1.19 **17.494 AQUACULTURE PERMITS; RULES.**

1.20 (a) The commissioner shall act as permit or license coordinator for aquatic farmers and
1.21 shall assist aquatic farmers to obtain licenses or permits.

1.22 By July 1, 1992, (b) A state agency issuing multiple permits or licenses for aquaculture
1.23 shall consolidate the permits or licenses required for every aquatic farm location. The
1.24 Department of Natural Resources transportation permits are exempt from this requirement.
1.25 State agencies shall adopt rules or issue commissioner's orders that establish permit and
1.26 license requirements, approval timelines, and compliance standards. Saltwater aquatic farms,
1.27 as defined in section 17.4982, and processing facilities for saltwater aquatic life, as defined
2.1 in section 17.4982, must be classified as agricultural operations for purposes of any
2.2 construction, discharge, or other permit issued by the Pollution Control Agency.

2.3 Nothing in this section modifies any state agency's regulatory authority over aquaculture
2.4 production.

2.5 Sec. 2. Minnesota Statutes 2018, section 17.4982, is amended by adding a subdivision to
2.6 read:

2.7 Subd. 20a. **Saltwater aquaculture.** "Saltwater aquaculture" means the commercial
2.8 propagation and rearing of saltwater aquatic life primarily for consumption as human food.

2.9 Sec. 3. Minnesota Statutes 2018, section 17.4982, is amended by adding a subdivision to
2.10 read:

2.11 Subd. 20b. **Saltwater aquatic farm.** "Saltwater aquatic farm" means a facility used for
2.12 saltwater aquaculture including but not limited to artificial ponds, vats, tanks, raceways,
2.13 and other facilities that an aquatic farmer owns or has exclusive control of for the sole
2.14 purpose of producing saltwater aquatic life.

2.15 Sec. 4. Minnesota Statutes 2018, section 17.4982, is amended by adding a subdivision to
2.16 read:

2.17 Subd. 20c. **Saltwater aquatic life.** "Saltwater aquatic life" means aquatic species that
2.18 are saltwater obligates or perform optimally when raised in salinities closer to that of natural
2.19 seawater and need saltwater to survive. Saltwater aquatic life includes but is not limited to
2.20 crustaceans.

2.21 Sec. 5. **[17.499] TRANSPORTATION OR IMPORTATION OF SALTWATER**
2.22 **AQUATIC LIFE; QUARANTINE REQUIREMENT.**

2.23 Subdivision 1. **Purpose.** The legislature finds that it is in the public interest to increase
2.24 private saltwater aquaculture production and processing in this state under the coordination
2.25 of the commissioner of agriculture. Additional private production will reduce dependence

- 2.26 on foreign suppliers and benefit the rural economy by creating new jobs and economic
2.27 activity.
- 2.28 Subd. 2. **Transportation permit.** (a) Notwithstanding the requirements in section
2.29 17.4985, saltwater aquatic life transportation and importation requirements are governed
2.30 by this section. A transportation permit is required before importation or intrastate
2.31 transportation of saltwater aquatic life not exempted under subdivision 3. A transportation
3.1 permit may be used for multiple shipments within the 30-day term of the permit if the source
3.2 and the destination are the same. Transportation permits must be obtained from the
3.3 commissioner before shipment of saltwater aquatic life.
- 3.4 (b) An application for a transportation permit must be made in the form required by the
3.5 commissioner. The commissioner may reject an incomplete application.
- 3.6 (c) An application for a transportation permit must be accompanied by satisfactory
3.7 evidence, as determined by the commissioner, that the shipment is free of any nonindigenous
3.8 species of animal other than the saltwater aquatic species and either:
- 3.9 (1) the facility from which the saltwater aquatic life originated has provided
3.10 documentation of 36 or more consecutive months of negative testing by an approved
3.11 laboratory as free of any disease listed by OIE - the World Organisation for Animal Health
3.12 for that species following the testing guidelines outlined in the OIE Aquatic Animal Health
3.13 Code for crustaceans or the AFS Fish Health Blue Book for other species, as appropriate;
3.14 or
- 3.15 (2) the saltwater aquatic life to be imported or transported includes documentation of
3.16 negative testing for that specific lot by an approved laboratory as free of any disease listed
3.17 by OIE - the World Organisation for Animal Health for crustaceans or in the AFS Fish
3.18 Health Blue Book for other species, as appropriate.
- 3.19 If a shipment authorized by the commissioner under clause (1) includes saltwater aquatic
3.20 life that originated in a foreign country, the shipment must be quarantined at the receiving
3.21 facility according to a quarantine plan approved by the commissioner. A shipment authorized
3.22 by the commissioner under clause (2) must be quarantined at the receiving facility according
3.23 to a quarantine plan approved by the commissioner.
- 3.24 (d) For purposes of this subdivision, "approved laboratory" means a laboratory approved
3.25 by the commissioner or the United States Department of Agriculture, Animal and Plant
3.26 Health Inspection Services.
- 3.27 (e) No later than 14 calendar days after a completed transportation permit application
3.28 is received, the commissioner shall approve or deny the transportation permit application.
- 3.29 (f) A copy of the transportation permit must accompany a shipment of saltwater aquatic
3.30 life while in transit and must be available for inspection by the commissioner.
- 3.31 (g) A vehicle used by a licensee for transporting aquatic life must be identified with the
3.32 license number and the licensee's name and town of residence as it appears on the license.

