

# Let's talk about JOBS

What job sector has the greatest growth potential and provides the most benefit to the state and our environment?

- Agriculture?
- Housing?
- Medical?
- Tourism?
- Mining?

The answer is:  
**Solar!**

# Society Benefits

- Strengthens the grid
- Stimulates serious job growth
- Keeps most of the money local
- Reduce dependence on foreign oil
- Mitigates power loss in natural disasters
- Source of backup power in emergencies

# Environment Benefits

- Cleaner energy
- Helps curb climate change
- Reduces coal and oil deaths
- Less landform destruction
- Promotes habitat conservation

A little bit about Sundial

In the woods...

or in the city.

Small...

or large.

In 2000 Jon started  
Sundial Solar in Florida

He peddled back to Minnesota in 2006...

2006

Zero employees

2008

No State or utility  
rebate programs

zero employees

2010

State and Xcel  
rebate programs

Hired 6 employees  
in 4 months

Today

16 employees  
and growing

The future?

Solar systems in Minnesota  
make good economic sense!

# Solar = jobs in Minnesota!

## Thank You!
