5. **Sustainability standard.** (a) The commissioner may issue water-use permits

36.24 harm ecosystems, degrade water, or reduce water levels beyond the reach of public water
36.25 supply and private domestic wells constructed according to Minnesota Rules, chapter 4725.

36.26 (b) When determining whether a consumptive use of groundwater is sustainable, the
36.27 commissioner must make a determination that the level of recharge to the aquifer impacted
36.28 is sufficient to replenish the groundwater supply to meet the needs of future generations.

37.1 Sec. 55. [115.7412] ADVISORY COUNCIL ON WATER SUPPLY SYSTEMS AND
37.2 WASTEWATER TREATMENT FACILITIES.

37.3 Subdivision 1. Purpose; membership. The Advisory Council on Water Supply Systems
37.4 and Wastewater Treatment Facilities shall advise the commissioners of health and the
37.5 Pollution Control Agency regarding classification of water supply systems and wastewater
37.6 treatment facilities, qualifications and competency evaluation of water supply system
37.7 operators and wastewater treatment facility operators, and additional laws, rules, and
37.8 procedures that may be desirable for regulating the operation of water supply systems and
37.9 of wastewater treatment facilities. The advisory council is composed of 11 voting members,
37.10 of whom:

37.11 (1) one member must be from the Department of Health, Division of Environmental
37.12 Health, appointed by the commissioner of health;

37.13 (2) one member must be from the Pollution Control Agency appointed by the
37.14 commissioner of the Pollution Control Agency;

37.15 (3) three members must be certified water supply system operators, appointed by the
37.16 commissioner of health, one of whom must represent a nonmunicipal community or
37.17 nontransient noncommunity water supply system;

37.18 (4) three members must be certified wastewater treatment facility operators, appointed
37.19 by the commissioner of the Pollution Control Agency;

37.20 (5) one member must be a representative from an organization representing municipalities,
37.21 appointed by the commissioner of health with the concurrence of the commissioner of the
37.22 Pollution Control Agency; and

37.23 (6) two members must be members of the public who are not associated with water
37.24 supply systems or wastewater treatment facilities. One must be appointed by the
37.25 commissioner of health and the other by the commissioner of the Pollution Control Agency.
37.26 Consideration should be given to one of these members being a representative of academia
37.27 knowledgeable in water or wastewater matters.

37.28 Subd. 2. Geographic representation. At least one of the water supply system operators
37.29 and at least one of the wastewater treatment facility operators must be from outside the
37.30 seven-county metropolitan area and one wastewater operator must come from the
37.31 Metropolitan Council.

37.32 Subd. 3. Terms; compensation. The terms of the appointed members and the
37.33 compensation and removal of all members are governed by section 15.059.

38.1 Subd. 4. **Officers.** When new members are appointed to the council, a chair must be
 38.2 elected at the next council meeting. The Department of Health representative shall serve as
 38.3 secretary of the council.

38.4 Sec. 56. Minnesota Statutes 2018, section 115B.17, subdivision 13, is amended to read:

38.5 Subd. 13. **Priorities; rules.** By November 1, 1983, the Pollution Control Agency shall
 38.6 establish a temporary list of priorities among releases or threatened releases for the purpose
 38.7 of taking remedial action and, to the extent practicable consistent with the urgency of the
 38.8 action, for taking removal action under this section. The temporary list, with any necessary
 38.9 modifications, shall remain in effect until the Pollution Control Agency adopts rules
 38.10 establishing state criteria for determining priorities among releases and threatened releases.
 38.11 The Pollution Control Agency shall adopt the rules by July 1, 1984. After rules are adopted,
 38.12 a permanent priority list shall be established, and may be modified from time to time, using
 38.13 the current guidance and tools for the Hazard Ranking System adopted by the federal
 38.14 Environmental Protection Agency and according to the criteria set forth in the rules. Before
 38.15 any list is established under this subdivision the Pollution Control Agency shall publish the
 38.16 list in the State Register and allow 30 days for comments on the list by the public.

38.17 The temporary list and the rules required by this subdivision shall be based upon the
 38.18 relative risk or danger to public health or welfare or the environment, taking into account
 38.19 to the extent possible the population at risk, the hazardous potential of the hazardous
 38.20 substances at the facilities, the potential for contamination of drinking water supplies, the
 38.21 potential for direct human contact, the potential for destruction of sensitive ecosystems, the
 38.22 administrative and financial capabilities of the Pollution Control Agency, and other
 38.23 appropriate factors.

