33.30 Subd. 5. Drug. "Drug" means all medicinal substances and preparations recognized by
33.31 the United States Pharmacopoeia and National Formulary, or any revision thereof, ~~vaccines~~
33.32 ~~and biologicals, and~~ biological products, other than blood or blood components; all

34.1 substances and preparations intended for external and internal use in the diagnosis, cure,
34.2 mitigation, treatment, or prevention of disease in humans or other animals; and all substances
34.3 and preparations, other than food, intended to affect the structure or any function of the
34.4 bodies of humans or other animals. The term drug shall also mean any compound, substance,
34.5 or derivative that is not approved for human consumption by the United States Food and
34.6 Drug Administration or specifically permitted for human consumption under Minnesota
34.7 law, and, when introduced into the body, induces an effect similar to that of a Schedule I
34.8 or Schedule II controlled substance listed in section 152.02, subdivisions 2 and 3, or
34.9 Minnesota Rules, parts 6800.4210 and 6800.4220, regardless of whether the substance is
34.10 marketed for the purpose of human consumption.

34.11 Sec. Minnesota Statutes 2016, section 151.01, is amended by adding a subdivision to
34.12 read:

34.13 Subd. 40. **Biological product.** "Biological product" has the meaning provided in United
34.14 States Code, title 42, section 262.

34.15 Sec. Minnesota Statutes 2016, section 151.01, is amended by adding a subdivision to
34.16 read:

34.17 Subd. 41. **Interchangeable biological product.** "Interchangeable biological product"
34.18 means a biological product that the U.S. Food and Drug Administration has:

34.19 (1) licensed, and determined to meet the standards for "interchangeability" under United
34.20 States Code, title 42, section 262(k)(4); or

34.21 (2) determined to be therapeutically equivalent, as set forth in the most recent edition
34.22 or supplement of the U.S. Food and Drug Administration publication titled "Approved Drug
34.23 Products with Therapeutic Equivalence Evaluations."

34.24 Sec. Minnesota Statutes 2016, section 151.21, is amended to read:

34.25 **151.21 SUBSTITUTION.**

34.26 Subdivision 1. **Generally.** Except as provided in this section, it shall be unlawful for
34.27 any pharmacist or pharmacist intern who dispenses prescriptions, drugs, and medicines to
34.28 substitute an article different from the one ordered, or deviate in any manner from the
34.29 requirements of ~~an order or a prescription~~ drug order without the approval of the prescriber.

34.30 Subd. 2. ~~Brand-name specified~~ Dispense as written prescription drug orders. When
34.31 a pharmacist receives a paper or hard copy prescription drug order on which the prescriber

35.1 has personally written in handwriting "dispense as written" or "D.A.W.," a prescription sent
35.2 by electronic transmission on which the prescriber has expressly indicated in a manner
35.3 consistent with the standards for electronic prescribing under Code of Federal Regulations,
35.4 title 42, section 423, that the prescription is to be dispensed as transmitted and which bears
35.5 the prescriber's electronic signature, or an oral prescription ~~in~~ for which the prescriber has
35.6 expressly indicated that the prescription is to be dispensed as communicated, the pharmacist
35.7 shall dispense the ~~brand name~~ generic drug as prescribed.

35.8 Subd. 3. ~~Brand name not specified~~ Other prescription drug orders. When a pharmacist
35.9 receives a paper or hard copy prescription on which the prescriber has not personally written
35.10 in handwriting "dispense as written" or "D.A.W.," a prescription sent by electronic
35.11 transmission on which the prescriber has not expressly indicated in a manner consistent
35.12 with the standards for electronic prescribing under Code of Federal Regulations, title 42,
35.13 section 423, that the prescription is to be dispensed as transmitted and which bears the
35.14 prescriber's electronic signature, or an oral prescription in which the prescriber has not
35.15 expressly indicated that the prescription is to be dispensed as communicated, and there is
35.16 available in the pharmacist's stock a less expensive generically equivalent drug or, if a
35.17 biological product is prescribed, a less expensive interchangeable biological product that,
35.18 ~~in the pharmacist's professional judgment, is safely interchangeable with the prescribed~~
35.19 ~~drug,~~ then the pharmacist shall, after disclosing the substitution to the purchaser, dispense
35.20 the ~~generic~~ generically equivalent drug or the interchangeable biological product, unless
35.21 the purchaser objects. A pharmacist may also substitute pursuant to the oral instructions of
35.22 the prescriber. A pharmacist may not substitute a generically equivalent drug ~~product~~ unless,
35.23 in the pharmacist's professional judgment, the substituted drug is therapeutically equivalent
35.24 and interchangeable to the prescribed drug. A pharmacist may not substitute a biological
35.25 product unless the U.S. Food and Drug Administration has determined the substituted
35.26 biological product to be interchangeable with the prescribed biological product. A pharmacist
35.27 shall notify the purchaser if the pharmacist is dispensing a drug or biological product other
35.28 than the ~~brand name~~ specific drug or biological product prescribed.

