1.5 Subd. 3. **Permit restriction during summer months.** The commissioner must not  
1.6 modify or restrict the amount of appropriation from a groundwater source authorized in a  
1.7 water use permit issued to irrigate agricultural land between May 1 and October 1, or, for  
1.8 agricultural land with a crop, until November 1, unless the commissioner determines the  
1.9 authorized amount of appropriation endangers a domestic water supply.

1.10 Sec. 89. Minnesota Statutes 2014, section 103G.287, subdivision 1, is amended to read:

1.11 Subdivision 1. **Applications for groundwater appropriations; preliminary well**  
1.12 **construction approval.** (a) Groundwater use permit applications are not complete until  
1.13 the applicant has supplied:

1.14 (1) a water well record as required by section 103I.205, subdivision 9, information  
1.15 on the subsurface geologic formations penetrated by the well and the formation or aquifer  
1.16 that will serve as the water source, and geologic information from test holes drilled to  
1.17 locate the site of the production well;

1.18 (2) the maximum daily, seasonal, and annual pumpage rates and volumes being  
1.19 requested;

1.20 (3) information on groundwater quality in terms of the measures of quality  
1.21 commonly specified for the proposed water use and details on water treatment necessary  
1.22 for the proposed use;

1.23 ~~(4) an inventory of existing wells within 1-1/2 miles of the proposed production well~~  
1.24 ~~or within the area of influence, as determined by the commissioner. The inventory must~~  
1.25 ~~include information on well locations, depths, geologic formations, depth of the pump or~~  
1.26 ~~intake, pumping and nonpumping water levels, and details of well construction;~~

2.1           ~~(5)~~ (4) the results of an aquifer test completed according to specifications approved  
2.2 by the commissioner. The test must be conducted at the maximum pumping rate requested  
2.3 in the application and for a length of time adequate to assess or predict impacts to other  
2.4 wells and surface water and groundwater resources. The permit applicant is responsible  
2.5 for all costs related to the aquifer test, including the construction of groundwater and  
2.6 surface water monitoring installations, and water level readings before, during, and after  
2.7 the aquifer test; and

2.8           ~~(6)~~ (5) the results of any assessments conducted by the commissioner under  
2.9 paragraph (c).

2.10           (b) The commissioner may waive an application requirement in this subdivision

2.13 quality, and the ability of future generations to meet their own needs.

2.14           (c) The commissioner shall provide an assessment of a proposed well needing a  
2.15 groundwater appropriation permit. The commissioner shall evaluate the information  
2.16 submitted as required under section 103I.205, subdivision 1, paragraph (f), and determine  
2.17 whether the anticipated appropriation request is likely to meet the applicable requirements  
2.18 of this chapter. If the appropriation request is likely to meet applicable requirements, the  
2.19 commissioner shall provide the person submitting the information with a letter providing  
2.20 preliminary approval to construct the well."

2.23           The commissioner shall not validate a well interference claim if the affected well has  
2.24 been sealed prior to the completion of the commissioner's investigation of the complaint.  
2.25 If the well is sealed prior to completion of the investigation, the commissioner must  
2.26 dismiss the complaint."