38.24 Sec. 57. Minnesota Statutes 2018, section 115B.406, subdivision 1, is amended to read:

38.25 Subdivision 1. **Legislative findings.** The legislature recognizes the need to protect the
 38.26 public health and welfare and the environment at priority qualified facilities. To implement
 38.27 a timely and effective cleanup and prevent multiparty litigation, the legislature finds it is in
 38.28 the public interest to direct the commissioner of the Pollution Control Agency to:

38.29 (1) take environmental response actions that the commissioner deems reasonable and
 38.30 necessary to protect the public health or welfare or the environment at priority qualified
 38.31 facilities ~~and to;~~

38.32 (2) acquire real property interests at priority qualified facilities to ensure the completion
 38.33 and long-term effectiveness of environmental response actions; and

39.1 (3) prevent both an unjust financial windfall to and double liability of owners and
 39.2 operators of priority qualified facilities.

39.3 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 39.4 applies to actions commenced on or after January 1, 2020.

39.5 Sec. 58. Minnesota Statutes 2018, section 115B.406, subdivision 9, is amended to read:

39.6 Subd. 9. **Environmental response costs; liens.** (a) All environmental response costs
 39.7 and reasonable and necessary expenses, including administrative and legal expenses, incurred
 39.8 by the commissioner at a priority qualified facility constitute a lien in favor of the state upon
 39.9 any real property located in the state, other than homestead property, owned by the owner
 39.10 or operator of the priority qualified facility who is subject to the requirements of section
 39.11 115B.40, subdivision 4 or 5. Notwithstanding section 514.672, a lien under this paragraph
 39.12 continues until the lien is satisfied or is released according to paragraph (c).

39.13 (b) If the commissioner conducts an environmental response action at a priority qualified
 39.14 facility and the environmental response action increases the fair market value of the facility
 39.15 above the fair market value of the facility that existed before the response action was initiated,
 39.16 then the state has a lien on the facility for the increase in fair market value of the property
 39.17 attributable to the response action, valued at the time that construction of the final
 39.18 environmental response action was completed, not including operation and maintenance.
 39.19 Notwithstanding section 514.672, a lien under this paragraph continues until the lien is
 39.20 satisfied or is released according to paragraph (c).

39.21 (c) A lien under this subdivision paragraph (a) or (b) attaches when the environmental
 39.22 response costs are first incurred. Notwithstanding section 514.672, a lien under this
 39.23 subdivision continues until the lien is satisfied or six years after completion of construction
 39.24 of the final environmental response action, not including operation and maintenance. Notice,
 39.25 filing, and release, and enforcement of the lien are governed by sections 514.671 to 514.676,
 39.26 except where those requirements specifically are related to only cleanup action expenses
 39.27 as defined in section 514.671. The commissioner may release a lien under this subdivision
 39.28 if the commissioner determines that attachment or enforcement of the lien is not in the
 39.29 public interest. A lien under this subdivision is not subject to the foreclosure limitation
 39.30 described in section 514.674, subdivision 2. Relative priority of a lien under this subdivision
 39.31 is governed by section 514.672, except that a lien attached to property that was included in
 39.32 any permit for the priority qualified facility takes precedence over all other liens regardless
 39.33 of when the other liens were or are perfected. Amounts received to satisfy all or a part of a
 39.34 lien must be deposited in the remediation fund. An environmental lien notice for a lien under

40.1 paragraph (a) or (b) must state that it is a lien in accordance with this section and identify
 40.2 whether the property described in the notice was included in any permit for the priority
 40.3 qualified facility.

40.4 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 40.5 applies to actions commenced on or after January 1, 2020.

40.6 Sec. 59. Minnesota Statutes 2018, section 115B.407, is amended to read:

40.7 **115B.407 ACQUISITION AND DISPOSITION ACQUIRING AND DISPOSING**
 40.8 **OF REAL PROPERTY AT PRIORITY QUALIFIED FACILITIES.**

40.9 Subdivision 1. **Acquiring and disposing of real property.** (a) The commissioner may
 40.10 acquire interests in real property by donation or eminent domain at all or a portion of a
 40.11 priority qualified facility. Condemnation under this section includes acquisition of fee title
 40.12 or an easement. After acquiring an interest in real property under this section, the
 40.13 commissioner must take environmental response actions at the priority qualified facility
 40.14 according to sections 115B.39 to 115B.414 after the legislature makes an appropriation for
 40.15 that purpose.