35.29 Subd. 3a. **Prescriptions by electronic transmission.** Nothing in this section permits a
35.30 prescriber to maintain "dispense as written" or "D.A.W." as a default on all prescriptions.
35.31 Prescribers must add the "dispense as written" or "D.A.W." designation to electronic
35.32 prescriptions individually, as appropriate.

35.33 Subd. 4. **Pricing.** A pharmacist dispensing a drug under the provisions of subdivision
35.34 3 shall not dispense a drug of a higher retail price than that of the ~~brand name~~ drug prescribed.
35.35 If more than one safely interchangeable ~~generic~~ drug is available in a pharmacist's stock,

36.1 then the pharmacist shall dispense the least expensive alternative. ~~Any difference between~~
36.2 ~~acquisition cost to the pharmacist of the drug dispensed and the brand name drug prescribed~~
36.3 ~~shall be passed on to the purchaser.~~

36.4 Subd. 4a. **Sign.** A pharmacy must post a sign in a conspicuous location and in a typeface
36.5 easily seen at the counter where prescriptions are dispensed stating: "In order to save you
36.6 money, this pharmacy will substitute whenever possible an FDA-approved, less expensive,
36.7 generic drug product, which is therapeutically equivalent to and safely interchangeable with
36.8 the one prescribed by your doctor, unless you object to this substitution."

36.9 Subd. 5. **Reimbursement.** Nothing in this section requires a pharmacist to substitute a
36.10 ~~generic~~ drug if the substitution will make the transaction ineligible for third-party
36.11 reimbursement.

36.12 Subd. 6. **Disclosure.** When a pharmacist dispenses a brand name legend drug and, at
36.13 that time, a less expensive generically equivalent drug or interchangeable biological product
36.14 is also available in the pharmacist's stock, the pharmacist shall disclose to the purchaser
36.15 that a ~~generic~~ generically equivalent drug or interchangeable biological product is available.

36.16 Subd. 7. **Drug formulary.** This section does not apply when a pharmacist is dispensing
36.17 a prescribed drug to persons covered under a managed health care plan that maintains a
36.18 mandatory or closed drug formulary.

36.19 Subd. 8. **List of excluded products.** The Drug Formulary Committee established under
36.20 section 256B.0625, subdivision 13, shall establish a list of drug products that are to be
36.21 excluded from this section. This list shall be updated on an annual basis and shall be provided
36.22 to the board for dissemination to pharmacists licensed in the state.

36.23 Subd. 9. **Extended supply.** (a) After a patient has obtained an initial 30-day supply of
36.24 a prescription drug, and the patient returns to the pharmacy to obtain a refill, a pharmacist
36.25 may dispense up to a 90-day supply of that prescription drug to the patient when the following
36.26 requirements are met:

36.27 (1) the total quantity of dosage units dispensed by the pharmacist does not exceed the
36.28 total quantity of dosage units of the remaining refills authorized by the prescriber; and

36.29 (2) the pharmacist is exercising the pharmacist's professional judgment.

36.30 (b) The initial 30-day supply requirement in paragraph (a) is not required if the
36.31 prescription has previously been filled with a 90-day supply.

36.32 (c) Notwithstanding paragraph (a), a pharmacist may not exceed the number of dosage
36.33 units authorized by a prescriber for an initial prescription or subsequent refills if:

37.1 (1) the prescriber has specified on the prescription that, due to medical necessity, the
37.2 pharmacist may not exceed the number of dosage units identified on the prescription; or

37.3 (2) the prescription drug is a controlled substance, as defined in section 152.01,
37.4 subdivision 4.

37.5 Subd. 10. **Electronic entry.** (a) Within five business days following the dispensing of
37.6 a biological product, the dispensing pharmacist or the pharmacist's designee shall
37.7 communicate to the prescriber the name and manufacturer of the biological product
37.8 dispensed.

37.9 (b) The communication shall be conveyed by making an entry that is electronically
37.10 accessible to the prescriber through:

37.11 (1) an interoperable electronic medical records system;

37.12 (2) an electronic prescribing technology;

37.13 (3) a pharmacy benefit management system; or

37.14 (4) a pharmacy record.

37.15 (c) Entry into an electronic records system as described in paragraph (b) is presumed to
37.16 provide notice to the prescriber.

37.17 (d) When electronic communication as specified in paragraph (b) is not possible, the
37.18 pharmacist or the pharmacist's designee shall communicate to the prescriber the name and
37.19 manufacturer of the biological product dispensed by using mail, facsimile, telephone, or
37.20 other secure means of electronic transmission.

37.21 (e) Communication of the name and manufacturer of the biological product dispensed
37.22 shall not be required if:

37.23 (1) there is no U.S. Food and Drug Administration-approved interchangeable biological
37.24 product for the product prescribed; or

37.25 (2) a prescription is being refilled and the biological product being dispensed is the same
37.26 product dispensed on the prior filling of the prescription."
