Bill Description

The bill would designate the section of Trunk Highway 5 in Chanhassen as "Prince Rogers Nelson Memorial Highway." If notified, MnDOT would design and erect the appropriate signs, with the sign costs to be paid by interested groups in accordance with Minnesota Statutes 161.139. The signs must be purple.

Assumptions

MnDOT assumes there would be a sign required in each direction or two signs total and that each sign would be 4' x 4' or 16 sq. ft. MnDOT assumes that interested groups would pay for the initial fabrication and installation costs. There is no additional cost for a purple sign.

Technical note: The color standard for memorial signs is white on brown, per the federal Manual of Uniform Traffic Control Devices (MUTCD). The MUTCD specifies the color purple is only used for electronic toll collector signs.

Expenditure and/or Revenue Formula

Expenditures

Highway signs:

Fabrication cost of memorial highway sign: \$22/sq. ft. x 16 sq. ft. = \$352 per sign

Structural materials, equipment, and installation labor costs = \$1,277 per sign

Total cost per sign = \$352 + \$1,277 = \$1,629

Total cost = \$1,629 per sign x 2 signs = \$3,258 **rounded to \$3,000**

These costs are based on a technical memorandum for requester pay signs. The costs would include equipment as well as MnDOT staff time for engineering, fabrication, and installation of the signs. These costs would be expenditures from the revolving sign account in the trunk highway fund in FY 2024.

Revenues

Revenue equal to the amounts of the expenditures would be received in the revolving sign account in the trunk highway fund in FY 2024.

There would be no net fiscal impact to MnDOT.

Long-Term Fiscal Considerations

There would be an ongoing cost for any needed maintenance and eventual replacement of the signs; however, these costs would be paid by interested groups.

Local Fiscal Impact

None