40.16 (b) The commissioner may dispose of real property acquired under this section according
 40.17 to section 115B.17, subdivision 16.

40.18 (c) Except as modified by this section, chapter 117 governs condemnation proceedings
 40.19 by the commissioner under this section. The exceptions under section 117.189 apply to the
 40.20 use of eminent domain authority under this section. Section 117.226 does not apply to
 40.21 properties acquired by the use of eminent domain authority under this section.

40.22 (d) The state is not liable under this chapter solely as a result of acquiring an interest in
 40.23 real property under this section.

40.24 Subd. 2. **Eminent domain damages.** (a) For purposes of this subdivision, the following
 40.25 terms have the meanings given:

40.26 (1) "after-market value" means the property value of that portion of the subject property
 40.27 remaining after a partial taking;

40.28 (2) "as remediated" means the condition of the property assuming the environmental
 40.29 response actions selected by the commissioner have been completed, including environmental
 40.30 covenants and easements and other institutional controls that may apply;

40.31 (3) "before-market value" means the property value of the entire subject property before
 40.32 the taking, less the remediation costs;

41.1 (4) "property value" means the fair market value of the real property, as remediated, less
 41.2 any reduction in value attributable to the stigma of pollution; and

41.3 (5) "remediation costs" means the reasonably foreseeable costs and expenses, including
 41.4 administrative and legal expenses, that the commissioner will incur to implement the
 41.5 environmental response actions that the commissioner selected for the property according
 41.6 to section 115B.406, subdivision 3, less the amount, if any, that the property owner
 41.7 demonstrates was released under section 115B.443, subdivision 8, which must not be greater
 41.8 than the extent of insurance coverage under policies for the property included in a settlement
 41.9 consistent with section 115B.443, subdivision 8.

41.10 (b) The damages awarded for condemnation of real property under this section is the
 41.11 greater of \$500 or:

41.12 (1) for a total taking of the subject property, the before-market value; or

41.13 (2) for a partial taking of the subject property, the before-market value less the
 41.14 after-market value.

41.15 (c) When awarding damages in a condemnation proceeding under this section, in addition
 41.16 to any other requirement of chapter 117, the finder of fact must report:

41.17 (1) the amount determined for the property value of the entire subject property before
 41.18 the taking; and

41.19 (2) the itemized amount determined for remediation costs.

41.20 (d) The commissioner may seek recovery of environmental response costs only to the
 41.21 extent the costs exceed the lower of the remediation costs or the property value of the entire
 41.22 subject property before the taking as reported under paragraph (c).

41.23 (e) If the actual expenses incurred by the commissioner to take environmental response
 41.24 actions at the priority qualified facility as determined at the time construction of the final
 41.25 environmental response action was completed would have yielded a higher award of damages
 41.26 under this section, then the commissioner must reimburse the owner an amount equal to the
 41.27 amount of damages as if the actual expenses were used instead of the remediation costs,
 41.28 less any damages already awarded.

41.29 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 41.30 applies to actions commenced on or after January 1, 2020.

41.31 Sec. 60. Minnesota Statutes 2018, section 115B.49, subdivision 3, is amended to read:

41.32 Subd. 3. **Expenditures.** (a) Money in the account may be used:

42.1 (1) for environmental response costs incurred by the commissioner under section 115B.50,
42.2 subdivision 1;

42.3 (2) for reimbursement of amounts spent by the commissioner from the remediation fund
42.4 for expenses described in clause (1);

42.5 (3) for reimbursements under section 115B.50, subdivision 2; and

42.6 (4) for administrative costs of the commissioner of revenue.

42.7 (b) Money in the account is appropriated to the commissioner for the purposes of this
42.8 subdivision. The commissioner shall transfer funds to the commissioner of revenue sufficient
42.9 to cover administrative costs pursuant to paragraph (a), clause (4).

