

H.F. 4253

As amended by H4253DE1

Subject Boat Storage Structures**Authors** Bliss**Analyst** Janelle Taylor**Date** March 23, 2026**Summary**

As amended, this bill would exempt structures with a rigid, nonfabric canopy verifiably constructed prior to 2026 that do not meet the definition of a boat storage structure, boathouse, or temporary structure from Department of Natural Resources (DNR) public-waters-work permit requirements. States that the exemption does not apply to structures that are constructed, replaced, or rebuilt after 2025.
