Report on the Economic Status of Minnesotans by Cultural Group, 2018

Report available at
mn.gov/demography

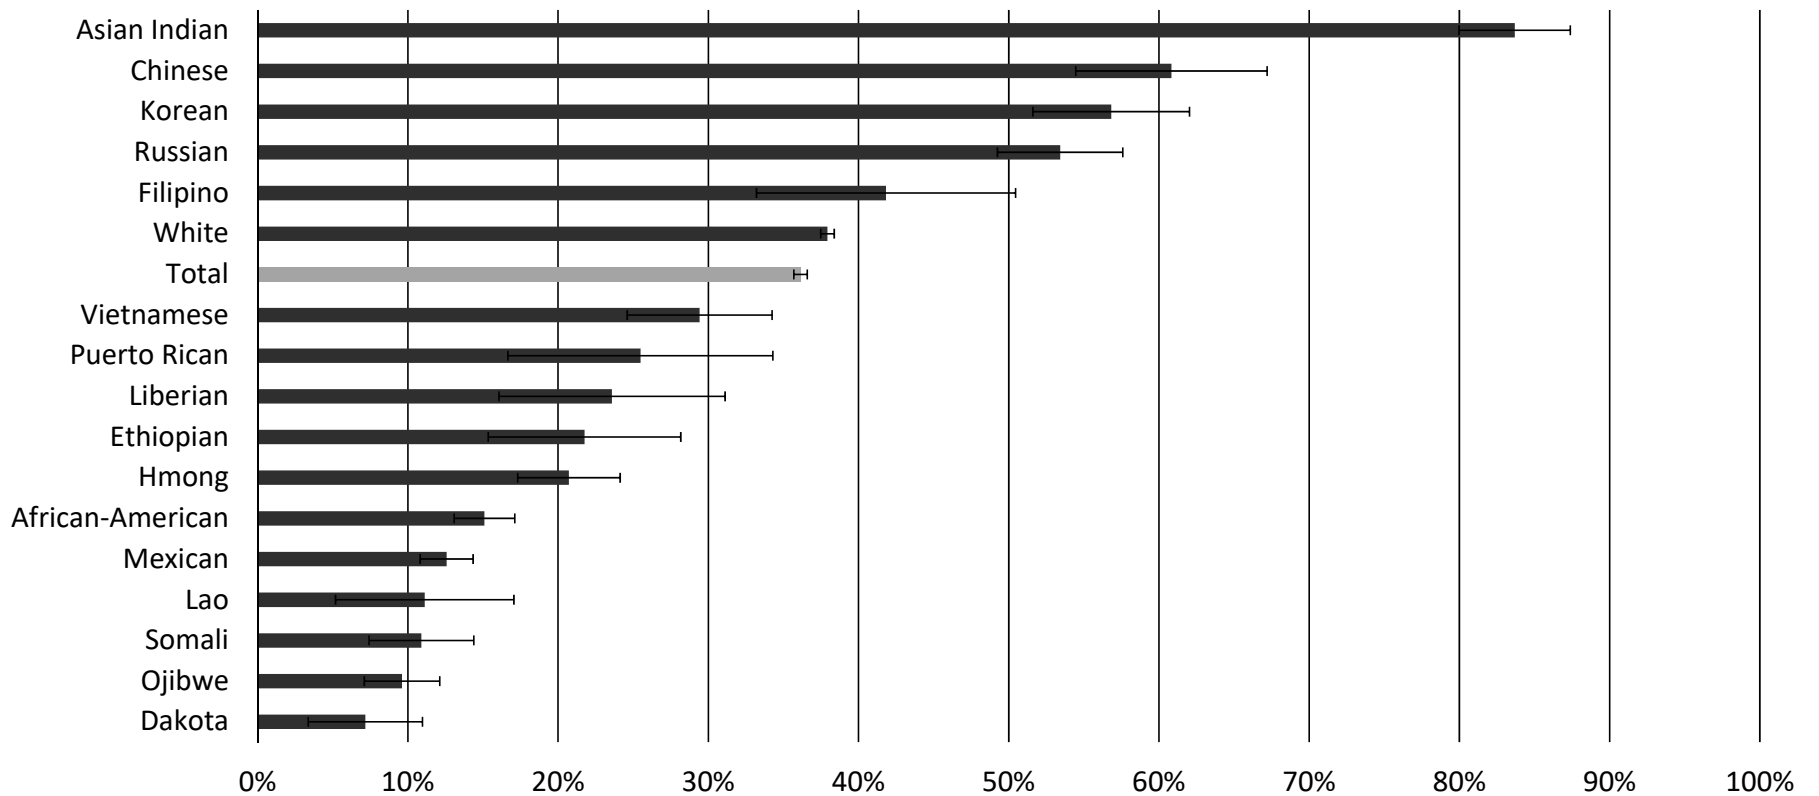

Large income gaps persist across cultural groups

Child Poverty by Cultural Group

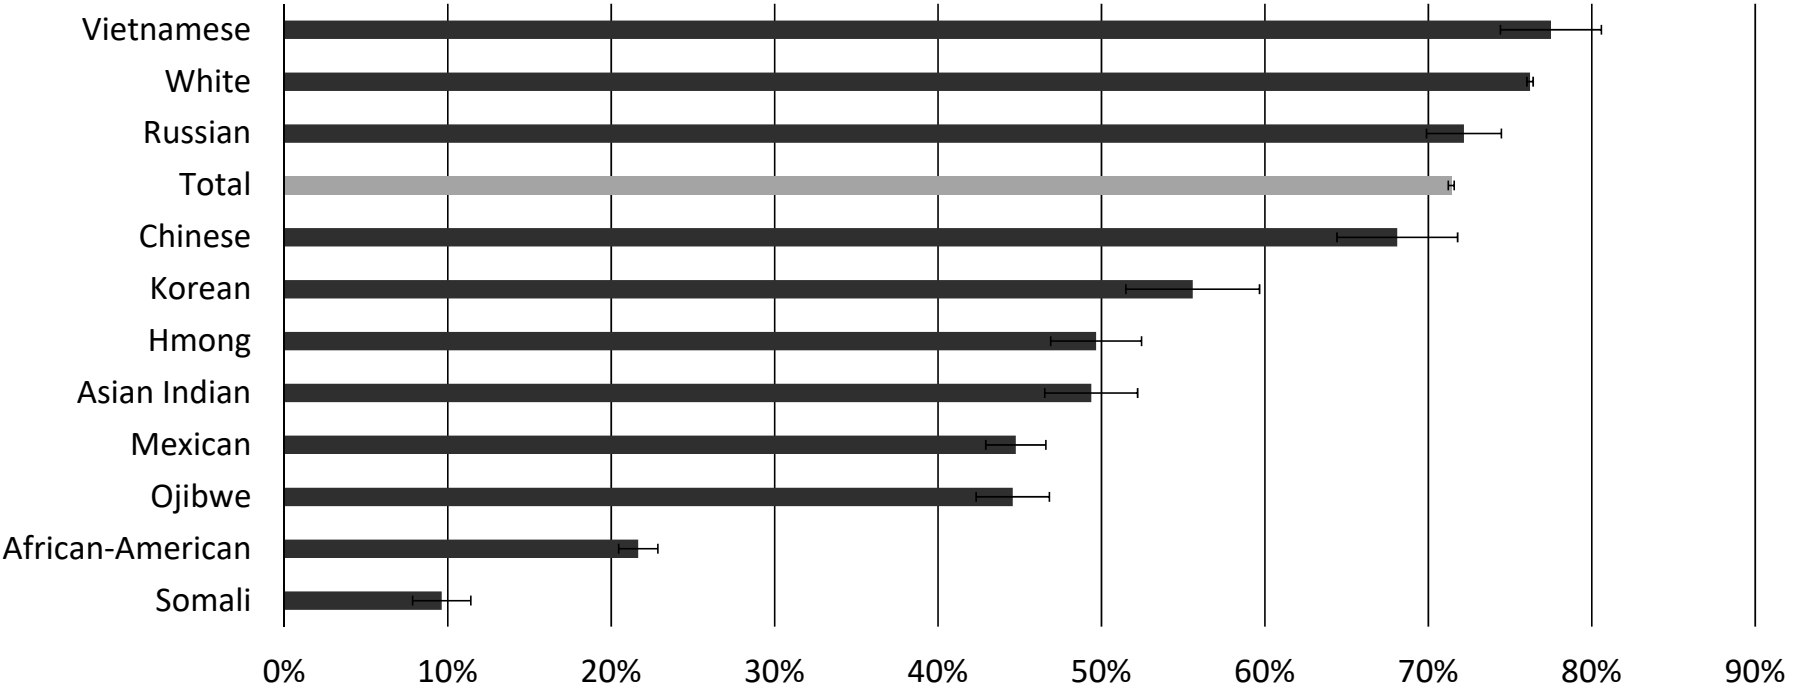

Large educational attainment gaps persist across cultural groups

Percent with a Bachelor's Degree or Higher (Ages 25-64)

Large homeownership gaps persist across cultural groups

Homeownership Rate

Take aways

- Many Minnesota families are finding it difficult to maintain economic security. Barriers are especially high for single-earner families. Time and money are scarce.
- Racial and ethnic gaps in academic achievement run deep and are situated in larger social and economic contexts.
- The well-being of all Minnesotans rests on our ability to allow children to succeed as they live today.