1.17 **18B.02 PREEMPTION OF LOCAL LAW; DELEGATION.**

1.18 (a) Except as specifically provided in this chapter, the provisions of this chapter preempt
1.19 ordinances by local governments that prohibit or regulate any matter relating to the
1.20 registration, labeling, distribution, sale, handling, use, application, or disposal of pesticides.
1.21 It is not the intent of this section to preempt local responsibilities for zoning, fire codes, or
1.22 hazardous waste disposal.

1.23 (b) The commissioner may enter into agreements with cities of the first class and delegate
1.24 the commissioner's duties under this chapter and rules adopted by the commissioner pursuant
1.25 to section 18B.06 regarding the use, application, or disposal of pesticides. A fee established
1.26 by a city of the first class to recover costs of enforcement must be established by ordinance

4.5 (h) An application to license a vehicle for brood stock or larvae transport or for use as
4.6 a saltwater aquatic life vendor that is received by the commissioner is a temporary license
4.7 until approved or denied by the commissioner.

4.8 Subd. 3. Exemptions. (a) A transportation permit is not required to transport or import
4.9 saltwater aquatic life:

4.10 (1) previously processed for use as food or other purposes unrelated to propagation;

4.11 (2) transported directly to an outlet for processing as food or for other food purposes if
4.12 accompanied by shipping documents;

4.13 (3) that is being exported if accompanied by shipping documents;

4.14 (4) that is being transported through the state if accompanied by shipping documents;

4.15 or

4.16 (5) transported intrastate within or between facilities licensed for saltwater aquaculture
4.17 by the commissioner if accompanied by shipping documents.

4.18 (b) Shipping documents required under paragraph (a) must include the place of origin,
4.19 owner or consignee, destination, number, species, and satisfactory evidence, as determined
4.20 by the commissioner, of the disease-free certification required under subdivision 2, paragraph
4.21 (c), clauses (1) and (2).

- 2.1 delegation agreement. An agreement entered into by the commissioner and a city of the
2.2 first class pursuant to this paragraph must:
- 2.3 (1) specify minimum staff requirements and qualifications and other reasonable standards
2.4 as determined by the commissioner;

21.18 read:

21.19 Subd. 16a. **Pastures.** "Pastures" means areas, including winter feeding areas as part of
21.20 a grazing area, where grass or other growing plants are used for grazing of livestock and
21.21 where the concentration of animals allows a vegetative cover to be maintained during the
21.22 growing season. "Pastures" also includes agricultural land that is used for growing crops
21.23 during the growing season and is used for grazing of livestock on vegetation or crop residues
21.24 during the winter. In either case, a cover of vegetation or crop residues is not required:

21.25 (1) in the immediate vicinity of supplemental feeding or watering devices;

