Dear Chairs and Members:

We write to express our support for HF 4282 as revised. HF4282 provides guidance on implementation of the Larry R. Hill Medical Reform Act, which became law in 2025.

Passage of the Larry R. Hill Medical Reform Act was necessary because some jails have not provided essential medication to people who entered their facilities and people have suffered and died as a result. Unfortunately, this issue persists due to confusion on how to implement the act. We are hopeful that HF 4282 as amended will add clarity to ensure the Larry R. Hill Medical Reform Act is fully implemented across the state.

When HF 4282 was initially presented, the language was drastic and would have undermined the impact of the Act. Since then, stakeholders met and revised the language to clarify implementation while ensuring the intent and effect of the Act remains intact. It is with these agreed-upon changes that we urge passage of HF 4282 as amended.

Thank you for your consideration.

Sincerely,

*s/Michelle Gross*

Michelle Gross, Chair
