Anna Borgerding, Committee Legislative Assistant

To whom it may be concerned,

I am writing this letter to have my opinion on some bills known.

I'd like to express my support for the following bills:

HF1104 (Thompson)- end qualified immunity for police officers.

HF640 (Gomez)- Establish civilian oversight of police.

HF1103 Prohibits law enforcement from altering or destroying body camera footage of a deadly force incident and require law enforcement agencies to release body camera recordings of deadly force incidents to the deceased's family within 48 hours of the incident.

Thank you,