- 21.26 (2) in associated corrals and chutes where livestock are gathered for the purpose of
21.27 sorting, veterinary services, loading and unloading trucks and trailers, and other necessary
21.28 activities related to good animal husbandry practices;
- 21.29 (3) in associated livestock access lanes used to convey livestock to and from areas of
21.30 the pasture; and
- 21.31 (4) in sacrificial areas that are part of a larger pasture system and are used to temporarily
21.32 accommodate livestock and protect other pasture areas when adverse soil or weather
22.1 conditions pose a risk of damaging the pastures, and on which the vegetation is naturally
22.2 restored or replanted after the adverse soil or weather conditions are removed and the
22.3 livestock are moved to other areas of the pasture.
- 22.4 Sec. 41. Minnesota Statutes 2018, section 116.07, subdivision 7, is amended to read:
- 22.5 Subd. 7. **Counties; processing applications for animal lot permits.** Any Minnesota
22.6 county board may, by resolution, with approval of the Pollution Control Agency, assume
22.7 responsibility for processing applications for permits required by the Pollution Control
22.8 Agency under this section for livestock feedlots, poultry lots or other animal lots. The
22.9 responsibility for permit application processing, if assumed by a county, may be delegated
22.10 by the county board to any appropriate county officer or employee.
- 22.11 (a) For the purposes of this subdivision, the term "processing" includes:
- 22.12 (1) the distribution to applicants of forms provided by the Pollution Control Agency;
- 22.13 (2) the receipt and examination of completed application forms, and the certification,
22.14 in writing, to the Pollution Control Agency either that the animal lot facility for which a
22.15 permit is sought by an applicant will comply with applicable rules and standards, or, if the
22.16 facility will not comply, the respects in which a variance would be required for the issuance
22.17 of a permit; and
- 22.18 (3) rendering to applicants, upon request, assistance necessary for the proper completion
22.19 of an application.
- 22.20 (b) For the purposes of this subdivision, the term "processing" may include, at the option
22.21 of the county board, issuing, denying, modifying, imposing conditions upon, or revoking
22.22 permits pursuant to the provisions of this section or rules promulgated pursuant to it, subject
22.23 to review, suspension, and reversal by the Pollution Control Agency. The Pollution Control
22.24 Agency shall, after written notification, have 15 days to review, suspend, modify, or reverse
22.25 the issuance of the permit. After this period, the action of the county board is final, subject
22.26 to appeal as provided in chapter 14. For permit applications filed after October 1, 2001,
22.27 section 15.99 applies to feedlot permits issued by the agency or a county pursuant to this
22.28 subdivision.
- 22.29 (c) For the purpose of administration of rules adopted under this subdivision, the
22.30 commissioner and the agency may provide exceptions for cases where the owner of a feedlot

- 22.31 has specific written plans to close the feedlot within five years. These exceptions include
22.32 waiving requirements for major capital improvements.
- 23.1 (d) For purposes of this subdivision, a discharge caused by an extraordinary natural
23.2 event such as a precipitation event of greater magnitude than the 25-year, 24-hour event,
23.3 tornado, or flood in excess of the 100-year flood is not a "direct discharge of pollutants."
- 23.4 (e) In adopting and enforcing rules under this subdivision, the commissioner shall
23.5 cooperate closely with other governmental agencies.
- 23.6 (f) The Pollution Control Agency shall work with the Minnesota Extension Service, the
23.7 Department of Agriculture, the Board of Water and Soil Resources, producer groups, local
23.8 units of government, as well as with appropriate federal agencies such as the Natural
23.9 Resources Conservation Service and the Farm Service Agency, to notify and educate
23.10 producers of rules under this subdivision at the time the rules are being developed and
23.11 adopted and at least every two years thereafter.
- 23.12 (g) The Pollution Control Agency shall adopt rules governing the issuance and denial
23.13 of permits for livestock feedlots, poultry lots or other animal lots pursuant to this section.
23.14 Pastures are exempt from the rules authorized under this paragraph, and no feedlot permit
23.15 shall include any terms or conditions that impose any requirements related to any pastures
23.16 located on, adjacent to, or in the vicinity of the feedlot. A feedlot permit is not required for
23.17 livestock feedlots with more than ten but less than 50 animal units; provided they are not
23.18 in shoreland areas. A livestock feedlot permit does not become required solely because of
23.19 a change in the ownership of the buildings, grounds, or feedlot. These rules apply both to
23.20 permits issued by counties and to permits issued by the Pollution Control Agency directly.
- 23.21 (h) The Pollution Control Agency shall exercise supervising authority with respect to
23.22 the processing of animal lot permit applications by a county.
- 23.23 (i) Any new rules or amendments to existing rules proposed under the authority granted
23.24 in this subdivision, or to implement new fees on animal feedlots, must be submitted to the
23.25 members of legislative policy and finance committees with jurisdiction over agriculture and
23.26 the environment prior to final adoption. The rules must not become effective until 90 days
23.27 after the proposed rules are submitted to the members.
- 23.28 (j) Until new rules are adopted that provide for plans for manure storage structures, any
23.29 plans for a liquid manure storage structure must be prepared or approved by a registered
23.30 professional engineer or a United States Department of Agriculture, Natural Resources
23.31 Conservation Service employee.
- 23.32 (k) A county may adopt by ordinance standards for animal feedlots that are more stringent
23.33 than standards in Pollution Control Agency rules.
- 24.1 (l) After January 1, 2001, a county that has not accepted delegation of the feedlot permit
24.2 program must hold a public meeting prior to the agency issuing a feedlot permit for a feedlot

