

Dear Rep. Gelbmann,

I support VOTE BY MAIL IN MN. I ask that COVID-19 related federal money be released so OSS can responsibly prepare to keep MN voters safe. It is urgent we take preventive actions now rather than be reactive and spend much more later for having unnecessarily exposed MN voters to COVID-19. I am 73 years old and especially vulnerable due to added medical conditions. I believe the vote by mail option is the most ethical, financially intelligent, and safe response to prevent unnecessary exposure to COVID-19. It protects voters, election judges and volunteers, and it makes voting more accessible for a larger number of citizens, providing a more accurate picture of our needs and choices in a representative democracy.

Thank you for your attention to this matter.

Sincerely,

Barbara Harman
