Re: Proposed Assisted Suicide Bills (HF1930 and SF1813)

Please vote against the proposed Assisted Suicide Bills (HF1930 and SF1813).

I am opposed to this legislation since it is anti - life. If MN passes this legislation, soon there will be pressure and manipulation to end a person's life before natural death. This would make MN a state with a culture of death. I can envision government, doctors, pharmacies, insurance companies, and family members becoming complicit in pushing people to end their lives before natural death.

I urge you to vote against the proposed Assisted Suicide Bills (HF1930 and SF1813).

Thank you.
