Judiciary Finance and Civil Law Division

Re: The Reforming Accountability Act (HF 77)

Dear Chair Lesch, Vice Chair Moller, GOP Lead Scott, and Members:

Legal Aid's mission is to advocate for the legal rights of our clients so they may enjoy safe, healthy, and independent lives in strong communities, free of racial, social, and economic injustice. The murder of George Floyd has exposed the racial inequities we see in our work every day. It is a heart-wrenchingly tragic example of the systemic denial of basic human rights for those with less access to resources. The COVID-19 pandemic has exacerbated the already unacceptable racial and economic inequities that are belatedly the prime subjects of state and national debate.

While Legal Aid provides civil legal services to income eligible clients and all elder clients and clients with disabilities, the intersection between Legal Aid's work and the bills under consideration today in the Judiciary Finance and Civil Law Division is manifest. That is why we write to express our support for your efforts and that of your legislative colleagues to address these structural inequities, improve public safety, and improve relations between police officers and the communities they serve. Our clients live and often struggle in those communities.

We want to express support in particular for the proposal to reform the cash bail system, found in section 8 of HF 77. Economic fairness and justice dictate that public systems should not distinguish rights and outcomes based on income or the color of your skin. Yet, “[e]very day in this country, hundreds of thousands of legally innocent people sit behind bars simply because they cannot afford bail.”<sup>1</sup> Further, the “burden of cash bail falls disproportionately on communities of color.”<sup>2</sup>

The economic consequences of this inequitable treatment of certain persons -- disproportionately persons of color -- touching the criminal justice system exacerbates their ability to maintain jobs and income and makes an already economically rocky road even more difficult. Removing the economic burdens and disparities inherent in this system can help improve the ability of clients and their families caught in this system to maintain some semblance of economic stability.

In sum, at this transformational moment in the history of our state and our nation, Legal Aid offers its expertise and support for all the efforts now underway, and those to come, to dismantle the structural racism, injustice, and inequity in our society that impede the ability of our low-income clients and communities of color to meet their basic needs and to have their basic human rights respected.

Sincerely,

Ron Elwood  
Supervising Attorney
