If money recovered on behalf of injured persons or entities cannot reasonably be distributed to those persons or entities because they cannot readily be located or identified or because the cost of distributing the money would outweigh the benefit to the persons or entities, the money must be paid into the general fund.
 - (b) Money recovered on behalf of a fund in the state treasury other than the general fund may be deposited in that fund.
 - (c) This section does not prohibit a state official from distributing money to a person or entity other than the state in litigation or potential litigation in which the state is a defendant or potential defendant.

- 44.30 (f) If the Minnesota Pollution Control Agency recovers \$250,000 or more in litigation or in settlement of a matter that could have resulted in litigation for a civil penalty from

violations of a permit issued by the Minnesota Pollution Control Agency, then 40 percent of the money recovered must be distributed to the community health board where the permitted facility is located. The commissioner of the Minnesota Pollution Control Agency must notify the commissioner of health and the community health board within 30 days of a final court order in the litigation or the effective date of the settlement agreement that the litigation has concluded or a settlement has been reached. The commissioner must collect and distribute the money to the commissioner of health. The commissioner of health must distribute the money to the community health board. The community health board must meet directly with the population potentially affected by the pollution that was the subject of the litigation or settlement to understand their concerns and to incorporate those concerns into a project implemented by the community health board and funded as directed in this paragraph that benefits that population. This provision does not apply to money recovered in litigation or settlement of a matter that could have resulted in litigation with subdivisions of the state. This provision is for the distribution of money only and does not create a right of intervention in the litigation or settlement of the enforcement action for any person or entity.

63.14	carpet generated over a program year. To determine the annual recycling rates required by
63.15	this section the amount of discarded carpet generated must be calculated using a standard
63.16	recognized methodology based on annual sales, replacement rate, and the average weight
63.17	of carpet and must be approved by the agency;

64.4	stewardship program under subdivision 2 will be implemented; and
64.5	(20) "wool carpet" means carpet made from wool.
64.6	Subd. 2. Product stewardship program. A producer of carpet sold in the state must
64.7	participate in a stewardship organization to implement and finance a statewide product

65.6	The stewardship program must include an operating collection site located in each county
65.7	of the state by January 1, 2023. Subject to approval by the agency, the stewardship program

65.9	and adequate to collect discarded carpet generated in each county;
65.10	(4) a description of how the adequacy of the collection program will be monitored and
55.11	maintained;

55.27	stewardship plan. The program must achieve at a minimum, a 15 percent recycling rate in
55.28	program year 2023, and must include and meet escalating performance goals for each
65.29	subsequent year. The performance goals must be based on:
65.30	(i) the most recent collection data available for the state;
55.31	(ii) the amount of carpet disposed of annually;
55.32	(iii) the weight of the carpet that is expected to be available for collection annually; and

66.17	the implementation of this section;
66.18	(15) annual budgets showing revenue and expenditure projections for the current program
66.19	year and for the next three years of the program;
66.20	(16) a process by which the financial activities of the stewardship organization related
66.21	to the implementation of the plan are subject to an annual independent audit, which shall
66.22	be reviewed by the agency;

66.25	to subdivision 1, clause (3);
66.26	(18) a discussion of the feasibility, cost, and effectiveness of labeling the backside of
66.27	new carpet with the polymer type or nonpolymer material used to manufacture the carpet

57.3	organizations' responses to those comments as required under subdivision 7.
57.4	Subd. 6. Stewardship assessment. (a) On and after July 1, 2021, a producer must add
57.5	a stewardship assessment fee of four cents per square foot to the purchase price of nylon

57.7	price of PET carpet, PTT carpet, blended carpet, and any other types of carpet sold by the
57.8	producer in this state. The assessment added under this section must be remitted by the
57.9	producer on a quarterly basis to the stewardship organization.
57.10	(b) The assessment must be added by the producer to the purchase price of all carpet
57.11	sold by producers to a Minnesota retailer or distributor or otherwise sold for use in this
57.12	state. The assessment must be clearly visible on all invoices or functionally equivalent
57.13	billing documents as a separate line item and must be accompanied by a brief description
57.14	of the assessment.
57.15	(c) If the amount of the assessment is too low to properly fund the stewardship program,

57.17	must be approved by the agency, in accordance with this section, prior to the fee being
57.18	increased.
57.19	(d) If a fund balance greater than one-half of the program's annual operating cost is
57.20	reached, the stewardship organization must submit a plan update to the agency to reduce

57.24	this section is repealed, the entire assessment fund balance must be transferred by the
57.25	stewardship organization to the state to be deposited into the environmental fund.
57.26	(f) A stewardship assessment must not be used to pay for any penalties assessed under
57.27	this section or for the final disposal or incineration of discarded carpet.
57.28	Subd. 7. Consultation required. (a) The stewardship organization must consult with
57.29	stakeholders, including retailers, installers, collectors, recyclers, local government, customers,
57.30	and citizens, during development of the stewardship plan; solicit stakeholder comments;
57.31	and incorporate stakeholder comments regarding the plan to the extent feasible before
57.32	submitting a plan to the agency for review.

68.1	(b) The stewardship organization must invite comments from local governments,
68.2	communities, and citizens to report their satisfaction with services, including education and
68.3	outreach, provided by the product stewardship program. The information must be submitted
68.4	to the agency and used by the agency in reviewing proposed updates or changes to the

68.10	agency rejects a plan, the agency must notify the applicant in writing of the reasons for
68.11	rejecting the plan. An applicant whose plan is rejected by the agency must submit a revised
68.12	plan to the agency within 60 days after receiving notice of rejection.
68.13	(b) Any proposed changes to a stewardship plan must be approved by the agency in
68.14	writing.
68.15	Subd. 9. Plan availability. All draft stewardship plans must be placed on the agency's
68.16	website for at least 30 days before agency approval and made available at the agency's
68.17	headquarters for public review and comment. All approved stewardship plans must be placed
68.18	on the agency's website while the plan is in effect.
68.19	Subd. 10. Conduct authorized. The stewardship organization that organizes collection,
68.20	transport, and processing of carpet under this section is immune from liability for the conduct
68.21	under state laws relating to antitrust, restraint of trade, unfair trade practices, and other
68.22	regulation of trade or commerce only to the extent that the conduct is necessary to plan and
68.23	implement the organization's chosen organized collection or recycling system.
68.24	Subd. 11. Education materials. (a) Producers of carpet or the stewardship organization
68.25	must provide retailers, installers, and consumers with educational materials regarding the
68.26	stewardship assessment and product stewardship program. The materials must include, but
68.27	are not limited to, information regarding available end-of-life management options for carpet
68.28	offered through the product stewardship program and information that notifies consumers
68.29	that a charge for operating the product stewardship program is included in the purchase
68.30	price of carpet sold in the state.
68.31	(b) Each distributor or retailer must provide the educational materials referenced in this
68.32	subdivision to carpet installation contractors and consumers at the time of purchase or
68.33	delivery or both.

69.20	explanation stating the reason or reasons performance goals were not met;
69.21	(3) the amount of discarded carpet collected in the state by method of disposition,
