**1 out of 5
Minnesotans
has a hearing loss.**

**Do you or does
someone in your family?**

**Deaf and Hard of Hearing Services Division
(DHHS)**
**Proudly serving Minnesotans
since 1980.**

Just the facts

- Hearing loss is not just experienced by older people; 60 percent of people with hearing loss either work or are in an educational setting.
- Hearing loss is the most prevalent injury among returning veterans.
- Twenty percent of Americans over the age of 12 have some degree of hearing loss.
- One out of three people over age 65 and one out of two people over age 75 have a hearing loss.
- Impressive improvements in hearing assistive technology and telecommunication services help individuals who are deaf or hard of hearing live fulfilling and independent lives.
- Deaf culture has its own set of values, norms, traditions, literature and art forms.
- American Sign Language is the third-most widely used language in the U.S.
- Most people who are deaf view themselves as a cultural and linguistic minority and not as a disability group.
- DeafBlindness is a combination of hearing and vision loss that affects a person's ability to communicate with others, get information about the environment, participate in the community and maintain independence.

Services offered

- **Direct consumer assistance**
Help to improve communication access for individuals who are deaf, deafblind or hard of hearing in their homes and communities. Provide communication tips and coping skills, guidance, problem solving and referrals related to independent living.
- **Services to persons with combined hearing and vision loss**
Money is available for a limited number of consumers to receive support and technology to address their independent living needs.
- **Training and consultation**
Interactive training on hearing loss trends, Deaf culture, assistive technology and other topics; on-line training modules and assistance offered to agencies to make their services more accessible to individuals with hearing loss. Training related to empowerment and self-advocacy is offered to consumers.
- **Assistive technology demonstration labs**
Some offices have labs to demonstrate different types of assistive listening devices, amplified and captioned telephones, visual and tactile signaling devices, and information on apps that may benefit people with hearing loss.
- **Employment technology loans**
Employers and businesses who employ individuals with hearing loss may borrow, on a short-term loan basis, assistive technology for their employees who have a hearing loss to help improve communication in the workplace.

- **Mental Health**
Qualified counselors who are fluent in sign language provide culturally affirmative counseling, case coordination, aftercare planning and community placement assistance to individuals and families. A certified peer-support specialist program is also offered to interested individuals seeking assistance.
- **Telephone Equipment Distribution Program (TED)**
Assistive telephone equipment is available at no cost to eligible Minnesotans who have a hearing loss, speech impairment or physical disability. Oversight of the Minnesota Relay Outreach offering information on various kinds of relay services.
- **Community-based grants**
Grants to serve individuals who are deafblind, interpreter referral, mental health services, live real-time TV news captioning, and a mentor program for families who have a child who is deaf or hard of hearing are available and awarded to qualifying vendors.

Who we serve

- Deaf
- DeafBlind
- Hard of hearing