- 24.3 facility with 300 or more animal units, unless another public meeting has been held with
24.4 regard to the feedlot facility to be permitted.
- 24.5 (m) After the proposed rules published in the State Register, volume 24, number 25, are
24.6 finally adopted, the agency may not impose additional conditions as a part of a feedlot
24.7 permit, unless specifically required by law or agreed to by the feedlot operator.
- 24.8 (n) For the purposes of feedlot permitting, a discharge from land-applied manure or a
24.9 manure stockpile that is managed according to agency rule must not be subject to a fine for
24.10 a discharge violation.
- 24.11 (o) For the purposes of feedlot permitting, manure that is land applied, or a manure
24.12 stockpile that is managed according to agency rule, must not be considered a discharge into
24.13 waters of the state, unless the discharge is to waters of the state, as defined in section
24.14 103G.005, subdivision 17, except type 1 or type 2 wetlands, as defined in section 103G.005,
24.15 subdivision 17b, and does not meet discharge standards established for feedlots under agency
24.16 rule.
- 24.17 (p) The natural deposit of manure by livestock on pasture shall not be considered a
24.18 discharge into waters of the state and shall not be subject to any fine or penalty.
- 24.19 (q) Unless the upgrade is needed to correct an immediate public health threat under
24.20 section 145A.04, subdivision 8, or the facility is determined to be a concentrated animal
24.21 feeding operation under Code of Federal Regulations, title 40, section 122.23, in effect on
24.22 April 15, 2003, the agency may not require a feedlot operator:
- 24.23 (1) to spend more than \$3,000 to upgrade an existing feedlot with less than 300 animal
24.24 units unless cost-share money is available to the feedlot operator for 75 percent of the cost
24.25 of the upgrade; or
- 24.26 (2) to spend more than \$10,000 to upgrade an existing feedlot with between 300 and
24.27 500 animal units, unless cost-share money is available to the feedlot operator for 75 percent
24.28 of the cost of the upgrade or \$50,000, whichever is less.
- 24.29 (q) For the purposes of this section, "pastures" means areas, including winter feeding
24.30 areas as part of a grazing area, where grass or other growing plants are used for grazing and
24.31 where the concentration of animals allows a vegetative cover to be maintained during the
24.32 growing season except that vegetative cover is not required:
- 24.33 (1) in the immediate vicinity of supplemental feeding or watering devices;
- 25.1 (2) in associated corrals and chutes where livestock are gathered for the purpose of
25.2 sorting, veterinary services, loading and unloading trucks and trailers, and other necessary
25.3 activities related to good animal husbandry practices; and
- 25.4 (3) in associated livestock access lanes used to convey livestock to and from areas of
25.5 the pasture.

23.20 Sec. 37. Minnesota Statutes 2018, section 116.0714, is amended to read:

23.21 **116.0714 NEW OPEN-AIR SWINE BASINS.**

23.22 (a) The commissioner of the Pollution Control Agency or a county board shall not
23.23 approve any permits for the construction of new open-air swine basins, except that existing
23.24 facilities may use one basin of less than 1,000,000 gallons as part of a permitted waste
23.25 treatment program for resolving pollution problems or to allow conversion of an existing
23.26 basin of less than 1,000,000 gallons to a different animal type, provided all standards are
23.27 met. This section expires June 30, 2022.

23.28 (b) This section does not apply to basins used solely for wastewater from truck-washing
23.29 facilities.

25.6 (r) A feedlot operator who stores and applies up to 100,000 gallons per calendar year of
25.7 private truck wash wastewater resulting from trucks that transport animals or supplies to
25.8 and from the feedlot does not require a permit to land-apply industrial by-products if the
25.9 feedlot operator stores and applies the wastewater in accordance with Pollution Control
25.10 Agency requirements for land applications of industrial by-product that do not require a
25.11 permit.

25.12 (s) A feedlot operator who holds a permit from the Pollution Control Agency to
25.13 land-apply industrial by-products from a private truck wash is not required to have a certified
25.14 land applicator apply the private truck wash wastewater if the wastewater is applied by the
25.15 feedlot operator to cropland owned or leased by the feedlot operator or by a commercial
25.16 animal waste technician licensed by the commissioner of agriculture under chapter 18C.
25.17 For purposes of this paragraph and paragraph (r), "private truck wash" means a truck washing
25.18 facility owned or leased, operated, and used only by a feedlot operator to wash trucks owned
25.19 or leased by the feedlot operator and used to transport animals or supplies to and from the
25.20 feedlot.

25.21 Sec. 42. Minnesota Statutes 2018, section 116.07, subdivision 7d, is amended to read:

25.22 Subd. 7d. **Exemption.** (a) Notwithstanding subdivision 7 or Minnesota Rules, chapter
25.23 7020, to the contrary, and notwithstanding the proximity to public or private waters, an
25.24 owner or resident of agricultural land on which livestock have been allowed to pasture at
25.25 any time during the ten-year period beginning January 1, 2010, is permanently exempt from
25.26 requirements related to feedlot or manure management on that land for so long as the property
25.27 remains in pasture.

25.28 (b) For the purposes of this subdivision, "pasture" means areas where livestock graze
