

Dear Chair Westrom, Chair Sundin, and members of the committee,

The LEAFF program was very helpful to save my business during COVID-19 in 2020 and 2021. It helps to cover for labor cost and farm expenses because regular farmers market sales were declined. I am thankful to MN legislature for allocating funding to support local farmers and to fight the hunger in Minnesota. I am happy that I was participating in LEAFF program, and my organic vegetable was delivery to Minnesotans who faced challenges during COVID-19.