42.10 (c) In making reimbursements from the account, the commissioner must give priority
42.11 to the following cases, in descending order:

42.12 (1) reimbursements for amounts spent on response actions by a person who meets the
42.13 conditions of section 115B.48, subdivision 10, clause (2); and

42.14 (2) reimbursements for expenditures made by the commissioner under paragraph (a),
42.15 clause (1) or (2), on behalf of owners or operators where the owner or operator failed to
42.16 complete the requested response action and the commissioner undertook the response action
42.17 to remediate the property.

42.18 Sec. 61. Minnesota Statutes 2018, section 116.07, is amended by adding a subdivision to
42.19 read:

42.20 Subd. 41. **Real property interests.** (a) The commissioner may acquire interests in real
42.21 property at a solid waste disposal facility, limited to environmental covenants under chapter
42.22 114E and easements for the environmental covenants, when the commissioner determines
42.23 the property interests are related to:

42.24 (1) closure;

42.25 (2) postclosure care; and

42.26 (3) any other actions needed after the postclosure care period expires.

42.27 (b) The state is not liable under this chapter or any other law solely as a result of acquiring
42.28 an interest in real property under this section.

42.29 (c) An environmental covenant under this subdivision must be in accordance with chapter
42.30 114E and must be signed and acknowledged by every owner of the fee simple title to the
42.31 real property subject to the covenant.

43.1 Sec. 62. Minnesota Statutes 2018, section 116G.07, is amended by adding a subdivision
43.2 to read:

43.3 Subd. 4. **Exemption; Mississippi River Corridor Critical Area.** Plans and regulations
43.4 of local units of government within the Mississippi River Corridor Critical Area are exempt
43.5 from subdivisions 1 to 3 and are subject to section 116G.15, subdivision 8.

43.6 **EFFECTIVE DATE.** This section is effective the day following final enactment.

43.7 Sec. 63. Minnesota Statutes 2018, section 116G.15, is amended by adding a subdivision
43.8 to read:

43.9 Subd. 8. **Reviewing and approving local plans and regulations.** (a) In the Mississippi
43.10 River Corridor Critical Area, the commissioner of natural resources is responsible for
43.11 carrying out the duties of the board and the Metropolitan Council is responsible for carrying
43.12 out the duties of the regional development commission under sections 116G.07 to 116G.10.
43.13 Notwithstanding sections 116G.07, subdivisions 2 and 3, and 116G.10, subdivision 3, the
43.14 responsibilities and procedures for reviewing and approving local plans and regulations in
43.15 the Mississippi River Corridor Critical Area, and amendments thereto, are subject to this
43.16 subdivision.

43.17 (b) Within 60 days of receiving a draft plan from a local unit of government, the

43.22 (3) the local unit of government's comprehensive plan.

43.23 (c) Within 60 days of receiving draft regulations from a local unit of government, the
43.24 commissioner must review the regulations to determine the regulations' consistency with:

43.25 (1) Minnesota Rules, chapter 6106; and

43.26 (2) the commissioner-approved plan adopted by the local unit of government under
43.27 paragraph (b).

43.28 (d) Upon review of a draft plan and regulations under paragraphs (b) and (c), the

44.14 (e) Only plans and regulations receiving final approval from the commissioner have the
 44.15 force and effect of law. The commissioner must grant final approval under this section only

81.29 establishment and enhancement guidelines.
81.30 The evaluation must determine whether the
81.31 restorations are meeting planned goals,
81.32 identify any problems with implementing the

82.23 and enforcing the easement agreement; and
- 82.24 (6) include requirements in the easement
82.25 document to protect the quantity and quality
82.26 of groundwater and surface water through
82.27 specific activities such as keeping water on
82.28 the landscape, reducing nutrient and
82.29 contaminant loading, and not permitting
82.30 artificial hydrological modifications.
- 82.31 (h) For any acquisition of lands or interest in
82.32 lands, a recipient of money appropriated under
82.33 this section must not agree to pay more than

83.21 why a portion of the money is not necessary
83.22 to achieve a high-quality restoration.

83.23 (k) To ensure public accountability for using
83.24 public funds, a recipient of money
83.25 appropriated under this section must, within
83.26 60 days of the transaction, provide to the

85.7 progress reports. Reasonable amounts may be
85.8 advanced to projects to accommodate
85.9 cash-flow needs or match federal money. The
85.10 advances must be approved as part of the work
