

Family Success Stories: Early Learning Scholarships & Child Care Assistance

Child(ren) Names	Date of Birth
Lillian Weber	9/6/16

I receive: An Early Learning Scholarship Child Care Assistance Both

How has an Early Learning Scholarship or Child Care Assistance affected your family's life? What does this support mean for your family?

Being able to have this extra support has been super beneficial in being able to have this job. I really wouldn't be able to afford much for daycare otherwise so knowing my children are receiving the care that they are is so important to me. Being a young mom can be challenging but having this kind of help is so so appreciated!

How did you feel when you received notice that you and your children were awarded an Early Learning Scholarship or Child Care Assistance?

I was super excited! Also felt very relieved that the burden of having to worry about money was taken away.

How do you feel this will ensure that your child(ren) will be prepared for kindergarten?

They are getting the best care they could be receiving by being apart of such a high end program! Having so many resources and educated teachers is a huge help!

Do you have suggestions on how to make Early Learning Scholarships or Child Care Assistance work better for families?

I think it could be more beneficial if families didn't have to wait until their child was ~~five~~ three to be able to apply for the scholarship.

Other thoughts you would like to share?

This program has been the biggest blessing for my family and I

At which center is your child currently enrolled? Rogers 97
In which city is the center located? ✓

THANK YOU parents, both for entrusting us with the care and education of your children, and for taking the time to share your family's story. Real words from real people across Minnesota are what help us advocate for increased funding and better policies for young children, their families, and the professionals who support them. We are so pleased to be your partner.
