

February 24, 2017

To Members of the Transportation Finance Committee:

On behalf of the North TH 65 Corridor Coalition, we respectfully voice our support for H.F. 1496 as amended. This legislation directs the commissioner of transportation to study long needed congestion relief and crash elimination improvements on a portion of Trunk Highway 65 in Blaine and Ham Lake.

The North TH 65 Corridor Coalition is a coalition of Minnesota townships, cities and counties located along the North Trunk Highway 65 corridor who work in cooperation with transportation and transit agencies to identify and plan for transportation safety improvements along the corridor.

The north Trunk Highway 65 corridor is a primary transportation route through Anoka, Isanti and Kanabec Counties. The longer this corridor goes without substantive improvements, the greater safety issues continue to grow, congestion continues to expand, and frustration continues to grow among residents and businesses along the corridor. For the safety of everyone that drives or lives along Highway 65, we need to improve safety, provide safe access along the corridor, and make improvements that offer congestion and crash relief and support development in the corridor.

Thank you for your consideration of this legislation and we look forward to your continued support on this very important transportation issue.

Respectfully,

The 15 Member Communities of the North TH 65 Corridor Coalition

Terry Turnquist, Co-Chair	Julie Braastad, Co-Chair	Tom Ryan, Secretary
Isanti County	Anoka County	City of Blaine
Beth Thorp, Treasurer	John Erlandson, Dir. At-Large	Heidi Steinmetz
