Percent Change in the Cities and Townships of District 3

A Closer Look at the Change in District 3

Population Percent Change
2010 to 2020

Population Change in Congressional District 3

	2010	2020	Percent Difference
White	536,624	534,419	-0.4%
Black or African American	42,983	64,049	49.0%
Native American	1,961	2,186	11.5%
Asian	41,109	63,358	54.1%
Native Hawaiian and Other Pacific Islander	185	166	-10.3%
Some Other Race	974	3,025	210.6%
Multiple Races	13,893	31,884	129.5%
Hispanic or Latino	25,261	38,811	53.6%
Total	662,990	737,898	11.3%

Changes in Data Collection

- Changes to the race and ethnicity questions on the 2020 Census allowed for more opportunity to write in racial and ethnic groups.
- This has painted a better picture of how individuals view themselves, which in turn has shown that we are a more multiracial society than previous data has been able to show.
- While not solely responsible for the changes, it has corresponded with an increase in the “Some other race” and Multiple race categories.

Other Data Considerations

- The 2020 Census was conducted during a world-wide pandemic, which required the Census Bureau to make several adjustments to the operational plan.
- There was unprecedented uncertainty regarding aspects of the Census—even before the pandemic—that caused concern regarding individuals' willingness to respond to the Census.
- This is the first census to implement Differential Privacy (DP) as the Disclosure Avoidance System (DAS) to protect respondents' confidentiality.

Thank you again!
