Date February 16, 2023

Summary

This bill appropriates \$500,000 in the next biennium to the Department of Education for a grant to the MacPhail Center for Music. The MacPhail Center for Music must use the grant money to provide its Learning with Music program in four early childhood centers, with a focus on meeting the needs of children experiencing economic hardship in the Twin Cities metropolitan area, and to create and deliver training opportunities, based on the successful elements of the Learning with Music program, to early childhood educators statewide. This is a onetime appropriation.
