

GIVING AWAY the Control of Minnesota's Votes to NON-Minnesotans

National Popular Vote Sales Pitch: "Use Minnesota's State sovereignty to GIVE AWAY some of Minnesota's State sovereignty! You're allowed to do that, so do that!"

What does "The NPV 'preserves' the Electoral College" actually mean? It means that they CAN'T get rid of the EC, and that **these will always be MINNESOTA's Votes!**

ONLY IF Minnesota joins the NPV contract scheme will Minnesota voters exert just 2.1% of the decision of WHO Minnesota Votes for! The other 49 States – even the ones who refuse to join this terrible NPV contract – will make 97.9% of MINNESOTA's choice! **There are 15 States, like Florida and Texas, who will EACH have a stronger voice in who MINNESOTA Votes for than Minnesotans will have!**

The NPV is **NOT** a national law, despite what you have been left to believe. It is a simple CONTRACT of Collusion among 20 or 21 States. That means under the NPV scheme, all 49 OTHER States control who MINNESOTA Votes for, while Minnesota voters are given NO SAY WHATSOEVER in the

decision of who the 27 to 29 NON-Compact States Vote for! **PLEASE STOP the National Popular Vote in Minnesota.**

When YOUR Legislature signs YOUR State up for the NPV Scheme - - here is who will decide who Your State's Electors are.

When YOUR State Joins the National Popular Vote scheme, here is who your Legislature has turned the CONTROL of YOUR State's Electoral Votes to, and HOW MUCH Control they have of YOUR State's Votes
Your individual vote will count as 1 among 158,399,926 other popular votes.

Based on actual results of 2022 Presidential Elections held in 50 States, plus DC.
