Date March 12, 2024

Summary

This bill would appropriate an unspecified amount of money to the Metropolitan Council to develop and implement a multimodal transportation plan for the 2024 Minnesota State Fair. The State Agricultural Society, the governing organization for the State Fair, would be primarily responsible for producing the plan and the Metropolitan Council could award one or more grants to the Society to support its work.

The bill specifies required plan elements, including reducing motor vehicle congestion and parking, improving attendees' transportation experience, expanding bicycle access and storage, improving support for ride hailing and transportation network companies, and increasing park-and-ride, express bus, and other transit services by at least 100 percent compared to 2023 Minnesota State Fair levels.
