

I am in full support of HF 127 (Knudsen) Penalties for creating, distributing, and possessing sexually explicit materials involving children increased.

I am a retired police officer and director of a nonprofit child exploitation and trafficking prevention organization in Minnesota and have been following the status of this important bill since its first draft. I hope to see it pass through committees and become law in Minnesota. It is an important step in the protection of our Minnesota children.

Thank you.

Sincerely,
Jessica Bartholomew
