RE: Aliveness Project 2011 Outcome Data

In 2011, the Aliveness Project:

√ Served 1,602 unduplicated clients;

√ Served 32,337 meals on site;

√ Distributed 100,054 pounds of nonperishable food and hygiene items;

√ Provided 33,600 volunteer hours provided by 1,400 volunteers, the equivalent of 16 FTEs;

√ Provided 2,059 case management visits to assist with employment, housing, medical care, and education concerns;

√ Delivered 3,060 integrative therapy sessions—acupuncture, massage, and other wellness treatments; and

√ 1,500,000 + meals provided by the Aliveness Project Meal Program and food shelf since 1985.

√ 52% of individuals served were Caucasian; 30% African American; 5% African-born; 1% Asian; 6% Latino; 4% Native American; 3% other.

√ 72% of individuals served were within FPL and an additional 25% within 300%

√ 42% with known risk factors identified as heterosexuals.

√ **90% of members surveyed indicated that the services of the Aliveness Project assist them to live independently, avoiding a more costly out-of-home placement.**

√ **76% of members surveyed indicated that “these services make it possible for me to work”, and**

√ **80% of members surveyed indicated that “these services help me keep working at my current job.”**

√ 90% of members surveyed indicated that the “food services help me stretch my financial resources.”

I am Hazel, and I'm positive.
I love coming to The Aliveness Project. I can always come here and find people to visit with, talk to and be here for me. I love being a volunteer. They've given me so much.

I just want to give back ■

I am Tim, and I'm positive.
I was 18 when I was diagnosed, and it was the end of my life as I knew it. I felt like a leper, and that was pretty awful. At The Aliveness Project everyone is so positive that it helped me to say, OK, HIV is something I have to deal with, and I want what's best for myself.
