

Dear Chair Richardson and Committee Members,

My name is Emily Kline and I live in St Paul.

My child hasn't been able to participate in school at all. She has severe adhd and is only 6 so she just presses random buttons on her iPads and won't comply to doing any of the assignments.

This is how it was last spring. She is repeating kindergarten this year and it's the same. Likely I will have to find a tutor and pay out of pocket and have her do other work not on her iPad.

She really can only do in person work in a school environment. She won't do it with me at home. Please support HF 965 so we can make up for what was lost.

Sincerely,

Emily Kline,
