Proposal

This proposal makes technical changes to the 2013 HHS Finance Bill. The two provisions:

- Appropriate funds from the State Government Special Revenue fund for the Infectious Disease Lab in FY 2014 based on fee revenue collected in FY 2014. The appropriation section of the Finance bill inadvertently ended the appropriation for the IDL on June 30, 2013. The actual legislation requires both the appropriation and the fee to sunset on June 30, 2014.
- Removes reference to funds that are not actually appropriated in the bill.
