

RECONNECT RONDO PROJECT ACCOMPLISHMENTS

ReConnect Rondo is spearheading a restorative movement with a vibrant African American cultural enterprise district connected by a community land bridge. This powerful movement illustrates our commitment to African American residents and businesses, current and legacy community members and other residents and businesses in Rondo.

It shows our passion for equitable development that meets the needs of communities that have been wronged by systemic inequities. It will leverage systems, processes, tools and resources to reduce disparities and foster thriving communities.

Completed Plans and Studies

- Restorative Development Framework
- Anti-Displacement & Community Investment Strategies
