Safe Work Zone Supporters 2021 Supporting HF2295 Bernardy/SF2200

A wide variety of transportation industry members and public safety advocates have come together in support of HF2295 (Bernardy) and SF2200 (Howe), establishing a MnDOT/DPS workgroup to work consider speed enforcement measures in construction work zones.

Any recommendations requiring statutory changes, including automated enforcement, shall be presented to legislators in a report due February 1, 2022 after analysis of legal and financial issues.
