**Date** March 2, 2020

## Overview

This bill authorizes street impact fees in subdivisions and developments, and governs the imposition of and disputes over fees.

## Summary

Section	Description
---------	-------------

- |   |   |
|---|---|
| 1 | <p><b>Street impact fee.</b></p> <p>Permits a municipality (city or town) by ordinance to impose a fee on a subdivision development to pay for acquisition, construction, maintenance, or improvement of streets, roads, intersections, and related transportation infrastructure, based on the municipality's approved transportation plan. Permits a municipality to deny a subdivision application based on an inadequate transportation system within the municipality. Provides how previously subdivided property may be charged the fee.</p> |
| 2 | <p><b>Street impact fee nexus.</b></p> <p>Requires an essential nexus and rough proportionality between the fees charged and the purpose for the fees.</p> <p>Prohibits conditioning approval of a subdivision or development on an agreement to waive the right to challenge a fee if the municipality gets written notice of a dispute before the municipality's final decision on an application. Establishes procedures for proceeding with an application when there is a challenge to a fee.</p>  |
