Effective following local approval.

EXPLANATION OF THE BILL

Under current law, pooling rules require that a certain percentage of tax increments must be spent on activities within each tax increment financing (TIF) district. TIF districts may increase, by up to ten percent, the permitted amount of expenditures for activities outside the district if the increase is used for specific purposes, such as low-income housing projects.

The proposal would require that increment from any district for which the economic development authority of St. Louis Park has elected to increase permitted expenditures be used to assist housing development. Increment would be transferred from the tax increment accounts to the St. Louis Park Affordable Housing Trust Fund and would not be subject to annual reporting requirements.

REVENUE ANALYSIS DETAIL

- The proposed exceptions to special TIF provisions would have no impact the local tax base or tax rates.
- The proposal would have no impact on the state general fund.
