**Bill Description**

This bill requires by rule licensees with the authority to prescribe controlled substances to obtain at least 2 hours of continuing education credit per renewal cycle on best practices in prescribing opioids and controlled substances, as part of the continuing education requirements for licensure renewal.

**Assumptions**

The board assume rule writing costs to be \$10,000.00

We are aware of a proposed amendment to delete on line 1.10 “by rule” which would reduce the costs associated with rule writing.

The board currently conducts random continuing education audits.

The board anticipates adding an attestation of completion of the continuing education requirement to the renewal form. No cost will be required to update the form.

We are aware of a proposed amendment to delete on line 1.10 “by rule” which would reduce the costs associated with rule writing.

The board does not require biennial reporting of CE, as we randomly audit professional development portfolios.

The board anticipates adding an attestation to the database indicating that the licensee has completed the education requirement.

**Expenditure and/or Revenue Formula**

The Board will add an attestation statement to online renewal services for licensees to attest they are a licensee subject to and have met this CE requirement. We estimate this project to cost \$5,400 with our current IT vendor for programing changes. The board anticipates rule writing costs to equal \$10,000.
